Dear Sirs

RE: PORTERS PROPOSED EXPANSION

The NZ Snowsports Council (NZSC) is an umbrella body representing the following organisations:

- Ski Areas Association NZ (Commercial Ski Areas, Club areas and suppliers)
- NZ Snow Industries Federation (importers, wholesalers, retailers/rental outlets)
- Snow Sports NZ (Competitive snowsports organisations)
- NZ Mountain Safety Council

The NZSC was established in 1988 to encourage increased participation in snow sports for New Zealanders and overseas visitors of all ages and abilities. Our vision: Growth in snow sports for all – snow for life

Growing participation in snowsports and recreation has been and continues to be the NZSC's aim on behalf of its member organisations. We all have a vested interest in this aim.

The industry measures its growth by seasonal ski area visits (number of lift passes sold). In 1988 commercial ski areas achieved 616,000 ski area visits. In 2009 ski areas achieved 1,536,000 (record for the industry) ski area visits.

Investment by ski areas has proven that growth is eminent and will continue. The increase in ski area visits and resulting growth over the past 22 years is a result of the following:

1. Investment in lifts, snowmaking and customer services
2. Increased and improved marketing (collective and individual marketing budgets)
3. Improved access to ski areas - main highways and mountain roads
4. Advent of snowboarding and other snow sports such as free skiing
5. Increase in the Australian market – eg direct flights into the southern lakes area

The NZSC and its member organisations have supported industry members throughout this period as we know investment in new developments help achieve our vision and aim.

The Porters Proposed Expansion is a great example of a new development which will generate further growth in snow sports and recreation in NZ and the Canterbury region.

1. Investment in lifts, snowmaking and customer services

The Crystal Valley development and Porters Basin upgrade with new lifts, snow making, village and state of the art customer services will result in further snow sports growth making Porters a very viable and attractive destination equal to any snow sports destination anywhere in the world.

2. Increased and improved marketing (collective and individual marketing budgets)

The increased growth highlighted above has occurred mainly in the Southern Lakes Region (Queenstown and Wanaka) and Mt Ruapehu Region. Both regions have the benefit of two or more large developed ski areas strengthening each region's attractiveness as a snow sports and recreation destination.

The Porters expansion will provide Canterbury with two large developed ski area destinations as well. Canterbury will be seen as a more attractive destination for snow sports and recreation. It will be on the same level as the Southern Lakes and Mt Ruapehu regions both experiencing huge growth in the past two decades. From a marketing point of view Canterbury can be marketed much more strongly off shore in Australia particularly and in the North Island on the same basis offering two well developed and accessed ski area destinations.

3. Improved access to ski areas - main highways and mountain roads

The access to Porters Ski Area has always been good with a main and well maintained sealed highway servicing Canterbury and the West Coast with a short ski area gravel road to Porter's ski area car park and lifts.

The Porters expansion improves the current access considerably with the addition of a short tar sealed road to the village and gondola accessing the chairlifts in Porter's Basin and Crystal Valley.

Improved access to any ski area results in increased growth especially in present and future times where participants want to arrive at destinations as quickly, efficiently and safely as possible. Examples of how growth is enhanced by improving access to ski areas include the sealed road to Coronet Peak only 25 minutes from Queenstown, sealing the Crown Range Road (including barriers) has increased Cardrona's visits out of Queenstown, sealed roads at Turoa and Whakakapa at Mt Ruapehu. Interestingly the four ski areas mentioned have experienced the most growth of any of our commercial ski areas in NZ.

4. Advent of snowboarding and other snow sports such as free skiing

Snowboarding has helped the industry increase participation in snow sports over the last 15 years. Currently 38% of ski area visits are snowboarders.

It is widely known world wide that snowboarders do not like surface lifts such as t-bars, platters and tow ropes. Surface lifts are hard to ride and they find chairlifts much easier being elevated off the snow.

