PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

I think there is too much emphasis on sports fields and a recreation area is more important as Rolleston already has sports fields but no recreation/park type area. I also think the dog park needs to be either extended or a second one created. There are many families with dogs in Rolleston and the park is chaotic at certain times (i.e. afternoons and weekends) There are far too many dogs there for that space at those times. Ideally there should be another smaller park for puppies/small dogs. At the moment there are 50kg dogs socialising with 1-2kg dogs and that is just asking for trouble (and several accidents have occurred around the country with large dogs killing/badly injuring small ones simply because of the size difference). Another dog park for small/old dogs wouldn't take up much more room and would be more sensible and safe.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

A second dog park for small/old dogs as discussed in the previous question.

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

Indoor Sports Centre

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

You've got plenty of playing fields now. Use it for something else. There are no mountain bike tracks around here that I know of. New s flash here people, mountain bikers are usally people that have money that they could spend in Rolleston if there were suitable tracks here to attract them. Just saying.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

A large gym is gold people. The gyms out here are crap, cold and expensive. They are a money spinner if you do them correctly. Go through a snap fitness gym and think bigger scale. Gold!

Respondent skipped this question

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

I would like to see the "plan" go a little further on Tennyson St.

Rolleston is one of the only true rail junction towns.

I feel the "Junction" is perhaps overlooked as a potential tourist interest.

As a schoolboy in Rolleston I loved the overhead bridge that allowed people to watch trains while the bridge also had the basic function of allowing safe access to the station.

In a "BIG" picture scenario I believe an overhead bridge, perhaps a continuation of Tennyson St, that crossed both the Main South Road and the rail tracks would be an ideal feature for Rolleston.

In England for example the Main Motorway (M1) has a massive 'service area' that crosses the motorway, these include dining, restrooms etc.

A similar, less grand plan would link the "I Zone" area with the township via an enclosed (perhaps!) walkway with transparent walls. This would allow train enthusiasts, photographers and the public at large to enjoy the everyday bustle of this unique location.

Steam trains, while not an everyday occurrence, draw interest from far and wide, young and old and the idea of being near the only junction with the West coast I feel would enthral all sorts of people from many walks of life, throw in a Wine Bar and Cafe and what better way to spend an afternoon!

I am aware of plans to do something with the eyesore that is the station now, so why not move it nearer the actual junction and tie it in with access to Tennyson Street?

People could perhaps make day trips by "Railcar" to Rolleston, from Ashburton, Greymouth or Christchurch.

Regards
Mike Flynn

Nothing

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

This area should become the new town centre and leave the existing Rolleston Reserve intact. The town failed to plan properly for development in the early years and Council planners should be moved from their jobs for wasting ratepayer funds in the manner they are proposing. Selwyn District planning needs a complete overhaul and hopefully the government will do this.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

Turn it into the new Town Centre for Rolleston and stop wasting ratepayers money. It is not justified and poor planning processes.

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Bike

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

New roads - Broadlands Drive and Park Lane

Extensive plantings

Areas for wilderness play (My favourite thing about the plan)

Kids playground

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

I think the dog park needs to be expanded from its current size (note: we don't have a dog but will probably get one eventually). Dog ownership in Selwyn is very high and will probably increase. The dog park is often used by the Dog training Club - it would be good if there was an additional area that was always available for use even when the Club is in the main dog park.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

The main improvement I'd like to see made to the plan relates to the dog park. The club is likely to get bigger / busier with the increase in dog ownership in Selwyn. It would be good if there was a second area available when the main one was being used.

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

That there is a predominance for all local recreation to be in one area. This will help to avoid parents having more than one location for children playing sport. Also gives opportunity for other recreation (walks) while sports are played.

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

Good utilisation of space

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

There are more dogs than there is room to exercise them. Either the existing park needs to be extended at the expense of some of the sports fields or a second dog park needs to be established. Or loosen rules for dogs in the new parks ie allow off leash exercise.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

See number 4.

PAGE 2

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk, Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

Plantings of trees, natives, shrubs and heaps of greenery to make the developments attractive to the eye and also environmentally friendly

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

20 playing fields seems slightly excessive - the sports area of FRP appears to be very well planned but I don't think we need 20 sports fields. Not everyone in Rolleston is sports oriented, which is why I feel that parks, walking and cycling, seating areas and maybe a fountain would be nice.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

A water feature (even extension and development of the creek that starts in the dog park) and a "nature reserve" where people can sit and watch birds and an area for native planting and preservation.

PAGE 7

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

Dog Park

That the High School will be able to use the facilities

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

Dog Park should be larger. Need a link between Dog Park and other recreation areas

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

Need paved footpaths around sports fields - ie 10, 12, 11 so that it is easy for people to walk around the area - as at Prebbleton. Fencing between the road and the facilities. Are the children's play grounds open enough? The playground must have fencing if it is so near to the car park.

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

A centralised place for all Saturday morning sports
The high school will be located close by to utilise the sports grounds during the day
A shared clubroom to ensure the facility is utilised to the max
That walkways and cycleways have been included

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

No dislikes, but just need to ensure that:

There is ample parking for Saturday morning sports
That the walkways and cycleways connect to Clearview Primary School and the new town centre, so it is safe for children to get there.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

It all looks very impressive

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

Point 16 - the Cul de sac - I think this will encourage cars to short cut through residential areas (this is already a problem in some streets), particularly if Rolleston Drive is a link from SH1 as proposed. If the cul de sac goes ahead provision for parking should be made at the dog park end of the proposed plan. The number of parking spaces doesn't seem enough. Are there any shelters to be built around the sports fields?

