**Designation Details :**

My/Our Submission is: : Hi, I'm concerned about the entrance of the reserve coming off Birches Road and traversing the Rail Trail. I feel there is significant risk in having a high volume of traffic crossing across a path where many children and adults expect a safe journey. This is especially concerning with the large volume increase and the number of people who will be accessing the reserve in evenings for sports practices at the same time that people are commuting home from work on their cycles. Birches Road is also not wide enough to allow for a separate turning lane and clear visibility. Is it not possible to access the domain via either Leadleys or Hamptons Road.

I/We seek the following decision from the Council : To change the entrance to the domain off the main arterial between Prebbleton and Lincoln and thus eliminate the need to traverse the rail trail.
