

Name of further Submitter	Jason Horne
I/we made a submission on the Proposed Plan Change - My Submitter ID number is	PC73 -0006
Submitter Address	4 Delamare Way, Rolleston 7614
I am a person who has an interest in the proposal that is greater than the interest the general public has (for example, I am affected by the content of a submission) (in this case, also specify the grounds for saying that you come within this category)	Please state the grounds as to why you come within the category selected above: This plan proposal directly impacts on me personally

This further submission is in relation to the submission of:	The particular submission point I/we support <i>or</i> oppose is:	My/our position on this submission point is:	The reasons for my/our support <i>or</i> opposition are:	The decision I/we want Council to make:
PC73-0015	001	Oppose	Cannot see how increased dense living will result in positive environmental impacts when more housing = more waste, more traffic, more pollution. Do not consider the sheer amount of new dwellings proposed an orderly expansion to Rolleston. The infrastructure is not adequate to deal with the increased amount of use it will have. Rooding especially around the area will be congested and create a significant hazard for the school and whole community.	disallowed
PC73-0017 - 0042	001	Oppose	Oppose the initial land rezoning and further more do not support any other sections being re-zoned to the benefit of the current land owners. These are substantial increases in population density that do not need further support from other land owners. This would increase problems already identified with the environmental impacts, roading, schooling etc.	disallowed
PC73-0047	001	Oppose	Oppose the initial land rezoning and further more do not support any other sections being re-zoned to the benefit of the current land owners.	disallowed

			These are substantial increases in population density that do not need further support from other land owners. This would increase problems already identified with the environmental impacts, roading, schooling etc.	
PC73-0047	002	Oppose	Do not support the setback minimums being adjusted as believe this will only lead to complaints from residents from the people who eventually may live in this area due to a decreased quality of living.	Disallowed
PC73-0049	001 - 004	Support	Support all points raised by this submitter
