I/We seek the following decision from the Council for the following reasons:

- Existing Porters Ski Area needs to be upgraded;
- This would be great to ensure Porters remains viable;
- It would be great if New Zealand had the type of on mountain facility you can get overseas;
- It would be great if we did not have to use our mountain access road;
- This will bring thousands of tourists to the mountain and the Canterbury region;
- This would be a great experience for New Zealanders and overseas skiers;
- This allows lots more people to get the enjoyment from accessing Crystal; and
- This will bring jobs into the Region.

I/We seek the following decision from the Council for the following reasons:

- Existing Porters Ski Area should be upgraded to world class standards;
- It would be a boost to the micro and macro economy of the region.
- It would be a NZ first to have this type of mountain facility.
- It would be one of the safest access roads for a ski field in NZ;
- This potentially could bring tens of thousands of tourists to the region.
- This would provide one of the best ski and mountain experiences for Kiwis and overseas visitors alike.
- This will bring many more jobs and tourists to the Region.

Submission:

I approve the proposed Plan Change. This will be of huge benefit to the entire region, and after such a shaky two weeks since the earthquake some good news is just what we need. Tourism is obviously a huge market, and growing all the time. The approval of the crystal valley to a ski zone is a very big draw card to skiers all over the world.

I/We seek the following decision from the Council for the following reasons:

- Existing Porters Ski Area needs to be upgraded;
- This would be great to ensure Porters remains viable;
- It would be great if New Zealand had the type of on mountain facility you can get overseas;
- It would be great if we did not have to use our mountain access road;
- This will bring thousands of tourists to the mountain and the Canterbury region;
- This would be a great experience for New Zealanders and overseas skiers;
- This allows lots more people to get the enjoyment from accessing Crystal; and
- This will bring jobs into the Region.

I approve the proposed Plan Change. Canterbury has been slowly overtaken by the Southern Lakes as a ski destination as the on snow facilities have increased/improved. My experience is as a ski/snowboard retailer and supplier to the inbound tour operators for 24 years. During that period Canterbury has changed from being an international ski destination to a brief stopover or not at all on the way to the Southern Lakes. There are two major reasons for this. Room rates is one problem but by far the biggest problem is a perception of choice. Canterbury has 1 international ski area Mt Hutt, Porters in its current format is not a real option for international/Australian visitors. If the Porters development goes forward it will mean that there are two 1st class Ski Areas in Canterbury. Perception of choice is a key driver for inbound tourists

I approve the proposed Plan Change. It is currently very difficult for young families to get to the skifields close to Christchurch. The roundtrip, at best is 3hours which is difficult with young children. The road conditions also require a 4WD to feel safe irrespective of what the rules are on any particular day. Those of us not fortunate enough to own baches in the area must travel in and out on the same day or travel from rented baches some distance to the fields. What a wonderful, wonderful destination the proposed Porters ski field expansion would be. SO progressive. It would be a huge hurdle overcome if we were able to drive a normal car to the bottom of a gondola and ride in comfort and ease and safety up the mountain. We would be regulars. Visitors to NZ are rightly horrified at the lengths they are currently required to go to to get skiing considering what is on offer overseas. I support this proposal wholeheartedly.

I approve the proposed Plan Change, because Selwyn is a Ski destination!, and while we're at it Selwyn needs to be a destination too, not a drive through. And we need more attractions in the Selwyn District, and as part of the Selwyn Six Ski field group this can only benefit the whole District from the Lake to the Quake and up to the main divide.

I/We seek the following decision from the Council for the following reasons:

- Existing Porters Ski Area needs to be upgraded;
- This would be great to ensure Porters remains viable;
- It would be great if New Zealand had the type of on mountain facility you can get overseas;
- It would be great if we did not have to use our mountain access road;
- This will bring thousands of tourists to the mountain and the Canterbury region;
- This would be a great experience for New Zealanders and overseas skiers;
- This allows lots more people to get the enjoyment from accessing Crystal; and
- This will bring jobs into the Region.

I approve the proposed Plan Change. Our business relies on winter accesable winter locations for filming snow commercials, to have a modern looking ski area and associated buildings, hotels, will make Canterbury a more desirable shooting location, companies such as CocaCola, recently film in Queenstown for (Whistler) to make a pre commercial for the winter Olimpics, we are a desirable off season Location for North America, Europe, North Asia, Japan. To have these facilities will bring economic benefits to the winder Cantabury region, in jobs and materials, as well as accomodation and dining, rental cars, etc

I approve the proposed Plan Change. This upgrade would bring more winter business to the canterbury area - however it could be enhanced with walking traks around the Porters area so business could be enhanced during all seasons - open walking and hiking traks brings big business to Swiss alpine areas for Late spring, summer and autom, the same should be available in NZ to make it sustainable. Business all seasons would also bring ticketing prices for facilites down even more attracting people into this area. In Swistzerland as an example one can ski a whole valley for the price you pay at Porters now. To be compatable not just in size we have to stay compatable in price also otherwise there is not point to fly to the other side of the world in a climate of down - turn espacially

I approve the proposed Plan Change. (Please alter your response as required).

I/We seek the following decision from the Council for the following reasons:

- Existing Porters Ski Area needs to be upgraded;
  - This would be great to ensure Porters remains viable;
  - It would be great if New Zealand had the type of on mountain facility you can get overseas;
  - It would be great if we did not have to use our mountain access road;
  - This will bring thousands of tourists to the mountain and the Canterbury region;
  - This would be a great experience for New Zealanders and overseas skiers;
  - This allows lots more people to get the enjoyment from accessing Crystal; and
  - This will bring jobs into the Region.
- The climate gives stable weather for skiers on holiday .

Submission:

I approve the proposed Plan Change to re-zone the land from 'Rural High Country' zone to 'Ski Area' zone under the Selwyn District Plan. This is a zone type that has been used in Queenstown and Wanaka for some 15+ years and is entirely appropriate for the Porters Ski Area. See below for further reasons.

I approve the proposed Plan Change because it has vision and understanding for the surrounding areas. It is a growth resort run by responsible people and has always had such a great atmosphere and commitment to safety and enjoyment.
