

**PROPOSED PLAN CHANGES 81 AND 82 TO THE
OPERATIVE SELWYN DISTRICT PLAN**

MINUTE 6

- [1] The hearing on Plan Changes 81 and 82 reconvened on 5th December and heard supplementary evidence and legal submissions from requestor witnesses and Council witnesses on matters of land supply, urban design and odour. In addition, I undertook arranged site visits to the Pines Wastewater Treatment Plan and the Rolleston Resource Recovery Centre.
- [2] The hearing closed at approximately 4.00 pm with the only remaining item being any final closing legal submissions from the requestor. These were received on 12th December and have been loaded to the web page. I note that this includes submissions on, and a copy of, the s42A report to the hearings of the Proposed District Plan in relation submissions seeking a change of zoning to land in the Rolleston area.
- [3] I have no further directions or information requests relating to this matter and I, therefore, now formally close the combined PC 81 and PC 82 hearing.
- [4] I will endeavour to complete my Recommendation Report ahead of the Proposed District Plan hearing referred to above which I understand is scheduled for 30th January 2023. However, at that point the report will not have been considered by Selwyn District Council which will occur in February 2023.

A handwritten signature in blue ink, appearing to read 'Paul Thomas', is written over a light blue rectangular background.

Paul Thomas

Independent Commissioner