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

Extension to dog park
Outdoor pool extension to Aquatic Centre (as with Jellie Park in Chch)
More parking at dog park end with a walkway from there
Shelter around sports fields (for easterly/southerly winds) - focus on spectators needs
Music stage / "Bow I" for larger capacity concerts

PAGE 7

PAGE 2

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Respondent skipped this question

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Respondent skipped this question

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

Respondent skipped this question

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

Respondent skipped this question

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

The Dog Park should be extended. It is already crowded at stages. Another fully fenced area with trees, water etc, which would increase flexibility, particularly when the current park is closed at weekends and at night for Selwyn Dog Club. Another area would mean optimum use, but would also need more car parking

PAGE 7

Q6: The Council will be conducting a workshop to discuss the feedback received on both the Town Centre and Foster Recreation Park Masterplans in November. There will be an opportunity to make a brief presentation to the Council on your comments. Please indicate if you wish to attend a session:

No

PAGE 2

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk, Bike, Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

Cycle and walkways. Indoor sports centre
Multi-purpose spaces / facilities to maximise usage

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

This isn't "dislike", but care needs to be taken in terms of balancing plantings in terms of aesthetics and safety. i.e. visibility for safety (also good lighting). We want this to be a place that encourages people to go there, frequently and not become an unsafe place.

Think carefully about the balance between evergreen native species and deciduous species. Although native species have their place, they are often not as attractive as deciduous species that can be limbed up allowing a balance of sun/shade/aesthetics but visibility. It would be nice if specimen trees made this feel like Roleston's version of Ashburton Domain, or a mini-Hagley Park.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

Just please put as much thought into landscaping / planting as any other part of the plan, and don't think that thickets of natives is the cheap and culturally sensitive way to go. Great to have areas of native planting for bird and insect life, but have these where they don't block sunlight, impede visibility from main roads / pathways (safety issues) or become a depository for rubbish. Invest in good specimen trees for their beauty and variety and appropriateness for public safety/visibility.

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

The size allows for multi sport use as well as walking/play and recreation.

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

Inadequate provision for parking near No. 11, 12, 14, and 15 on masterplan.

Please can Broadlands Drive be continued to Springston/Rolleston Rd NOW to ease traffic congestion at Goulds/Lowes/Tennyson St intersection.

15 - Wilderness
10 - Sports Hub
11 - Oval Hub

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

Dog Park not big enough, being over used now .

Need to have internal fenced area for dog training club. If not able to make bigger, need to have another dog park elsew here w hich is fully fenced. Just opening up access to other recrerational areas for w alking dogs is okay but not enough for increased number of dogs in Rolleston.

See notes under 3 in draft master tow n centre closing of Goulds Road

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

Dog park needs to be bigger

1. Fenced area in front of Selwyn Dog Training Club to allow uninterrupted training from other roaming dogs.
2. Plan for second dog park or woodland area for w alking, bike tracks, multi use.

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk, Bike

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

All recreation sports in one place

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

To small. Needs a bigger budget

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

It would be very good if there was a mountain bike track around the park which families could ride with one or two technical parts for experience riders. Please refer to McLean's Island which is great asset. What would be great would be the use of the gravel pit. I don't think this would cost much.

PAGE 2

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk, Bike

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

The location and the link the pool and high school

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

Nothing really!

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

An athletics track would make Rolleston an attraction for 'all' Cantabrians. It would need to be 'all weather' in order to give it a real point of difference.

In addition to this, an outdoor 50m lap and dive pool should be considered as an add on to our already existing pool.

PAGE 7

Q6: The Council will be conducting a workshop to discuss the feedback received on both the Town Centre and Foster Recreation Park Masterplans in November. There will be an opportunity to make a brief presentation to the Council on your comments. Please indicate if you wish to attend a session:

PAGE 2

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

Events hub for community events. Netter than using carpark for everything. Walkways and cycleways sound great for families. High School in Rolleston - big plus!! Can it include a third primary school? Keeping dog park = good!

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

"Spaces have been designed to be multipurpose and we want to encourage sports groups to share spaces and facilities so that the community receives the best value for money from its investment" sounds like spin talk for "it's a bit smaller than we'd like so squash up!". Why, can't it accommodate all groups now rather than short term planning and need to upgrade in a few years?

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

Botanic Reserve? Community garden? Food Forest?

PAGE 7

Q6: The Council will be conducting a workshop to discuss the feedback received on both the Town Centre and Foster Recreation Park Masterplans in November. There will be an opportunity to make a brief presentation to the Council on your comments. Please indicate if you wish to attend a session:

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Bike

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

Availability of large children play area

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

Swimming pool at aquatic centre is too small, not suitable for hosting competition. Car park is centralised on Broadlands Drive, better to have some parking area closer to Faringdon.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

More car park

PAGE 7

Q6: The Council will be conducting a workshop to discuss the feedback received on both the Town Centre and Foster Recreation Park Masterplans in November. There will be an opportunity to make a brief presentation to the Council on your comments. Please indicate if you wish to attend a session:

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

That a wilderness playground is being proposed to help give our youth positive and healthy place to go play, hang out and exercise with their friends and family.

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

Respondent skipped this question

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

Please can you add or consider seriously an interesting running track and also a bike track (similar to McLeans island) this will foster healthy family interaction and is very important for our community to get healthy together. It would also be good to put in hard wearing outdoor exercise circuit equipment like they have in other Christchurch parks.

PAGE 7

Q6: The Council will be conducting a workshop to discuss the feedback received on both the Town Centre and Foster Recreation Park Masterplans in November. There will be an opportunity to make a brief presentation to the Council on your comments. Please indicate if you wish to attend a session:

PAGE 2

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

Space is big enough for growth of future population

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

Lack of parking at Dynes Road end. Could possibly use area on other side of new Park Lane. Another thing not mentioned is BMX park a bit like the one in Hornby of a standard for national competitions.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

There doesn't seem to be any parking close to the playing fields in area 11 and 12 at Faringdon end. Parents watching young children playing sport with toddlers / babies or/and grandparents often need to be in their car during games. Area 7 seems a logical car park area.

