

Media release

Update, Monday, 3 September

## **Part of Hoskyns Road to close for six months**

Hoskyns Road will be closed between Jones Road and Maddisons Road from 27 August to 12 April next year for contractors to lay a sewer main down the middle of the road.

Selwyn District Council Asset Engineer Transportation Mark Chamberlain says the work is necessary to progress the development of Izone and closing the road is considered the safest option.

During the closure the contractors (Sicon/BG Contracting) will maintain access to residents and businesses along Hoskyns Road and the road will be open over the Christmas break.

Signs are being installed at each end of the closure to warn motorists.

Motorists will be directed along Maddisons Road, Weedons Ross Road and Jones Road during the closure.

Those travelling from Darfield to Rolleston can use the Aylesbury Road - Wards Road route which adds 1km to the journey.

Any queries or concerns should be directed to Asset Engineer Transportation Mark Chamberlain, 347 2858.
