Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to

	Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.* **Project cost:** Year 1: $3.05m **Estimated impact on rates (per year):** $10.46 **Funding:** Rates: 100% **Comment:**
Staff Recommendation	Submission is acknowledged by Council. [

Category	Activity > Lincoln Town Centre Upgrades
Comments:	My main concern is the Lincoln Town Centre plan. Of course if any work is delayed long enough the costs will rise significantly, as proved by the latest tally being $46 million instead of $21.4 million. Work needs to start NOW. Specifically work relating to traffic in the older area - Gerald Street shops and Central Square. This is a busy area with cars reversing out of carparks onto Gerald Street and cars travelling at 50km/h (if not faster!). The first thing should be slowing down traffic in the area and improving the parking situation. This cannot wait up to 9 more years as proposed - presumably that could well be delayed again. The council must be receiving a lot more rates from this area with all the new housing but little is being spent actually to improve infrastructure within Lincoln. Roading budget for our area needs to be increased. With so many more cars in our area, the roads need vast improvement - specifically Ellesmere Road. It is now being used by a lot more cars so needs widening and surface improvements and safer intersections.
Staff Recommendation	The Council will be starting the upgrade of the Lincoln Town Centre and Gerald Street in stages starting in 2024 at the Liffey end and finishing at Springs Rd in 2030. This is estimated to cost $45M and includes cycle lanes, power undergrounding, 4 sets of traffic signals and the replacement of the failed carriageway. Stage 1 being currently designed between the Liffey and West Belt along Gerald St and includes new public car parking areas to the north and south. The widening and safety upgrade of Ellesmere Road is included early in the draft LTP

Staff Recommendation	Submission is acknowledged by Council.
Point Number	385.8
Category	Activity > Other Categories identified by Staff > Rates
Comments:	Proposed rate increases are unacceptably large. The Council needs to operate within budget. New investment isn't acceptable until your current opex and capex are within budget.

	New facilities and investement needs to come from existing budget limits. Cancel unnessecry council office roles and bureaucracy which has ballooned in the last decade. Office expansions need to be cancelled if you can't afford key rate payer infrastructure. When you're budget is under control please request guidence from the community based on what we can afford. The rate payers cannot afford the proposed rate increases during the cost of living crisis where all the rest of living costs have raised considerably and many in our community are struggling. Please listen to your community who you were elected to represent.
Staff Recommendation	That the submission is acknowledged by Council. The Council understands the financial pressures that ratepayers face and endeavours to keep rates increases to a minimum.
Point Number	385.9
Category	Activity > Council's Office Improvements
Comments:	Cancel unnessecry council office roles and bureaucracy which has ballooned in the last decade. Office expansions need to be cancelled if you can't afford key rate payer infrastructure. When you're budget is under control please request guidence from the community based on what we can afford.
Staff Recommendation	While staff numbers have increased placing pressure on the available office space and meeting rooms at the Councils offices the Council acknowledges the issues that this submission raises.
Point Number	385.10
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	Why haven't you budgeted long term appropriate maintenace to keep key community services like this available? Very poor leadership and planning.
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.
Point Number	385.11
Category	Questionnaire > Matters For Community Guidance > Economic Development

Comments:	WE can't afford this right now - get your budget under control
Staff Recommendation	It is acknowledged the submitter has selected to not progress with the Economic Development Strategy and holds a view that the Council cannot currently afford this action. Councils' contribution to economic development is alongside others who are expected to contribute significantly more overall. Council is involved in and has access to important levers in economic development. The Council has a role in facilitating others and enabling economic development to occur as prosperously as possible to benefit the whole community. Every cent of spend will be scrutinised and planned for to ensure outcomes and returns are maximised from the spend. Action plans will outline this in detail. The $9m is over a ten-year period, and not all the proposed spend is the same across the years with the first years having a lower allocated amount.
Point Number	385.12
Category	Questionnaire > Matters For Community Guidance > Digital Solutions
Comments:	No - get your budget under control and deliver services in this area with your existing resources. You have a large IT department you can leverage.
Staff Recommendation	The cost attributed to Digital is to signal we are serious about implementing efficiency across our organisation using technology. Our objective is to make Council financially sustainable through automation of process whilst providing residents and partners with more efficient services. Council is currently developing a Digital Strategy to provide this direction and budgets for the next LTP.

Point Number	390.1		
Category	Questionnaire > BD1 - Transport - Park and Ride		
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear. **Project cost:** None		

	Estimated impact on rates: To be determined **Funding:** To be determined **Comment:**
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP
Point Number	390.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.* **Project cost:** Year 1: $3.05m **Estimated impact on rates (per year):** $10.46 **Funding:** Rates: 100% **Comment:**

Staff Recommendation	The submission is acknowledged. Selwyn District Council prioritises inclusivity and cultural respect in our community. Te Tiriti o Waitangi, the Treaty of Waitangi, is a founding document of New Zealand and recognising Te Reo Maori (the Maori language) and incorporating cultural design elements in public facilities is one way Council chooses to uphold the spirit of the Treaty partnership. Council considers recognising Maori language and culture in public spaces is not only appropriate but also necessary. It reflects our commitment to the Treaty and our shared responsibility to create a more equitable and respectful society. Selwyn District Council considers that, when public buildings incorporate Maori names and cultural design elements, they are not merely symbolic gestures. Instead, they represent a tangible effort to honour the Treaty's obligations and foster a sense of belonging for all New Zealanders.

Point Number	391.13
Category	Activity > Other Categories identified by Staff > Financial management
Comments:	I would like to think that under these financially challenging times, SDC concentrates on the core needs of the community. How much is spent on organizing social events in the district in terms of organizing, sponsoring & communication.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	391.14
Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	I do not agree with engaging with any Iwi over any council business or creating ties with them. I find this policy racist & want it to stop & revert back to every ethnicity having an equal opportunity in consultation. I do not want Maori representation on the council to

	continue for the same reason. I do not agree with putting Maori names first. The vast majority of rate payers do not read, speak or understand Maori, so English needs to come first. It is time to represent our needs as a mixed race community & not concentrate on the needs of one small group.
Staff Recommendation	The submission is acknowledged. Selwyn District Council recognizes the importance of partnerships; building strong partnerships with iwi is vital for Council to fulfill its obligations to the entire community. Te Tiriti O Waitangi (Treaty of Waitangi) is a founding document of New Zealand and establishes a partnership between the Crown and Maori. This partnership requires us to work together for the collective benefit of all. Partnership with iwi, to have any meaning, requires consideration of iwi position and contribution to discussion/debate.
Point Number	391.15
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	Communities need something of their own to be proud of. This facility has been a historic asset for Sheffield for generations, it needs saving.
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.
Point Number	391.16
Category	Activity > Other Categories identified by Staff > Other Water
Comments:	I would like a public apology over the abuse of the Kirwee/Darfield proposed waste pipe consultation process. The contract to construct this waste facility was signed during the consultation process & represented pure arrogance on behalf of the SDC.
Staff Recommendation	Consultation on wastewater servicing for Darfield and Kirwee was undertaken as part of the 2021 Long Term Plan process. After consultation Council decided to develop the wastewater system for Darfield and Kirwee in stages. Stage 1 was the completion of the pipeline to the Pines using $10.66 million of government funding as part of the post COVID-19 Water Stimulus Package and service new developments and Main Street in Darfield. Connection of the existing residential properties was

	planned to come after a review of how the scheme serving existing properties would be funded. Council approved the award of the construction of the Darfield to Pines pipeline on 28 July 2021 and the construction contract was signed on 3 August 2021, after the LTP was approved.
Point Number	391.17

Comments:	Please consider all my comments in section 6, included here.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	391.18
Category	Activity > Other Categories identified by Staff > Other Matters
Comments:	Keep your hands off anymore community facilities like the Kirwee Community Hall, the community created & paid for it, it should remain a community asset & controlled by us rate payers.
Staff Recommendation	The submission is acknowledged. As noted, Kirwee Community Hall is owned and operated by the local community and, as such, is not part of Council's network of community facilities and it is assumed the current ownership and operating arrangement will continue into the future.

Submitter Number:	392	**Submitter:**	Melissa Bamford
Point Number	392.1		
Category	Questionnaire > BD3 - Malvern Rec and Sports Facility		

Comments:	**Question:** We want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1. Build a community recreation and sports facility at Darfield that includes two indoor courts. **Project cost:** Year 3: $11.28 million (minus $1.10 million already included in the last Long-Term Plan. Total left to fund is $10.18 million) **Estimated impact on rates (per year):** $19.91 **Funding:** Rates: 57% Development contributions: 43% * **Comment:** I think this would be a fantastic resource for sports in Malvern. As a rate payer in Darfield and an active Netball player in Darfield this would be a wonderful facility and the ability to host indoor games with benefits for lots of other sports, not just netball. An indoor sports facility would greatly promote sport and recreation activities at all ages for our growing community.
Staff Recommendation	It is acknowledged that the submitter has selected Option 3, build the community recreation and sports facility at Darfield that includes two indoor courts. Our budgeted option.

Submitter Number:	393	**Submitter:**	Details Withheld
Point Number	393.1		

Category	Questionnaire > BD1 - Transport - Park and Ride
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear. **Project cost:** None **Estimated impact on rates:** To be determined **Funding:** To be determined **Comment:** I cannot support this as apart from school hours everytime I see a bus yhere would be lucky to be 1 to 3 people on it. Also living here and working in town unless you dont mind going to and from work and tranferring 2 to 3 busses and no stops and spending ages on the bus it is a very inefficent way to travel.
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP. With Councils Preferred Option a Park N Ride at Lincoln is planned for 2026/27. This timed to coincide with a planned increase of direct bus services to the City by Environment Canterbury. The new Park N Ride facilities at Rolleston are planned for 2029-33, at which time additional capacity will definitely be required to align with the additional PT services planned by Environment Canterbury.

Category	Activity > Walking and cycling improvements
Comments:	please stop with the cycle lanes and public transport when the roads are a mess case in point the road from lincoln to selwyn both the lincoln and rolleston ends its in very poor condition.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	393.8
Category	Activity > Chlorination
Comments:	Regarding the water we have great water in most of selwyn and it has been ruined with chlorine. It not only tastes bad but causes a range of skin complaints. Its time you srood up got the exemptions in if you must and remove the chlorine. We want our great tasting water back.. stop mucking about just sort it
Staff Recommendation	The submitters preference for Council to remove chlorine from community drinking water supplies is acknowledged. To move to intermittent chlorination for eligible schemes and obtain an exemption from Taumata Arowai requires infrastructure upgrades at significant cost. Additional monitoring and testing would also be required on an ongoing basis. The estimated cost to move to intermittent chlorination is $82.6m over the LTP period. If implemented there will be an increased risk of community illness if there was a contamination event and chlorine may still need to be used intermittently. Staff recommendation is to reduce risk by continuing to chlorinate our community drinking water supplies.

Point Number	393.10
Category	Activity > Other Categories identified by Staff > Financial management
Comments:	As an elected council (by the people who pay your wages) we expect standards for our infrastructure and things to maintained (water, sewage, roading) before things such as cycle lanes, art, renaming things in maori (majority of the population dont speak it and shouldnt have it forced on them. Its a choice to learn) and other non essential items. Once the essentials are done then you can look at other items.
Staff Recommendation	Submission is acknowledged by Council.

Comments:	I oppose all capital non-essential spending. Debra Hassen made it very clear at the community drop in meeting this week that the long term plan is really only a 3 year plan, and i applaud her for speaking out. This means we can only look at rates increase over the next 3 years and not look at the long term 10 year forecast. Its an absolute disaster waiting to happen and I demand that these costs are not imposed on the rate payers.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	395.10
Category	Activity > Other Categories identified by Staff > Growth
Comments:	There is constant mention of growth however, the world population is decreasing and with increased unknown death rates, dropping fertility rates, the need for much of this expenditure will diminish.
Staff Recommendation	Population projections are not predictions, rather they indicate probable outcomes based on assumptions, including birth rates, death rates, and internal and international migration. A key assumption for the Long Term Plan is the population projections for each town.
Point Number	395.13
Category	Activity > Chlorination
Comments:	I utterly oppose the use of Chlorine and Fluoride in our water system. This is illegal and immoral forced medication on the public and must cease immediately. I have not consented to this and it goes against our human rights.
Staff Recommendation	The submitters preference for Council to remove chlorine from community drinking water supplies is acknowledged. To move to intermittent chlorination for eligible schemes and obtain an exemption from Taumata Arowai requires infrastructure upgrades at

	significant cost. Additional monitoring and testing would also be required on an ongoing basis. The estimated cost to move to intermittent chlorination is $82.6m over the LTP period. If implemented there will be an increased risk of community illness if there was a contamination event and chlorine may still need to be used intermittently. Staff recommendation is to reduce risk by continuing to chlorinate our community drinking water supplies. The submitters preference to not fluoridate community drinking water supplies is acknowledged. Staff recommendation is to only budget for fluoridation if directed by the Director General of Health
Point Number	395.14
Category	Activity > Walking and cycling improvements
Comments:	While I can appreciate the desire for walking and cycle safety, there are much better alternatives than spending hundreds of millions of dollars on unsafe and unneeded cycleways. We are lucky (not) to have the perfect example of how what not to do in Christchurch mid-city on the likes of St Aspah and Colombo Streets. What a nightmare this has turned into. Near missed all the time. Cyclist still using the car lanes and cycleways are too dangerous, and whats the point of 2 car lanes when you can only fit one car down at a time, let alone trying to get a bus along these roads. Christchurch weather is not conducive to all year cycling and this is blatantly obvious from the pitiful numbers using the lanes. At horrendous costs for cycle lanes I believe it is time for cyclists to start paying road user charges. BTW I am a cyclist from time to time. The new cycle lane down Hoskyns and West Melton Roads is a recipe for disaster. Vehicle crossings are used to see what is coming before exiting properties, so how will motorists see who is on the cycle lane from behind their fences and plantings? Many cyclists and walkers wear headphones, what do you think is likely to happen?
Staff Recommendation	Submission is acknowledged by Council. For the West Melton to Rolleston cycleway, additional safety measures at vehicle crossings have been put in place to avoid the conflicts mentioned by the submitter.
Point Number	395.18
Category	Activity > Walking and cycling improvements

Comments:	I would like to propose that all cycle ways and walk ways in the Selwyn District are also open to horse riders. I would also like to see more community equestrian specific facilities available such as 2 or 3 more parks like the West Melton Equestrian Forest. More road signage in rural areas to make people aware of horse riders rights to use the 'carriageways'.
Staff Recommendation	Submission is acknowledged by Council. Equestrian facilities are planned by Parks and Reserves. Placement of signage on roads must consider costs and distractions they may introduce. Additional space needed and cost for accommodating horses on shared use facilities and footpaths would make many infeasible due to cost.
Point Number	395.21
Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	Significance and Engagement Policy is just fancy words that mean nothing and allow councils to spend more rates payers money. How about keep things simple. Most people dont have time to waste on trying understand the mean of this. How about just saying it as it is and being transparent. There are either Essential or Non-Essential Services. Let the rate payers decide then call them as they are.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	395.22
Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	The Financial Policy is just farcical. Clearly the plan is for local and national government to take ownership of the rate payers land and they become unable to afford the imposed land tax. If all of the non-essential spending is stopped, where is the real need to increase rates? Accounting 101, don't spend more than you earn, and done borrow to leave our and future generations with a noose around our neck that will eventually collapse, or is that the intention. Agenda 2030 is well known now and clearly SDC are well on board with this scheme.
Staff Recommendation	Submission is acknowledged by Council.

Point Number	395.27
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	This is a long standing existing facilities that should have been better maintained and upgraded over the years. This is a key facility for this community.
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.
Point Number	395.28
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	Yes, however, this needs more public consultation regarding the distribution of these funds. Selwyn District is a farming district and our food supply, so majority of money needs to go to development in this area.
Staff Recommendation	It is acknowledged the submitter has selected to progress with the Economic Development Strategy, and Council will consider their feedback in strategy action planning.
Point Number	395.29
Category	Questionnaire > Matters For Community Guidance > Digital Solutions
Comments:	Technology is not the answer to better outcomes, in fact it is the opposite. Look at eveyone sitting around on phones rather than actually communicating and taking action. Technology is leading us down a very slippery slope to track and track and invasion of privacy.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	395.30
Category	Questionnaire > Matters For Community Guidance > Economic Development

Comments:	Why is it that we can get and MRI scan in Rolleston but there are no blood test facilities? We should have multiple units in the Selwyn District.
Staff Recommendation	Submission is acknowledged. The council continues to work with the government to advocate for more services, including health and education.

Point Number	396.1		
Category	Questionnaire > BD1 - Transport - Park and Ride		
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear. **Project cost:** None **Estimated impact on rates:** To be determined **Funding:** To be determined **Comment:** Have less public transport or make it user pays		
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP. Public Transport services are theoretically funded up to 50% by users, unless subsidised or incentivised in other ways.		

Point Number	396.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park as agreed in our 2021-31 Long-Term Plan, but with additional sports courts and/or bigger community meeting spaces. **Project cost:** Year 1: 19.24m **Estimated impact on rates (per year):** $53.14 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 **Comment:** This would be a hub for Leeston not Ellesmere
Staff Recommendation	The submission is acknowledged.

Category	Activity > Council's Office Improvements
Comments:	If your putting in EV charging at the office ensure it runs at a profit. Reduce what is being spent on the council building, this money could be spent in better places like local rugby clubs that have buildings that leak and are falling apart (Southbridge
Staff Recommendation	While staff numbers have increased placing pressure on the available office space and meeting rooms at the Councils offices the Council acknowledges the issues that this submission raises.