PAGE 7

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk, Bike

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

The size

Additional space for sports and that the space can be used for multiple sports.
the idea of walkways and cycle routes connecting the areas

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

Car Parking - Lack of Car Parking

Each sports area needs its own car parking area

I currently use the pool weekly, I normally walk, but on the occasion I have needed to take the car due to wet weather I found it impossible to get a park, example when I arrive @ 9.45am the car park is almost full or full. Which leaves me to park on the road, not ideal when you have a toddler and it's wet.

This will only get worse as more people use the pool and the facilities grow in the area.

Public Toilets - couldn't see any on the plan, I'm sure they are??

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

Car Parking - More car parks.

Lots of Shade, either from plants/trees or shade sails.

Rolleston can get very hot in summer and currently our parks and playgrounds for the children lack shade from the sun.

Public Toilets - Making sure they are safe and in an area not enclosed or surrounded, ie the toilets at Brookside Park feel safe

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk, Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

Walkways, trees, space, variety of activities available. Seems a good place to locate High School in terms of being able to share facilities.

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

I hope as many of the original trees as possible are retained

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

Retain trees

PAGE 7

Q6: The Council will be conducting a workshop to discuss the feedback received on both the Town Centre and Foster Recreation Park Masterplans in November. There will be an opportunity to make a brief presentation to the Council on your comments. Please indicate if you wish to attend a session:

No

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk, Bike, Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

There are plenty of different areas for activities. Like I said on the front page, it would be great to be able to do some fun activities with the waterways and a small lake.

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

The concert oval at 11 - if it is for day concerts or early evening concerts that would be okay depending on what types of concerts or events you are thinking of having there.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

Bigger waterways for recreational use like canoeing. A lake in the park, big enough for the recreational use of sailing model small yachts etc.

PAGE 7

Q6: The Council will be conducting a workshop to discuss the feedback received on both the Town Centre and Foster Recreation Park Masterplans in November. There will be an opportunity to make a brief presentation to the Council on your comments. Please indicate if you wish to attend a session:

PAGE 2

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk, Bike

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

A centralised focus on recreation for all to use within Selwyn. I also like the use of the aquatic centre and sports hub as the focal point, but with plenty of courts and fields to future proof the park.

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

At this stage, there is not much that I dislike about the concept and plans for FRP. Timelines for its creation could be an issue as a lot of what is planned could be used now.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

There needs to be plenty of structured parking to avoid congestion on the main roads around FRP.

PAGE 7

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

The dog park is our main concern, we use this area for the dogs most days, we think it is great but would like to see the water area / stream have a larger swimming area for the big dogs who like to swim, this area is very popular and could be improved, we have seen this at the Quarry where the swimming hole/pond is where everyone heads for. If a section could be fenced off for small dogs, I know a number of people have said this would make the park more user friendly (people and dogs).

PAGE 2

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

The concept of multi-purpose facility on one site encompassing a wide range of sports.
Green Space for recreation/leisure, walking/cycleways

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

I believe the Indoor Facility is a major priority and anchor project that leads the development of Foster Park given the provision for the amount of sports/activities that can be included (Basketball, Netball, Futsal, Volleyball, Badminton). These are sports/activities that are extremely high in terms of current participation rates and trends. The size of the stadium would need to be 3 courts minimum and also contain a fitness centre and squash courts. A similar set up to Blenheim's Stadium 2000 would be ideal with pool also in close proximity would be ideal.

The concept of having the proposed high school close is admirable but I don't believe there is sufficient space for the high school to grow given the current scaling.

A multipurpose turf is needed from which Hockey can be operated out from, there would also be provision to play football/touch on this surface. The advantages of this is that it is not impacted by the weather.

The focus seems to be on Rolleston and its sports clubs as opposed to the whole of Selwyn. These hubs need to be about fulfilling the needs of Selwyn as a whole as opposed to just Rolleston. I commend the approach of Selwyn Football who are one joint entity. Instead of local clubs being consulted, local sports associations such as Ellesmere Rugby, Selwyn Netball should be consulted.

I think investing money into Weedons is a mistake, this is benefiting two distinct clubs instead of benefiting the wider community. These clubs should be mainly responsible for their upgrades, considering it is less than 5 minutes from Rolleston.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

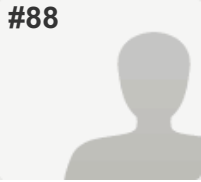

Emphasis placed on an Indoor Sports Facility that is a lead project with at least 3 courts, fitness centre and squash courts.
Provision for a Turf Facility (Discussions need to be had with Canterbury Hockey, Mainland Football)

Q6: The Council will be conducting a workshop to discuss the feedback received on both the Town Centre and Foster Recreation Park Masterplans in November. There will be an opportunity to make a brief presentation to the Council on your comments. Please indicate if you wish to attend a session:	No

PAGE 2

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk, Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

Plans for the future growth of Rolleston

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

Is there sufficient car parking (offroad). Making Goulds Road into a cul-de-sac - why?

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

More parking or information on how much would be provided on current plan.

PAGE 7

Q6: The Council will be conducting a workshop to discuss the feedback received on both the Town Centre and Foster Recreation Park Masterplans in November. There will be an opportunity to make a brief presentation to the Council on your comments. Please indicate if you wish to attend a session:

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

Close to Aquatic Centre

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

It needs to have areas that people can use for walking and running. How about some exercise trails. We are not all young sports people, so the recreation area needs to give equal opportunity for 'low impact' fitness options.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

See #4

Low impact fitness trails please

PAGE 7

Respondent skipped this question

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

Dynes Rd/Goulds Rd corner needs upgrading to improve visibility, to handle increased traffic and provision made for pedestrians. Bearing in mind the adjacent area of the park maybe used for large community events.

