WHAT WOULD YOU LIKE THE TOWN CENTRE TO LOOK AND FEEL LIKE

Give Rolleston Train Station A Makeover! Make The Carpark Safer To Access.

I Would Like A Water Feature In Centre, eg Water Wheel. There Was A Water Wheel Near The Station Many Years Ago – The Remains Are In The Cockburn's Barn

Modern Architecture And Sculptures – Not Fake Looking "Old Style" Buildings

A Showcase For Selwyn, a "Destination" for People From Out Of Town

No Cars In Centre – Pedestrian Only Areas Like In Europe

OK For Commercial Development On Kidman Street

Compact Location – Not Strip Development From Community Centre To Council Offices

OK For Commercial Development Along Rolleston Drive (Countdown Side Of The Council)

- Connected
- Attractive, Light & Spacious
- Seating (apart from cafes)
- Safe

Man-Made Lake

I'm Not A Fan Of High Density Housing & Small Sections

Use The Trains For Transport, Get People Out Of Cars, Train Exchange!

No Westfield Style Mall

"Green" in Conception and Management

Accessible To <u>All</u>!!

Fewer Concrete Boxes. More Wood, Schist, Public Art – Like Wellington On The Drive From Airport To CBD.

Walking/Running Tracks Outside Of The Residential Areas Through Farmland, Reserves etc

Mix of Unique Shops & Cafes Not Just The Same Old National Chains You Can See In A Million Other Towns

Town Centre Similar To Cromwell (Pedestrian Only). No Straight Streets, Water Features etc. One Theme Like Stone Frontage For All Shops.