Submitter Number:	397	**Submitter:**	Julia McLean for North Canterbury Equestrian Advocacy Group
Organisation:	North Canterbury Equestrian Advocacy Group		
Point Number	397.3		
Category	Activity > Walking and cycling improvements		
Comments:	We request inclusive shared path trails (existing and future) that provide safe spaces and places for people to actively participate in, and enjoy, their chosen recreational activity. NCEAG asks that the Selwyn District Council develop a Walking and Riding Strategy that is supported by an advocacy group made up of key community and advocacy representatives in horse riding, walking, and cycling. An example of this in working is the Hurunui District Council's Hurunui Trails Trust.		
Staff Recommendation	Submission is acknowledged by Council.		

Point Number	397.6
Category	Activity > Other Categories identified by Staff > District Planning
Comments:	Did you know? There is no definition in the New Zealand Transport Agency literature to define Vulnerable Road User. "According to the World Health Organization, a “vulnerable road user” (VRU) is any “non-motorist” road user in the role of a pedestrian, a highway worker, a person riding an animal, a stranded motorist, a skateboarder, roller skater, a scooter, or a cyclist, to name a few (Ameratunga, Hijar et al. 2006)." We ask that Selwyn District Council to seek clarity on behalf of the equestrian community on ‘vulnerable road user’ status. As it stands, the New Zealand Transport Authority labels horses as ‘other road user’ and consequently horses are not listed as a user group of shared pathways. Pedestrians and cyclists are treated as vulnerable road users. Alternative shared pathways are provided for by the NZ Transport Authority. The horse community therefore relies on the goodwill of regional and local councils to fund bridleways or give permission for pathways to be shared use.
Staff Recommendation	The generally accepted definition of a vulnerable road user in NZ is safely providing for people walking, biking, or on other wheeled devices. It does not include horse riders as they have choice whether they wish to ride on roads or not. Council has in the past have adopted bylaws preventing horses being ridden or trotted on Councils formed shared use paths. This relates to how incompatible this is with its primary intended use by pedestrians and cyclists that can be scared by horses (and vice versa) plus the damage caused and inconvenience from horse droppings etc. As a large rural district, Council encourages horse riders to use low volume rural roads to ride alongside rather than busy arterial roads which poses a safety risk to all road users or use dedicated riding parks. The NZTA does not provide co-funding to support horse riding on roads for any purpose as this is not related to transport. The proposed Selwyn District Park could include for such activities but contact needs to be made within Council with those planning the park to discuss opportunities.
Point Number	397.7
Category	Activity > Walking and cycling improvements
Comments:	There is no co-funding arrangement that exists between Waka Kotahi and councils to provide safe alternative pathways for horse

	riders as there is for cycling and walking projects and programmes. Sadly, this has led to many councils Walking and Cycling Strategies not including bridleways or providing for horse riders in their communities. Bridleway is a physically separated off road path for horse riders for which motor vehicles do not have access. Cyclist and pedestrians may have shared access. It is here NCEAG wishes to acknowledge the vision and planning that has gone into spaces and places like Baynons Brake Horse Park, Cust Domain, Hanmer Springs Heritage Forest, Hororata Domain, Pegasus Bay Coastal Reserve & Waikuku Beach, Rangiora Show grounds, Se on Domain, Eyreton Domain, Silverstream Reserve, St James Conservation Park, and West Melton Forest Horse Park. These spaces are either specifically created for, or welcome horse riders. Horse riding promotes health and wellbeing. It is an active, healthy, inclusive and a social recreational pursuit chosen by many in both North and South Canterbury. In addition, it allows people of all ages and abilities to explore and enjoy our great outdoors. Conclusion It is important to the equestrian community that North Canterbury remains a place where we can continue to value and engage in the recreational pursuit of horse riding. To be able to continue this we need to be included in all planning of parks, open spaces and any connections between our individual communities and coastline. Thank you for the opportunity to introduce our group to you and to share our areas of focus, and passion. We sincerely hope you will welcome this opportunity and our efforts to engage with Selwyn District Council elected members and staff. We trust this will be the start of a positive and proactive relationship and that we will all see the benefits of the recreational horse-riding community being included and taking an active role in decision making. Kind Regards, North Canterbury Equestrian Advocacy Group Chair Julia McLean Secretary Calan Leyendecker Working Group members Andrea Rigby, Karen Legg, Maree Clapham, Roisin Magee and Jhonathon Appleby
Staff Recommendation	Submission is acknowledged by Council.

	Comment: Comment: Comment:
Staff Recommendation	Submission is acknowledged by Council.
Point Number	397.11
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	There is the opportunity for councils to explore the economic development of equestrian tourism within the Tourism Strategy. We know there is an untapped and unique tourism opportunity for the Canterbury region. It could be as easy as creating a place for travelling horse riders to stay, ride and explore. The horse-riding community brings much needed revenue to farmers, feed

	merchants, saddlery ou i ers and outlets, vets, trailer/float/truck companies, farriers, haulage companies, fuel stations, car dealerships, construction companies for barns and stables - strengthening local economies.
Staff Recommendation	It is acknowledged the submitter has not selected an option as to whether the Economic Development Strategy should progress. As discussed at the Council briefing on March 27 followed by the session on 24 April 2024, Council is involved in and has access to important levers in economic development. The Council has a role in facilitating others and enabling economic development to occur as prosperously as possible to benefit the whole community. Comments are noted by the relevant team.
Point Number	397.12
Category	Activity > Other Categories identified by Staff > Road Safety
Comments:	CEAG ask that the Selwyn District Council support road safety messaging to educate the public and keep horses and their riders safe on roads. This to be included in the Regional Transport Plan. A campaign to educate and advise drivers of the importance of passing horse riders slowly (20km) is recommended. NZTA Road to Zero 2020-2030 has no men on of horse riders.
Staff Recommendation	Submission is acknowledged by Council. Road Safety can accommodate this within existing advertising and promotion budget.
Point Number	397.13

Comments:	The new cycle lane down Hoskyns and West Melton Roads is a recipe for disaster. Vehicle crossings are used to see what is coming before exiting properties, so how will motorists see who is on the cycle lane from behind their fences and plantings? Many cyclists and walkers wear headphones, what do you think is likely to happen? I would like to propose that all cycle ways and walk ways in the Selwyn District are also open to horse riders. I would also like to see more community equestrian specific facilities available such as 2 or

	3 more parks like the West Melton Equestrian Forest. More road signage in rural areas to make people aware of horse riders rights to use the 'carriageways'.
Staff Recommendation	The submission is acknowledged by Council. Appropriate use and safety signage will be visible for all users of the shared pathway.

Submitter Number:	399	**Submitter:**	Russell Dalzell for Dunsandel sports Centre
Organisation:	Dunsandel sports Centre		
Point Number	399.2		
Category	Activity > Other Categories identified by Staff > Waste Management		
Comments:	Dunsandel has a waste problem. Since the install of the new public toilets near the Sports centre these toilets have attracted a lot of public traffic to this area. It seems the toilets are now in an ideal location for the general public to use including camper vans and freedom campers. The wheelie bins that the Sports Centre have are within sight of the toilets and the public view these as public waste bins. Consequently both the red and yellow bins are being filled with general waste. This is a real issue for the sports Centre as the recycling bins are being filled with general rubbish including used nappies. We have now padlocked the yellow bins so hopefully this will deter people. However it has been noted that if the bins are full they will just leave on ground beside the bins. Because this location is an ideal last stop for people to clean out campervans before returning them we believe that a suitable waste skip needs to be supplied near the toilets. The waste is not the responsibility of the Sports Centre so this needs to be urgently addressed by Council. I have spoken to Craig Westoby (hope I got that spelling correct) and he said the best course of action is through this format.		
Staff Recommendation	Kia ora. Thank you for your submission on the LTP 2024-2034. I have spoken with Craig and have passed this to the community		

	facilities team who are in charge of the park and public toilet block to investigate installing a public bin in this area. In the meantime, we recommend that the Sport's Centre keep their kerbside wheelie bins in a gated compound, or otherwise out of site to the general public. Alternatively, the Sport's Centre might want to consider getting a skip from a commercial waste collection company which can then be locked.

Staff Recommendation	Submission is acknowledged by Council.
Point Number	401.8
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	Use money to help low-income householders
Staff Recommendation	It is acknowledged the submitter has selected not to progress with the Economic Development Strategy. As discussed at the Council briefing on March 27 followed by the session on 24 April 2024, Council is involved in and has access to important levers in economic development. The Council has a role in facilitating others and enabling economic development to occur as prosperously as possible to benefit the whole community.

Point Number	401.9
Category	Questionnaire > Matters For Community Guidance > Digital Solutions
Comments:	Again, focus on low-income householders & keep costs to minimum
Staff Recommendation	The cost attributed to Digital is to signal we are serious about implementing efficiency across our organisation using technology. Our objective is to make Council financially sustainable through automation of process whilst providing residents and partners with more efficient services. Council is currently developing a Digital Strategy to provide this direction and budgets for the next LTP.
Point Number	401.10
Category	Activity > Other Categories identified by Staff > Other Water
Comments:	why no mention of Darfield wastewater system in plan? Why are you trying to mandate this for small households - those who can least afford it - while others, such as those with larger sections, are excluded? Large sections can only “sustainably manage onsite treatment” if small households are forced to stop using septic tanks. I.E. forcing the change onto smaller households is benefitting those with larger sections. ALL residents must contribute to the connection costs across the community. Otherwise, what financial help will you provide to householders who are being forced to pay for a change they don’t want and can’t afford?
Staff Recommendation	The submitters comments about reticulation of wastewater for Darfield and Kirwee is acknowledged. Reticulation of the existing township has been budgeted in the LTP between 2027 and 2038. Staff recommendation is to engage with the community on how servicing costs can be met.

Comments:	OPEN UP LAND FOR DEVELOPMENT IN WEST MELTON, ALLOW 10 acres lifestyle block to be subdivided easily, more amenities in West Melton
Staff Recommendation	Rezoning does not occur through the Long Term Plan.

	The process for a rezoning is through a Plan Change. The council has recently worked through its review though there are opportunities for private plan changes. There will be processes in the future that long-term growth areas can be discussed.

Submitter Number:	404	**Submitter:**	Russell Dalzell
Point Number	404.3		
Category	Activity > Other Categories identified by Staff > Road Safety		
Comments:	It has been suggested that a dedicated left turn lane from Browns Rd (5) going south will help but will in fact make the problem worse. There is no issue turning left here but a dedicated left turn will make issues further down where multiple trucks stop for food at the Stop Shop see (4). They would have to cross over the dedicated left turn. The first thing I recommend is remove parking between (2) and (3) Second thing would be to reduce the speed to 50km And the third thing would be to install traffic lights. This would provide pedestrians better access and enable much safer vehicle crossings. Kind regards Russell Dalzell		
Staff Recommendation	Submission is acknowledged by Council. Council is working with NZTA and are supportive of safety improvements in our townships along state highways, which is managed by NZTA.		
Point Number	404.5

Comments:	Lawn Bowling Green at Rolleston I wish to give my views on why a bowling green a Rolleston is needed. Bowls is a fast growing sport that can be enjoyed by anyone of any age. The opportunities for playing bowls in Selwyn are limited especially in Rolleston. A bowling green was mooted for Foster Park originally but got dropped for some reason. Bowls is a very non-discriminatory sport that can be played by school children, through to the elderly and handicapped. Dunsandel here for example has a very stable membership and has approximately 150 paid up members. These members are made up with the core serious bowlers, Community Bowlers and Social farmer bowlers. We also run invitational tournaments where a further 100 players are involved. Add to that the bowlers who come from other clubs on a home and away basis and the total is quite extensive for such a small community. It is pretty much the same across other Ellesmere and Malvern Bowling clubs. Rolleston needs to develop their own bowling club. The new park setting on Maddisons Rd would be a possible location for this. I know financial constraints at the moment are not conducive to spending large amounts of money on a project like this but could you at least consider a proper needs analysis and or feasibility study. I know Ellesmere Bowling Sub Centre would like this issue addressed but because of time constraints I have been unable to get an official letter of support from them as they only meet twice a year. also Malvern, New Zealand Bowls and Canterbury Bowls could be approached for support I would be happy to work with Council on taking this matter further but need the initial buy in to the proposal from Council. Kind regards Russell Dalzell
Staff Recommendation	Submission is acknowledged by council.

Point Number	404.7
Category	Activity > Other Categories identified by Staff > Road Safety
Comments:	Regarding the intersection between State Hwy 1 and Browns Rd, Dunsandel. This intersection is incredibly dangerous and because of the proposed changes on SH1 with some right turns being closed this intersection is going have traffic funneled into it from the likes of Frasers Rd. This sort of traffic will include tractors, trucks and other farm equipment. They would normally cross SH1 at little used side roads but will now have to use Browns Rd as a crossing point. I am a secondary school bus driver and have experienced two close calls in recent months. The second I documented to my employer as it was a very close call and could have resulted in my bus being clipped and spun sideways. Luckily it was a near miss. There is too much happening at this intersection and a lot of cars will nip across with little thought to us slow movers. Add to that tractors and more trucks and it is a catastrophe waiting to happen. Add to that the fact there are no barrier arms on the nearby rail crossing could potentially add to a disaster. Imagine someone just having had a close call and are driving with that deer in the headlights tunnel vision and drive straight into the path of a train. I realise this is an NZTA situation but I implore you as Council to lobby those appropriate to look at this situation especially the funneling of more traffic into this area. The first thing I would suggest is that no parking be allowed on the eastern approach as this creates a very big blind spot. see area between (2) and (3) on appendix 2 It's not a matter of if but when. Also the only dedicated pedestrian crossing if you can call it that is at (1) on appendix 2 pic. That means if children want to use domain or playground this is the only somewhat safe area to do so.
Staff Recommendation	The submission relates to aspects that are not the Council's responsibility. Council is working with NZTA and are supportive of safety improvements in our townships along state highways, which is managed by NZTA.

Comments:	The rolleston dog park should not be allowed to be restricted to residents and should at all time have half fully open to the residents.
Staff Recommendation	The submission is acknowledged. Staff concur that there is a conflict between Selwyn Dog Training Club use of the site and use by the wider public especially when club events are in progress. A submission has been received from the Selwyn Dog Training Club looking for an alternative exclusive site so they can run their activities and the existing dog park can be free for public use. Staff support exploring options for relocation of the Selwyn Dog Training Club. It is also noted that there are likely to be additional dog-friendly spaces provided as part of the first stage of the District Park development in Levi Road, Rolleston.
Point Number	406.11
Category	Activity > Maintenance and Renewals Funding Roading
Comments:	there is too much spent of transport, you don't need more unused pedestrian crossing, speed restrictions lead to frustration and traffic signals (with exception by proposed Pack & Save) will cause more delays and frustration. Stop spending money on new junk and start

	fixing the roads, potholes and failed digouts are a safety risk, can cause damage to property and more unsafe than many of the issues being presented. Any safety projects should be fully justifiable by ACTUAL CRASH data and not someones dream to spend money and then financially verified by NZTA economic manual.
Staff Recommendation	Submission is acknowledged by Council. Multiple modes compete for use of road space and council manages spend on various programs through evidence based approach, as detailed in the asset management plan.
Point Number	406.12
Category	Activity > Maintenance and Renewals Funding Roading
Comments:	Don't build facilities for bus services that are becoming less reliable and force transport to consider heavy rail from Darfield to Christchurch, it will be faster, more reliable and can increase capacity. Building for buses is an out dated policy and need to think about growing Selwyn connections to central Christchurch city.
Staff Recommendation	Submission is acknowledged by Council. Feasibility for regional rail has been studied in the MRT business case.

Category	Questionnaire > BD1 - Transport - Park and Ride		
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear.		

	Project cost: None **Estimated impact on rates:** To be determined **Funding:** To be determined **Comment:**
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP
Point Number	407.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.* **Project cost:** Year 1: $3.05m **Estimated impact on rates (per year):** $10.46

	Funding: Rates: 100% **Comment:**
Staff Recommendation	Submission is acknowledged by Council. [

Category	Activity > Planning Further Community Facilities
Comments:	Build a new community centre in Prebbleton as promised.
Staff Recommendation	The submission is acknowledged.

	A new community centre for Prebbleton has been in considered in earlier Long-Term Plans and was previously signalled for construction in 2025/26. A needs assessment study was undertaken in 2023 which concluded that there was demand for a facility to service the community, and that it should provide a mix of social, community gathering and recreation spaces. The study further concluded that the facility needed to be located so it was easily accessed by the community. As there are uncertainties about the best site for the facility and the activities that it will cater for, further planning and community consultation is needed. To enable time for the necessary planning to happen, the project has been programmed for 2026/27 to 2027/28.

Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities		
Comments:	Hi there. Feedback on a couple of opportunities in Rolleston. 1. The stadium has proven a fantastic facility for the sporting community. However, it desperately misses a clubrooms/cafe/restaurant, somewhere families and supporters can stop for a bite and a drink during trainings, post-match. Would also serve as a much needed venue for prizegiving's and other events. In my experience, everybody talks about this missed opportunity, and believe the addition would not only serve the community well, but would be viable commercial venture for any private or public entity.		

Staff Recommendation	Submission is acknowledged by Council.

