Donald Stranack Cottle Wright (R)	<b>S81</b>	<b>D1</b>	Oppose	We have serious concerns about our position regarding Plan Change 7 and the proposed 'Living Z' zone. We would prefer that Springton-Rolleston Road be given immediate development and high density status (Stage 1). This could be done by adding the land on the southern side of the road to the proposed SR6 and SR7 zones. Or creating new sub-zones SR6A and SR7A with some different conditions, if necessary.	Yes
Rolleston Square Limited (R)	<b>S82</b>	<b>D1</b>	Oppose	Plan Change 7 should be declined. Otherwise amendments should be made as follows:	Yes
		<b>D2</b>	Amend	Policy 3.4.3 which seeks to provide living zones with neighbourhood centres. The term "neighbourhood centres" is not defined in the Plan. There is no guidance given on the types of activities that can take place in neighbourhood centres, nor is there any guidance on the size of neighbourhood centres. Improperly designed neighbourhood centres have the potential to adversely effect the function, vitality and amenity of the existing Rolleston Town Centre. This should be deleted	Yes
		<b>D3</b>	Amend	Objective B4.3.1 deals with the expansion of townships. It does not contain any reference to protecting the function, vitality and amenity of the existing town centres. It is submitted that the objective be amended to ensure that the expansion of townships does not adversely affect the function, vitality and amenity of existing town centre	Yes
		<b>D4</b>	Amend	The changes to Objective B4.3.3 seeks to remove the requirement for the rezoning of land to occur by way of a consistent and equitable treatment of development is undesirable. It is submitted that the changes sought to this Objective should also include reference to a consistent and equitable process.	Yes
		<b>D5</b>	Amend	Policy B4.3.9 deals with development that is not in general accordance with an operative Outline Development Plan. The Policy does not provide any protection to the function, vitality and amenity of the existing Rolleston Town Centre. It is submitted that the Policy should be amended to include reference to the protection of the function, vitality and amenity of the existing Rolleston Town Centre	Yes

Submitter	Submission No	Decision No	Request	Decisions Sought	Wishes to be heard
		D6	Amend	Policy 4.3.68 ODP Area 1 Rolleston - The part of the Policy relating to ODP Area 1 contains reference to the "provision of a local business centre". No further guidance is given as to what constitutes a "local business centre". No reference to the types of activities or the size of the local business centre is given in the Policy. Given the lack of controls on the development of the local business centre within ODP Area 1, development could occur in such a way that detracts from the function, vitality and amenity of the existing Rolleston Town Centre. In the circumstances, it is submitted that reference to the provision of a local business centre ODP Area 1 should be deleted. Alternatively express reference should be made in the Policy to require the provision of a local business centre only if the provision of such a centre does not affect the function, vitality and amenity of the existing Rolleston Town Centre	Yes
		D7	Amend	Policy 4.3.68 ODP Area 6 Rolleston - The part of the Policy relating to ODP Area 6 contains reference to the provision of a neighbourhood centre in the vicinity of the intersection of Goulds Road and East Madison Road. The term "neighbourhood centres" is not defined in the Plan. There is no guidance given on the types of activities that can take place in neighbourhood centres, nor is there any guidance on the size of neighbourhood centres. Improperly designed neighbourhood centres have the potential to adversely effect the function, vitality and amenity of the existing Rolleston Town Centre. In these circumstances, the reference to "neighbourhood centres" in that part of Policy B4.3.68 should be deleted.	Yes
		D8	Oppose	The plan provisions which seek to introduce medium density housing refer to the Medium Density Housing Guide. The Medium Density Housing Guide has not yet been finalised and is still in draft form. It is inappropriate to rely on a document which is still in draft form as the basis upon which the changes to medium density housing are promulgated. In order to properly understand the justification for Plan Change 7, the Medium Density Housing Guide must, first be completed.	Yes
		D9	Oppose	There are a number of issues with Medium Density Housing which Plan Change 7 seeks to introduce into the District Plan. In particular, the rules package which Plan Change 7 seeks to introduce provide for a decrease in the ratio of visible public open space per household. This is contrary to the Section 32 analysis which refers to the need for open space. Extra effective and functional open space is a key requirement for successful medium density housing. This appears to have been overlooked in Plan Change 7	Yes