If the stock w ater race is made into a stream in the park, provision needs to be made for cleaning it. If stones are used to line it, as in the Faringdon subdivision, it w ill be very difficult to clean, and slime/algae build up w ill be a serious problem.

Interconnecting cyclew ays are essential for school children and others to access the park from other parts of Rolleston. Provision needs to be made for parking at the new high school, and bus access. The park should also have parking in general w ith safe entrance/exit. This is particularly important for sports events w here lots of children are involved.

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

The fact that this will be a multi sport facility and sports will work under one umbrella, share social space, there would be room for office/meeting rooms and it will provide a facility for sport to be played and watched in Rolleston

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

There is nothing to dislike my only concern is that it won't be big enough to cope with future growth

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

Bowling Green

Bowls New Zealand is aware that there is no bowling club in Rolleston and see that in the future the local community will want to be able to play bowls without having to leave Rolleston and would like to see provision for a bowling green and club facilities at Foster Park. If situated near the main facility the administration of a club could be done by a central administration office within the Foster Park facility. Quality greenkeeping is vital for a quality bowling club but this could be done by the collective central body, this would eliminate the need for equipment but also buildings to house the gear. The greens would need sun shade and toilets near by. Ideally two greens would be desirable but initially one green; 36.6x36.6 would allow for 8 rinks but provision for expansion would be important. A learners green would be a welcome addition; this could be the width of one rink but with an artificial surface, this would provide an area for young people could learn the basics without the risk of damaging the grass/weed green. This would provide a learning surface for youngsters so very useful for schools. A club would need to be established but at this stage there is little point calling for expressions of interest from the community until there is an indication from SDC that there is land available for a club.

This is an opportunity to establish a community style club where all ages would be catered for, the normal interclub competition bowls would be available but many to the other Bowls New Zealand brands of 'pay for play' or community bowls could be developed so the club would have a very big community focus.

A centrally situated club would suit the growing community and hopefully stop any other clubs being established in the area in the future. Bowls is a game that can be played by all ages, all abilities; it is a good sport for people with disabilities, it is a good family sport and a green would be an asset to the community

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

Good overall plan for the park itself and like the idea of extensive walking tracks.

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

1. The idea of making Goulds Road a cul de sac is crazy! This should remain a main road and should be widened now as it is very busy and dangerous.
2. There is a lack of parking. It is too centralised. It would be better to allow angled parking on Goulds Road.
3. The large gum trees along Goulds Road are both ugly and a hazard as demonstrated in the recent storm. They should be felled or thinned now.
4. No toilets are shown on the plan. A park this size needs 2 or 3 blocks.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

As answer 4.

More car parking

Thin or remove gum trees

Widening of Goulds Road

and what about a water feature like a pond fed by the water race, as in the dog park or waterford meadows on Lowes Road.

PAGE 7

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk, Bike, Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

The tracks and areas for different age groups

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

Of concern would be the safety and night lighting

Perhaps the amount of car parking (it's hard to tell just how much will be available)

No mention of cricket!!!!!! Does soccer return to cricket in summer?

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

I'm impressed with it but it needs to be fast tracked as like with the Town plan it becomes a chicken or the egg situation and things need to start happening NOW

Are there toilets in accessible places? and drinking fountains or bottle filler taps

PAGE 2

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

That it is about to happen!

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

These two plans are great and need implementing. Remember the negatively regarding the Selwyn Aquatic Centre - it delayed progress unnecessarily and now people can't get enough of it and "it is too small" - so all the best for a speedy and positive outcome Cameron!

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

None. Please ensure plenty of parking.

PAGE 7

Q6: The Council will be conducting a workshop to discuss the feedback received on both the Town Centre and Foster Recreation Park Masterplans in November. There will be an opportunity to make a brief presentation to the Council on your comments. Please indicate if you wish to attend a session:

No

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk, Bike, Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

Looks well designed, main fields by 10 not netball courts needs to be as Astro Turf in stage 1, as this would offer a better all round facility.

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

Nothing looks perfect!

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

Astro Turf in stage 1. Pavilion somewhere? Raised seating around an Astro turf with training areas to be sides and rear.

PAGE 7

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

I like the fact that all stakeholders come together and share resources to create a higher quality facility.

I like that a large area is made available to accommodate as many recreational activities as appropriate to prevailing and changing needs of the community.

I like the plan to create walking, jogging and cycling tracks which will benefit every user of the park from toddler to the physically handicapped.

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

Nothing I can think of so far. I think it is very well thought of. I just want to encourage the team to make good the plan as presented the best they can. Thank you.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

Be generous to the process of the stages of improvement, that is, make them as quick as possible and appropriate to benefit not only future residents but the current ones.

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

That it is near the aquatic centre; that a large variety of activities are being provided for; that resources will be shared, hopefully resulting in better facilities; that provision is made for extensive walking, cycling, jogging tracks; that anyone of any ability or disability will be able to use and enjoy at least part of the area.

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

No dislikes

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

None. Just want to be reassured that the vision will be adequate for the growth of the district over the next few decades.

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

A Variety of uses, wilderness area, water area naturalised

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

It is not clear whether the plantings are going to be of native trees - I hope this opportunity will be taken as it will encourage other native wildlife such as bell birds.

There needs to be more walking areas/tracks that can go in a loop without going on the road, for pedestrians and people walking their dogs and children, perhaps starting at or near the dog park.

It is not clear whether the Dog park will be enlarged, I hope so, as this is so well used and is a meeting and talking place for Rollston residents (and people from other areas). When the Dog Obedience people shut the park, it is a real issue. There needs to be two separate areas, so they can cut off one area for their events, but there is still a fenced off area that local residents and their dogs can use.

