## 10. Assessment Criteria

1. Is the item or site listed for protection in the Selwyn District Plan? Preference will be given to applications for projects related to items already protected by the District Plan. Where the item or site is not protected by the District Plan, is some protective mechanism proposed, such as listing in the District Plan?
2. Is the item or site registered by New Zealand Historic Places Trust (NZHPT)? Generally items registered by NZHPT are considered to have regional or national heritage significance.
3. What is the significance of the item to the local community? Is there any public or community access provided? Will the project assist in educating the community about heritage or cultural issues?
4. How necessary is the proposed work to ensuring the maintenance or preservation of the item? How urgent is the work? Funding will not be available for routine maintenance such as repainting, or for improvements which are of personal or commercial benefit such as new kitchens or bathrooms.
5. Does the proposed work reflect good heritage practice? For example, is it in accord with the principles of ICOMOS New Zealand? ICOMOS is an international charter for the conservation of places of heritage value – a copy of the charter is available from the Council. Does the project support continued or compatible new use of the site or building?

6. What consultation has been carried out and / or what professional expertise has been sought for the project? For example, consultation with NZHPT, or advice from a heritage architect.
7. What funding is the applicant bringing to the project? Have other sources of financial assistance been sought?
