Consider a joint case?:

Maybe

Submission:

I approve the proposed Plan Change.

**I/We seek the following decision from the Council for the following reasons:**

- Existing Porters Ski Area needs to be upgraded; - This would be great to ensure Porters remains viable; - It would be great if New Zealand had the type of on mountain facility you can get overseas; - It would be great if we did not have to use our mountain access road; - This will bring thousands of tourists to the mountain and the Canterbury region; - This would be a great experience for New Zealanders and overseas skiers; - This allows lots more people to get the enjoyment from accessing Crystal; and - This will bring jobs into the Region.

Submission:

I approve the proposed Plan Change. The New Zealand ski industry has a lot of potential to be upgraded and expanded. I recognise this expansion as a positive change in the right direction. It will be good to see a modern facility. In terms of safety the Gondola is an excellent proposal, so that we never see another car coming off an access road again as in Mount Hutt recently. Furthermore the resort will still be accessible in bad weather. From an economic point of view, the proposed development will attract Australain skiers, due to the ease of commuting from Christchurch.

I/We seek the following decision from the Council for the following reasons:

Submission:

I approve the proposed Plan Change. Canterbury needs a ski field like this! This would do amazing things for the Selwyn district.

I/We seek the following decision from the Council for the following reasons:

- Existing Porters Ski Area needs to be upgraded; - This would be great to ensure Porters remains viable; - It would be great if New Zealand had the type of on mountain facility you can get overseas; - It would be great if we did not have to use our mountain access road; - This will bring thousands of tourists to the mountain and the Canterbury region; - This would be a great experience for New Zealanders and overseas skiers; - This allows lots more people to get the enjoyment from accessing Crystal; and - This will bring jobs into the Region.

I approve the proposed Plan Change. It would be amazing for New Zealand, South Island, Canterbury.

I/We seek the following decision from the Council for the following reasons:

This would make New Zealand skiing world class so we could actually compete with the likes of America and Europe. When comparing our fields and facilities to theirs we fall so short. This development would change that and attract the skiers that usually go to America and Europe to New Zealand. - Existing Porters Ski Area needs to be upgraded; - This would be great to ensure Porters remains viable; - It would be great if New Zealand had the type of on mountain facility you can get overseas; - It would be great if we did not have to use our mountain access road; - This will bring thousands of tourists to the mountain and the Canterbury region; - This would be a great experience for New Zealanders and overseas skiers; - This allows lots more people to get the enjoyment from accessing Crystal; and - This will bring jobs into the Region.

I approve the proposed Plan Change. It looks great.

I/We seek the following decision from the Council for the following reasons:

- Existing Porters Ski Area needs to be upgraded; skiing in this area is currently very limited as all fields are small, have few chair lifts or on mountain accommodation options. - This would be great to ensure Porters remains viable and offer an alternative to Mt Hutt; - It would be great if New Zealand had the type of on mountain facility you can get overseas; - It will encourage more tourists from overseas - It would be great if we did not have to use our mountain access road; - This will bring thousands of tourists to the mountain and the Canterbury region; - This would be a great experience for New Zealanders and overseas skiers; - This allows lots more people to get the enjoyment from accessing Crystal; and - This will bring jobs into the Region.

I support the proposed Plan Change.

I/We seek the following decision from the Council for the following reasons:

canterbury needs a ski area, with easy access to the slopes, and accommodation at the field. open crystal valley will greatly increase the skiable area, and i think will have better conditions than the current porter's field alone, so this will extend the season and range of the experience. such an investment is great for local and regional development - will bring a lot of tourists and local skiers into the area, more jobs, more regional capital. not needing an access road to the field would improve the enjoyment, ease of engagement and most importantly the safety of the experience - one driver killed this year (at mount hutt) and at least two more vehicles off the road, with injuries sustained. i think the problems with access put a lot of people off skiing.

I approve the proposed Plan Change. (Please alter your response as required).

