CERA Wellbeing Survey

How do you think people in greater Christchurch feel about day-to-day life and the progress of the recovery? Are stress levels and happiness improving?

The CERA Wellbeing Survey will try to improve our understanding of what's really going on around us. Using the Electoral Roll, Nielsen has randomly surveyed 2,500 greater Christchurch residents aged 18 years and over.

Taking part

If you were not one of the 2,500 people participating in the first part of the Survey you can still have your say. We would like you to tell your community, friends and whanau about it too. Just visit www.cera.govt.nz

Questions will cover issues like stress, quality of life, social connectedness, satisfaction with the recovery and positive impacts people are experiencing. The survey was developed in partnership with Christchurch City Council, Waimakariri District Council, Selwyn District Council, the Canterbury District Health Board, Ngai Tahu and the Natural Hazards Research Platform.

Results will be published on the CERA website in early 2013.