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Bike, Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

The extra fields for sports groups
Wilderness play for kids
family area for picnics

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

I am not sure about using some of the space for a lane.
Will there be enough car parks especially with people travelling to the park from the district.
Is there too long to walk from gear rooms to fields with playing gear?
I am vary of how it will work clubs sharing one Pavillion/Space

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

I support Mens Shed going down the bottom of the park.
I also like the idea of the old house being done up and used in some way,
I would like an ice cream window in the current homestead, a café and maybe a room for Community Groups to meet.

PAGE 2

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

Multi use area

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

Plan does not seem to show adequate parking unless all along the road side is to be used. Many of the outdoor areas will be well used in the winter months and no one wants to have to walk too far in wet, cold weather.

When there is a big event it would seem the folk in Faringdon will have their streets used as parking.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

More provision for cars. Only show Nos 3 and 4 as car parks., does not seem enough, take a look around Brookside Park on a Saturday morning in winter.

PAGE 7

Q6: The Council will be conducting a workshop to discuss the feedback received on both the Town Centre and Foster Recreation Park Masterplans in November. There will be an opportunity to make a brief presentation to the Council on your comments. Please indicate if you wish to attend a session:

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Bike, Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

I like the kids play areas, the Foster homestead to give character, the netball courts, the specimen trees, wilderness play

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

There is a massive lack of onsite parking. Take out a couple of those sports fields and put parking there instead. There needs to be plenty of onsite parking available. We don't want people parking in the residential areas to attend sports games. Hagley Park netball centre does not have enough parking and therefore it is very stressful to attend games and is also a massive safety concern in terms of traffic. There also needs to be adequate parking for High School attendees and their parents.

I think cutting off Goulds Rd could be a problem as it will send a lot more traffic past Clearview School or will send Faringdon residents on a massive detour round Springston-Rolleston Rd. I would like to keep Goulds Rd as a direct route to the new town centre but with improved roading/traffic signals around the intersection with Lowes Rd/Springston-Rolleston Rd area.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

I would like to see the walking/cycling track round the outside and through the middle become a priority project so that the public can start making use of the land for recreational purposes immediately. At the moment we only have the option of walking around the houses.

I would also like to see more shaded picnic areas and a proper garden with flowers. It doesn't have to be huge but at the moment Rolleston is really missing a space where all ages can enjoy a garden with flowers.

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

Having a wide range of activities in the area, the picnic spaces, open grassed areas & the sports fields.

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

Some of the facilities will take some years to build such as artificial turf & Club rooms, these facilities are required now rather than in 3 or 4 years.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

I would like to see the installation of artificial pitches so that sport can carry on regardless of the weather & how wet the grounds are. I would also like to see a facility room where you could hold meetings or small functions as it is very difficult now to find somewhere to hold gatherings & it will only get worse as the population increases.

Q4: What do you dislike the most about the plans for Foster Recreation Park

The association also urges the Selwyn District Council to reconsider the timing of the projects to ensure that indoor court space is developed in Stage 1.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

1.0 Executive Summary

Canterbury Basketball Association is a not for profit organisation incorporated to foster, encourage and develop the sport of basketball in the greater Christchurch region with particular emphasis to those of a lower socio-economic group and youth participation. With over 4,000 members, Canterbury Basketball is fortunate in having a large membership base of people wanting to play basketball in the community.

Canterbury Basketball acknowledges and commends the commitment of the Selwyn District Council and associated planners for continuing to realise and recognise the importance of sport and recreation to the region. We have provided submissions to both the Spaces and Places Plan and the Christchurch City Council Central City Plan in support of the planning principles of co-location, hubbing and partnerships.

2.0 Basketball's needs in the next 10 to 30 years

Canterbury Basketball has experienced an average 10% growth year on year over the last 3 years, despite the earthquakes. In 2013 there are 593 registered teams from year 3 upwards involved in some formal basketball competition being run either by or on behalf of the Canterbury Basketball Association. In addition the Association administers representative programmes from under 12 upwards and in 2013 it is anticipated the Association will have supported 39 teams to regional tournaments, 12 teams to zonal tournaments and 10 teams to National tournaments.

Currently Basketball in the greater Christchurch region is delivered via a hubs and spokes model. However, since the 2010 and 2011 earthquakes the Association has been reliant on the spokes that have been developed. Going forward the spokes are important to

Foster Recreation Park Masterplan Consultation

maintain our community involvement, however the spokes are no longer capable of coping with demands of our main competitions. In addition, without the development of a true multi court facilities, the Association is unable to host any level of Basketball New Zealand tournament which in turn forces our representative players to continue to travel outside of Christchurch, on a user pays basis.

With the significant growth occurring within the Selwyn District, these issues need to be considered seriously. In addition, the Canterbury Basketball Association urges the Selwyn District Council to consider not the current requirements, but to place confidence in the growth, demands and needs in the future and to plan and future proof in this phase. The association also urges the Selwyn District Council to reconsider the timing of the projects to ensure that indoor court space is developed in Stage 1.

3.0 Why is Basketball a key stakeholder?

Basketball is one of the fastest growing participation sports in New Zealand. Data from the Recent Sport New Zealand's Young Person's survey has identified that Basketball is the number one sport that all boys and girls in all age brackets (5-18 years) want to either play more of or participate in for the first time. In addition, it is one of the top 10 participation sports for 11-18 year old boys and girls.

Basketball is fast becoming a year round sport with participation opportunities already occurring beyond the traditional season timelines. This, in combination with the push to include 3*3 into the regular schedule of activities makes basketball a key user and significant stakeholder of such a facility.

