Hi Jim,

My vote is for it to go and be replaced with a more suitable tree in a more suitable part of the redevelopment.

Hi Jim

As discussed by phone I support the submission to oppose the tree protection and support another tree to be planted in memory with a plaque. There are several reasons to remove it including placement for new redevelopment, mess it creates and danger of branches/wood dropping on the ground. I notice we haven't discussed the other trees between the Library and Community Centre. Can any of these remain or do they need to go also?

Thanks Jim for organising this, I'm happy to sign this submission and obviously we only need half the committee plus 1 size to support this to have a outcome.

Kind Regards

Sue Hadfield

Please be advised that I am in support of **not** protecting this tree in the interests of allowing options for the redevelopment of the site.

Jim

I support the LCC opposing the listing for the reasons in your note plus the species is not ideal in the CBD due to autumn leaf drop and danger from dropping branches as tree gets older. There are plenty of the same species in an appropriate reserve 500 metres down the road.

Ian Baylis.

Re: Oak Tree on Gerald Street LINCOLN

—> Application SO6D1

I am a Representative member of the Lincoln Community Committee, and I am concerned that the issues regarding the existence of an Oak Tree on the corner of West Belt and Gerald Street, is jeopardising wise planning for the design of the new Community buildings on the adjacent site.

The Community's vision for the site was to provide a building that aesthetically reflects the environmental heart of the township, and that a Greenspace area would be easily accessible, and sufficient to give residents and visitors an outdoor area in which to relax, in quiet harmony with nature, albeit in the middle of a thriving township.

In my opinion, the Oak tree in question has out-lived its purpose, it may not even survive the construction works, and it is not a species that compliments the proposed native plantings. If it is retained, the location of the Greenspace area will be compromised and will not adequately provide the feature the community desires.

I request that this tree is not designated as Protected, but removed to make way for a wisely designed community building on the site, which will then be an asset to the township and the Selwyn District.

Just a quick note that I support the decision:

1. Not to proceed with designation of the Oak Tree on the Gerald St and Westbelt corner adjacent to the Community Centre,
- or
2. If a protection order has been placed that it be lifted.
- and
3. That there be ongoing discussion with the family regarding an appropriate memoriam to the original person who gifted the section, perhaps in the new open space area/courtyard on the corner of Gerald and Lyttleton St

Subject: Oak Tree in Lincoln's mainstreet

Hi Jim,

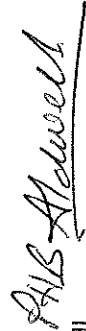

Re Submission S06D1

Given the discussion we had at LCC which indicated that the site of the Oak tree on the corner of Gerald St and West Belt is a cold southwest site in winter I am agreeable to the tree being removed so that the new library can be extended into that site. I would be more agreeable if an equivalent area could be developed into a public seating area at the other end of the library site on the corner of Lyttleton and Gerald Streets and a new Oak was planted there to provide shade in summer. Thus my preference is that there is no net loss of open space on Gerald Street.

I recommend that the tree be removed from protection provided that a replacement oak tree is planted somewhere else along the Gerald Street frontage of the said Lincoln township block.

I am writing this submission as a member of LCC.

Patrick Aldwell