I/We seek the following decision from the Council for the following reasons:

Please remove and add your own thoughts, but some thoughts are: - The proposed project only has positive spin-offs for NZ. An exciting project, which covers every base. New Zealand needs this kind of investment in the current economic climate. - Springfield, being the nearest town to Porters, will benefit hugely from this project also. There will be allot more infrastructure required here, and accommodation for construction and during operations. As a Springfield resident, and long time supporter of Porters Ski Field,, I would also expect the Selwyn Council to invest more effort into developing Springfield into a service providing town for the local ski fields. Springfield has long been shunned by the local council by disallowing consents, and largely neglecting the usual benefits a small town would enjoy. eg better street lighting, beautification, and more consistent service provisions. Why do Springfield residents pay similar rate to Rolleston and Lincoln for a much lesser service? - Existing Porters Ski Area needs to be upgraded; - This would be great to ensure Porters remains viable; - It would be great if New Zealand had the type of on mountain facility you can get overseas; - It would be great if we did not have to use our mountain access road; - This will bring thousands of tourists to the mountain and the Canterbury region; - This would be a great experience for New Zealanders and overseas skiers; - This allows lots more people to get the enjoyment from accessing Crystal; and - This will bring jobs into the Region.

I approve the proposed Plan Change.

I/We seek the following decision from the Council for the following reasons:

- Existing Porters Ski Area needs to be upgraded; - This would be great to ensure Porters remains viable; - It would be great if New Zealand had the type of on mountain facility you can get overseas; - It would be great if we did not have to use our mountain access road; - This will bring thousands of tourists to the mountain and the Canterbury region; - This would be a great experience for New Zealanders and overseas skiers; - This allows lots more people to get the enjoyment from accessing Crystal; and - This will bring jobs into the Region.

Submission:

I approve and wholly support the proposed Plan Change.

I/We seek the following decision from the Council for the following reasons:

South Island winter tourist attractions and recreational facilities are critical to sustain and grow the local economy. Investment in ski fields to ensure modern and up to date facilities is critical to continue to draw local and international enthusiasts for longer periods to this skiing mecca of New Zealand. My support of this plan change is based on - Existing Porters Ski Area is tired and needs to be upgraded; - Ensuring the continued viability of this ski field is critical to the SI ski industry - We need to invest in facilities that compete and meet international standards; - Securing ; - This will bring thousands of tourists to the mountain and the Canterbury region; - This allows lots more people to get the enjoyment from accessing Crystal; and - This will bring jobs into the Region.

Submission:

I approve the proposed Plan Change.

I/We seek the following decision from the Council for the following reasons:

Canterbury needs this! Having skied a lot overseas, a development like this would really enhance our region and boost jobs and tourism to the area. Porters is a popular ski area and so close to Christchurch, but the facilities really need to be upgraded and expanded. It would be great to not have to use the access road as well. This development looks like something we could be proud of. This will open up the mountains for many more people to enjoy in style and will boost the economy along the way!

I approve the proposed Plan Change.

I/We seek the following decision from the Council for the following reasons:

This is a great Ski field let down by its current facilities. the existing area needs to be upgraded and developed. This would be great to ensure Porters remains viable; The facilities need to be as good as other NZ fields and also have some facilities that could rival international fields.; The access, ability to get there quicker and have more tourists would be good for the canterbury and NZ economy.

I approve the proposed Plan Change.

I/We seek the following decision from the Council for the following reasons:

Please remove and add your own thoughts, but some thoughts are: - Existing Porters Ski Area needs to be upgraded; - This would be great to ensure Porters remains viable; - It would be great if New Zealand had the type of on mountain facility you can get overseas; I am a very keen skier presently living in China. I do all I can to promote NZ tourism as I am very proud of NZ. There is so much interest in our expat community about the types of ski facilities available in NZ especially since the winter is the opposite to most of the world. This could be a real drawcard to NZ to a place far more accessible than Queenstown. - It would be great if we did not have to use our mountain access road; - This will bring thousands of tourists to the mountain and the Canterbury region; - This would be a great experience for New Zealanders and overseas skiers; - This allows lots more people to get the enjoyment from accessing Crystal; and - This will bring jobs into the Region.

