Boil water notice update

Boil water notices in place for the Rolleston and Sheffield/Waddington water supplies have now been lifted.

A precautionary boil water notice for the Rolleston water supply was issued on Sunday, 12 May, when a test result was returned indicating that E.coli was present, at levels above the recommended level, in one bore which feeds into the town supply.

Several days of water test results have now been received which indicate that no trace of E.coli is present in the water and the water is safe to drink. The Council's Water Asset Manager, Murray England, says there are a number of reasons why water testing could have returned a positive test on 12 May, and they could include a lab error, a sampling error, contamination of ground water, or backflow contamination. The Council will be carrying out an investigation to look at why the positive test result was returned.

"When the Council received the positive test result we decided to issue a boil water notice to avoid the risk of anyone becoming sick," he says. "We want to thank Rolleston residents for their help in alerting the community to the boil water notice when it was issued. We also appreciate the patience residents have shown while the notice has been in place."

The boil water notice for the Sheffield/Waddington water supply has now been lifted.

Cemetery Hours During Winter

As daylight saving is no longer upon us, the Council needs to think about the health and safety of everyone using our cemeteries during the darker winter hours.

We would like to make the latest time to book a burial (excluding ashes) at 3.30pm. Normal hours will resume when daylight saving begins at the end of September.

Tender for licence to occupy

Tenders are sought for a licence to occupy the following Council land for the purpose of grazing activities only.

The area comprises around 9.10 ha and is Council owned land located between Goulds and Dynes Roads in Rolleston.

Further information and tender submission documents can be obtained from Tanya Maylam on (03) 347 2954 or at tanya.maylam@selwyn.govt.nz, PO Box 90, Rolleston.

The closing date for tenders is 12 noon on Monday, 27 May 2013.

CEMETERY REPAIRS

Slowly but surely Selwyn District's 19 cemeteries are being returned to their pre-earthquake condition.

Greendale, one of the worst affected, was the first to have its damaged headstones and memorials repaired.

Early this year repairs began in Springston where 170 headstones needed repair.

The work there has almost been completed and headstone repair work will resume in the spring at Dunsandel once the ground has dried out.

Amy Georgina Lill's headstone in the Dunsandel Cemetery awaits restoration, due to be carried out later this year.

Darfield Intersection Upgrade

The realignment of Telegraph Road with Bray Street in Darfield has started. Motorists should take extreme care when proceeding through this intersection while this work is being completed. When the realignment has finished the priority at the intersection will change giving right of way to traffic on Bray Street/Telegraph Road. Cardale Street will be controlled by a compulsory stop sign.

A concept plan can be viewed on the Council's website www.selwyn.govt.nz/roadingprojects.

If you have questions about this project please contact Stef McNeil on 03 347 2800 or phone 03 318 8338.