In addition, the growth of 3*3 as an outdoor sport, makes Basketball an interested stakeholder in outdoor court space. Again emphasis in the design and planning of such spaces should ensure that function is viewed as the driver of the project and while the Association acknowledges that "form" is important, if they spaces are not user friendly they will be come under utilised.

Basketball is now a year round sport with the Association involved in leagues and competitions from February through to December. Basketball is delivered throughout Canterbury from year 3 onwards and the Canterbury Basketball Association enters an elite women's team, the Wildcats, in the National Women's Basketball Championship.

Canterbury Basketball Association is one of the largest and most successful Associations in New Zealand. In 2013, five out of ten teams sent to Nationals finished in the top 6. Over the last twelve months we have had 20 players achieve national honours from Under 14 upwards and with the newly aligned National Tournaments Calendar we will be sending away even better prepared Canterbury teams to National tournaments. However, Canterbury Basketball Association, despite this success, struggles to find court space to enable us to deliver all of the activity

In addition, anecdotal evidence supports the view that the cities that have community sports venues with sufficient court numbers creates an atmosphere that is attractive from both a player and supporters perspective.

4.0 Links to the Rolleston Town Centre Masterplan.

The Association would also like to urge the Selwyn District Council to ensure that the development of appropriate infrastructure is timely and considered. Attention should be given to the provision of accommodation facilities within the Rolleston Community to enable events to be hosted in addition to community based activities. The Association also urges the council to ensure that the community can be self sufficient to ensure that the maximum economic benefit is gained if and when regional and national events are hosted.

5.0 Recommendations

If Basketball is to use the facility, significant representation during the planning stage is essential to ensure that design requirements such as flooring specifications and dimensions are considered and applied. The dimensions of a basketball court fit inside a netball court. Canterbury Basketball Association requires a high quality, multi-use facility close to the City to support the hubs and spokes model we are promoting while also providing a base for our growing community activities.

Access would be required for both community activities as well as training for representative teams throughout the year. Should the council choose to future proof in the initial stages, and if this was done in Stage 1 of the development, it would also enable the association to use the facility as a host for regional tournaments and activities.

That priority for the courts should be for regular and consistent access for community sports participation in an environment that is safe, attractive and comfortable for all involved. A focus on the ease of access for participants is paramount as this adds to the experience. Ensure affordable access to the facilities for users over the life of the facility by minimising the operational costs through quality design and construction. In addition it is recommended that the facility be managed in such a way that sufficient income is generated to meet the operational and maintenance costs.

5.0 Conclusion

The Association reinforces its long held view that even before the earthquake events of 2010 and 2011, there was an acknowledged and significant shortage of indoor court space within the Canterbury region. While the remediation of Cowles Stadium has provided an eastern spoke and increased total court numbers across the city, the situation is dire and we urge the decision makers to ensure that the development of Sports Hubs is undertaken with urgency and that consultation with those key tenant sports such as basketball and netball is planned, considered and timely to ensure that the facility is developed with a view to the future needs and anticipated growth not based on current or past usage.

The provision of a multi-purpose indoor sport centre recognised for both meeting the needs of the community as well as an importance economic addition to the District and City through the provision of space to allow for the hosting of sporting events that attract visitors from outside of the region to attend and/or participate in events of local or national sporting significance.

Appendix A

Sports Hall Floor Size Dimensions and courts per sport are detailed below :

- Basketball : 1 full sized basketball court 28m x 15m. Outer boundaries (run-off) 2m (absolute minimum) clear before team benches, score benches/banks etc. Ideally: 5m clearance between team bench/officials and first row of seating. 4m is required between 2

Foster Recreation Park Masterplan Consultation

score benches/tables etc. ideally 5m clearance between team bench/officials and first row of seating. 4m is required between 2 adjacent courts.

- Netball : 1 club court dimensions are 30.5m x 15.25m. 3.05m all sides run-off is preferred with 2 courts adjacent 5 m between courts.
 - NNZ fully compliant international/ANZ Championship court dimensions are 30.5m x 15.25m with 3.05m all sides with additional space for scoreboards, officials benches and team benches on one side with 2 metres between team bench and first row of seating.
- Lines 50mm form part of the court, white preferred surface marking. Goal posts require sunk fittings – playing height 3.05m.

Provision is required for storage of retractable seating along the walls.

Flooring Wooden floors must be of good quality and durable.

Could be different levels of quality – T1 for championship court, T2 either side or instance and T3 for community use.

DIN rated sprung wooden floor able to withstand vehicle loadings through use of under laid battens or similar system.

Court markings would require to be provided for community netball and basketball courts only OR under-floor lighting with ability to switch depending on what sport was using courts OR markings for different court/sports layouts measured out pencilled and sealed under top surface for easy laying of taped lines.

Location of any plates in floor for anchoring of nets, posts etc needs consideration around safety issues.

Ceiling Height 9.0m clear unobstructed height for the entire area of the sports floor.

- Basketball clear height is 7.0m
- Netball clear height is 8.5m
- Volleyball clear height is 9.0m

Movable Divisions Preference for dividers to be moved laterally along the length of the building to maximise flexibility in configuration of courts.

Solid curtain divisions from floor to 2m height with netting above 2m to close to ceiling between netball/basketball courts to prevent visual and loose ball interference between courts.

Drop netting sub-divisions between designated areas of courts.

Equipment (score benches, poles and backboards) Pole housings in floor for netball and for volleyball.

Ceiling hung backboards for basketball courts

Sufficient score benches for all courts (able to be shared by netball and basketball)

Electronic Scoreboard Scoreboards and timers as per the requirements of each sport– one per court – a main scoreboard with timer visible from all seating on feature court

Seating

Lighting Use of natural light desired but with no direct sunlight visible from floor at any time – defused natural lighting through the use of clearlight panels in the ceiling space.

Ability and flexibility required to light various areas at different time, rather than entire stadium area.

