On the roads this week

Road resurfacing will take place on Dalethorpe, Downs, Hoskyns and Hudsons Roads, Ayers, Woodward and Fuller Streets. Stop/ go traffic controls will operate at all sites. Road repairs will take place on Minchins and Coleridge Roads with traffic controls operating.

A sewer line is being installed on sections of Hamptons, Shands and Selwyn Road to the intersection of Springston Rolleston Road. There may be a reduction down to one lane on these roads.

Work to complete road repairs from a burst water main is planned at the Tennyson, Byron and Kidman Street roundabout from Tuesday 18 – Friday 21 April approximately. Detours will be in place.

Christchurch Southern Motorway extension

From Monday 17 April the sections of Weedons Ross Road between State Highway One and Jones Road, and Weedons Road between State Highway One and Levi Road will be closed both ways to traffic. A closure is also be in place on Weedons Road from Main South Road through to Levi Road. The closures are to allow cables to be laid as part of the Christchurch Southern Motorway extension project. Detours will be clearly sign-posted. Both closures will be in place up to 5 May.

Reduced speed limits continue to be in place along State Highway One north of Rolleston where four laning work continues.

Stormwater funding change

One of the issues we are consulting on in our Annual Plan is whether we should introduce a district-wide rate for stormwater to replace existing township stormwater rates. The rate would apply for properties which pay a stormwater rate currently in areas where the Council manages stormwater. Currently stormwater charges vary by township based on the cost of providing a local service. In 2015, we changed from local township rates for water and wastewater to standard charges per property.

The proposed standard district-wide stormwater rate is \$85. A national benchmarking exercise was recently undertaken comparing the \$85 charge for Selwyn against a dozen similar sized New Zealand councils, with the \$85 charge coming out as one of the lowest for stormwater. The rate for townships if local stormwater rates are retained are shown below.

Want to share your views on this issue? See the Annual Plan information below on how to make a submission.

Township	Stormwater Rate 2017/18 (\$)	Township	Stormwater Rate 2017/18 (\$)
Arthur’s Pass	100	Lincoln	160
Castle Hill	100	Prebbleton	75
Darfield	45	Rakaia Huts	40
Doyleston	55	Rolleston	40
Dunsandel	45	Southbridge	60
Edendale	25	Springfield	25
Glentunnel	50	Springston	50
Hororata	200	Tai Tapu	150
Kirwee	35	Templeton	50
Lake Coleridge	220	West Melton	100
Leeston	278	Whitecliffs	45

A new health hub?

Another issue we are consulting on in our Annual Plan is whether the Council should create a new health hub in Rolleston.

Research undertaken in 2014 and 2016 showed that although Selwyn residents generally had good access to health care, there were some gaps in services with people having to travel to Christchurch for appointments with some health providers or other service agencies. As our population grows, the need for local services also increases. The proposed Health Hub would help to meet these needs, by providing a place where health and social service providers could operate from.

Under this proposal the Council would build a facility on Council owned land in Rolleston which could be leased to health professionals, not-for-profit groups, social service agencies and as commercial office space. The facility would be independently managed. The project would be an investment by the Council and would be expected to provide a return within around three years.

Reduce fire risk on your property with good design

The Council recently invited property owners in the Port Hills to a meeting looking at reduce the risk of fires affecting this area. In dry conditions rural, lifestyle and hill property owners across the district can all be affected by fire. There are a range of strategies you can look at to reduce fire risk on your property and home including your choice of plants and landscaping, maintenance of lawns, gardens and paddocks and ensuring emergency services can access your property. One of the main ways you can reduce the fire risk to your home is to create a safety zone around your home by removing flammable material like woodstacks, long grass, tree branches and rubbish.

The autumn/ winter time is a good time to consider making changes around your home in preparation for next summer. For advice on reducing fire risk please visit www.selwyn.govt.nz.