I approve the proposed Plan Change.

I/We seek the following decision from the Council for the following reasons:

I believe that this is a wonderful (and much needed) opportunity for Canterbury. It will deliver close to Christchurch skiing facilities of a type enjoyed in many places throughout the world. It will be a big attraction for Cantabrians and those further afield. Avoiding the need for mountain roads is a massive benefit. Having considered the matter carefully I don't believe Porters current location will continue to be viable. I have no doubt that Crystal will be developed in a sensible and environmentally sustainable way. All Cantabrians can benefit from this development through the area becoming accessible, the jobs and tourism that will be created and the unique ski facility operations.

I approve the proposed Plan Change. (Please alter your response as required). I spent 2 years in Vancouver and have just got back to NZ. In those 2 years I took up snowboarding and managed to ski Whistler and the local Vancouver mountains regularly but have never skied NZ. People have told me to be prepared to be disappointed after Canada as the facilities are not upto standard here. Bring this world class facility to NZ!! Let's not make another mistake (sporting stadiums, roading, etc)

I/We seek the following decision from the Council for the following reasons:

Please remove and add your own thoughts, but some thoughts are: - Existing Porters Ski Area needs to be upgraded; - This would be great to ensure Porters remains viable; - It would be great if New Zealand had the type of on mountain facility you can get overseas; - It would be great if we did not have to use our mountain access road; - This will bring thousands of tourists to the mountain and the Canterbury region; - This would be a great experience for New Zealanders and overseas skiers; - This allows lots more people to get the enjoyment from accessing Crystal; and - This will bring jobs into the Region.

I approve the proposed Plan Change.

I/We seek the following decision from the Council for the following reasons:

I am an Australian ski/mountain enthusiast of 30+ years - father/family of 4. During those years I have skied/stayed in and around the mountains of Australia, NZ, France, Switzerland, Austria, Italy, USA, Canada, Japan, Chile and Argentina. NZ will always attract "one off" tourist visitation due to its natural beauty, friendly people, value for money, geographical position for Australians etc. However, year after year return ski \$\$\$s are being missed in NZ due to other countries offering better on mountain infrastructure and the subsequent ski resort/mountain experience. Over my life, return Australian ski \$\$\$s have gone to Canada/Japan due to snow amounts/quality, the on mountain accommodation/experience and convenient transfers to and from resorts/airports. Of note: these experiences are during the Southern Hemisphere Summer! NZ/Canterbury would benefit greatly from offering international skiers an on mountain ski resort such as the Porters proposal. Being so close to Christchurch (shuttle transfer away), makes it a very attractive/competitive option to return ski/snow enthusiasts from Australia, North America, Europe and Japan.

I approve the proposed Plan Change. The positive results from the development of the porters ski area, will bring huge economic, and social benefits to canterbury.

I/We seek the following decision from the Council for the following reasons:

Canterbury will become an alternative to Queenstown, Flights can come directly to chch with a 45min trip to the ski area. - Existing Porters Ski Area needs to be upgraded; - This would be great to ensure Porters remains viable; - It would be great if New Zealand had the type of on mountain facility you can get overseas; - It would be great if we did not have to use our mountain access road; - This will bring thousands of tourists to the mountain and the Canterbury region; - This would be a great experience for New Zealanders and overseas skiers; - This allows lots more people to get the enjoyment from accessing Crystal; and - This will bring jobs into the Region.

Submission:

I approve the proposed Plan Change. However please keep it green guys Would love to see a sustainable slopes plan in the proposal

I/We seek the following decision from the Council for the following reasons:

Please remove and add your own thoughts, but some thoughts are: - Existing Porters Ski Area needs to be upgraded; - This would be great to ensure Porters remains viable; - It would be great if New Zealand had the type of on mountain facility you can get overseas; - It would be great if we did not have to use our mountain access road; - This will bring thousands of tourists to the mountain and the Canterbury region; - This would be a great experience for New Zealanders and overseas skiers; - This allows lots more people to get the enjoyment from accessing Crystal; and - This will bring jobs into the Region.