Comments:	Lowes Road Rolleston development. I've heard the paddock on the shoulder at the northern end of Lowes Rd is up for development. I'd love to see a facility that includes something for families, and the avid sportsperson/golfer. The golfing population continues to grow (all ages and sex), Weedons GC (not to mention other near-by clubs) continue to enjoy packed membership. So, I wish to propose a golf driving range, mini-putt, accompanied by a cafe/bar. Such facilities are proving immensely popular worldwide, and importantly cater to both the sporting and non-sporting community. We could go big, really help put Rolleston on the map for out of town visitors (visit the TOPGOLF website for an idea of what I'm envisaging, these are amazing, and again cater to a very wide audience). Of note, a squash court is something Rolly misses too, perhaps any such facility at Lowes Rd could incorporate a squash club. Thank you for taking my feedback, noting I'm really invested in seeing Rolly continue to grow & prosper, so I'd happily be involved/represent the community/give my time to help get such an initiative off the ground. Regards, Scott Harvey
Staff Recommendation	Staff recommend that the submission is acknowledged. Council recognises that well over 150 submissions have been received across 11 or more different community facility types, often requesting significant capital input, Squash being one of them. Staff note that existing facility utilisation has not been outlined in the submission. Staff recommend that this facility be included as part of a wider community facility funding and planning project.

Point Number	412.1		
Category	Questionnaire > BD1 - Transport - Park and Ride		
Comments:	**Question:** You told us you want to see better access to public		

	transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear. **Project cost:** None **Estimated impact on rates:** To be determined **Funding:** To be determined **Comment:** I would recommend maintaining a 'holding pattern' on the creation of park and ride facilities and investment in mass road transport. The bus services that are funded by taxes and rates across Greater Christchurch are underutilised. Time should be taken to understand the motivations of potential users combined with the increased prevalence of hybrid working. Most people that drive into Christchurch will prioritise flexibility and freedom of movement over the availability of public road transport. To make bus route more efficient to the extent that the public will choose to use them over their own vehicles would require significant investment in creating dedicated bus lanes. A more future proof investment may be in other methods of transportation, such as commuter rail.
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP. The Greater Christchurch PT Futures Business Case Study considered the best approach for planning public transport within Greater Christchurch. Environment Canterbury will be investigating a possible regional passenger rail service.
Point Number	412.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next

	to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Comments:	The proposal to close the pool makes commercial sense.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	412.11
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	The council should look to stimulate economic growth by making it attractive to new businesses to move into the area, particularly to Rolleston (Izone). There are few industrial units available to lease or buy in the area.
Staff Recommendation	It is acknowledged the submitter has selected to progress with the Economic Development Strategy, and Council will consider their feedback in strategy action planning.
Point Number	412.12
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities
Comments:	The growth in under-represented sports continues to perform strongly. It is disappointing to read this long-term plan with no mention of gymnastics facilities. The last long-term plan concluded in a decision to support the growth in gymnastics and investigate building a purpose-built facility for Rolleston to cater for the sport, yet it appears to be conveniently forgotten. The charity, Affinity Gymnastics Academy Incorporated, is the Selwyn Districts largest charity sports club with a very large membership base. Three years ago numerous submissions were made to council requesting their support. The council committed to

	undertake a feasibility report for a new building for Affinity that would be subject to a lease. This was never done and the council ignored repeated requests. The club currently pays $160,000 per year in rent to a private landlord for an unsuitable building. Despite this, the council obviously finds it acceptable to build more floodlit sports pitches for smaller clubs at in Prebbleton for $11M and an artificial hockey and football pitch in Rolleston for $4.3M, all to be used by much smaller clubs. The council should either commit to a new purpose-built gymnastic sports facility in Rolleston for the Selwyn District or provide land on reserve land as an alternative option to allow the club to fund its own building.
Staff Recommendation	The submission is acknowledged. Council recognises that well over 150 submissions have been received across 11 or more different community facility types, often requesting significant capital input. This excludes existing or proposed Council facilities as part of the Long Term Plan. Staff recommend that this facility be included as part of a wider community facility funding and planning project with gymnastics as a potential individual case study along with other facilities such as a performing arts and a military museum or similar to provide a variety of examples.

Point Number	413.1		
Category	Questionnaire > BD1 - Transport - Park and Ride		
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we:		

	Build three new Park and Ride facilities at Lincoln and Rolleston, and upgrade public transport infrastructure, without NZTA Waka Kotahi co-funding. **Project cost:** Years 1–3: $4.2 million Years 4–10: $11.6 million **Estimated impact on rates:** Years 1–3: $14.41 Years 4–10: $39.83 **Funding:** Rates: 100% **Comment:**
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 2 - Fully funded by Council
Point Number	413.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park as agreed in our 2021-31 Long-Term Plan and using the current design and layout planned to meet the needs identified by the community. The facility would include a library, council service centre and community centre.

	Project cost: Year 1: $16.01m **Estimated impact on rates (per year):** $44.22 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 Our budgeted option **Comment:**

Yes **Question:** Do you support the Council investing in better technology solutions to improve our services to the community? Yes **Comment: Comment: Comment:**
Staff Recommendation	Submission is acknowledged by Council.
Point Number	413.8
Category	Activity > Providing safe drinking water
Comments:	Council to design and bring forward the installation of a permanent water treatment system for Arthur's Pass village. The existing temporary WTP has 16no. storage tanks in a residential area and is an eyesore as well as taking up a large chunk of flat land next to our Community Centre.
Staff Recommendation	The submitters support for water treatment upgrades in Arthurs Pass is acknowledged. During periods of high rainfall, the source water quality deteriorates significantly making treatment systems ineffective. Stored water is needed to continue to supply the village and meet mandatory Drinking Water Quality Assurance Rules. As part of the Long Term Plan the final stage of upgrades to the treatment plant have been budgeted for in 2026 to 2029 and will investigate treatment efficiency. Pending the outcome these works may include treatment and storage upgrades. Staff recommendation is to budget for these works as planned in the LTP.

Point Number	413.9
Category	Activity > Other Categories identified by Staff > Speed Management
Comments:	Council to implement 30 km speed limits on all of the council-managed roads in the village and work with Waka Kotahi to lower speed limits on the highway through the village.
Staff Recommendation	Submission is acknowledged by Council. Council has been supportive of and lobbied for lower speed limits through the Arthurs Pass village, however the SH is NZTA responsibility, also the central government is yet to disclose its intentions around setting of speed limits.
Point Number	413.10
Category	Activity > Other Categories identified by Staff > Bio-diversity
Comments:	Council to support conservation efforts being undertaken in the Arthur's Pass area in particular the protection of kea, an iconic and endangered species. This would include passing a by-law that prohibits the feeding of kea in the village, and enabling the Council Biodiversity team to work with the voluntary organisation in the Arthur's Pass area.
Staff Recommendation	Councill environmental staff are working hard to reverse the decline in our native species across the district. They recognize that kea protection efforts need to be supported and focused, and as such staff are engaging with stakeholders regarding the kea feeding bylaw proposal.
Point Number	413.11
Category	Activity > Planning Further Community Facilities
Comments:	Council to increase support for heritage activities in Arthur's Pass. This would include advocating for the protection and development of the Park Headquarters/Visitor Centre building managed by the Department of Conservation. Park Headquarters used to a great resource for explaining the history, geology, biodiversity, etc of Arthur's Pass to the public and especially for our children. Would like to see that resource restored.
Staff Recommendation	The submission is acknowledged. Selwyn District Council acknowledges the importance of promoting and protecting heritage as it improves community wellbeing by connecting people and

	building the identity of Waikirikiri Selwyn. The Selwyn Strategic Heritage Plan 2023-2027. ensures there is a focus on improving support for heritage activities and supporting the work of local history groups and residents who are strongly motivated to collect, protect and enhance local place-based heritage. Council has two community heritage funds available: the Community History Fund, which is to support kaitiaki (guardians, conservators, and protectors) communities and community groups for various history projects (and the operating costs of community history groups); and the Heritage Protection Fund, which is to encourage and assist owners with work required to maintain and enhance heritage buildings in the district as well as work required on protected trees. •
Point Number	413.15
Category	Activity > Other Categories identified by Staff > Road Safety
Comments:	Council to implement 30 km speed limits on all of the council-managed roads in the village and work with Waka Kotahi to lower speed limits on the highway through the village.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	413.16
Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	Agree with the proposed changes.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	413.17
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	Council to promote a “Dark Sky” designation for the village and the surrounding area.

Staff Recommendation	It is acknowledged the submitter has selected to progress with the Economic Development Strategy, and would like to see Selwyn progress towards Dark sky accreditation. Dark sky considerations will be part of the development of Action Plans associated with the Economic Development strategy.
Point Number	413.19
Category	Activity > Other Categories identified by Staff > Parks and Reserves
Comments:	Council to ensure the Council-managed gardens in the village are maintained to a high level
Staff Recommendation	Submission is Acknowledged by Council. The gardens are maintained on a routine contract schedule and the standard is to a garden grade of specification in the contract. This submission does not state the village location, Castle Hill ? so cannot give further site specific details of gardens in our schedule .
Point Number	413.21
Category	Activity > Maintenance and Renewals Funding Roading
Comments:	Council to cover the open gutter beside the road on Brake Hill.
Staff Recommendation	Submission is acknowledged by Council. Piping would be very expensive because of the topography. And considering the amount of water coming down the drain, piping may not be our best option. Council staff will review option. No additional work is budgeted at this time.
Point Number	413.22
Category	Activity > Other Categories identified by Staff > Parks and Reserves
Comments:	Council to bring forward the installation of a new fire in the Community Centre
Staff Recommendation	Staff do not support the submission. A significant amount of work has been carried out by Council in recent years in upgrading the building including installation of heat pumps, insulation and new flue for the log burner. A new heating appliance was considered but as this would trigger a Building Consent substantial budgets would be

	required to carry out compliance works (disabled access toilets, alarm system, accessibility improvements) it did not proceed. The reasons for not proceeding were communicated to the Arthurs Pass Community Association. Staff are of the view that the significant cost of this work is not warranted at this point but have allowed for heating replacement and associated works from 2029-30 (when the existing fire appliance is expected to be at end of life). Staff recommend that the submission to have a new solid fuel heating appliance installed at Arthurs Pass Community Centre is declined but the condition and performance of the existing solid fuel heater is monitored over the next few years.

Category	Activity > Chlorination
Comments:	Provide a chlorine free filtered water station in the centre of Darfield - particular because we have already been subjected to chlorination and we are last in line for exemption consideration
Staff Recommendation	The submitters preference for Council to remove chlorine and not fluoridate community drinking water supplies is acknowledged. Chlorine is required to be added to our drinking water under the Drinking Water Quality Assurance Rules. To move to intermittent chlorination for eligible schemes requires an exemption from Taumata Arowai. To get an exemption we would need to do infrastructure upgrades at significant cost and additional ongoing monitoring and testing. The estimated cost to move to intermittent chlorination is $82.6m over the LTP period. If implemented there will be an increased risk of community illness if there was a contamination event and chlorine may still need to be used intermittently. Staff recommendation is to reduce risk by continuing to chlorinate our community drinking water supplies. Council has not been instructed by the to add fluoride by the Director General of Health and Selwyn District Council do not fluoridate drinking water supplies. Staff recommendation is to only budget for fluoridation if Council is directed to add it to supplies.

Comments:	Once again, it is clear that the Council is going well past what is essential into areas that are almost ideological. I am part-Māori but strongly disagree that we need consultation with Māori over everything. I think as a Council you need to do this referendum that this new government has brought in, to obtain a mandate from your ratepayers as to whether they think that sort of consultation and representation, which is not democratic, should be happening or not.
Staff Recommendation	The submission is acknowledged.
Point Number	417.9
Category	Activity > Other Categories identified by Staff > Climate Change & Sustainability
Comments:	I also do not think we need to spend money on climate change issues.
Staff Recommendation	SDC's position is that climate change is occurring, and that it is resulting in significant effects both locally and globally. SDC is a signatory to the New Zealand Local Government Leaders' Climate Change Declaration 2017. This being our commitment to develop and implement plans to reduce emissions. The Activity Management Plans within the LTP each specifically identify how they are responding to Climate Change and emissions.

Comments:	We need to stick to the basics of why you exist, especially in a recession.
Staff Recommendation	Submission is acknowledged by Council.

Point Number	417.11
Category	Activity > Maintenance and Renewals Funding Roading
Comments:	Living in Sheffield, I feel we get very little value from the Council. I commute to CHCH for work each week day and the quality of the road along the Old West Coast Road has been appalling. I have lived here for three years, and it is a joke how many times the same parts of the roads get re-sealed. Clearly the sealant is low quality, as in a heavy rain, the pot holes return, and we are back to square one. The quality of the road closer to Sheffield is particularly bad.
Staff Recommendation	Submission is acknowledged by Council. This is being addressed by targeted reconstruction as funds permit.
Point Number	417.12
Category	Activity > Compulsary organics collection
Comments:	Regarding the new provision of green waste collection, it does not extend to Sheffield. I asked about it, and was told no, it only goes as far as Darfield. So another example where we as a small community on the margins of the Council are ignored and left out.
Staff Recommendation	Kia ora. Thank you for your submission on the LTP 2024-2034. Extensions to the kerbside organic collection must be balanced between sufficient demand for the service in the area and collection vehicle resources, emissions and cost. Demand for kerbside organic collections in rural townships is much lower than in urban areas, this combined with the long distances means that unfortunately it is not currently viable to extend to Sheffield.
Point Number	417.13
Category	Activity > Planning Further Community Facilities
Comments:	Now you want to close the pool, and have signalled you may do the same with the Hall. That was not a suprise with this Council. In order to gain some positive thoughts from our community, you should gift both back to the Community, to a Trust or to the School, and allow us to maintain and use both facilities locally.

	I tried the Library in Darfield, and it was dreadful. They have put a table tennis table into the library, and it was noisy and I got hit on the head twice by the ball. I was so annoyed I said to the librarian about it, and she said they were prioritising offering something to do for local school children. I said to her if you end up getting no one coming to the library you only have yourselves to blame. That building is big enough to house a table tennis table in another room. I have been to that library now four times, and that time was my last, and I will not be going again. Each time, the book selection was poor. Not one author I wanted was there, and very few books in the non-fiction categories were of interest. I then looked online at the catalogue, and saw that the entire Selwyn Library catalogue was of poor and limited quality.
Staff Recommendation	The submission is acknowledged.
Point Number	417.14
Category	Activity > Providing safe drinking water
Comments:	Out here at Sheffield our water was of a good quality before you added that stuff to our supply. You are not obliged to keep doing this, so please stop.
Staff Recommendation	The submitters preference for Council to remove chlorine and not fluoridate community drinking water supplies is acknowledged. Chlorine is required to be added to our drinking water under the Drinking Water Quality Assurance Rules. To move to intermittent chlorination for eligible schemes requires an exemption from Taumata Arowai. To get an exemption we would need to do infrastructure upgrades at significant cost and additional ongoing monitoring and testing. The estimated cost to move to intermittent chlorination is $82.6m over the LTP period. If implemented there will be an increased risk of community illness if there was a contamination event and chlorine may still need to be used intermittently. Staff recommendation is to reduce risk by continuing to chlorinate our community drinking water supplies. Council has not been instructed by the to add fluoride by the Director General of Health and Selwyn District Council do not fluoridate drinking water supplies. Staff recommendation is to only budget for

	fluoridation if Council is directed to add it to supplies.
Point Number	417.15
Category	Activity > Other Categories identified by Staff > Financial management
Comments:	Final summary is I think you need to prioritise basic things first - the stuff councils are meant to provide: roads, water, sewerage, and rubbish collection. Then look at parks and facilities. However, be aware many ratepayers never use even those, so at that point, you need to survey your ratepayers as to what is actually a priority - you are elected representatives of the ratepayers. We are into a recession, and the nation has huge debt. This ten year plan should be about consolidation. Ensuring the basics are provided, but not a lot else. Aim for a more positive next ten year period, when hopefully the economy is stronger and more vibrant, and then the extras, like parks and facilities, can be expanded. Maybe work in with schools, like Papanui High School has with the Council with the Graham Condon Centre. Share the costs.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	417.16
Category	Activity > Planning Further Community Facilities
Comments:	Next complaint is about names. Please put English first. I am quite proficient in Māori but all New Zealanders, including immigrants, know English. Not many know Māori. I have done one trip to Rolleston in the three years I have lived here, and couldn't even find the new library, as it had a Māori name, and no English signage saying it was the library. I teach mainly Pasifika and immigrant students, and they are very positive about our indigenous culture and respectful of our language, but are barely coping with English, so to make things more complicated by prioritising Māori over English lacks common sense. I have no issue with Māori signage, but think the English should come first.
Staff Recommendation	The submission is acknowledged. Selwyn District Council prioritises inclusivity and cultural respect in our community. Te Tiriti o Waitangi, the Treaty of Waitangi, is a founding document of New Zealand. Recognising Te Reo Maori (the Maori language) and incorporating

	cultural design elements in public facilities is one way Council chooses to uphold the spirit of the Treaty partnership. Council considers recognising Maori language and culture in public spaces is not only appropriate but also necessary. It reflects our commitment to the Treaty and our shared responsibility to create a more equitable and respectful society.
Point Number	417.18
Category	Activity > Other Categories identified by Staff > Rates
Comments:	I went over a breakdown of my rating bill, and thought of how many of those costs are completely irrelevant to me. As I commute to CHCH, I don't ever go to Rolleston, and only go to Darfield once or twice per month, at the most, and then it is just to get petrol or groceries. Nothing else. I have lived in five council areas in my adult life as a ratepayer, and this is certainly the worst experience I have had of a council: in the lack of what is provided just because I live in a more rural location within the council, and in the sense of ideals of the Council being prioritised over the basics, without consultation. In fact, it has been such a negative experience living out here regarding how the Council is, with the roads, the water, the lack of green waste collection, and now the pool closing, I am planning to sell when I can, to move. The main reason is just how badly we are treated by the Council - it makes for a miserable existence out here. It really feels like the Council simply does not care. Rolleston then Lincoln are the priorities, and to a lesser extent, Darfield and Lesston, but the rural ratepayers are just almost irrelevant. I am not normally a negative person, but truly, these three years out here, with one thing after another, it has been a very negative experience with the Council, without one positive aspect I can think of.
Staff Recommendation	That the submission is acknowledged by Council. The Council understands the financial pressures that ratepayers face and endeavours to keep rates increases to a minimum.
Point Number	417.19
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool

Comments:	I live at Sheffield. It was gifted to the Council, and so I feel strongly it should be gifted back to the Community, and to the School. Yes, we are only 10 minutes away from Darfield, but we get virtually nothing from the Council specific to this locality. We are not Darfield. We are Sheffield. We too are growing, with new housing going up, and farmers getting permission from Council to subdivide further, so within ten years, this village will be much bigger. The school is growing, and the school children use that pool all of the time. So gift it back to the community, and grant a community body, say the school, the $290,000 that you would use to close it, for the school to upgrade it, and for the community to use.
Staff Recommendation	It is acknowledged that the submitter has suggested Council not close the Sheffield Memorial Pool, and instead transfer the facility and operations of the facility over to a community organisation of some kind, currently not identified. The Long Term Plan consultation is essentially on the future ownership of Sheffield Memorial Pool by Selwyn District Council. The Council's proposal is to decommission the Pool on the basis that Council sees poor value in continuing to fund and operate the Pool given its design issues, low usage in comparison to other staffed facilities, costs (current and pending) and close proximity to a recently refurbished Council Pool. Council's interest is therefore to no longer own the Pool and to save the Council from further costs related to the Pool. The final staff response will consider Council's position regarding alternative options than decommissioning that still achieve Council's interest.
Point Number	417.20
Category	Questionnaire > Matters For Community Guidance > Digital Solutions
Comments:	Again, I just wish the Council would stick it the basics of what a local Council ought to do. Top priority is the services we need (not want): good quality roads, rubbish collection, and water. Then next layer, are things like a hall or community building. These things listed are nice ideas, but not essential. They do not affect most ratepayers, so are not necessary.
Staff Recommendation	Submission is acknowledged by Council.

