

# PROPOSED DISTRICT PLAN VARIATION 27

## Hororata Height Restrictions

Selwyn District Council  
*First Schedule Part I, Resource Management Act 1991*

The Council has accepted Variation 27 – Hororata Height Restrictions. This decision affects both the Township and more specifically, the Rural volume of the plan. The variation made changes to the provisions that impose height restrictions on properties surrounding the Hororata Domain. The height restrictions directly relate to the use of the Domain as an airfield for recreational gliding by the Canterbury Gliding Club.

The Council has confirmed the variation with some further reductions in the height restrictions and some clarifications, particularly to the associated diagrams. The plan is now amended in accordance with the decision.

This decision can be viewed online at [www.selwyn.govt.nz](http://www.selwyn.govt.nz) and during normal opening hours at any of the Council's offices or libraries.
