## New Darfield well commissioned

Work on a new high quality deep well started on State Highway 73 last Wednesday and is expected to be fully operational by **Thursday 24 November**.

Once fully operational the existing three shallow wells in the Waimakariri River bed will be stopped. They will be retained as a back-up until the second well (now being drilled) is completed and connected to the reticulation.

Council Asset Manager Utilities Hugh Blake-Manson says Darfield residents will notice a gradual drop in the concentration of chlorine until it is entirely removed.

"Should a fault develop with the new well/pump setup before we commission the second Darfield deep well, chlorination will automatically reoccur to ensure the water is safe to drink," Mr Blake-Manson says.

## SELWYN District Plan Plan Change 17

### Sustainable management of rural residential activities

#### Call for further submissions

A submission from Tai Tapu Trust was lodged on the above plan change some time after the notified closing date for receiving submissions. The submitter was not served notice of PC17 as an interested party due to an incorrect address for service being registered with the Council. As a result, this submission was not summarised with the others that were received on the plan change, nor was it available for further submissions. The Council now invites further submissions on this submission, to ensure that the relief sought within it is able to be considered at the hearing if the Independent Commissioner decides the submission can be considered. A summary of this and other submissions is available for viewing on the Council's website and at Council service centres.

Further submissions may only be lodged by the following:

- Any person representing a relevant aspect of the public interest; and
- Any person that has an interest in the plan change greater than the interest that the general public has; and
- The local authority itself.

Further submissions must be limited to matters either in support of or in opposition to this submission. They must be in writing and in accordance with Form 6, which is available from any Council Service Centre or on our website, and must be served on Selwyn District Council in one of the following ways:

#### Posted to:

Planning Department, Selwyn District Council, PO Box 90, Rolleston 7643

#### Delivered to:
