

## Rolleston Drive and Tennyson Street intersection upgrade

---

<b>What</b>	Preparations for intersection upgrade at Rolleston Drive and Tennyson Street
<b>Where</b>	Intersection of Rolleston Drive and Tennyson Street
<b>When</b>	22 November 2021 for up to two weeks
<b>Contact</b>	Isaac Construction- Communications Manager: Peter Chum <a href="mailto:pchum@isaac.co.nz">pchum@isaac.co.nz</a> (03) 3599199

We are writing to let you know that preliminary works are beginning on the intersection upgrade of Tennyson Street and Rolleston Drive.

Isaac Construction will begin site investigations from 22 November for up to two weeks, to prepare for the work replacing the current roundabout with traffic signals and upgrading the road around the intersection.

This investigation work is aimed will include pot holing for services around the intersection.

This work will require the closure of one footpath and may require stop/go controls at the intersection outside of peak traffic hours. Some on street parking will also be affected.

We will endeavour to keep noise to a minimum and carry out work that can disrupt traffic outside of peak traffic hours.

The upgrade will include new traffic signals, pavement construction and replacing the existing water main and sewer main pipes through the intersection with larger pipes as future proofing. We will also be piping the remaining section of open water race on Tennyson St, south of the intersection.

Rolleston Drive, west of Tennyson Street, up to the Rolleston Community Centre will be upgraded to a lower speed environment on the approaches to the future town centre entrance, with new planted median islands and paved footpaths.

A general layout plan for the work is included on the back of this notice.

Prior to the main construction works taking place, another work notice will be issued outlining the temporary traffic management plan and impacts for residents, businesses, and other stakeholders. You can also find online project updates at: <https://isaac.co.nz/projects/ongoing>.

If you have any questions or concerns, or would like the opportunity to meet to discuss the details of this project, please contact Pete Chum on [pchum@isaac.co.nz](mailto:pchum@isaac.co.nz) (03) 3599199

Thank you for your patience whilst we carry out this work.
