## Wastewater Treatment Pipeline Construction

<b>What</b>	Construction of the new Darfield and Kirwee to Pines Wastewater Treatment Plant wastewater pipeline
<b>Where</b>	Courtenay Road and SH73
<b>When</b>	Ongoing – Courtenay Road Closure from 25/07
<b>Why</b>	To connect the upcoming Darfield and Kirwee reticulated wastewater systems to the Pines Wastewater Treatment Plant
<b>Contact</b>	Corde Project Manager Fintan Harvey (027 294 7764)

We are writing to give you an update on our current works on Courtenay Road and SH73.

We have installed the main wastewater pipeline along SH73 and are now moving onto the next stage of the project which involves installing the pipe under the railway lines on Courtenay Road.

For this stage of work Courtenay Road will be fully closed (24hrs/day) from the rail lines to SH73 until early September. Access to properties on Courtenay Road will be via Bealey Road/Courtenay Road detour. Courtenay Road between Miles Road and the rail lines will be fully open. There will be a pedestrian access from Courtenay Road to SH73.

In the final stage of the project we will be installing the pipeline under SH73 at the pumpstation site in Kirwee. This will happen once Courtenay Road is open but there will be again a traffic light setup on SH73.

We apologise for any inconvenience this may cause and thank you for your patience as we carry out these works. Further information about this project and a live map of the construction can be found at [selwyn.govt.nz/darfieldkirweewastewater](https://selwyn.govt.nz/darfieldkirweewastewater).

The contractor for this work is CORDE Ltd. If you have any questions please contact Fintan Harvey (Project Manager) on 027 294 7764, or the Council's Water Services team on 0800 SELWYN (735 996) or email [contactus@selwyn.govt.nz](mailto:contactus@selwyn.govt.nz).

Thank you

CORDE  
Selwyn District Council