PA System Suitable for general communication throughout building and for commentary at events.

Acoustics Provide adequate acoustic surfacing for activity noise and PA system.

Minimise transfer of noise from inside building to outside and vice versa.

Toilets Toilets to planning authority standards (including unisex staff toilet)

Athlete changing rooms secure change rooms with minimum of 2 showers and 2 toilets each
secure umpires/officials rooms with toilet and shower in each.

Hot & Cold Recovery Room Facilities for teams and umpires/officials

Medical Facilities Separate 1st aid room, wheelchair access, 1 stretcher/1 wheelchair and room for physiotherapist, doctor and/or other specialist to work within.

Storage • Netball – storage for poles, padding, team benches, scorers equipment including benches, chairs, etc

• Basketball – storage for benches, scorers equipment including benches, chairs etc

• Volleyball – storage for poles, nets and umpire stands/seats

Plus additional miscellaneous equipment storage needs – required to have easy access at ALL times

Reception/Entrance Entrance(s) with reception at one point for normal operations, preferably within close proximity of hall area

Lounge/Meeting room Lounge for no less than 200 pax with dividers could then act as meeting/ seminar and small conference rooms (available for public hire)

Offices • Offices for facility management

• Shared services administration/management offices for sports based at facility

Food & Beverage Services • On-site cafe with health food options

• Provision for ease of access for external caterers

• Vending machines for healthy food options

• Kitchen with instant boiling water supply for hot drinks

• Chillers for food and beverage storage

• Provision for large dining/seating area with some elevation to provide view of internal courts - possibility to double as team meeting space as required

Car Parking Car parking to planned authority standards.

Security Uninterrupted flood lighting of car parks to meet H&S requirements

Foster Recreation Park Masterplan Consultation

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

1.0 Executive Summary

Sport Canterbury is about getting, and keeping, people engaged with sport and recreation. Since February 2011 the Trust has played a critical role in being an active 'voice' for the sport and recreation community. We have worked alongside Sport New Zealand and the Christchurch City Council (Sport and Recreation Leadership Group) with contributions from Selwyn District Council in developing the "Spaces and Places Plan for Sport and Recreation in Greater Christchurch". Key planning principles identified within the plan place significant emphasis of co-location, hubbing and partnerships.

These planning principles are relevant to not only a greater Christchurch context (as the "Spaces and Places Plan" highlights), but also at a community level where collaboration across sports clubs and other community groups offer opportunities to service sport and recreation needs within their own community in a more effective manner.

2.0 Key Planning Principles

Sport Canterbury acknowledges the strong resemblances between the draft plan of Foster Recreation Park and the key planning principles of the spaces, places and people plan created by the Sport and Recreation Earthquake Leadership Group. Foster Recreation Park will be a world class, accessible recreation space, encouraging community participation while attracting major events for sport and recreation to the local and wider community. We would like to see a number of sporting codes working together in this shared space (hub facility) to better shape sport and recreation opportunities offered to the community. Sport Canterbury support the Foster Recreation Park Plan for shared spaces and facilities. By having a number of different codes working collaboratively, sharing resources, problems and solutions the needs of the community will be serviced in a more efficient and effective way.

3.0 Proximity to High School

Sport Canterbury strongly supports the geographical positioning of Foster Park being in close proximity to the new high school. Synergies between sport in education has many positive benefits including better attendance, classroom behavior and student engagement as well as sport being a great vehicle to build the students' core values. Sport Canterbury supports a healthy relationship between the new school and surrounding sports clubs with the possibility of the clubs working in and alongside the school to facilitate sport and recreation. This will support a seamless transition into lifelong sport and recreation participation.

4.0 Other Community Spaces

Sport Canterbury would like to emphasize the continued importance of providing spaces and places for sport and recreation within the wider Rolleston and Selwyn District community. As a district experiencing the country's fastest population growth, on-going investment and enhancement into other locations such as Brookside Park will be vital moving forward.

5.0 Conclusion

Sport has a critical role to play in greater Christchurch's recovery. Sport Canterbury commends the Selwyn District for their commitment to recovery and enhancement of sport and recreation through the proposed Foster Recreation Park development. This will ultimately support Selwyn resident's commitment to lifetime sport and physical activity participation.

Thank you for the opportunity to make a submission to the Draft Master Plan of Foster Recreation Park; we look forward to speaking to you further on our views.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

1. Provision on Foster Recreation Park for:
 - a. Two full sized senior playing fields (minimum one field with lights for matches)
 - b. One full sized training field (with lights)
 - c. Two junior fields
 - d. At least one of the full sized rugby grounds be allocated within the Outdoor Sports Hub, either alongside the proposed indoor sports facilities, or adjacent to.
 - e. Support for a floodlit artificial surface with shock absorbency
 2. Relocation or construction cost for the Rolleston RFC clubrooms
 3. A floodlit field at Brookside Park
- Rugby as the major winter sport in Canterbury, we would clearly like to work closely with Selwyn District Council on this project in order to develop and help satisfy demands for rugby in Rolleston.

PAGE 2

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Respondent skipped this question

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk, Bike, Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

Central Sports. Area for the town
Community area and green belt

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

The plan - do we need to be reminded of the cost to ratepayers?
High school in wrong place. Should be in area. Limit traffic congestion.
The sports club look close to swimming pool - limits expansion to the pool area and better left as an open green area when so close to town.
This area will attract large amounts of traffic. Urgent need for different access for traffic than state highway.

