3. My submission in ~~SUPPORT~~/OPPOSITION is:

I ^{strongly} support the submission because it will bring social and economic benefits to the region and New Zealand. I think it would be great also because of Porters seem committed to protecting the environment and ~~may~~ even if there was any damage to the mountain we can be sure that it would be repaired and have minimal effect overall. I think the new jobs and new facilities far outweigh the environmental side of things.
