## Road Mums' back!

### Dear Road Mum

I have not got any lights on my bike and my friend told me I should not ride after dark or on wet days because cars can't see me. How can I make myself safer on my bike?

Noah Light from Lincoln

Dear Noah Light

Your friend is right. You should not ride your bike at night or on wet days without a light! Drivers need to be able to see you from 100 metres away.

Front lights, reflectors on the back of your bike and on the pedals all help you to be seen by drivers. Wearing hi-viz or bright clothing also helps.

I think you should enter my winter competition and go into the draw for one of ten sets of cycle lights. The entry forms are at the Selwyn Libraries and Service Centres, but be quick because the competition closes on 8th June.

Be bright on your bike

Road Mum
