

Media Release
4 December 2012

DEMOLITION OF DUNSANDEL HALL

The demolition of the Dunsandel Hall will commence Monday 10th December.

Due to the uneconomic nature of the current hall repairs and based upon information received and community feedback the Council has authorised the demolition of the hall.

A working party consisting of local community representatives, Council elected members and staff was established in 2011 to consider the options for a new community facility in Dunsandel. A conceptual design for the new facility was included in the Selwyn District Council Long Term Plan. It is proposed that in the very near future a conceptual design will be presented to the community and further updates on the progress of this project will follow in due course.

Ends