Submission:

I approve and am in full support of the proposed Plan Change.

I/We seek the following decision from the Council for the following reasons:

Existing Porters Ski Area has huge potential for expansion Providing the first world class facility in New Zealand would attract wealthy tourists to NZ The new facility will provide jobs and also provide competition for MT Hutt currently the only real commercial field in the area. Mt Hutt has been taking advantage of their position for too long, this facility would be a great success for all skiers and snowboarders in the canterbury region. It will provide world class facilities that far more accessible than wanaka attracting more tourists from wanaka and further abroad.

** Submission **

My/Our Submissions is: : I am an Australian that has been coming to the Craigieburn Range for the past 4 years for ski holidays. I go to the Craigieburn Valley (including Porters) and not to Thredbo, Perisher, Queenstown or Mt Hutt because it is different and I think it is unique in the world. Any significant change to one resort has the potential to negatively impact on the whole valley.

I would like to comment on each of the form answers provided by Porters in their request for submissions:

- Existing Porters Ski Area needs to be upgraded - why does it need to be upgraded? It provides excellent infrastructure, one of the best access roads in the region, affordable uncrowded skiing and a friendly atmosphere.
- This would be great to ensure Porters remains viable - What evidence is there that Porters is not viable now? Why would the Harveys invest \$7 million if it was not a viable investment. One alternative would be for them to sell the resort.
- It would be great if New Zealand had the type of on mountain facility you can get overseas - why? The reason I go to New Zealand skiing is exactly because it is not like resorts overseas.
- It would be great if we did not have to use our mountain access road - I agree, the construction of a Gondola would make the mountain safer.
- This will bring thousands of tourists to the mountain and the Canterbury region - This would significantly change the nature of the region. Would you prefer to see Springfield or Castle Hill Like Methven or Queenstown? we need to preserve what is unique about the region.
- This would be a great experience for New Zealanders and overseas skiers - no, it would be an experience the same as you could get anywhere else in the world.
- This allows lots more people to get the enjoyment from accessing Crystal - the beauty of going to Crystal now is that there are not hundreds or thousands of people there. If you want to see it now all you have to do is do an avalanche course and you can do it for free and get freshies all day.

- This will bring jobs into the Region - it may increase some jobs in the region. It will also increase house prices, accomodation costs, lift lines, reduce available freshies, increase pressure on the environment, remove the small town feel of local towns, increase the number of bogan Australians.

The motivation by the developers is solely to make money. The council has a critical role here to balance any requests for development with what is best for the local community.

I/We seek the following decision from the Council for the following reasons : I seek that the council refuse the submission as it will negatively impact on the nature of the Craigieburn Valley.

I think that although a development of this nature has the potential to temporarily increase jobs, that will be at the expense of intrinsic natural and tourist potential that the valley already possesses. There are already very few places like the Craigieburn Valley and the lack of large scale resort development is one of the factors that gives it that value.

Resource Management (Forms, Fees, and
Procedure) Regulations 2003

Schedule 1

Form 5
Submission on publicly notified Plan Change
Selwyn District Plan

Clause 6 of First Schedule, Resource Management Act 1991

To Selwyn District Council
2 Norman Kirk Drive
PO Box 90
Rolleston
Christchurch 7614
FAX: 03-347-2799

1. Full name of submitter: Peter Mark Reese

This is a submission on the following proposed Plan Change:

Plan Change 25 (name and number of Plan Change)

2. The specific provisions of the proposal that my submission relates to are:

The entire plan change
(give details).