Point Number	417.21
Category	Activity > Chlorination
Comments:	Next complaint is the water. Please stop whatever is in it! It tastes horrific. I have got to pay for bottled water, and I am saving up for a filter. Everyone I know out here has filters now installed. The plumbers must be happy! You did not consult if we wanted that. It is no longer required by the government, so please stop adding fluoride or chlorine, or whatever it is that tastes awful, smells awful, and makes everything go yellow
Staff Recommendation	The submitters preference for Council to remove chlorine and not fluoridate community drinking water supplies is acknowledged. Chlorine is required to be added to our drinking water under the Drinking Water Quality Assurance Rules. To move to intermittent chlorination for eligible schemes requires an exemption from Taumata Arowai. To get an exemption we would need to do infrastructure upgrades at significant cost and additional ongoing monitoring and testing. The estimated cost to move to intermittent chlorination is $82.6m over the LTP period. If implemented there will be an increased risk of community illness if there was a contamination event and chlorine may still need to be used intermittently. Staff recommendation is to reduce risk by continuing to chlorinate our community drinking water supplies. 	Comment: P & R only useful over and above own transport use if can delivers passengers to their destinations as quick or quicker - ie town CHCH city - Hornby.
Staff Recommendation	The Greater Christchurch PT Futures Business Case identified that further investment in increased PT services and infrastructure will have positive benefits. The aim of PT Futures for Greater Christchurch is to put PT services on the same of not better basis than private vehicle travel in peak times.
Point Number	418.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	
	Question: 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.*

	Project cost: Year 1: $3.05m **Estimated impact on rates (per year):** $10.46 **Funding:** Rates: 100% **Comment:** noted under option one ------ restrictive New Rolleston Library is not too far away and offers a lot of room and activities for other people use.
Staff Recommendation	The submission is acknowledged. Proximity to other facilities and services has been considered in relation to this matter.
Point Number	418.3

Category	Activity > New Public Transport
Comments:	Use of train lines could be better used for public transport carriage into town? - quicker than bus - could be used by elderly and younger ones - however, cost factor could be a problem - put on during summer months to test out the popularity?
Staff Recommendation	The 2023 Greater Christchurch Mass Rapid Transit (MRT) Business Case considered a wider passenger rail service using the existing rail network connecting Rolleston to Rangiora. This could have merits in the future if combined with a wider regional passenger rail service. But with small projected patronage, large investment needed for rolling stock and infrastructure (on a rail network managed by others), and that there is no CBD connection makes this currently not worthwhile.
Point Number	418.8

Point Number	421.6
Category	Activity > Other Categories identified by Staff > Growth
Comments:	I am concerned that the council is falling behind on provisioning of infrastructure and services to the ever-growing population of Selwyn. The Lincoln town centre plan is considerably out of date and was written with a population of about 10,000 people in mind- which the recently approved subdivisions in the area will double in the near future. If it takes the council 10 years to even get projects started, then we should be seeing much more proposed for Lincoln in the current long-term plan, including a swimming pool and more playing fields and public recreation facilities. I don't see evidence of a clear plan for dealing with the increased traffic that comes with the growing population- especially the burden that will be placed on Prebbleton and the southern suburbs of Christchurch with twice as many cars traveling through their neighbourhoods.
Staff Recommendation	A key assumption for the Long Term Plan is the population projections. As each town grows, there is a need to understand its future, as well as upgrade its infrastructure. This is generally done through Strategic and Spatial Plans, which are underway. However, as growth continues to exceed the projections, more projects are needed quicker to meet this growth.
Point Number	421.7
Category	Activity > Walking and cycling improvements
Comments:	Nor is there a clear plan for making it safer for cyclists and pedestrians within our towns- we have excellent bike paths in some areas (for example, I commute via the rail trail from Christchurch through Prebbleton and to Lincoln), but the paths virtually disappear in the towns themselves where cars have priority over bikes. I know that the school my children go to has constant problems with traffic

	created by parents dropping kids off, and that feedback from parents has been that they don't feel the roads leading to the school are safe enough for their kids to ride bikes- thus leading to more traffic and even more unsafe conditions. I'd really like to see our towns planned in such a way that there are safe bike paths (that give the bikes right of way over cars on side streets), especially leading to schools and the town centre.
Staff Recommendation	Staff support the submission because safe bike access to schools and within town centers are council's priorities for walking and cycling. The recently completed Rolleston school's shared use path contribute to that outcome.
Point Number	421.8
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	Pools are essential for our communities and we shouldn't be asking people to drive into hubs like Darfield and Rolleston to use them. This is removing a cost from the council and adding it to individual households (and probably schools). $1 million is a drop in the bucket of all of the other costs proposed. We should be building MORE community pools and facilities.
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.
Point Number	421.9
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	I think this is a vague strategy. Use this money to fix the Sheffield pool.
Staff Recommendation	It is acknowledged the submitter has selected not to progress with the Economic Development Strategy. As discussed at the Council briefing on March 27 followed by the session on 24 April 2024, Council is involved in and has access to important levers in Economic Development. The Council has a role in facilitating others and enabling Economic Development to occur as prosperously as possible to benefit the whole community. There will be an action plan formed. Feedback is noted by relevant team.

Point Number	421.10
Category	Questionnaire > Matters For Community Guidance > Digital Solutions
Comments:	I think this is a vague strategy. Use this money to fix the Sheffield pool.
Staff Recommendation	The cost attributed to Digital is to signal we are serious about implementing efficiency across our organisation using technology. Our objective is to make Council financially sustainable through automation of process whilst providing residents and partners with more efficient services. Council is currently developing a Digital Strategy to provide this direction and budgets for the next LTP.

Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park as agreed in our 2021-31 Long-Term Plan and using the current design and layout planned to

	meet the needs identified by the community. The facility would include a library, council service centre and community centre. **Project cost:** Year 1: $16.01m **Estimated impact on rates (per year):** $44.22 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 Our budgeted option **Comment:**

Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	The community needs this pool for children in the district to learn to swim, Darfield is already crowded! With a growing population in the area, this pool will be used for years to come. If Sheffield school kids have to be transported to Darfield for compulsory swimming lesions, this is taking into there learning of numercacy and literacy time, adding to the costs of transport and logistics for teachers, parents and impeding more importantly the learning of the students. Primary school children only have a limited learning consentration period per day, if that is taken up with a logistical 2 hr round trip to go for swiming lesions 3 x per week, where do fit time for the actual learning?
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.

Comment:

This upgrade is really important. i run the Leeston Drawing Club out of the Leeston Library we are a not for profit registered charity who employ Ellesmere College Students each term to teach art classes to nuerodiverse children and those with complex needs.

	As a ratepayer it is disheartening to see all the money funelled into Rolleston and the small rural farming towns (which are growing at an swift rate and will soon be bulging like Rolleston). If we don't keep up with infrastructure in these growing towns we will be faced with the same problem that Rolleston has with the school. Services which have not planned for sustained growth. The Leeston Library is the hub for the local community, many clubs, groups and families gather. As a planner myself it would be very disheartening to see the council not keep their word on this. Keep the heart and soul of the small community alive by providing adaquate infrastructure.

Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Build three new Park and Ride facilities at Lincoln and Rolleston, and upgrade public transport infrastructure, but only if Council receives co-funding from NZTA Waka Kotahi. **Project cost:** Years 1–3: $4.2 million Years 4–10: $11.6 million **Estimated impact on rates:** Years 1–3: $7.06 Years 4–10: $19.52 **Funding:** Rates: 49% NZTA Waka Kotahi: 51% Our budgeted option **Comment:**
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 1 - Our Budgeted Option using NZTA Waka Kotahi co-funding
Point Number	430.3
Category	Activity > Planning Further Community Facilities
Comments:	Council must include provision for an upgrade or full replacement of the Prebbleton Community Hall in the long term plan. This is a vital part of our thriving community and central to so many community activities within Prebbleton.

Staff Recommendation	The submission is acknowledged. A new community centre for Prebbleton has been in considered in earlier Long-Term Plans and was previously signalled for construction in 2025/26. A needs assessment study was undertaken in 2023 which concluded that there was demand for a facility to service the community, and that it should provide a mix of social, community gathering and recreation spaces. The study further concluded that the facility needed to be located so it was easily accessed by the community. As there are uncertainties about the best site for the facility and the activities that it will cater for, further planning and community consultation is needed. To enable time for the necessary planning to happen, the project has been programmed for 2026/27 to 2027/28.

Category	Questionnaire > BD1 - Transport - Park and Ride		
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Build three new Park and Ride facilities at Lincoln and Rolleston, and upgrade public transport infrastructure, without NZTA Waka Kotahi co-funding. **Project cost:** Years 1–3: $4.2 million Years 4–10: $11.6 million **Estimated impact on rates:** Years 1–3: $14.41 Years 4–10: $39.83		

	Funding: Rates: 100% **Comment:** Get a one car carriage train to bring Springfield, Sheffield, Darfield and Kirwee residents into Rolleston. The train line is under utilised and think of the cars taken off the roads. Often more than once a day train and buses to Darfield.
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 2 - Fully funded by Council. The 2023 Greater Christchurch Mass Rapid Transit (MRT) Business Case considered a wider passenger rail service using the existing rail network. This could have merits in the future if combined with a wider regional passenger rail service that also included other Malvern townships too. But with small projected patronage, large investment needed for rolling stock and infrastructure (on a rail network managed by others), and that there is no CBD connection makes this currently not worthwhile.
Point Number	431.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	
	Question: 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park as agreed in our 2021-31 Long-Term Plan, but with additional sports courts and/or bigger community meeting spaces. **Project cost:** Year 1: 19.24m

	Estimated impact on rates (per year): $53.14 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 **Comment:** Leeston is expanding, think more than immediate
Staff Recommendation	The submission is acknowledged.

Submitter Number:	432	**Submitter:**	Ray GOLDRING for Castle Hill Community Association
Organisation:	Castle Hill Community Association		
Point Number	432.3		
Category	Activity > Other Categories identified by Staff > Waste Management		
Comments:	**GREEN WASTE** The permanent residents of Castle Hill Village have no facility for the disposal of green-waste in the Village. With the Village becoming more "forested" with the planting of beech trees, and with existing beech trees getting larger, snow and heavy wind events often break branches off which need disposing of. We request that a green-waste facility, possibly a dedicated open-top container, be located adjacent to the recycling/rubbish skips in the Village.		
Staff Recommendation	Kia ora. Thank you for your submission on the LTP 2024-2034. There are no immediate plans to establish a permanent green waste drop-off site at Castle Hill as costs to residents of Castle Hill to provide this (in particular transport costs) is prohibitively expensive. Furthermore, an open top skip in an unstaffed facility would invite tipping of construction waste and other bulky waste - contaminating the green waste. Staff have suggested previously that Council would consider assisting the community association with a community hire of a garden chipper once or twice per annum.		

Point Number	432.6
Category	Activity > Other Categories identified by Staff > Bio-diversity
Comments:	**WILDING SEED AGENT TREES** The Canterbury Regional Pest Management Plan designates Douglas fir and larch as pest conifers. Currently the Castle Hill Village reserves have a number of these wilding seed-source trees still growing there. These trees are spreading their seeds onto adjacent properties in breech of the RPMP. We request that the remaining wilding seed-source pest trees on Castle Hill Reserves be removed immediately.
Staff Recommendation	Council recognizes the environmental risks of weed spread from all conifers in the high country, including those on Council reserves in the Castle Hill village (whilst noting the significant stands of conifers on other land surrounding the village). As such Council staff have been working with village residents and Environment Canterbury to remove pines from the Council reserves and look at planting suitable native plants to provide form and cover. All the contorta species have been removed and a draft Reserve Management Plan has been prepared to guide management of the reserves. Staff agree that suitable Council funding should be available to complete the pine removal and associated replanting project.
Point Number	432.7
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	**DARK SKY** Castle Hill Village is located in the mountains and is void of any close town of city light-influence. It is an ideal location to view the stars and milky-way. However, a few years ago the street lights were changed from standard globes to LED. It was assumed the LED lights would shine down onto the street only - but alas - they still shine out onto the adjacent properties as well resulting in light-pollution preventing the unencumbered viewing of stars. We request that the Castle Hill Village be designated a "Dark-Sky" zone with suitable street lighting to prevent light polluting residents' viewing of the night sky.

Staff Recommendation	It is acknowledged the submitter has not selected an option as to whether the Economic Development Strategy should progress. As discussed at the Council briefing on March 27 followed by the session on 24 April 2024, Council is involved in and has access to important levers in economic development. The Council has a role in facilitating others and enabling economic development to occur as prosperously as possible to benefit the whole community. Council will consider their feedback in strategy action planning. It is also acknowledged that the submitter would like to see Castle Hill Village progress towards Dark sky accreditation. Dark sky considerations will be part of the development of Action Plans associated with the Economic Development strategy.

Point Number	433.8
Category	Activity > Lincoln Town Centre Upgrades
Comments:	With the council approving the massive development of land in Lincoln. Many of the roading network upgrades will need to be brought forward to meet the increase traffic congestion that will occur. Lincoln will be effectively doubling in size. Traffic lights that have been proposed will need be brought forward. The roading improvments for Birches, Ellesmere and Springs road to Prebbleton will need to occur. These roads are already very unsafe due to the increases degradation of the roading surface due to already high vechile use. These roads have not been upgraded in the past 30 years.
Staff Recommendation	The planned upgrade of Gerald St is to accommodate the additional traffic expected however a project of that magnitude cannot be done overnight and has to be staged. Council has invested heavily in upgrading key arterial intersections of Shands and Springs Road with roundabouts at Prebbleton to cater for the confluence of traffic growth from Rolleston and Lincoln and access to the motorway and/or city. The widening and safety upgrade of Ellesmere Road is included early in the draft LTP. Both Springs Rd and Shands Rd were widened previously.
Point Number	433.9
Category	Activity > Other Categories identified by Staff > Financial management
Comments:	The council needs to be more finicailly disciplined at this stage of the economic cycle. The council can't keep raising rates above inflation. Developers should make more of a contribution towards community and roading infrasructure. This should come at the expense of developers profits (they need to be happy with making a large profit from land sales, not over the top profits).

Staff Recommendation	Submission is acknowledged by Council.

Comments:	strategic Relations: as stated before I fully support a strong, equitable partnership with mana whenua.
Staff Recommendation	The submission is acknowledged.
Point Number	436.9

Category	Activity > Chlorination
Comments:	Water: I'm not opposed to chlorination if needed. Exempting some communities from this would require vigilant monitoring. An opps, and putting out a boil water notice is too late, and has consequences as we have seen. Same with fluoride, the benefits speak for themselves, especially for the underprivileged. sounds like a sensible strategy in place for the monitoring of nitrate. Just have to hope Ecan requirements have the effect they hope.
Staff Recommendation	The submitters preference to continue to chlorinate community drinking water supplies and seek no further exemptions from Taumata Arowai is acknowledged. Staff recommendation is to continue to chlorinate community supplies to reduce risk to community health. The submitters preference to fluoridate community drinking water supplies is acknowledged. The cost to fluoridate supplies is estimated at $7.9m over the LTP period. Staff recommendation is to only budget for fluoridation if directed by the Director General of Health. The submitter supports investigation of low nitrate water sources. Staff recommendation is to undertake further investigations into centralised sources of low nitrate water as budgeted in the LTP.
Point Number	436.10
Category	Questionnaire > BD1 - Transport - Park and Ride
Comments:	**Comment:** Transport: this one is very important to me. I understand that some of this is not necessarily under council control, however council professes to want Selwyn to be self sustainable. This can not happen when it's people do not have the means to move around the district - apart from climbing in a car - We are all talking 'climate change', ' environmental footprint' however at this point to get to one township to the next there is NO OTHER OPTION. I live in Darfield, I have no way to access any of the facilities in Rolleston apart from getting in the car. The Youth of Darfield, the elderly or those with no vehicle are stuck, no where to go, no means of getting there. The facilities and services offered by the Selwyn community and council are worthless if the people do not have a public transport option to get to them. I see this as a priority!!!!!!

