3. Submission Details

- I / We: ☐ Support all or part of the application
☒ Oppose all or part of the application
☐ Are neutral towards all or part of the application

The specific parts of the application that **my / our** submission relates to are: (give details, continue on a separate sheet)

We oppose any and all gravel extraction and/or crushing activities taking place during weekends or on public/statutory holidays. We also oppose the current proposed setbacks in the application; we'd like to see larger setbacks from residential housing (and particularly from our house at 137 Bealey Road).

The reasons for **my / our** submission are:

As neighbours to the existing activity, we have experienced first-hand the (at times) very loud noise and significant dust effects that can come from the quarry. Expanding the quarry operations closer to our property will increase the intensity and frequency of these negative effects on us. Mobilising dust from extraction and crushing activities, and particularly during windy Canterbury days - the nor'west blows dust directly into us. Quarrying activities are a constant, consuming and racketty noise and very different to usual rural farming noises in terms of amenity for neighbours. Weekends and public holidays are treasured and if the quarry is to come closer to our property and residential house, then absolutely crushing and extracting should only happen Monday-Friday. There could be the odd allowance made for times of regional emergency, etc.

The decision I / We would like the Council to make is: (give details including, if relevant, the parts of the application you wish to have amended and the general nature of any conditions sought.)

Only grant the applications if the following changes are made: 1. No extraction or crushing activities to take place on weekends or on public/statutory holidays; and 2. Increase the setbacks from residential houses