3. *My submission in SUPPORT / ~~OPPOSITION~~ is:

As an ex Gntabrian I think that pc25 represents a unique opportunity for the region. New Zealand needs to foster more tourism and this proposal will allow Gntabrian to offer the sort of on mountain experience that is currently unavailable at any other skifield in New Zealand ie within an hour of an international airport, no daily travel up the mountain and avoiding use of dangerous access roads. It will also create hundreds of jobs in the region.

*Include whether you SUPPORT or OPPOSE specific parts of the plan change or wish to have them amended; and the reasons for your views. Continue on a separate sheet if necessary.

4. †I seek the following decision from Selwyn District Council:

Approve the plan change

†Give precise details, including the nature of any change sought. Continue on a separate sheet if necessary.

5. I WISH / DO NOT WISH to be heard in support of my submission (delete as applicable)
6. If others make a similar submission, I will consider presenting a joint case with them at a hearing
(delete if you would not consider presenting a joint case)

7.  24/8/2010

1. FULL NAME of Submitter:

George Bradshaw

This is a submission on the following Proposed Porters Ski Area Expansion and Village Plan Change (#25).

2. The specific provisions of the proposal that my submission relates to are:

All of the plan change.

3. My submission in SUPPORT is (tick grey boxes as appropriate):

- ☒ It will provide major public recreation, social and economic benefits to the local community and wider region.
- ☒ It is a logical addition to the existing Porters Ski Area.
- ☒ Replanting of native beech forest will be great for the local environment.
- ☒ All of the above.

Additional comments: *This will bring many economic benefits in addition to allowing a wider audience to enjoy NZ's fantastic environment. There are still more "back to basics" ski fields than commercial fields in Canterbury and a wider mix in the level of facilities makes sense.*

4. I seek the following decision from the Selwyn District Council:

Approve the plan change.

Approve ✓

1. Full name of Submitter: ~~XXXXXXXXXX~~ GARRY M RAE ~~XXXXXXXXXX~~

This is a submission on the following Proposed **Porters Ski Area Expansion and Village Plan Change (No. 25)**

2. The specific provisions of the proposal that my submission relates to are:

- (a) Improving access for recreational skiers to Crystal Valley
- (b) Replacing existing T bars with chair lifts
- (c) Restore and replant Beech forest
- (d) Open area for summer activities especially mountain biking & walking.

(Give details)

3. My submission in SUPPORT/OPPOSITION is:

After Support plan changes to allow the development to go ahead, I believe that the development of this area will enhance the region and promote Porters as a great summer as well as winter destination, with more and more young people taking up skiing the opening up of Crystal Valley will ensure that safer options are now presented with out the need for them to tramp into unpatrolled areas to seek the fabulous snow held in the Crystal Valley.

*Include whether you SUPPORT or OPPOSE specific parts of the plan change or wish to have them amended; and the reasons for your views. Continue on a separate sheet if necessary.

4. I seek the following decision from Selwyn District Council:

Allow the proposed changes to be
passed.

Selwyn District Council
PO Box 90
Rolleston 7643

Dear Sirs

RE: PORTERS PROPOSED EXPANSION

The NZ Snowsports Council (NZSC) is an umbrella body representing the following organisations:
Ski Areas Association NZ (Commercial Ski Areas, Club areas and suppliers)
NZ Snow Industries Federation (importers, wholesalers, retailers/rental outlets)
Snow Sports NZ (Competitive snowsports organisations)
NZ Mountain Safety Council

The NZSC was established in 1988 to encourage increased participation in snow sports for New Zealanders and overseas visitors of all ages and abilities. Our vision: Growth in snow sports for all – snow for life

Growing participation in snowsports and recreation has been and continues to be the NZSC's aim on behalf of its member organisations. We all have a vested interest in this aim.

The industry measures its growth by seasonal ski area visits (number of lift passes sold). In 1988 commercial ski areas achieved 616,000 ski area visits. In 2009 ski areas achieved 1,536,000 (record for the industry) ski area visits.