The Porters expansion with new chairlifts in the Porters Basin and Crystal Valley will enable further growth attracting more snowboarders to the ski area. Ski areas serviced by chairlifts have more snowboarders participating.

5. Increase in the Australian market – eg direct flights into the southern lakes area

The Australian tourism market is the most important off shore market we have annually and this includes winter. Numbers out of Australia for snow sports have increased dramatically since direct flights started into Queenstown. We are now attracting 80,000 Australians a year for snow sports and with increased marketing efforts this figure can continue to grow.

Christchurch being our second largest international gateway and having many more international flight arrivals than Queenstown is in a perfect position to handle more Australian visitors in winter. The Porters expansion will attract more Australians to Christchurch and being only a short distance from the ski area and village is ideally placed from an access point of view.

I am very happy to attend any planning hearing regarding the Porters Expansion to expand on these points.

Yours faithfully

Miles Davidson
Executive Director

Re Submission on Publicly Notified Plan Change 25

To whom it may concern

We wish to lodge our support for the proposed plan change (Change 25).

As a long established tour operator, we market travel packages for Australians to holiday in New Zealand. We urge the Council to approve the proposed change for the following reasons.

Upon completion, the Proposed Porters Expansion Project will assist in establishing Canterbury as a premier skiing destination, attractive to Australian skiers, as it offers two world class ski areas.

- .. *We believe that travel agents will be very supportive of the new and improved destination and will actively encourage more Australians to holiday in Canterbury.*
- .. *The upgraded ski area will be particularly attractive to families as they will be able to stay on the snow, and as it offers extensive beginner/intermediate terrain.*
- .. *The close proximity to a large International airport, serviced by numerous airlines.*

Re: Submission on Publicly Notified Plan Change 25

We wish to lodge *our* support for the proposed plan change (Change 25).

As tour wholesalers we develop travel packages for Australians to holiday in New Zealand, we seek the Council to approve the proposed change for the following reasons.

- The Proposed Porters Expansion Project will assist in establishing Canterbury as a premier skiing destination, particularly attractive to Australian skiers, as it offers two modern ski areas to choose from.
- With our core customer base being holidaying families, we believe that the upgraded ski area will allow us to offer New Zealand as viable alternative to those currently holidaying in Japan, North America or Europe, where they are able to be accommodated on the snow and enjoy access to extensive beginner/intermediate terrain.
- Holiday makers will not have the worry of travelling up a snowy access road – driving conditions that most Australians are unfamiliar with.
- Being located so close to a large international airport that is serviced by numerous airlines will greatly assist in packaging cost effective holidays.

We are happy to supply additional information if required.

Re: Submission on Publicly Notified Plan Change 25

To whom it may concern

We wish to lodge our support for the proposed plan change (Change 25).

As a tour wholesaler we develop travel packages for Australians to holiday in New Zealand. We seek the Council to approve the proposed change for the following reasons.

- Upon completion the Proposed Porters Expansion Project will assist in establishing Canterbury as a premier skiing destination, attractive to Australian skiers, as it offers two world class ski areas. The ski in/out accessibility will be of great interest to the Australian market and certainly increase bookings to the region. Our current figures of 20,000 room nights per year to New Zealand would greatly increase.
- We believe that travel agents will be very supportive of the new and improved destination and will actively encourage more Australians to holiday in Canterbury. With easy access from the Australian ports, we would expect a substantial shift of Aussies making the journey to Queenstown and turn their attention towards the Canterbury region.
- The upgraded ski area will be particularly attractive to families as they will be able to stay on the snow, and as it offers extensive beginner/intermediate terrain. The family market is ever increasing and it would be a sizeable advantage to have a convenient ski field and surrounding complex within touching distance of Christchurch.
- Holidaymakers are used to easy access from Australian resorts to the ski fields and the Porters option would be very appealing to first time skiers to NZ as this would allow them to miss the unfamiliar journey up and down the access roads.

We at Value Tours believe that this project would increase awareness, sales and provide a world class skiing option to our Australian clients.

We are happy to supply additional information if required.
