#### 3. CONFIRMATION OF MINUTES

Confirmation of the minutes from the Water Race Sub Committee meeting held on 11 December 2017.

#### 4. CORRESPONDENCE

Letter from Canterbury Aoraki Conservation Board dated 14 November 2017.

#### 5. MATTERS ARISING

#### 6. FINANCIAL

#### 6.1 Finance Report to 31 December 2017

#### 6.2 Items of Unplanned Expenditure over \$5,000

(Daniel Meehan, Surface Water Operations Engineer)

#### 7. WATER SERVICES REPORT

#### 7.1 Water Race Maintenance Contract

Verbal report from Gareth Morgan (Service Delivery Manager)

#### 7.2 Water Race Bylaw

The revised Water Race Bylaw was adopted by Council for consultation on 14 February. Consultation runs from the 21 February to the 21 March 2018. A copy of the Statement of Proposal and revised Bylaw can be found on the Council webpage.

#### 7.3 Strategic Water Races – Ecological and Aesthetics

The attached map identifies priority 1 and priority 2 water races which should remain open to provide ecological and/or aesthetic benefits. Priority 1 races will have a high threshold for closure than priority 2 races. The races were identified through a number of sources including the 2011 EOS Ecology report, Map of the County of Selwyn 1883 and written submissions to the Water Race Strategy workshop meeting. The Asset Manager Water Services will lead the committee through the map logic and answer any questions at the 26 February meeting.

It is proposed that the committee adopt the plan (with any amendments) as a working draft and that the Asset Manager Water Services presents the working draft to the Christchurch, West Melton and the Selwyn Waihora Zone Committee Meetings for further feedback and development.

#### 7.4 Fish Screen Project Update

- Upper Kowai Fish Screen been operational for 1 year.
- Lower Rakaia Practical Completion Awarded
- Waimak (Skurrs) Practical Completion Awarded Bypass not connection due to concerns over use of Spring Channel to be resolved with onsite meeting with Ecan.
- Glentunnel Screens installed and work to finish site is progressing well practical completion due by end of Feb

#### 8. HEALTH & SAFETY REPORT

All the quoted Priority 1 sites have been installed. All Priority 2 and 3 are current being priced. Options for Kowai Air Shaft are currently being investigated.

#### 9. GENERAL BUSINESS

#### 9.1 2018 Meeting Schedule

Meetings are proposed on the following dates in 2018:

- 1. 14 May
- 2. 9 July
- 3. 17 September
- 4. 12 November

"That the apologies be noted."

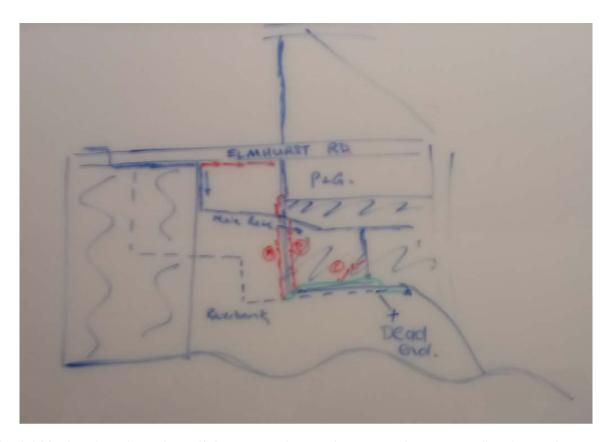

**CARRIED** 

#### 2. PUBLIC FORUM

Gareth Cox and Peter Redfern addressed the meeting on behalf of Riverbank Farming Ltd, proposing two water races be redirected in preparation for installing irrigation next season from Central Plains Water.

With a reticulated system, Riverbank Farming does not need the water races but they are agreeable to fund the redirection of two races that travel through their property to accommodate the installation of pivots and maintain water to Mr E Kars neighbouring property.

Riverbank Farming propose redirecting two water races as outlined in the diagram below:

Daniel Meehan is to investigate if the proposals constitute as a closure or redirection and report back to the Sub Committee. The Sub Committee agreed the changes subject to the investigation which the Sub Committee stipulated must be either as good or an enhancement to the service for the down-stream ratepayer.

#### 3. CONFIRMATION OF MINUTES

#### Moved - Mike Mora / Seconded - Craig Watson

"That the Selwyn District Council Water Race Sub-Committee confirm the minutes of the Ordinary Meeting held on Monday, 9 October 2017 as a true and accurate record subject to Kerry Pauling and Martin Le Comte being recorded as an apology."