Staff Recommendation	Submission is acknowledged by Council. Council will be investigating what further PT services could be provided to link the wider district townships together beyond what Environment Canterbury can fund and provide as a Metro service. This would include linking larger townships like Darfield to Rolleston and PT services based there, and connections to the City.
Point Number	436.11
Category	Activity > Compulsary organics collection
Comments:	Organics collection: yup, have a bin already, huge need, totally agree, especially with urban sections getting small, people these days dont have room for a compost bin not to mention the skills or inclination. Pines resource centre is great. Key to its use by the wider community is keeping the cost as low as possible. it must be remembered for most of us we are travelling a significant distance to get to it so the cost is a factor.
Staff Recommendation	Kia ora. Thank you for your submission on the LTP 2024-2034. We're pleased that you're supportive of the upcoming change. Organic disposal prices at the Pines Resource Recovery Park are kept as low as reasonably possible whilst making sure to cover processing and operational costs.
Point Number	436.13
Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	Policy changes and updates are often dictated by other rules, laws, policy changes by others, often central govt, not to mention the passage of time. Looks they are all woven together and just need to happen. I fully agree that mana whenua and iwi need to have a seat at the table and be included at all stages of council decision making.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	436.14
Category	Questionnaire > Policy Changes > Policy Review - Other

Comments:	Property Assests: Development contributions - I have been involved in subdivisions in Darfield. Paying more 'contributions' I do not agree with. the cost of council contributions is already a significant portion of development costs and I am yet to see where these contributions are spent in the community. ie in our last development we expanded an existing reserve as well as paying a significant reserves contribution, the 2022 annual plan had money set aside to enhance and develop this reserve - to date there is no sign of this. It is to be remembered council is gaining a number of rate payers from these developments and this is where these 'new' contributions should be coming from. This proposal would create a yet another barrier to development and the growth of the council ratepayer client base.
Staff Recommendation	The submitters views on development contributions are acknowledged. Council's view is that the new community infrastructure development contribution will ensure the growth community pay a fair and reasonable share towards new facilities that are needed to provide additional capacity in response to demand from growth. Regarding the reserve development contributions collected from the subdivision in Telegraph Road, we can advise that these are to be used for improvements to the reserve extension provided as part of that subdivision. Plans have been prepared and budgets have been set aside to undertake the works in the 2024/25 financial year.
Point Number	436.16
Category	Questionnaire > Matters For Community Guidance > Digital Solutions
Comments:	Not sure I fully understand what is proposed however this is the future. it's better to be ahead or at least keeping pace rather than playing catchup.
Staff Recommendation	The cost attributed to Digital is to signal we are serious about implementing efficiency across our organisation using technology. Our objective is to make Council financially sustainable through automation of process whilst providing residents and partners with more efficient services. Council is currently developing a Digital Strategy to provide this direction and budgets for the next LTP.
Point Number	436.17
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	This a hard one, However, if the pool has reached the end of its life, this would be a replacement not refurbishment. Unless other funding

	options ie MOE contribution, commercial partner, I dont think there is an option.
Staff Recommendation	It is acknowledged that the submitter has selected to close the Sheffield Memorial Pool.

Submitter Number:	437	**Submitter:**	Jos Unterschuetz
Point Number	437.1		
Category	Questionnaire > BD1 - Transport - Park and Ride		
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear. **Project cost:** None **Estimated impact on rates:** To be determined **Funding:** To be determined **Comment:** The community needs a commuter rail option that can get you from Rolleston to Christchurch city centre in 30 minutes. Hour long bus routes are not a feasible commuter option.		
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP. The 2023 Greater Christchurch Mass Rapid Transit (MRT) Business Case e determined that MRT was viable in the city, but not in the surrounding Districts. It considered a wider passenger rail service		

	using the existing rail network could have merits in the future if combined with a wider regional passenger rail service.
Point Number	437.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	

Question: 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1.

Build Whata Rau next to Leeston Park using a more standard design that can be easily repeated for other buildings. This building would have the same sized floor space as option 2 and include a cultural narrative in the design.

Project cost:
Year 1: 15.21m
Estimated impact on rates (per year):
$42.01

Funding:
Rates: 80.5%
Development contributions: 19.5% *

2024/25
2025/26
2026/27
2027/28

	2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 **Comment:** Over the long term Option 1 is simply the most expensive option as the existing building is earthquake prone and needs replacement. Option 3 is significantly more expensive. The cost difference between option 2 has the advantage of being already designed.
Staff Recommendation	The submission is acknowldged.
Point Number	437.3
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2b - Leeston Park Improvements
Comments:	
	Question: We want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1. Do nothing. Use the existing park facilities and remove or replace old and unsafe items in the park. **Project cost:** Year 1: $143,000 **Estimated impact on rates:** Included in our current rates **Funding:** Rates: 100% **Comment:** In order to better manage and minimise impact on rates, please consider delaying these upgrades until developers are either able and willing to contribute more or we have returned to a more moderate rates increase
Staff Recommendation	It is acknowledged that the Submitter has selected Leeston Park Option 1. Development contribution funding can only cover project

	elements required to extend capacity to meet demand from growth. As this project is primarily an upgrade of the park to improve levels of service only a minor part of the cost can be funded by development contributions.
Point Number	437.4
Category	Questionnaire > BD3 - Malvern Rec and Sports Facility
Comments:	**Question:** We want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1. Build a community recreation and sports facility at Darfield that includes two indoor courts. **Project cost:** Year 3: $11.28 million (minus $1.10 million already included in the last Long-Term Plan. Total left to fund is $10.18 million) **Estimated impact on rates (per year):** $19.91 **Funding:** Rates: 57% Development contributions: 43% * **Comment:** Please consider delaying the start of this project to better manage the impact on rates. But I am generally supportive of the project as fitness in the community is poor and we have a health epidemic in NZ.
Staff Recommendation	It is acknowledged that the submitter has selected Option 3, build the community recreation and sports facility at Darfield that includes two indoor courts. Our budgeted option.
Point Number	437.7
Category	Activity > Other Categories identified by Staff > Rates

Comments:	Please do more to moderate rate increases, Last year my rates increased 14%. This year 16% is forecasted. Rate increases should be more in line with inflation in general.
Staff Recommendation	That the submission is acknowledged by Council. The Council understands the financial pressures that ratepayers face and endeavours to keep rates increases to a minimum.
Point Number	437.9
Category	Activity > Chlorination
Comments:	Please upgrade our water infrastructure to meet chlorine-free requirements. I have read the advice on cost in the consultation document and would willingly accept the impact on our rates. This is vital infrastructure.
Staff Recommendation	The submitters preference for Council to remove chlorine from community drinking water supplies is acknowledged. To move to intermittent chlorination for eligible schemes and obtain an exemption from Taumata Arowai requires infrastructure upgrades at significant cost. Additional monitoring and testing would also be required on an ongoing basis. The estimated cost to move to intermittent chlorination is $82.6m over the LTP period. If implemented there will be an increased risk of community illness if there was a contamination event and chlorine may still need to be used intermittently. Staff recommendation is to reduce risk by continuing to chlorinate our community drinking water supplies.
Point Number	437.10
Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	I support the climate change policy. I oppose co-governance and treating NZ Citizens differently on the basis of ethnicity. Democracy is built on one person, one vote. Therefore I am o[opposed to Māori getting a special seat at the table on Council decision -making
Staff Recommendation	The submission is acknowledged. Selwyn District Council recognizes the importance of partnerships; building strong partnerships with iwi is vital for Council to fulfill its obligations to the entire community. Te Tiriti O Waitangi (Treaty of Waitangi) is a founding document of New Zealand and establishes a partnership between the Crown and Maori. This partnership requires us to work together for the collective benefit of all. Partnership with iwi, to have any meaning,

	requires consideration of iwi position and contribution to discussion/debate.
Point Number	437.11
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities
Comments:	I am opposed to the proposal to build a stadium on the out skirts of Rolleston. Rate payers will bear the loss of this either directly through contributions or indirectly through increased demands on roads and infrastructure. There are other improvements we need more urgently.
Staff Recommendation	Submission is acknowledged by Council.

Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park as agreed in our 2021-31 Long-Term Plan and using the current design and layout planned to meet the needs identified by the community. The facility would include a library, council service centre and community centre. **Project cost:** Year 1: $16.01m **Estimated impact on rates (per year):** $44.22

	Funding: Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 Our budgeted option **Comment:**

Staff Recommendation	Submission is acknowledged by Council.
Point Number	450.7
Category	Activity > Other Categories identified by Staff > Rates
Comments:	As a rate payer in a smaller community I do wonder what my $ really pays for in my local area with the proposal of numerous halls & pool being expected to close. A very expensive rubbish & recycling bin. We put up with many many years of unsuitable water from the council (Springfield Scheme) thus resulting in having to take matters into our own hands - a very costly experience.
Staff Recommendation	That the submission is acknowledged by Council. The Council understands the financial pressures that ratepayers face and endeavours to keep rates increases to a minimum.

Point Number	450.9
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities
Comments:	The traditional "oh just travel to Rolleston" to the use the facilities is not always viable. Costs are through the roof for living and I believe people would rather see less over priced and poorly designed facilities being built over the next 10 years and rates staying at a more sustainable level. Yes we need to grow and move with the times but I feel it needs to be thought through as if it was "you" paying for the building/facility etc - not someone else's money.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	450.10
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	With the closure of many local facilities this would be very poor form on the council's behalf. Where are the local children expected to learn to swim. Darfield and Rolleston are already at capacity and the amount of time taken out of the classroom for the children to travel would be over and above what is acceptable. The community ran this pool successfully for many years and they should be given the opportunity to be gifted it back along with the funds allocated to decommission to bring it up to an acceptable standard to be continued and enjoyed for many years to come.
Staff Recommendation	It is acknowledged that the submitter has suggested Council not close the Sheffield Memorial Pool, and instead transfer the facility and operations of the facility over to a community organisation of some kind, currently not identified. The Long Term Plan consultation is essentially on the future ownership of Sheffield Memorial Pool by Selwyn District Council. The Council's proposal is to decommission the Pool on the basis that Council sees poor value in continuing to fund and operate the Pool given its design issues, low usage in comparison to other staffed facilities, costs (current and pending) and close proximity to a recently refurbished Council Pool. Council's interest is therefore to no longer own the Pool and to save the Council from further costs related to the Pool. The final staff response will consider Council's position regarding alternative options than decommissioning that still achieve Council's interest.

Point Number	450.11
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	I believe this is for businesses to work towards together - not rate payers money.
Staff Recommendation	It is acknowledged the submitter has selected not to progress with the Economic Development Strategy and has noted Council does not have a role in economic development. As discussed at the Council briefing on March 27 followed by the session on 24 April 2024, Council is involved in and has access to important levers in economic development. The Council has a role in facilitating others and enabling economic development to occur as prosperously as possible to benefit the whole community.

Organisation:	Orana Wildlife Trust		

Point Number	451.5
Category	Activity > Other Categories identified by Staff > Community funding /grants
Comments:	Seeking funding $190,000 per year from Selwyn District Council approximately $8 each year or $0.67 each month per rate payer.
Staff Recommendation	This request will be considered by Council within the Long Term Plan Deliberations. Strategic Partnerships are part of the Council's Community Funding Programme and any arrangements with groups are generally made for three years, subject to performance and delivery. A submission to Council's Long-Term Plan process, plus strong alignment with

	Council's strategic direction and role is required for consideration for this fund. The activities funded are generally activities that, should they not be delivered, might reasonably be expected to be the responsibility of Council or impact an aspect of the District's wellbeing.

Comments:	Awareness (more awareness) re sustainability/ recycling ie: awareness drives
Staff Recommendation	Kia ora. Thank you for your submission on the LTP 2024-2034. Our dedicated waste and sustainability education centre (named ReDiscover) located at the Pines Resource Recovery Park opened last year and we offer free programmes for schools and community groups, as well as outreach programmes to early childhood education centres. Council also regularly hold public workshops and talks about waste minimisation, support Lincoln Envirotown's Responsible Business Assessment and award programme, and publish information on social media. Recycling bin auditing continues to be a successful way to provide information about recycling and contamination. We would be keen to hear ideas for different ways we can promote our waste minimisation education.

Comments:	Improve country roads and intersections due to larger volume of traffic now and minimize major flooding during heavy rains.
Staff Recommendation	Submission is acknowledged by Council. The roading team is making the roading network more resilient to all weather events. Rural intersection upgrades and drainage renewals have been programmed.
Point Number	453.9
Category	Activity > Other Categories identified by Staff > District Planning
Comments:	Selwyn to be Selwyn not be a supercity
Staff Recommendation	The community outcomes in the Long Term Plan seeks to describe the future of the district. Some relevant outcomes are growth that consolidates and intensifies our towns as well as ensuring each town's identity is promoted.
Point Number	453.10
Category	Activity > Other Categories identified by Staff > Parks and Reserves
Comments:	Improve Ellesmere Lake so it will be a destination in the future. Make it a destination for everyone like the other popular lakes.
Staff Recommendation	Submission is acknowledged by Council. Te Waihora is a significant feature in the district. As Council develops the Blue-Green Plan as part of Future Selwyn the lake and its environs will be considered. The lake is of special significance to Ngai Tahu and local Runanga and there are already programmes in place to help restore the lake and surrounding tributaries. Lake restoration and developing opportunities for interacting with the lake are the responsibility of

	multiple agencies including Runanga , Environment Canterbury, Department of Conservation, Waihora Ellesmere Trust, Selwyn District Council and Christchurch City Council. Council has relatively small land holdings around the lake (Lakeside Domain) and is working on programmes to improve these sites.

Point Number	455.8
Category	Activity > Other Categories identified by Staff > Growth
Comments:	Slow down Rolleston growth (it is getting ridiculously large and unpleasant). Reduce rates by slowing down buildings/ parks etc. Remember many people in Selwyn pay the rates but never use the facilities or live miles away.
Staff Recommendation	Population projections are not predictions, rather they indicate probable outcomes based on assumptions. Council needs to respond to growth and have statutory time frames to meet. A key assumption for the Long Term Plan is the population projections. As each town grows, there is a need to understand its future, as this improves their self-sufficiency.
Point Number	455.9
Category	Activity > Strengthened Partnerships

Comments:	Please don't continue to use Māori names for places, events etc. No one understands them and these lead to confusion and often anger.
Staff Recommendation	The submission is acknowledged. Selwyn District Council prioritises inclusivity and cultural respect in our community. Te Tiriti o Waitangi, the Treaty of Waitangi, is a founding document of New Zealand. Recognising Te Reo Maori (the Maori language) and incorporating cultural design elements in public facilities is one way Council chooses to uphold the spirit of the Treaty partnership. Council considers recognising Maori language and culture in public spaces is not only appropriate but also necessary. It reflects our commitment to the Treaty and our shared responsibility to create a more equitable and respectful society.

Category	Activity > Planning Further Community Facilities
Comments:	Prebbleton has waited long enough and is in need of a new facility now. The need for a multi purpose (not sport facility) which would accommodate social activities and special area for drama and the performing arts. Not all people are sport inclined
Staff Recommendation	The submission is acknowledged. Plans for a new Prebbleton Community Centre are still included in the current Long-Term Plan. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. New facilities, such as Te Ara Atea and Whata Rau, are designed with the flexibility to accommodate arts experiences.
Point Number	456.4
Category	Activity > Planning Further Community Facilities
Comments:	. Also we have been involved with Prebbleton Heritage for over 30 years. A new facility must be able to have an area to hold all this heritage info and available for the public to view displays etc
Staff Recommendation	The submission is acknowledged. A new community centre for Prebbleton has been in considered in earlier Long-Term Plans and was previously signaled for construction in 2025/26. A needs assessment study was undertaken in 2023 which concluded that there was demand for a facility to service the community, and that it should provide a mix of social, community gathering and recreation spaces. The study further concluded that the facility needed to be located so it was easily accessed by the community. As there are uncertainties about the best site for the facility and the activities that it will cater for, further planning and community consultation is needed. To enable time for the necessary planning to happen, the project has been programmed for 2026/27 to 2027/28.

Category	Questionnaire > BD1 - Transport - Park and Ride
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Build three new Park and Ride facilities at Lincoln and Rolleston, and upgrade public transport infrastructure, but only if Council receives co-funding from NZTA Waka Kotahi. **Project cost:** Years 1–3: $4.2 million Years 4–10: $11.6 million **Estimated impact on rates:** Years 1–3: $7.06 Years 4–10: $19.52 **Funding:** Rates: 49% NZTA Waka Kotahi: 51% Our budgeted option **Comment:** park and ride bus is essential with a express into Hornby. Alternatively there could be a park n ride train service that could do the same thing
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 1 - Our Budgeted Option using NZTA Waka Kotahi co-funding. The location of one of Councils Rolleston Park N Ride facilities is next to the main rail line should in future rail passenger transport be considered viable. A primary purpose of the Park N Rides is to support additional express and direct bus services planned by Environment Canterbury. Council is advocating Park N Ride is also provided at Hornby as part of the MRT project.

Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.* **Project cost:** Year 1: $3.05m **Estimated impact on rates (per year):** $10.46 **Funding:** Rates: 100% **Comment:**

Staff Recommendation	Submission is acknowledged by Council.
Point Number	458.7
Category	Activity > Planning Further Community Facilities
Comments:	Referring to page 51, I very strongly support that the replacement of the Prebbleton Public Hall at 617 Springs Road be included in the Selwyn district long term plan 2024 - 2034 with work to begin during 2025/2026 to provide a community centre for the ever growing community of Prebbleton to provide a reasonable return on significant rates paid by residents to provide an enhanced facility with the likelihood of even more hall hire bookings (to cover expenses by 2035) to prevent the loss of the recent hall because of earthquakes.

Staff Recommendation	The submission is acknowledged. A new community centre for Prebbleton has been in considered in earlier Long-Term Plans and was previously signalled for construction in 2025/26. A needs assessment study was undertaken in 2023 which concluded that there was demand for a facility to service the community, and that it should provide a mix of social, community gathering and recreation spaces. The study further concluded that the facility needed to be located so it was easily accessed by the community. As there are uncertainties about the best site for the facility and the activities that it will cater for, further planning and community consultation is needed. To enable time for the necessary planning to happen, the project has been programmed for 2026/27 to 2027/28.

Submitter Number:	459	**Submitter:**	Derham and Daphne McAven
Point Number	459.2		
Category	Activity > Planning Further Community Facilities		
Comments:	We are distressed to see that once again a new community centre facility for Prebbleton has been relegated back to the planning stage. In the last 10 years, SDC has employed at least 2 consultants to gauge the needs of the community and make recommendations. Local residents attended meetings and presented submissions to these 'consultants' without any action - all ignored. And now we read more planning and investigations. Prebbleton needs its own community meeting facility - a place where locals can congregate. While we acknowledge that there are many demands on SDC to provide services over the whole region, it appears that once again Prebbleton's community facility has been side stepped in spite of residents paying in their annual rates for such a venue.		
Staff Recommendation	The submission is acknowledged.

Comments:	I'M sorry but I don't know enough about it. I would like more information on those documents.
Staff Recommendation	Council acknowledges the submission and notes the concern with the level of information provided. Improvements regarding the presentation and provision of information will be considered for future consultations.
Point Number	462.9
Category	Activity > Other Categories identified by Staff > Parks and Reserves
Comments:	I would like to say that I am a proud Leeston local and in my view we are all wasting one of the best assets in Selwyn which would be the A&P show grounds. If you wanted to up grade this park, it wouldn't cost that much and it would be a great asset for all in the Selwyn district. Thank you
Staff Recommendation	Staff do not support the submission because Council is already planning to invest in existing parks in Leeston over the next 10 years and does not see the need for developing additional land that it does not manage or own. Staff recommend that Council does not invest in the development of the Leeston AP Grounds at this point.

Submitter Number:	465	**Submitter:**	Tina Bond

Point Number	465.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to

	Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park as agreed in our 2021-31 Long-Term Plan, but with additional sports courts and/or bigger community meeting spaces. **Project cost:** Year 1: 19.24m **Estimated impact on rates (per year):** $53.14 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 **Comment:** It seems wasteful to be creating an entire new space when there is a building with similar functions on the opposite side of the field. I would like to see the existing football club take on some of the funding above to upgrade & maximise use for the community. To be able to use the entire space in this area of town send like a much more viable option, keeping the sports noise away from the study / meeting rooms & spreading parking requirements.
Staff Recommendation	The submission is acknowledged. Proximity to other facilities and services has been considered in relation to this matter.
Point Number	465.3
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2b - Leeston Park Improvements
Comments:	**Question:** We want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account

	development contributions. Development contributions do not apply to option 1. Carry out the upgrades detailed in the Leeston Park Master Plan over 15 years, including new pathways, carparks, toilets, park furniture, sports field lighting and irrigation, trees and plants, playground extension and upgrades, and park extension and signage. **Project cost:** Years 1-15: $9.49 million **Estimated impact on rates:** Years 1-5: $10.23 Years 6-10: $6.05 **Funding:** Rates: 71.4% Development contributions: 28.6% * **Comment:** Please take into account that this is a very busy section of the road. I bike to work past this area every day & it is already a concern for me when i can't access the footpath & have to continue on this stretch of road with so many large & often fast vehicles. Point Number	465.7
Category	Activity > New Public Transport Services
Comments:	With the sole focus on park & ride facilities, there is no mention of securing public transport to Leeston/Southbridge. Instead of parking perhaps extend the bus routes to include further stops so commuters wouldn't feel the need to drive to their bus stop. I would particularly like some consideration & stability for the public transport access to Leeston.
Staff Recommendation	Environment Canterbury provide PT Services. Because of the cost of extending bus services across expanding urban areas, Park N Ride is more effective especially for direct to City services. Environment Canterbury and Council will be investigating 'On Demand' Services as another option within larger townships. The 87 Southbridge to Lincoln service is not well used and maybe discontinued. Council will be investigating what further PT services could be provided to link

	the wider district townships together beyond what Environment Canterbury can fund and provide as a Metro service.
Point Number	465.9
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	What's the percentage of people from the town using the pool? Could council propose a donation & have the school & Township fundraise the remainder? I think this should initially be put to Springfield to see the interest & capacity of keeping their pool rather than the district as a whole who have nothing to do with this area, of course people are going to say close it when it has no impact on them!
Staff Recommendation	It is acknowledged that the submitter has suggested Council not close the Sheffield Memorial Pool, and instead transfer the facility and operations of the facility over to a community organisation of some kind, currently not identified. The Long Term Plan consultation is essentially on the future ownership of Sheffield Memorial Pool by Selwyn District Council. The Council's proposal is to decommission the Pool on the basis that Council sees poor value in continuing to fund and operate the Pool given its design issues, low usage in comparison to other staffed facilities, costs (current and pending) and close proximity to a recently refurbished Council Pool. Council's interest is therefore to no longer own the Pool and to save the Council from further costs related to the Pool. The final staff response will consider Council's position regarding alternative options than decommissioning that still achieve Council's interest.
Point Number	465.10
Category	Activity > Other Categories identified by Staff > Rates

Comments:	I think that the increasing rates / water charges are not reflective to the gain / facilities or support that we're seeing in our community & that we're largely supporting other more flourishing areas of Selwyn.
Staff Recommendation	That the submission is acknowledged by Council. The Council understands the financial pressures that ratepayers face and endeavours to keep rates increases to a minimum.

Submitter Number:	466	**Submitter:**	Donald Wright
Point Number	466.1		
Category	Questionnaire > BD1 - Transport - Park and Ride		
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear. **Project cost:** None **Estimated impact on rates:** To be determined **Funding:** To be determined **Comment:** **Whilst public transport is important for the urban folk it should be user pays and expenditure adjusted as to how many people are using the systems.** **Maybe smaller more frequent service or indeed rail considering the railway line is already in Rolleston.**		

Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP. Public Transport services are theoretically funded up to 50% by users, unless subsidised or incentivised in other ways. Environment Canterbury is considering developing a business case for additional direct services for Rolleston and Lincoln in 2024-27. Improving the frequency of other key Metro PT services such 5 (Rolleston) and 80 (Lincoln) is also being planned. The 2023 Greater Christchurch Mass Rapid Transit (MRT) Business Case determined that MRT was viable in the city, but not in the surrounding Districts. It considered a wider passenger rail service using the existing rail network could have merits in the future if combined with a wider regional passenger rail service. But with small projected patronage, large investment needed for rolling stock and infrastructure (on a rail network managed by others), and that there is no CBD connection makes this currently not worthwhile.

Category	Activity > Planning Further Community Facilities
Comments:	The Prebbleton community urgently need a new community centre. This was proposed in the last long term plan, but plans have been paused. The current hall is not fit for purpose and is set to be demolished by 2035. This means that the community will have no indoor facility for local community groups to meet. This could be funded (or partly funded) by development contributions.
Staff Recommendation	The submission is acknowledged.

	A new community centre for Prebbleton has been in considered in earlier Long-Term Plans and was previously signalled for construction in 2025/26. A needs assessment study was undertaken in 2023 which concluded that there was demand for a facility to service the community, and that it should provide a mix of social, community gathering and recreation spaces. The study further concluded that the facility needed to be located so it was easily accessed by the community. As there are uncertainties about the best site for the facility and the activities that it will cater for, further planning and community consultation is needed. To enable time for the necessary planning to happen, the project has been programmed for 2026/27 to 2027/28.
Point Number	468.9
Category	Activity > Other Categories identified by Staff > Rates
Comments:	Many Selwyn ratepayers cannot afford the huge rates increases that you are proposing. There needs to be a focus of maintaining core services and prioritizing projects that are actually necessary. Other projects, which would be nice to have but are not necessary, could be delayed until they are affordable.
Staff Recommendation	That the submission is acknowledged by Council. The Council understands the financial pressures that ratepayers face and endeavours to keep rates increases to a minimum.

Comments:	
	Question: You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear. **Project cost:** None **Estimated impact on rates:** To be determined **Funding:** To be determined **Comment:** I only agree with a new park and ride at Lincoln; I think two is sufficient at Rolleston at this point.
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP. With Councils Preferred Option the first Park N Ride at Lincoln is planned for 2026/27, while the two new Rolleston Park N Rides are planned between 2029 and 2033 to meet Rolleston demands expected at that time.
Point Number	470.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	
	Question: 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are

	collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park using a more standard design that can be easily repeated for other buildings. This building would have the same sized floor space as option 2 and include a cultural narrative in the design. **Project cost:** Year 1: 15.21m **Estimated impact on rates (per year):** $42.01 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 **Comment:** I don't think there is a need to build sport facilities as it is all there at Rolleston, which is only a 20/30 mins drive.
Staff Recommendation	The submission is acknowledged.
Point Number	470.3
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2b - Leeston Park Improvements
Comments:	**Question:** We want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account

	development contributions. Development contributions do not apply to option 1. Carry out the landscape improvements to extend the playing fields; replace and upgrade the playground equipment, footpaths, toilet block, lighting and irrigation; and seal the carpark. **Project cost:** Years 1-10: $3.4m **Estimated impact on rates :** Included in current rates **Funding:** Rates: 71.4% Development contributions: 28.6% * Our budgeted option **Comment:** Can you PLEASE consider putting in a disabled playground - please consult with the Kapiti Council who did this properly. Also a proper disabled toilet - not just something that takes wheel chairs, but also a fold out table that can take the weight of an adult. Often disabled people needs are not considered because 'it costs too much'!
Staff Recommendation	It is acknowledged that the Submitter has selected Leeston Park Option 2. Currently, council has spread elements of accessible equipment around various parks and reserves around the district. Staff recommend that a dedicated accessible playground could be considered for a future Park/Reserve in Selwyn, or at an existing Park/Reserve that is being upgraded. This inclusion of a fully accessible toilet could also be considered, if a fully Accessible Playground design was approved.

Category	Activity > New Public Transport Services
Comments:	I would rather see money go towards other bus options: a more connecting Selwyn bus link with all our main district areas: Lincoln, Leeston, Springston, Darfield, Kirwee, West Melton. And then this Selwyn bus link connect with the Rolleston one into town. Also looking at the type of buses used e.g. highly used like Darfield to Christchurch having a long bus like in Auckland or a double decker bus. And less populated routes having van like services. Maybe looking into electric buses.
Staff Recommendation	Council will be investigating what further PT services could be provided to link the wider district townships together beyond what Environment Canterbury can fund and provide as a Metro service. Environment Canterbury provide PT services including the type of vehicle best suited for the role.
Point Number	470.10
Category	Activity > Walking and cycling improvements
Comments:	2. Either Selwyn Council or if it is not domain put immense pressure on the agency it is, to: - where it becomes one lane at the end of the motorway just before the lights, put it has two lanes. There is enough space there! It becomes such a bottle neck when travelling back from Christchurch, especially 5-6pm week days. Its no better taking the turn off to go down Levi road.

	- create the cycle path to go along side the motorway. A lot of people would commute to work in Christchurch if this was there. The current cycle way goes via Templeton or Prebbleton, which adds at least 10km to your already 20-25km journey. It is also extremely unsafe e.g. you have to travel down Selwyn road if you want to avoid the extra distance to Lincoln the cycle track takes you that way, or with the Templeton way you have to cross a double roundabout against the traffic!
Staff Recommendation	The submission relates to aspects that are not the Council's responsibility. Cyclepaths along State Highways are planned by NZTA
Point Number	470.11
Category	Activity > New Public Transport Services
Comments:	1. I would like to see rail utilised from/to Rolleston as a fast link to Christchurch; with maybe one stop at e.g. Hornby and then people being able to use their ticket to continue to their destination by bus.
Staff Recommendation	The 2023 Greater Christchurch Mass Rapid Transit (MRT) Business Case determined that MRT was viable in the city, but not in the surrounding Districts. It considered a wider passenger rail service using the existing rail network could have merits in the future if combined with a wider regional passenger rail service.

Staff Recommendation	Submission is acknowledged by Council.
Point Number	471.8
Category	Activity > Other Categories identified by Staff > Climate Change & Sustainability
Comments:	At the moment, climate change mitigation and adaptation is an existential crisis and sustainability needs to be in the main focus. While the strategy does lay out policies pertaining to some of the SDG (sustainable development goals), it needs to put emphasis on how the council would like to address ALL of the SDGs. It was encouraging to read in Asset and Service management strategy section that the council is focused on maintaining networks and implement upgrades. This is where refurbishment of community assets like Sheffield Pools (rather than dismantling and rebuilding elsewhere, a cost effective refurbishment in collaboration with the community) can be a star example of maintenance and upgrading

	AND at the same time addressing pressing needs of the country and community (with respect to SDG and climate sensitivity).
Staff Recommendation	SDC's position is that climate change is occurring, and that it is resulting in significant effects both locally and globally. SDC is a signatory to the New Zealand Local Government Leaders' Climate Change Declaration 2017. This being our commitment to develop and implement plans to reduce emissions. The Activity Management Plans within the LTP each specifically identify how they are responding to Climate Change and emissions. Council is developing a Future Selwyn Strategy that looks beyond the 10-year horizon to consider how we can respond to these challenges. The Council is also developing an Emissions Plan and Sustainability Plan to identify actions into the future.
Point Number	471.10
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	Sheffield memorial pool is an ABSOLUTELY IMPORTANT community asset that needs to be preserved for the following reasons: * This provides the safest and best opportunity in the community members and children in particular to learn how to be water safe, to meet the goals so that we can work collectively to instill respect for the water, and encourage safe behaviours/tikanga by all people in Aotearoa New Zealand so that drowning fatalities and injuries are reduced. * If the community pool is maintained, it will bring the community around to make most use of it (take ownership of the pool, use it) * An open pool provides a natural offset for global warming (climate change mitigation), as per Environment Ministry of NZ, see https://environment.govt.nz/publications/climate-change-and-communities-what-the-national-adaptation-plan-means-for-you/#adapt-and-thrive-building-a-climate-resilient-new-zealand * It's highly cost effective in terms of life saved as a community pool allows for water related activities for children, adults, and elderly that keeps people fit and healthy. Our own estimation of the values indicate that several millions of dollars will be saved in terms of avoiding costs of arthritis and heart disease related deaths and

	disabilities if people (elderly or those above 65 years) were to regularly use a swimming and water facility. * Sheffield, in particular, is on the way to West Coast and receives a large volume of traffic and it also has a "pie shop" known well in the country: having a pool where tourists can even use will boost Sheffield's and Selwyn's tourism potential even more. * A community pool open to the public would MITIGATE against LONELINESS, this is particularly effective for elderly population in and around Sheffield, Springfield, and Darfield region. A open and freely accessible community pool would also mean Sheffield would be a welcoming community where people of all ages would have a chance to meet everyone around the poolside * Aotearoa New Zealand already has an excellent culture around water sports, water related entertainment (swimming and hot tub); presence of a community pool managed by the local community would further boost this important community resource. * Being a memorial pool, it should enjoy a special status as a mark of respect to the war veterans. It should be a matter of national and community pride to keep it open and be made accessible to the community members for now and posterity * Sheffield pool in its present location is highly accessible, being right on a major highway SH73, and therefore, this accessible pool is a rich community asset that can be maintained and embellished.
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool, and highlighted the Memorial aspects of this facility as a key Council consideration for the future of this site.
Point Number	471.11
Category	Questionnaire > Matters For Community Guidance > Digital Solutions
Comments:	Absolutely essential. While Selwyn District Council is already very good with technology, to keep up with the cutting edge, it needs to invest in better technology solutions. There is really no end to it, and as time progresses, as per Moore's Law, the costs will come down further so any money planned to be spent is well spent.
Staff Recommendation	The cost attributed to Digital is to signal we are serious about implementing efficiency across our organisation using technology. Our objective is to make Council financially sustainable through

	automation of process whilst providing residents and partners with more efficient services. Council is currently developing a Digital Strategy to provide this direction and budgets for the next LTP.
Point Number	471.12
Category	Activity > Other Categories identified by Staff > Climate Change & Sustainability
Comments:	On the whole, the long term plan is very proactive, but it misses on two big issues: Climate Change response and mitigation and addressing sustainable development goal commitment of Aotearoa New Zealand. These two important points need to be addressed urgently. As an example, while there have been some statements about increasing public transport and cycleways (these are lauded, good examples), there needs to be more. For example, think of a cycleway and establishment of a public transport system (busway and regular bus service between Darfield and Christchurch: one exists but it is only once a day and we need more such service or more frequent runs). Likewise, Canterbury being practically the farming capital of New Zealand, we need sustainable farming friendly proactive policy that addresses sustainable development goals tailored to our region. Perhaps policy statements on regenerative farming practices to be encouraged around the region, or how we might bolster to bring down greenhous gas emission to the lowest levels could be incorporated in the policy. I was also expecting to see Selwyn's commitment to Carbon market or climate friendly practices. Selwyn needs to lead New Zealand on this. We need to see evidence of this in the policy document. It is expected that we in Selwyn will be New Zealand's most populous district and therefore there are newer challenges to which we need to prepare the district. We need evidence of that thinking in the longer term policy documentation.
Staff Recommendation	SDC’s position is that climate change is occurring, and that it is resulting in significant effects both locally and globally. SDC is a signatory to the New Zealand Local Government Leaders’ Climate Change Declaration 2017. This being our commitment to develop and implement plans to reduce emissions. The Activity Management Plans within the LTP each specifically identify how they are responding to Climate Change and emissions. Council is developing a Future Selwyn Strategy that looks beyond the 10-year horizon to consider how we can respond to these challenges.