Investment by ski areas has proven that growth is eminent and will continue. The increase in ski area visits and resulting growth over the past 22 years is a result of the following:

1. Investment in lifts, snowmaking and customer services
2. Increased and improved marketing (collective and individual marketing budgets)
3. Improved access to ski areas - main highways and mountain roads
4. Advent of snowboarding and other snow sports such as free skiing
5. Increase in the Australian market – eg direct flights into the southern lakes area

The NZSC and its member organisations have supported industry members throughout this period as we know investment in new developments help achieve our vision and aim.

The Porters Proposed Expansion is a great example of a new development which will generate further growth in snow sports and recreation in NZ and the Canterbury region.

1. Investment in lifts, snowmaking and customer services

The Crystal Valley development and Porters Basin upgrade with new lifts, snow making, village and state of the art customer services will result in further snow sports growth making Porters a very viable and attractive destination equal to any snow sports destination anywhere in the world.

2. Increased and improved marketing (collective and individual marketing budgets)

The increased growth highlighted above has occurred mainly in the Southern Lakes Region (Queenstown and Wanaka) and Mt Ruapehu Region. Both regions have the benefit of two or more large developed ski areas strengthening each region's attractiveness as a snow sports and recreation destination.

The Porters expansion will provide Canterbury with two large developed ski area destinations as well. Canterbury will be seen as a more attractive destination for snow sports and recreation. It will be on the same level as the Southern Lakes and Mt Ruapehu regions both experiencing huge growth in the past two decades. From a marketing point of view Canterbury can be marketed much more strongly off shore in Australia particularly and in the North Island on the same basis offering two well developed and accessed ski area destinations.

3. Improved access to ski areas - main highways and mountain roads

The access to Porters Ski Area has always been good with a main and well maintained sealed highway servicing Canterbury and the West Coast with a short ski area gravel road to Porter's ski area car park and lifts.

The Porters expansion improves the current access considerably with the addition of a short tar sealed road to the village and gondola accessing the chairlifts in Porter's Basin and Crystal Valley.

Improved access to any ski area results in increased growth especially in present and future times where participants want to arrive at destinations as quickly, efficiently and safely as possible. Examples of how growth is enhanced by improving access to ski areas include the sealed road to Coronet Peak only 25 minutes from Queenstown, sealing the Crown Range Road (including barriers) has increased Cardrona's visits out of Queenstown, sealed roads at Turoa and Whakakapa at Mt Ruapehu. Interestingly the four ski areas mentioned have experienced the most growth of any of our commercial ski areas in NZ.

4. Advent of snowboarding and other snow sports such as free skiing

Snowboarding has helped the industry increase participation in snow sports over the last 15 years. Currently 38% of ski area visits are snowboarders.

It is widely known world wide that snowboarders do not like surface lifts such as t-bars, platters and tow ropes. Surface lifts are hard to ride and they find chairlifts much easier being elevated off the snow.

The Porters expansion with new chairlifts in the Porters Basin and Crystal Valley will enable further growth attracting more snowboarders to the ski area. Ski areas serviced by chairlifts have more snowboarders participating.

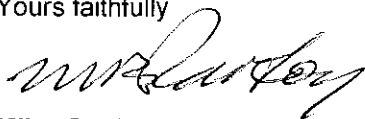

5. Increase in the Australian market – eg direct flights into the southern lakes area

The Australian tourism market is the most important off shore market we have annually and this includes winter. Numbers out of Australia for snow sports have increased dramatically since direct flights started into Queenstown. We are now attracting 80,000 Australians a year for snow sports and with increased marketing efforts this figure can continue to grow.

Christchurch being our second largest international gateway and having many more international flight arrivals than Queenstown is in a perfect position to handle more Australian visitors in winter. The Porters expansion will attract more Australians to Christchurch and being only a short distance from the ski area and village is ideally placed from an access point of view.

I am very happy to attend any planning hearing regarding the Porters Expansion to expand on these points.

Yours faithfully

Miles Davidson
Executive Director