**CARRIED** 

#### Moved - Harry Schat / Seconded - John Shanks

"That the Selwyn District Council Water Race Sub-Committee confirm the minutes of the Public Excluded Meeting held on Monday, 9 October 2017 as a true and accurate record subject to Kerry Pauling and Martin Le Comte being recorded as an apology."

**CARRIED** 

#### 4. CORRESPONDENCE

Letter from Riverbank Farming Ltd and Peter Abrahamson, Elmhurst Road re-directing of the water race was noted and addressed in the Public Forum.

#### 5. MATTERS ARISING

#### 5.1 Hawkins Water Race Closure

The Hawkins Water Race has been diverted around the boundary of the farm in such a way as to allow continued flow to downstream water race users. This allows the immediate use of new pivots. CPW are preparing a cost estimate to provide piped water to the downstream land owners, this will allow the Hawkins race to be potentially closed sometime in the future.

#### 5.2 Synlait Tree Removal

(Daniel Meehan, Memo from Surface Water Operations Engineer) The outcome was noted.

# 5.3 Yaldhurst Village Development - Storm Water Discharge Sub Division - CCC This matter is ongoing.

# **5.4** Central Plains Water Direct Deed – Sheffield Water Co-operation Agreement The direct deed will be presented to Council on the 13 December 2017 for approval.

#### 6. FINANCIAL

#### 6.1 Finance Report to 31 October 2017

Concern was expressed about the decreasing reserve balance and future deficit.

It was agreed, for the Malvern irrigators, to charge 50% of the year's irrigation for those moving to CPW water in December.

The Sub Committee asked that the "Dawsons Road Water Race Upgrade" line in the Revenue Summary be removed.

#### Moved - Craig Watson / Seconded - Kerry Pauling

"That the financial report to 31 October 2017 be received for information"

**CARRIED** 

#### 6.2 Items of Unplanned Expenditure over \$5,000

(Daniel Meehan, Surface Water Operations Engineer) Noted

#### Moved - Craig Watson / Seconded - Mike Chaffey

"That the Water Race Sub-Committee receives the Unplanned Expenditure Report"

**CARRIED** 

#### 7. WATER SERVICES REPORT

# 7.1 Proposed Water Race Closures to Proceed to Public Consultation (Daniel Meehan, Report from Surface Water Operations Engineer)

Staff sought approval from the Sub-Committee to an extension to proceed to public consultation for the proposed closure of 2.9km of race through 2 property/owners on Feredays / Main Rakaia Road. This closure is immediately upstream of previously approved Lill Closure, approved in November 2016. This closure is yet to proceed as it is awaiting a fish salvage.

Based on the assessment, as outlined in the report, staff recommended that the proposed closures are considered of **low significance**. The level of significance impacts the degree of consultation undertaken on the engagement spectrum. Council takes a conservative approach to consultation.

#### **Moved Craig Watson / Seconded Harry Schat**

#### That the Sub-Committee:

- a) Agree to proceed to public consultation for the proposed closure of 1 length of water race totalling approximately 2.9km in the Ellesmere water race scheme.
- b) Advise the Council that the proposed closures are considered to be of low significance not impacting the intended level of service provision for the water races.
- c) Consider any submissions to the proposed closures raised during public consultation, and provide an opportunity to those persons wishing to be heard.
- d) Recommend race closures to Council following the consultative process.

**CARRIED** 

# 7.2 Proposed Water Race Closures Approval – Post Public Consultation (Daniel Meehan, Report from Surface Water Operations Engineer)

Staff sought a recommendation from the Sub Committee for the following proposed closures that were approved for public consultation at the sub-committee meeting in June 2017:

#### Ellesmere

- 1. Closure of 3.6km of race through 3 property/owners on Tramway Road
- 2. Closure of 3km of race through 2 property/owners on Leeston Dunsandal Road

#### Malvern

- Closure of 4.8km of race through 6 property/owners on Horndon Street / Creyke Road
- 2. Closure of 0.3km of race through 1 property/owners on Pitts Rd
- 3. Closure of 3.7km of race through 7 property/owners on Bluff Rd
- 4. Closure of 2.1km of Race through 4 property/owners on Boultons Rd. Fish and Game require Fish Salvage on this property where there is life.

Based on the assessment, outlined in the report to the Sub Committee, staff recommend that the proposed closures are considered of low significance. The level of significance impacts the degree of consultation undertaken on the engagement spectrum. Council takes a conservative approach to consultation.