Submitter	Submission No	Decision No	Request	Decisions Sought	Wishes to be heard
		<b>D10</b>	Oppose	There are inconsistencies between the density requirements set out in Plan Change 1 to the RPS, the Rolleston Structure Plan and the Section 32 analysis for Plan Change 7. There is no justification for housing densities exceeding 15 household units per hectare (as provided for in Plan Change 7) as this limits the ability to provide visible public open space and to retain existing character or open space together with single level housing	Yes

		<b>D6</b>	Support	Policy 3.4.3 should be retained	Yes
		<b>D7</b>	Oppose in part	The following text in Policy B4.2.3 is contradictory to the Road Network and Density Plan (ODP Area 1 - Lincoln). Ngai Tahu request (as stated above) that Selwyn District Council redesigns the location of the proposed stormwater system in the ODP Area 2.	Yes
		<b>D10</b>	Amend	ODP Area 3 (Lincoln) - Ngai Tahu wish to see the establishment of a 'springs reserve' as discussed in ODP Area 2, and seek that the area be given specific plantings to support customary use by the local whanau and hapu. Ngai Tahu also considers there is a lack of protection given to the existing drain/race that runs off Birches Rd, and Ngai Tahu seek that the Council includes riparian planting as a buffer along this drain/race	Yes
		<b>D11</b>	Support	ODP Area 3 (Lincoln) - The planting of streets and reserves with special trees and landscaping in ODP Area 3 is supported but Ngai Tahu request that specific reference is made to planting locally sourced indigenous species in particular especially where streets are adjacent to springs and waterways. 		<b>D6</b>	Amend	This policy is intended to provide for some flexibility in the phasing of development, in accordance with the enabling provisions of the Resource Management Act 1991. It recognises that there may be a number of ways of providing for and funding infrastructure requirements, including developer-funding upgrades (to be subsequently recovered from the COuncil where the upgrades have wider public benefits), and temporary solutions which generate capital contributions to the Council upgrades programmed for a later date. Such flexibility will help ensure a continuous supply of residential sections in accordance with market demand, and avoid the potential for a few landowners allocated to 'early stages' 'monopolising' the development process"	Yes
		<b>D7</b>	Amend	Explanation and Reasons of Policy 4.3.9 (renumbered 4.3.10) to read as follows: "... It is nonetheless recognised that through the detailed preparation of subdivision consent applications or asset design processes there is the potential for alternative solutions or routes to be developed that still achieve the outcomes sought in the ODPs than the broad land use pattern shown on the ODP. When assessing applications for development that is not in accordance with an ODP, it is anticipated that such applications will only be granted where they are able to demonstrate that the proposed development still achieves the key principles and outcomes sought in the ODP than the layout shown in the ODP. 		<b>D5</b>	Amend	Policy B4.3.7 as follows: "Each Outline Development Plan shall include: "(vi) Set out the staging and coordination of subdivision and development in line with the staging shown on the Planning Maps, except where it can be demonstrated that the rate and location of development can be integrated with the provision of infrastructure and associated funding mechanisms by a different method to that which forms the basis for the applicable development staging provisions in the District Plan and Plan Change 1 to the Canterbury Regional Policy Statement"	Yes
		<b>D6</b>	Amend	Policy B4.3.8 as follows: "Except as provided for in Policy B4.3.9, ensure that the staging of any Greenfield urban growth area shown on the Planning Maps occurs as follows:"	Yes
		<b>D7</b>	Amend	New Policy B4.3.9 as follows: "Enable development to proceed ahead of the phasing requirements set out in Policy B4.3.8 and as shown on the Planning Maps and appendices in circumstances where it can be demonstrated that the rate and location of development can be integrated with the provision of infrastructure and associated funding mechanisms by a different method to that which forms the basis for the applicable development phasing provisions in the District Plan and Change 1 to the Canterbury Regional Policy Statement.	Yes
				This policy is intended to provide for some flexibility in the staging of development, in accordance with the enabling provisions of the Resource Management Act 1991. It recognises that there may be a number of ways of providing for and funding infrastructure requirements, including developer-funding upgrades (to be subsequently recovered from the COuncil where the upgrades have wider public benefits), and temporary solutions which generate capital contributions to the Council upgrades programmed for a later date. Such flexibility will help ensure a continuous supply of residential sections in accordance with market demand, and avoid the potential for a few landowners allocated to 'early stages' 'monopolising' the development process"

When assessing applications for development that is not in accordance with an ODP, it is anticipated that such applications will only be granted where they are able to demonstrate that the proposed development still achieves the key principles and outcomes sought in the ODP than the layout shown in the ODP.	yes