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

Goulds road - to be upgraded for extra traffic
Springston Rolleston Road / Collectors Road to be developed for extra traffic
Area 8 not to be used by large community
Functions eg fireworks, music festivals,

PAGE 7

Q6: The Council will be conducting a workshop to discuss the feedback received on both the Town Centre and Foster Recreation Park Masterplans in November. There will be an opportunity to make a brief presentation to the Council on your comments. Please indicate if you wish to attend a session:

No

PAGE 2

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk, Bike, Car

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

Open area close to Rolleston Centre
Well sited [?] to residential development

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

Why call it 'Foster' rec park? Fosters were well paid for this land and name should be with community consultation.
High school in wrong place - should be further down. Goulds road to Mitiake Traffic hazard on Springston / Rolleston road.
Pool complex is already too small - allow space for possible future expansion.
Why all sports fields - what about space for other interests eg more park fields / kites etc

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

Move high school further away from Thompson and Springston - Rolleston Roads. As it stands you have potential for major traffic hazards. AM & PM
Not all sports fields - provide open space for other activities. Too much focus on sports
Car parking appears inadequate
Rolleston reserves should be promoted as a community market place or similar.

PAGE 7

Q6: The Council will be conducting a workshop to discuss the feedback received on both the Town Centre and Foster Recreation Park Masterplans in November. There will be an opportunity to make a brief presentation to the Council on your comments. Please indicate if you wish to attend a session:

Q1: Overall, do you support the direction of the Draft Foster Recreation Park Masterplan?

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

The large area catering for a range of activities. User friendly. The high school located to the North of the FRP, being more central to Rollesotn. Even though we have the dog park, people will walk their dogs through FRP, therefore doggy poo bins would be good to help stop dog littering by lazy dog owners

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

n/a

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

We would like to see No 11 become the cricket area, not rugby or soccer.

PAGE 7

Yes

PAGE 3

Q2: How will you usually travel to Foster Recreation Park?

Walk

PAGE 4

Q3: What do you like the most about the plans for Foster Recreation Park?

The trees along Goulds Road boundary and the kids and youth play zones are situated in a good location.

PAGE 5

Q4: What do you dislike the most about the plans for Foster Recreation Park

I think #11 (recreational/events oval hub) is too close to residents on Goulds Road and should swap places with #12 (sports fields).

PAGE 6

Q5: Describe any improvements you would like to see to the Foster Recreation Park Masterplan

I would like to see #11 & #12 swapped around. If #11 is going to be used for concerts and outdoor sports tournament I think it would be better suited to where #12 is. This would help with noise levels affecting Gould Road Residents

PAGE 7

Foster Recreation Park Masterplan Consultation

Q4: What do you dislike the most about the plans for Foster Recreation Park

Rolleston Softball have made the following submission:

In addition to any individual submissions made from Rolleston Softball Club members, the committee members of the Rolleston Softball Club, make the following joint submission.

As a sporting club within the Selwyn District, we have currently 226 members after only our second season. Our playing fields are located at Rolleston Reserve. The club has affiliated with Rolleston Rugby Football Club (RRFC), purely because we have no clubrooms of our own. We currently use the clubrooms during the softball season to encourage team building and development of youth within our club.

Primarily, this submission is for the proposed relocation of the Rolleston Softball Club to Brookside Park.

As a club, we are not against the development of Foster Park as sporting areas are needed for the development of sporting codes within the Selwyn District. Foster Park has the potential to accommodate many sporting codes, which is the main driver for many Rolleston based clubs.

Due to Rolleston Softball Club being allocated to Brookside Park without proper consultation, we submit the following concerns:

1. The information provided about Brookside Park is very limited and vague as to what is proposed for Softball development on this Park. It does not explain in detail the council's contribution for Softball, in comparison to Foster Park where everything has been disclosed for development for other codes.
2. There is no space allocated for a Softball Skin Diamond. A premier diamond is a key aspect in the 5-year plan for our club. We have identified talent that we wish to remain in our sport and within Rolleston, and we need this facility to retain their talents.
3. A permanent diamond can be used for multiple events, not just for Rolleston Softball, but for national or even international tournaments.
4. Rolleston Softball Club has an Under 19 team that plays at Mainland Park (Home of Canterbury Softball) and at times will play on their skin diamond which teaches them a different dynamic, which is paramount to the development of our youth into premier grades.
5. We are not against the move to Brookside Park, however further consultation with the Rolleston Softball Club Committee is required. This is due to Selwyn District Council assuming that we would just follow RRFC and their clubrooms.
6. Over the last two years, we have built a beneficial relationship with RRFC that sees members from each code, playing both sports.
7. We prefer to stay independent, so that we stand as one identity under the banner of Canterbury Softball Association, who support our club's code of ethics and believe we are an integral part of development of softball within the Selwyn District.
8. Another key aspect of our 5 year plan is to have satellite clubs within the Selwyn District (for example Darfield, Lincoln, Prebbleton, Leeston) which has the complete backing of CEO Cheryl Kemp, Canterbury Softball Association (CSA) so that CSA may have a Selwyn District based competition.

These are only some of our concerns about the proposed move to Brookside Park. We believe that with further consultation between Selwyn District Council and Rolleston Softball Club these concerns of ours can be addressed.

Mainland Football Submission:

With the projected growth of Selwyn District, Mainland Football see the SDC Foster Park Master Plan being vital to the future for the club and the sport by providing access to participants from areas as far afield as Darfield, Lincoln, West Melton etc.

With introduction of an artificial surface at ASB Football Park, as well as the recent installation of these pitches across cities in NZ, we understand implicitly the benefits they derive. They offer the key to a growth future. We encourage an artificial surface being installed at stage 1 as it will have tremendous community value for sport in general. Importantly the statistics speak for themselves and the benefits are unparalleled.

We cannot underestimate the importance of quality training facilities in relation to participant enjoyment and with each pitch doing the job of up to 5 soil based fields, we urge SDC to consider re-prioritising an artificial surface as a stage 1 initiative. It will very quickly eliminate winter woes.

Well done on producing the Draft Master Plan which has many benefits for sport in the region.