#### Moved Kerry Pauling / Seconded Martin le Compt

#### That the Sub-Committee:

a) Consider any submissions received regarding the proposed closures.

b) Provide recommendations to Council on the closure of 6 lengths of water race totalling approximately 10.9km in the Malvern water race scheme and 6.6km in the Ellesmere water race scheme.

#### 7.3 Fish Screen Project Update

(Daniel Meehan, Memo from Surface Water Operations Engineer) Noted

#### 7.4 2018-28 Long Term Plan

Committee members were encouraged to consider the key issues and opportunities which will be consulted on as part of the 2018-28 Long Term Plan.

#### 7.5 Workshop Outcomes

At the 30th October Workshop with the water race and rating committee, the committee agreed to recommend to Council to consult on a district rate for water races. The proposed new rating structure provides three standardised rating factors which replace the existing 10 rating factors currently used.

The new proposed structure is provided in the table below.

The structure has built in water races cloures. Christchurch City Council, DOC, ECAN, Ngai Tahu will be consulted on the effects of the potential public good funding proposal. The public will be informed through the LTP discussions.

Rate Applies	Rate Type (incl. GST)	Start Value	%Change
User	Annual charge revenue	\$300	6.0%
User	Per Hectare revenue	\$17	6.0%
Public	Public good rate revenue	\$20	10.0%

Cr Hasson raised concerns on behalf of the Land Drainage Committee about the impact of the closures:

- The Land Drainage Committee need to understand the impact on surface water drainage
- What is the criteria of a strategic race? Water Races as a whole is a strategic asset.
- What is the ecological impact?
- Need all representation with regard to lwi it is often the site not the race.
- LTP implications need good reasons to keep them open.
- Maintaining the quality of the water and conservation in general. The Sub Committee referenced a letter received from the Canterbury Aoeraki Conservation Board dated 14 November 2017 which outlines their concern about the ongoing closures of water race.

Public relations and communications must be considered during the LTP process to ensure accurate interpretation.

#### 8. HEALTH & SAFETY REPORT

There has been no reports of Health & Safety breaches or potential risks to Council.

#### 9. GENERAL BUSINESS

#### 9.1 Sheffield Fire Brigade Water Supply for Fire Fighting

Sheffield Fire Brigade has requested a meeting with the representative of the Sub Committee to discuss fire water availability and what water races may be closed. Murray England will follow this up.

#### 9.2 2018 Meeting Schedule

The Sub Committee agreed to meetings every 2 circulate the dates and send invitations.	2 months from March.	The Secretary is to

Mayor and Councillors Selwyn District Council PO B ox 90 ROLLESTON, 7643

14 November 2017

Dear Mr Broughton and Councillors

#### **RE: WATER RACE CLOSURES IN SELWYN DISTRICT**

The Canterbury Aoraki Conservation Board Te Rūnanga Papa Atawhai o Waitaha me Aoraki (the Board), wish to express our concern about the ongoing closure of water races in the Selwyn District. The Board is asking you to support the call to retain and maintain those water races with high conservation value.

The Board is an independent body established by the Conservation Act 1987. Made up of 12 government-appointed members, the Board represents the community of interest not only in the work of the Department of Conservation but also in conservation in general within Canterbury.

The Board's main responsibility is to work with the Department of Conservation to develop a conservation management strategy for our area and to oversee its implementation. The process for developing the strategy involved full public consultation and hearings and the Board believes the Canterbury Waitaha Conservation Management Strategy 2016 (the Canterbury CMS) fairly reflects the views of the wider community. The strategy contains a vision, objectives and policies for this region which are aligned with national objectives of the Department of Conservation. The Canterbury CMS was signed off by the Minister of Conservation and became operational on 1 September 2016.

Objective 1.5.1.1 is that "The diversity of New Zealand's natural heritage is maintained and restored with priority given to (c) conserving threatened and at-risk species to ensure persistence, with an emphasis on those listed in Appendix 5" (page 31). Tables in Appendix 5 list nationally critically endangered Canterbury mudfish Neochanna burrowsius.

The high ecological value water races provide important habitat not only for Canterbury mudfish, but also kēkēwai (freshwater crayfish) and kākahi (freshwater mussels) among other indigenous freshwater species. The water race habitat is especially valuable in dry years when other sites dry up and the mudfish population drops significantly. The freshwater fauna of the water races is representative of the former wetland communities that were once present across the Canterbury plains and is markedly different from the fauna associated with braided rivers.