	The Council is also developing an Emissions Plan and Sustainability Plan, as well as an Economic Development Strategy to identify actions into the future.

Submitter Number:	472	**Submitter:**	Claire Bunt
Point Number	472.3		
Category	Activity > Other Categories identified by Staff > Parks and Reserves		
Comments:	We would love to see a dog park in Lincoln.		
Staff Recommendation	Staff support the submission as the need for a dog park in Lincoln has already been identified and a budget was provided for this as part of the 2021-31 LTP process. However, it has been difficult to find a suitable site in Lincoln for this. With the acquisition and planned development of the land to extend Lincoln Domain there is an opportunity to provide a dedicated space for dogs and this has been built into plans. Staff recommend that a dog park is included in the development of the extension to Lincoln Domain, and this is covered by development budgets allocated in the draft LTP supplemented by the carry forward of the existing budget from 2023/24 ($160,000).

2030/31
2031/32
2032/33
2033/34 **Comment:**

I support the submission from the Leeston Community Committee supporting Option 4 (as marked above).

A plan needs to be developed for Leeston which allows for growth and keeps the vibrancy of the town, rather than hap hazard decisions being made.

I do not believe the new library/community centre should be built beside Leeston Park. This is on the heavy transport bypass making the area noisy (meaning extra expense in soundproofing the building) and of even greater concern is the danger crossing here poses to children and the elderly accessing the library. It is an accident waiting to happen! I fully support the idea of building the new community centre / library on the current library site. I feel this will give us a sports end of town and a civic hub at the other end, with less than a 5min walk between. This will help maintain the

	vibrancy of the town centre. It will also reduce the amount of soundproofing required on the new building leading to a great reduction in cost. The concept plan is not a useable building. Triangles are expensive to build and have too much waste space inside. The building needs to be a standard shape that can be added to when the population increases and is a repeatable design. I agree it does not require a 'commercial' kitchen - but it does require a workable kitchen with a decent fridge/freezer and oven. It is easy to say that people get caterers now days - but if the facilities are not adequate then they have no choice but to get caterers. This will make using the facility less appealing as many would be happy to do their own catering. The hire cost of the venue would then not be such a barrier. It is disappointing there has been little consultation with the residents of Leeston on the project. The majority of consultation has been done at times when working people could not attend. It is also disappointing the council has chosen not to provide information on the outcomes of the consultation they have done to the Leeston Community Committee and other interested parties in a timely manner. We have basically been given 6 weeks to gain input from the residents and put in the submission. While I have no problem with the name - it needs to also include 'Library & Community Centre'. It appears more consultation has occurred with the Runanga than it has with the other residents of Leeston and surrounds.
Staff Recommendation	The submission is acknowledged. Location options have been taken into account in relation to this matter.
Point Number	473.3
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2b - Leeston Park Improvements
Comments:	**Question:** We want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1.

	Carry out the landscape improvements to extend the playing fields; replace and upgrade the playground equipment, footpaths, toilet block, lighting and irrigation; and seal the carpark. **Project cost:** Years 1-10: $3.4m **Estimated impact on rates :** Included in current rates **Funding:** Rates: 71.4% Development contributions: 28.6% * Our budgeted option **Comment:** With regards to upgrades to Leeston Park - there is no urgent need to upgrade the toilets at the park. These are perfectly serviceable. Of more urgent need is a pavilion that can be used by all of the sports groups using the park. It would be great if the council would allow the community to be involved with any landscaping / planting in the park. There are many who would take pride in helping out with this, and it would help to increase the feeling of community.
Staff Recommendation	It is acknowledged that the Submitter has selected Leeston Park Option 2 and the submitters preference for a central HUB pavilion for sports user groups (E.g. indoor court) rather than what is proposed (new toilet block with changerooms). Staff support the suggestion of community planting days and recommend including community planting days as part of any Leeston Park improvements undertaken. This could be organised similar in a similar way to the planting days held when Foster Park was constructed.
Point Number	473.4
Category	Questionnaire > BD3 - Malvern Rec and Sports Facility
Comments:	**Question:** We want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the

	loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1. Do not build a community recreation and sports facility at Darfield. **Project cost:** None **Estimated impact on rates (per year):** None **Funding:** None **Comment:** Leeston also does not have indoor sports facilities.
Staff Recommendation	It is acknowledged that the submitter has selected Option 1, do not build the community recreation and sports facility at Darfield.
Point Number	473.5

Comments:	**Question:** Do you support the closure of Sheffield Community Pool? No **Question:** Do you support the continued development of an economic development strategy? Yes **Question:** Do you support the Council investing in better technology solutions to improve our services to the community? No **Comment: Comment: Comment:**
Staff Recommendation	Submission is acknowledged by Council.
Point Number	473.9
Category	Activity > Planning Further Community Facilities
Comments:	You appear to have done away with all the volunteers - e.g. the hall committees, library volunteers - and replaced these with 'paid' employees. These paid employees do not have the community local buyin that the volunteers had, and are costing the district a lot. This could significantly reduce the operating costs for the council, but also

	help to increase use of council facilities and the feeling of 'community' the council says it wants.
Staff Recommendation	Submission is acknowledged. Council values and encourages the role of volunteers and is actively and positively working with large numbers of volunteer sports clubs, heritage groups, arts groups, and NGOs delivering social services and community groups to support their roles in communities. Many Council teams continue to actively work with and utilise volunteers in various forms and we continue to look for further opportunities for these volunteers / voluntary groups to take a leadership role in contributing to community wellbeing.
Point Number	473.10
Category	Activity > Other Categories identified by Staff > Climate Change & Sustainability
Comments:	From an environmental / climate change perspective, the council should be passing a by-law to ensure all new builds in the Selwyn District include Solar Panels to reduce the burden on electricity. This does not need to include the installation of batteries, as these are expensive. Any excess power generated by the panels can be put back into the grid. Adding panels when the building is being built is far more economical than installing them later.
Staff Recommendation	SDC's position is that climate change is occurring, and that it is resulting in significant effects both locally and globally. SDC is a signatory to the New Zealand Local Government Leaders' Climate Change Declaration 2017. This being our commitment to develop and implement plans to reduce emissions. The Activity Management Plans within the LTP each specifically identify how they are responding to Climate Change and emissions. While we cannot require solar panels through the Resource Management consenting process, council can explore sustainable solutions for residents through its Sustainability Plan and will work with power generators for options.
Point Number	473.11
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	New Zealand's drowning rates are horrific. This is largely due to the reduction in the number of pools available for children to be learning to swim during their school years.

Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.
Point Number	473.12
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	It is good the council are working with businesses on this. However, it would also be good if the council provided more support to the volunteer organisations in the district that are trying to bring Event Tourisim into the district. Some of this requires support from the council until it is established, and this can take 2-3 years (minimum).
Staff Recommendation	It is acknowledged the submitter has selected to progress with the Economic Development Strategy, and Council will consider their feedback in strategy action planning.
Point Number	473.13
Category	Activity > Other Categories identified by Staff > Infrastructure Property General
Comments:	I would like to see the council implementing a system whereby 2 quotes are required for any repairs before any work is carried out. It appears currently that decisions are being made, and money being spent that could be done far cheaper.
Staff Recommendation	The submission is acknowledged by Council. All work follows approved and audited Tender principles to ensure value for money and compliance with the task sought.

Submitter Number:	474	**Submitter:**	Details Withheld

Category	Questionnaire > BD1 - Transport - Park and Ride
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Build three new Park and Ride facilities at Lincoln and Rolleston, and upgrade public transport infrastructure, without NZTA Waka Kotahi co-funding. **Project cost:** Years 1–3: $4.2 million Years 4–10: $11.6 million **Estimated impact on rates:** Years 1–3: $14.41 Years 4–10: $39.83 **Funding:** Rates: 100% **Comment:** We should proceed with this build, with or without NZTA support. Our climate cant wait until a change of central government
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 2 - Fully funded by Council
Point Number	474.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1.

	Build Whata Rau next to Leeston Park as agreed in our 2021-31 Long-Term Plan, but with additional sports courts and/or bigger community meeting spaces. **Project cost:** Year 1: 19.24m **Estimated impact on rates (per year):** $53.14 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 **Comment:** Might as well build a new and big building now rather than delaying it into the future, it will be more expensive
Staff Recommendation	The submission is acknowledged.
Point Number	474.3

Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	Go back to the key system, allow the residents of sheffield, Waddington and surround areas to buy a key for the season. It will get more use this way. That's how it was done just over 11 years ago and everyone used it
Staff Recommendation	It is acknowledged that the submitter has suggested Council not close the Sheffield Memorial Pool, and instead transfer the facility and operations of the facility over to a community organisation of some kind, currently not identified. The Long Term Plan consultation is essentially on the future ownership of Sheffield Memorial Pool by Selwyn District Council. The Council's proposal is to decommission the Pool on the basis that Council sees poor value in continuing to fund and operate the Pool given its design issues, low usage in comparison to other staffed

	facilities, costs (current and pending) and close proximity to a recently refurbished Council Pool. Council's interest is therefore to no longer own the Pool and to save the Council from further costs related to the Pool. The final staff response will consider Council's position regarding alternative options than decommissioning that still achieve Council's interest.

Staff Recommendation	The submission is acknowledged. Selwyn District Council prioritises inclusivity and cultural respect in our community. Te Tiriti o Waitangi, the Treaty of Waitangi, is a founding document of New Zealand and recognising Te Reo Maori (the Maori language) and incorporating cultural design elements in public facilities is one way Council chooses to uphold the spirit of the Treaty partnership. Council considers recognising Maori language and culture in public spaces is not only appropriate but also necessary. It reflects our commitment to the Treaty and our shared responsibility to create a more equitable and respectful society. Selwyn District Council considers that, when public buildings incorporate Maori names and cultural

	design elements, they are not merely symbolic gestures. Instead, they represent a tangible effort to honour the Treaty's obligations and foster a sense of belonging for all New Zealanders.

	Our budgeted option **Comment:**
Staff Recommendation	It is acknowledged that the Submitter has selected Leeston Park Option 2
Point Number	479.5
Category	Activity > Other Categories identified by Staff > Parks and Reserves
Comments:	As a local resident and looking at the long term plan I would suggest the council purchasing Broadfield Gardens for community use would be money well spent as it is a national treasure and is close to Rolleston which is growing at such a pace that a beautiful botanic garden would benefit the community in many ways in the long term without having to take productive land and starting from scratch. Do not miss this opportunity for the district as a whole just look at how well visited the city botanic gardens are. The opportunities for events at the gardens would enhance the council protfolio.
Staff Recommendation	Staff acknowledge the quality and significance of Broadfield Gardens and the opportunity it presents as a formal garden to complement the existing open spaces. However, the proposal does have some costs and risks that need to be weighed up alongside other options. This includes the cost of purchase (and how that could be funded), the cost of additional infrastructure to enable public use, the on-going cost of maintenance and potential revenue opportunities. There are also some limiting factors such as proximity, accessibility and connectivity. It is noted that Council is considering development of a formal garden at the District Park as part of stage 1 development: that would focus on 3 main types or components of formal gardens: botanic plantings (including natives, exotics and floras); sister city garden opportunities; community gardens. Although the acquisition of the garden presents an opportunity for Council to provide a special area of open space that is not replicated anywhere else in the District, staff are of the view that the proposal is difficult to support at this time given the costs and other factors mentioned above. Staff recommend that Council does not purchase Broadfield Garden at this point in time but considers what other mechanisms are available or support it could provide to retain the garden for the district's benefit.

Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear. **Project cost:** None **Estimated impact on rates:** To be determined **Funding:** To be determined **Comment:** Because like any responsible household, council and government we all need to make cuts in our spending in order to pay for the essentials. This project is a nice to have but not a need.		
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP		
Point Number	480.2		
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau		
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed		

	to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.* **Project cost:** Year 1: $3.05m **Estimated impact on rates (per year):** $10.46 **Funding:** Rates: 100% **Comment:** Use the income the council gets from development costs and the final payment to council on the sale of each section to fund the upgrades. That's what it is there for.
Staff Recommendation	The submission is acknowledged. Funding has been taken into account in relation to this matter.
Point Number	480.3
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2b - Leeston Park Improvements
Comments:	**Question:** We want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1.

	Do nothing. Use the existing park facilities and remove or replace old and unsafe items in the park. **Project cost:** Year 1: $143,000 **Estimated impact on rates:** Included in our current rates **Funding:** Rates: 100% **Comment:** Use the income the council gets from development costs and the final payment to council on the sale of each section to fund the upgrades. That's what it is there for.
Staff Recommendation	It is acknowledged that the Submitter has selected Leeston Park Option 1. Development contribution funding can only cover project elements required to extend capacity to meet demand from growth. As this project is primarily an upgrade of the park to improve levels of service only a minor part of the cost can be funded by development contributions.
Point Number	480.4
Category	Questionnaire > BD3 - Malvern Rec and Sports Facility
Comments:	**Question:** We want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1. Do not build a community recreation and sports facility at Darfield. **Project cost:** None **Estimated impact on rates (per year):** None **Funding:** None **Comment:** Cut spending. These are all nice to haves. What really matters to each house hold paying rates, stop the increases so people can enjoy where they live.

Staff Recommendation	It is acknowledged that the submitter has selected Option 1, do not build the community recreation and sports facility at Darfield.
Point Number	480.5

	Comment:
Staff Recommendation	Submission is acknowledged by Council.
Point Number	480.8
Category	Activity > Infrastructure DC
Comments:	The addition of a new development contribution. No because you already have two hits at getting funding from the developer and then the purchaser indirectly when the section is sold. All this does is make sections even more expensive. Even I can fathom that out.
Staff Recommendation	Submission is acknowledged by Council. Staff note the opposition to the introduction of the proposed development contribution for community infrastructure. Council has not previously charged a development contribution for this activity as allowed for under the Local Government Act but has decided that it is fair and reasonable to pass the appropriate portion of the cost of new community facilities to the growth community where they gain a direct benefit.

Point Number	480.10
Category	Activity > Other Categories identified by Staff > Financial management
Comments:	The Council should prioritise on spending to water, roads, sewer and maintaining public places. That is what our rates are essentially for. Stop growing the employees in Council. We are in tough financial times and we all need to make sacrifices to pay back debt. Not increase it for another time to pay back.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	480.11
Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	One voice one vote please. Māori do not need to have an extra voice on council. This will end up where we only have the voice of Māori and very little from the general public
Staff Recommendation	The submission is acknowledged. Selwyn District Council recognizes the importance of partnerships; building strong partnerships with iwi is vital for Council to fulfill its obligations to the entire community. Te Tiriti O Waitangi (Treaty of Waitangi) is a founding document of New Zealand and establishes a partnership between the Crown and Maori. This partnership requires us to work together for the collective benefit of all. Partnership with iwi, to have any meaning, requires consideration of iwi position and contribution to discussion/debate.

Comments:	Households across Selwyn do not have the luxury of creating a spending plan that takes no account of income and then going to their employer and saying "I've worked out what I would like to spend money on in the coming year (10 Years) and I don't have enough money so you as my employer are now responsible for increasing my salary accordingly". Sounds ridiculous but this is exactly the way in which SDC are approaching this 10 year plan.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	481.9

Point Number	481.11
Category	Activity > Other Categories identified by Staff > Rates
Comments:	This whole 10 year plan consultation has been done completely the wrong way around. Rather than asking what people would like and then working out the costs and raising rates to cover it, the approach should be "we are committing rates rises at no more than the rate of inflation for the next 10 years. We will work within the resulting budget to deliver that which we are legally obliged to deliver. If we have any surplus please let us know which projects you favour".
Staff Recommendation	That the submission is acknowledged by Council.

Point Number	481.12
Category	Activity > Other Categories identified by Staff > Rates
Comments:	The proposals are far too ambitious resulting as they do in significant rate rises. Councils have a monopoly position which should not be abused. Like any business they should budget based on planned income. From the rates, that planned income should be restricted to annual rises at no more than the rate of inflation. Resulting budgets should be used firstly to do what Councils are legally obliged too do, any surplus income can then be used for the most beneficial projects. Such projects SHOULD NOT include such farcically overblown developments such as that which has appeared at the Pines reclamation centre in Rolleston. Who is responsible for this white elephant in the making???
Staff Recommendation	That the submission is acknowledged by Council.

