**Subject:** Resource Consent Submission Form 13

### \*\* Your Details \*\*

\*Resource Consent Number : RC235464

\*First Name : Corey

\*Surname : Krygsman

\*Box/Road/Street Number and Name : 15

Suburb or RD : Brookside

\*Town/City : Leeston

Area Code :

Email Address : [REDACTED] Organisation Name : [REDACTED] :

Corey Krygsman Phone Number [REDACTED]

### \*\* Submission \*\*

\*The type of consent is: : Land Use Consent The location of the consent is: : 115,150 & 187 Buckleys rd., brookside  
The proposed activity/change is: : Land use Consent RC235464 is sought to construct and operate a new solar array on approximately 11ha 115,150 & 187 Buckleys Rd, Brookside \*The specific part(s) of the application that my submission relates to are: : Property prices in the area?

Fire (if the panels/Inverters catch fire what implications on the contaminants in the ground.) Underestimation of Maintenance vehicles in area (I live on a shingle rd and the dust will be bad in summer) however if approx 100 metres of our road is asphalted outside 15 Stewarts rd this will be an acceptable outcome.

Acoustics in Area.

Highly productive land.

Location of the new power lines that will have to be upgraded from the substation to the power's final destination.

\*My submission is in: : Opposition

\*My Submission is: : My Submission concerns of the above-mentioned issues are a concern for my Family as they have long term effects for our personal and environmental future.

\*I seek the following decision from the Selwyn District Council: : I would like the commissioner to consider other/larger land parcels that is less productive, with future to expand e.g. areas in select parts of Motukarara area, the base of Gebbie's Vally etc. poor productive land.

I know there are no sub stations in the area, but these can be built to accommodate for the future of Solar farming in the Canterbury region.

This is an issue that will not go away, I accept change, but this seems a very knee jerk reaction to help with climate change. This good farming land to be used in lieu of poor land seems crazy, I'm sure the growth of this good land as a solar farm will grow from the proposed 111 Ha .

Supporting Information: : No file uploaded

### \*\* Hearing \*\*

\*Do you wish to be heard in support of your submission? : I don't wish to be heard \*If others make a similar submission, I would consider presenting a joint case with them at the hearing. : Yes