Until now the closure of water races has been considered on a case by case basis. You may be aware that in 2011, the Selwyn District Council contracted EOS Ecology to undertake a survey of the Malvern and Ellesmere water race schemes to identify sites of high ecological value and prioritise sites to determine which were the most important to retain from an ecological point of view. The survey found that within the Ellesmere system, 12 out of 27 sites surveyed were of high ecological value, and 11 out of 14 in the Malvern system. Closure of water races with lower ecological value would have the benefit of reducing the takes from the Rakaia River and keeping the water in the natural system.

The Board considers the community expects those water race systems with sections having higher ecological values be retained with a new purpose: the provision of protected habitat for Canterbury mudfish and other indigenous species, together with protection and enhancement of associated amenity and rural heritage values. Maintenance practices need to be modified to protect and maintain ecological values, which includes reducing large scale excavator cleaning and re-considering the practice of removing or spraying in-stream and riparian vegetation.

The Canterbury Aoraki Conservation Board considers a more strategic approach needs to be taken to the closure of water races, and is seeking a strategy which retains the high ecological value sections and supports their long term ecological health. We ask the Selwyn District Council to support this outcome as well.

Yours sincerely

Mick Mobott

#### Year to Date Commentary

Operations to the 31 December 2017 resulted in a net operating deficit of (\$40,853) against a budgeted deficit for the same period of (\$63,949).

#### Revenue

Total revenue to the 31 December 2017 is marginally unfavourable to budget by (\$6,065).

#### Operational Expenditure

Operating expenditure to the 31 December 2017 is favourable to budget by \$21,580. The majority of costs are favourable to budget in particular maintenance and CPW Ltd transition costs of which the favourable variance totals \$27,348. Offsetting this is an unfavourable variance of (\$8,993) arising from higher than budgeted Glenroy Community and LRDG cost share agreements.

Project expenditure to the 31 December 2017 totals \$1,359 against a budget of \$12,678. Expenditure to date has been on Upper Ellesmere water race closure. Projects yet to incur costs are Health and Safety Improvements – full year budget \$20,000 and Consent renewals – full year budget \$5,346.

Renewal expenditure is unfavourable to budget by (\$3,735). Renewals are funded from reserves at year end and do not have an impact on the operating result.

#### Capital Projects

Capital expenditure to the 31 December 2017 totals \$409,584 against a full year budget of \$424,200. The expenditure relates to the fish screens on the lower Kowhai and is unfavourable to budget by (\$35,384). Capital projects for Health and Safety Improvements – full year budget \$50,000.

#### Year to Date Commentary

Operations to the 31 December 2017 have resulted in an operating deficit of (\$1,611) against a budgeted surplus of \$6,355.

#### Revenue

Total revenue to the 31 December 2017 is unfavourable to budget by (\$43,989). Income from irrigation charges to users of \$43,000 (based on history) had been budgeted for. This revenue has been replaced by revenue from CPW which will not commence until 2018/19.

#### Operational Expenditure

Operating expenditure to the 31 December 2017 is favourable to budget by \$25,840 due to Maintenance, ECan monitoring and Urban Enhancement costs being favourable to budget by a total of \$29,204. This has been partially offset by insurance costs being unfavourable to budget by (\$4,514).

Project expenditure to the 31 December 2017 totals \$1,307 against a budget of \$15,180. Health and Safety Improvements are favourable to budget by \$8,760 and CPW Transition costs are favourable to budget by \$2,437. Consent renewals – full year budget \$5,346, has yet to incur costs.

Renewal expenses are unfavourable to budget by (\$3,738). Renewal costs are funded from the renewal reserve at year end and do not have an impact on the operating result.

#### Capital Projects

Capital Projects expenditure to the 31 December 2017 is favourable to budget by \$77,783. The replacement of fish screens at the Upper Kowai, Waimakariri and Glentunnel Intakes account for \$50,635 of this amount. The full year budget for these projects is \$613,395 and is funded from rates. A capital project not yet incurring costs is Health and Safety Upgrades (full year budget \$50,000).

#### Year to Date Commentary

Operations to the 31 December 2017 resulted in an operating surplus of \$151,239 against a budgeted surplus for the same period of \$80,251.

#### Revenue

Total revenue to the 31 December 2017 is favourable to budget by a total of \$60,523. This variance is due to the irrigation rebate for 2016/2017, being accrued at year end as \$41,776.79. The actual rebate was \$17,238.16 providing further revenue to the scheme in excess of budget by \$54,539. Current year irrigation charges are also favourable to budget by \$12,529.

#### Operational Expenditure

Operating expenditure to the 31 December 2017 is unfavourable to budget by (\$1,633). Maintenance and insurance costs are unfavourable to budget by (\$12,949) which has been partially offset by urban enhancement, consultancy and ECan costs being favourable to budget by \$11,124.
