## Consultation closes soon on Selwyn 2031

Consultation closes on 6 June on Selwyn 2031 – Draft District Development Strategy.

The strategy looks at a range of issues across the district including where new commercial and residential land is needed, and what facilities, infrastructure and services are needed to ensure the district remains prosperous and people are able to continue to enjoy a high quality of life.

The Selwyn 2031 – Draft District Development Strategy, a summary document and submission forms can be viewed online at [www.selwyn.govt.nz/haveyoursay](http://www.selwyn.govt.nz/haveyoursay). Copies are also available from Council libraries and service centres.

## Resident's survey

The Council is now running its 2014 Resident's Survey.

Every year the Council runs a resident's survey which seeks feedback on what residents think of Council services like parks and roads and the Council's future plans for the district.

This year's survey also includes questions on the Council's Smoke Free Policy as well as people's thoughts on pokie machine gambling.

The survey seeks responses from around 1,000 randomly chosen residents by telephone. This year those asked to take part will also be given an option to complete the survey online.

The Council is also making the survey available to anyone else who would like to take part. You can complete the survey by going to [www.selwyn.govt.nz/haveyoursay](http://www.selwyn.govt.nz/haveyoursay). The online survey closes Sunday 15 June.

## Safe Burning

Firefighters have been called to a few fires in the Selwyn District recently where people have been burning after the hours of darkness or no one has been looking after the fire, or the fire has been lit in high winds.

Although we are in an open fire season on the plains, people are still required to comply with the council's burning guidelines, and could potentially be liable for costs if a fire escapes or needs to be extinguished.

It's critically important the fires are not lit in high winds, or when strong winds are forecast. Burning must only occur in daylight hours and the fire must be attended to at all times until completely out. The council's safe burning guidelines are:

- The piles to be burnt must be surrounded by a fire break of either a green strip or non-combustible material (bare earth, stones etc).
- The fire break should be a minimum of 3 metres wide or larger, depending on the size of the pile being burnt. Err on the side of caution.
- The piles to be burnt should be a minimum of 10 metres away from other trees and buildings
- Burning must only occur in daylight hours
- The piles being burnt must be attended to by someone at all times until completely out. Make sure all fires are out with no chance of re-ignition.
- Fires must not be lit when strong winds are blowing or forecast. Winds above 20 kilometres an hour are considered strong winds.
- Fires must not be lit or allowed to burn when smoke is likely to cause nuisance to neighbours. It is best to advise immediate neighbours that you are going to burn.
- Be careful that smoke does not drift across roads as you may be held liable for any crashes that result.
- Have some form of firefighting equipment on hand such as a water source or beaters. If a fire escapes immediately dial 111.

These guidelines apply only to burning in rural areas. Fires in urban areas are governed by Environment Canterbury rules.

For more information please contact the Selwyn District Council on 347 2800 or 318 8338 or see [www.selwyn.govt.nz/fire](http://www.selwyn.govt.nz/fire).

## Report a Pothole

When you see a pothole on either an unsealed or sealed road around our district, please phone Council's helpline on 347 2800, or free from Darfield on 318 8338 and tell us!

You can also request that it be repaired online under 'Report It' on the 'Do it Online' link on our website [www.selwyn.govt.nz](http://www.selwyn.govt.nz).

We will then record it in our database as a Service Request so the repairs can be carried out.
