

Accessible Selwyn

Te Arataki Taero Kore

Selwyn District Council supports the vision and purpose of the Accessibility Charter. We are also implementing our own commitments and actions that align with this purpose and vision.

1. Leadership – Hautūtanga

Selwyn District Council leaders will demonstrate a pro-active commitment to best practice accessibility when setting policy and practice expectations, budgets and accountability provisions.

2. Education – Mātauranga

Selwyn District Council will ensure staff are equipped with the skills and knowledge they need to apply best-practice accessibility throughout the design and development process. We will also provide information and training to help staff understand the benefits of accessible design and the consequences and barriers created by poor design.

3. Technical Expertise – Tohungatanga

Selwyn District Council will seek the technical advice and guidance of professional and independent universal-design experts, appropriate to the scale and type of projects we undertake.

4. Health and Wellbeing – Te Oranga o te Tangata

Selwyn District Council will actively promote the link between the creation of accessible places and spaces, and the health and wellbeing of our people.
