Attachments

Please attach the following documents. Applications that do not include all of this information will be returned as incomplete.

- ☐ Indicative site plan (For single urban sites: this must include existing site ground levels in relation to a datum reference for the top of the kerb in the road immediately adjacent to the site. This to be confirmed/certified by a Licensed Cadastral Surveyor to a datum mark which is permanent for use during the build. The datum reference shall be in New Zealand Vertical Datum NZVD2016 format.)
- ☐ Record of Title (issued within the last 6 months)
- ☐ Any consent notices on the Record of Title
- ☐ Site specific Flood Hazard Assessment from Environment Canterbury, issued within the last 6 months (rural properties only or for urban properties that are required by a consent notice)

Additional required information if the application is for a subdivision.

- ☐ Assessment from a suitably qualified and experienced professional confirming whether or not each lot in the subdivision is likely to be subject to inundation in a 200-year ARI flood event and if it is, a schedule detailing the proposed minimum finished floor level that is 300mm above the 200-year ARI flood event level, for each lot.

Description of the use of the Proposed Building or Subdivision