Point Number	483.7
Category	Activity > Other Categories identified by Staff > Borrowing Levels
Comments:	The high long term debts levels of projects and overruns of projects outweigh the medium to long term debt that are rested upon ratepayers. Ratepayers and businesses alike could not sustain to run their homes or businesses, like the council is spending money. Ratepayers are already hurting with increased interest rates and council rates. At some stage something has to give. With a cost of living crisis that the country is currently experiencing and minimal income increases, interest rate increases with families with mortgages, will continue to make it difficult for homeowners to pay rates.

	These proposals are not going to alleviate the ongoing increases to medium to long term debt that all councils throughout NZ, including CCC are struggling to pay the interest on. Making it easier to pay for the debt does not change the fact the some of the projects proposed by the council, does not reduce the debt.
Staff Recommendation	That the submission is acknowledged by Council. The debt is being closely monitored by the Council and is kept at a level that allows sustainable operation across all service areas.

Category	Activity > Chlorination
Comments:	Like why is it going to cost millions to NOT adding chlorine to water supplies. If you don't do it it costs nothing!!! Explain, explain, explain.
Staff Recommendation	Under the Drinking Water Quality Assurance Rules there is a requirement to add a small dose of chlorine to the piped network after treatment. To be able to move to intermittent chlorination (for eligible schemes) an exemption from Taumata Arowai is required. Exemption will only be granted by the regulator if infrastructure and systems can lower risk sufficiently. Having obtained an exemption for Rakaia Huts, Council has sought independent advice on the infrastructure upgrades required to obtain exemptions for 17 potentially eligible schemes. Without continuous chlorination, additional monitoring and testing would also be required on an ongoing basis. The estimated cost to move to intermittent chlorination is $82.6m over the LTP period. If implemented there will be an increased risk of community illness if there was a contamination event and chlorine may still need to be used intermittently. Staff recommendation is to reduce risk by continuing to chlorinate our community drinking water supplies.

Category	Activity > Other Categories identified by Staff > Financial management
Comments:	Keep changes to a bare minimum and smallest cost. Do only as little as my be required by law. Push back against Govt offloading cost & projects onto council. Stick to core business of roads, rubbish etc & minimise touchy feely nice stuff. Costs too much.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	484.12
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	Don't close the pool. Hand it over to a community run organisation Give them $200K to continue running it.
Staff Recommendation	It is acknowledged that the submitter has suggested Council not close the Sheffield Memorial Pool, and instead transfer the facility and operations of the facility over to a community organisation of some kind, currently not identified. The Long Term Plan consultation is essentially on the future ownership of Sheffield Memorial Pool by Selwyn District Council. The Council's proposal is to decommission the Pool on the basis that Council sees poor value in continuing to fund and operate the Pool given its design issues, low usage in comparison to other staffed facilities, costs (current and pending) and close proximity to a recently refurbished Council Pool. Council's interest is therefore to no longer own the Pool and to save the Council from further costs related to the Pool. The final staff response will consider Council's position regarding alternative options than decommissioning that still achieve Council's interest.

Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear. **Project cost:** None **Estimated impact on rates:** To be determined **Funding:** To be determined **Comment:**		
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP		
Point Number	485.2		
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau		
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake		

	prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park using a more standard design that can be easily repeated for other buildings. This building would have the same sized floor space as option 2 and include a cultural narrative in the design. **Project cost:** Year 1: 15.21m **Estimated impact on rates (per year):** $42.01 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 **Comment:**

Comments:	The council needs to be more responsible with planning and budgeting. Families cannot afford a 16% rate increase to their annual rates with the increasing costs of living. The population and residential house builds in numerous new subdivisions around the district provide additional income for the council, yet we have increasingly have rate increases that make it unaffordable to live here.
Staff Recommendation	Submission is acknowledged by Council.

Total left to fund is $10.18 million) **Estimated impact on rates (per year):** $19.91 **Funding:** Rates: 57% Development contributions: 43% * **Comment:** Indoor courts would be an importatnt addition to the Malvern community. My specific interest is in netball - I've played netball outdoors at Darfield for almost 30 years - it a right of passage to play netball in extreme weather conditions in winter, however for the future sustainability of our sport we need to move with the rest of the country and provide better access to facilities. Two indoor courts not only allows those hardened players and supporters to continue to

	play, but would also encourage a new generation of players and supporters out of the cold wind, rain, and sleet! If we were able to train indoors too (rather than outside on a frosty evening), it would encourage more to attend and would extend the playing career of others. It also provides certainty to the draw and length of season as netball will not need to be called off due to the weather. From a health and safety perspective, we will not longer have the mop the courts before netball and remove the frost. Last season my team mate slipped on the icy court and injured her ankle right in front of me - it was not nice to watch and it could have been me. For someone my age that would be a career ending injury (she was 18 so lucky!). Another aspect is around the skill level of play that is able to be acheived playing on an indoor court - without the fear of ashphalt burn to limbs, players play at a higher skill level - which we need to be able to do to compete with players from other areas. At Malvern we've been fighting hard and have been innovative about how we can continue to move forward with netball and not be left behind - two indoor courts are vital to this continuing.
Staff Recommendation	It is acknowledged that the submitter has selected Option 3, build the community recreation and sports facility at Darfield that includes two indoor courts. Our budgeted option.

Comments:	In common with pretty much every council (I worked in local authorities for many years), SDC has a base problem with a fundamentally broken funding model that does not reflect the increasing roles being asked of it by central government. SDC should continue to advocate for reform to allow other means of generating revenue (or reclaiming it from central government). It also has an issue with capex carry-forwards from over-promising and then being unable to carry out the work. Increased discipline in this space is a high priority. Simply stop trying to do so much. While capex doesn't have such a large impact on overall rates, loan and interest repayments do, so while reducing capital projects to more manageable levels doesn't have a huge impact, reducing the overall debt burden does. Opex will have the greatest impact on rates. I am not one of those who decries and disrespects council staff. You need people to do work if you want to get work done. They also need to be paid properly if you want to get work done properly. However, there will be areas of opex - say running repairs to roads for example that could be tightly reigned in, either by doing less - or perhaps by

	exploring alternative materials or supplies to ensure. New roads should be being paid by developers of housing - along with all the rest of the horizontal infrastructure. Water supply and treatment and flood defences unfortunately will need to continue and these are big-ticket items.
Staff Recommendation	That the submission is acknowledged by Council.
Point Number	489.10

Staff Recommendation	Submission is acknowledged by Council.
Point Number	490.9
Category	Activity > Strengthened Partnerships
Comments:	The concept of "bi-cultural" is abhorent. It precludes all other cultures that make up Selwyn. We seem obsessed with only one which is ripping our community apart. Understanding and consideration should be always welcomed but not, as it appears now, to be the current council's absolute enforcement of expecting the ratepayers of Selwyn to have maorification thrust down therir throats at every turn. No consultation, and no thought to the ongoing and ever-increasing rejection of this forced adherance to one culture only.
Staff Recommendation	The submission is acknowledged. Biculturalism is generally recognised as positively impacting multiculturalism in several ways including reducing stereotypes, promoting inclusivity and enhancing cross-cultural communication. Biculturalism in New Zealand demonstrates the commitment to the Treaty of Waitangi and contributes to the well-being of both cultures as well as supports and strengthens the wellbeing of the broader multicultural environment.
Point Number	490.10
Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	Reviewing is one thing but without clarification of detail a rate payer should not be asked to support carte blanche all the policies. For example, the requirement of full maori input into all; any race based input should be welcomed but not restricted to any specific group. The concept of unelected maori wards for example is not

	democracy. There should be no variation or special rating for maori or duality of house ownership as inferred in the policies. Fair and reasonable rating should have no consideration of specific ethnicity nor of family makeup.
Staff Recommendation	The submission is acknowledged. Selwyn District Council recognizes the importance of partnerships; building strong partnerships with iwi is vital for Council to fulfill its obligations to the entire community. Te Tiriti O Waitangi (Treaty of Waitangi) is a founding document of New Zealand and establishes a partnership between the Crown and Maori. This partnership requires us to work together for the collective benefit of all. Partnership with iwi, to have any meaning, requires consideration of iwi position and contribution to discussion/debate. Council is required by s 108 Local Government Act 2002 to have a policy on the remission and postponement of rates relating to Maori freehold land. When developing this policy staff have considered Council's position regarding rates postponement and remission based on these legislative requirements.
Point Number	490.11

Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear. **Project cost:** None **Estimated impact on rates:** To be determined **Funding:** To be determined **Comment:**		
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP		

Point Number	491.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.* **Project cost:** Year 1: $3.05m **Estimated impact on rates (per year):** $10.46 **Funding:** Rates: 100% **Comment:**
Staff Recommendation	Submission is acknowledged by Council. [

Category	Questionnaire > Matters For Community Guidance > Digital Solutions
Comments:	Only where it is cost effective to do so, investing for the sake of having the latest technology if it is going to add to ongoing operating costs only makes the issue of ever increasing rates bigger
Staff Recommendation	The cost attributed to Digital is to signal we are serious about implementing efficiency across our organisation using technology. Our objective is to make Council financially sustainable through automation of process whilst providing residents and partners with more efficient services. Council is currently developing a Digital Strategy to provide this direction and budgets for the next LTP.
Point Number	491.12
Category	Activity > Other Categories identified by Staff > Rates
Comments:	Although upgrades and new facilities are always going fo be required, there needs to be a point where rates are at a sustainable level and ratepayers are aware of the cost implications of nice to have wishes (much like the earlier questions in this submission). Some people may assume that rates 'covering' certain things means current rates and not understanding the full extent of decisions
Staff Recommendation	That the submission is acknowledged by Council.

Point Number	492.4
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities
Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a sharedHub/Club rooms built at the proposed new Netball & Tennis facilities based in West Melton. West Melton Netball & Tennis share the vision to provide an inclusive, nurturing & welcoming community focused environment to develop players of all ages, creating longevity for the clubs and the community. What we are asking for is a Hub to bring our community together to create a sustainable future of Netball & Tennis but also celebrate the history of our clubs achievements and memberships over the years with trophies and photos proudly displayed. The Hub/Club rooms would require a suitable space to store the following. Netball Balls, Gear Bags, Hoops, Training Equipment, Tennis Nets, Tennis Poles, Tennis Balls and Trolleys. The space would require a kitchenette suitable for making Tea & Coffee and Afternoon Tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities. Thank you for taking time to review our submission. Nga Mihi Nui, Jo Beswick President West Melton Netball Club

Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

Comments:	i would like to advocate for a bus service that connects Darfield, Kirwee and West Melton to Rolleston. There is a great service that connects Rolleston to the city but as residents in the outer parts if Selwyn we are unable to access these buses unless we drive ourselves or our children to Rolleston.
Staff Recommendation	Council will be investigating what further PT services could be provided to link the wider district townships together beyond what Environment Canterbury can fund and provide as a Metro service. This would include linking larger townships like Darfield to Rolleston and PT services based there, and connections to the City.
Point Number	499.6

Category	Activity > Planning Further Community Facilities		
Comments:	I'm writing as a member of Selwyn's performing arts community to ask the council to consider funding for a better performing arts space in Selwyn. I am the co-owner of Pivot Dance Fitness, as well as a teacher at Aurora Dance Studio, and a member of both CentreStage Rolleston and Kirwee Players. We have an exceptionally talented community of actors, singers, dancers and creatives who choose to call Selwyn their home, and it is an incredible shame that we are limited by a lack of good performance spaces in the community. As a dance teacher at Aurora Dance Studio, an ever growing school with		

	200+ students, it is a struggle to fit all of our students into one performance at Rolleston College, our current venue for end of year shows. Our only other option would be to move our shows to a theatre in Christchurch which we are reluctant to do as we want to keep our performances accessible within our community. This venue also doesn't have an adequate stage for large performances. I can only imagine what our very talented community could do with a purpose built performance venue, rivaling the likes of Burnside's Aurora Centre, or Rangiora Town Hall. I would urge the council to consider the arts in their plan, and guarantee funding to make Selwyn a premier performance community.
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. New facilities, such as Te Ara Atea and Whata Rau, are designed with the flexibility to accommodate arts experiences.

Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a shared Hub/Clubrooms built at the proposed new Netball & Tennis facilities based in West Melton. West Melton Netball & Tennis share the vision to provide an inclusive, nurturing & welcoming community focussed environment to develop players of all ages, creating longevity for the clubs and the community. What we are asking for is a Hub to bring our community together to create a sustainable future of Netball & Tennis but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Netball Balls, Gear Bags, Hoops, Training Equipment, Tennis Nets, Tennis Poles, Tennis Balls and Trolleys. The space would require a kitchenette suitable for making Tea & Coffee and Afternoon Tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities.
Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it’s future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

Comments:	Selwyn provides many excellent sporting facilities, some of which I use regularly. Many millions has been well spent on these facilities. I am also involved and interested in the Arts however it seems that the facilities and council support for the arts in Selwyn is limited. More support for venues (e.g. performance spaces), operating costs (e.g. for galleries) and promotions, would be an investment worth making in the wellbeing of our community.
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. New facilities, such as Te Ara Atea and Whata Rau, are designed with the flexibility to accommodate arts experiences.

Comments:	Selwyn desperately needs a dedicated arts facility. For the high number of young people in schools across Selwyn, representational support for arts and creativity is not appropriate as it is. It is not that the art sector is less sought after in Selwyn, it is that the community groups are constantly compromising on facilities to enable it to be present at all. Not only young people, but the entire population of Selwyn has rapidly grown and continues to do so, with people across all demographics involving themselves in the art sector. Supporting a facility for this would certainly build the capacity and capability of our community and cater to greater skills and abilities across Selwyn.
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. Comments:	My biggest passion is the Arts, i personally have felt that my music and theatre have made me who i am and helped me through some really hard times. We need a place where we can express ourselves and practice in a way that can hep us improve. Having our own arts facility would be so beneficial to so many people. To give us a real stage where lights dont have to be taken down every night for rehearsals, where we can have proper private dressing rooms for those involved, to provide us with a more professional environment because for me this the stage is my home and its where i want to be in my future.

Comments:	Rolleston alone has twelve football fields, six cricket pitches, a hockey turf, two 25-metre pools, a synthetic athletics surface, eight netball courts, and a $21.5 million dollar indoor sports facility. There are zero dedicated arts facilities in all of Selwyn. There are no less than five multi-million dollar sports facilities in Rolleston, and the council is planning for yet another one in Leeston. There is no current plan for a dedicated arts facility anywhere in Selwyn. The complete and utter disparity in support is disappointing. Frustrating. Maddening. A dedicated performance space will provide the existing arts organisations and businesses the opportunity to connect with our community in a way that isn't possible at the moment. It will inspire the next generation of artists. It will open the door to new arts groups which can't yet exist due to the lack of facilities. It will provide opportunities for the young, connection for the elderly, employment for many, and inspiration for all. It is time for the council to add a dedicated arts facility to its long-term plan.
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. New facilities, such as Te Ara Atea and Whata Rau, are designed with the flexibility to accommodate arts experiences.

Comments:	It appears Council is committed to providing facilities and resources to permit residents' enjoyment of outdoor activities. Page 50 of the long term plan states (to provide) : “open spaces in the townships, along streams, together with the larger parks in rural areas, provide opportunities for people to exercise, relax and enjoy the natural surroundings as well as creating a sense of identity and support biodiversity”. There is a 'paper' road leading from Gerkins road Tai Tapu a distance up the spur of the Port hills. I understand this is a legal accessway walkers and cyclists can enjoy. I request consideration be given to proving some signage that will dispel any argument that this is a publicly available accessway and cannot be unreasonably blocked or obstructed by adjoining landowners.
Staff Recommendation	Submission is acknowledged by Council. The operations team is aware of the issue and is considering options.

Comments:	I would like to see a greater focus on arts in Selwyn, and the development of a dedicated space for theatre and arts performances. I currently teach a community choir of adults (80 members over 2 hubs, Rolleston and Darfield), as well as several school choirs, and when we look to perform, our only option is the school theatre at Rolleston College. If we are prepared to travel into town, there are any number of specific, fit-for-purpose, and inspiring venues to choose from. In this fast-growing district, surely it's time for a space for this type of event, along with theatre, dance and dramatic arts, which are also a growing area in our community. For all of Rolleston College's willingness to host us, their auditorium is not a dedicated space, it is not always available, the resources and fittings are becoming less suitable over time due to use in the school setting, and the supporting spaces (changing, waiting, preparation) are less than ideal for serious productions. Research shows over and over that participation in arts (singing, drama, dance etc) is beneficial for mental health for children and adults of all ages. Being involved in performing arts supports confidence and connection with others. Please consider adding more emphasis to the arts and the requirements of arts groups in our district, who are working hard to establish opportunities in the arts for our residents, but who consistently come up against the limitations of facilities in our area.
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. 	Two courts are needed to run netball competitions, and coach yooung children inside. For safety. We had many dangerous injuries one needing an ambulance on the coitdoir court. The poor lady lay on the cold concrete for what seemed like an hour one night. Malvern is growing and feel that it is our turn to have indoir courts as rolleston and westmelton are full with their own community. It would be best suited at the sports domain for the whole community to use. If was at the highschool their is less parking and would be limiting for use. It needs to be in our sporting hub area.
Staff Recommendation	It is acknowledged that the submitter has selected Option 3, build the community recreation and sports facility at Darfield that includes two indoor courts. Our budgeted option.

As someone who grew up playing both sport and musical instruments, I always had far better access to sport over musical and artistic ventures. This was before the council invested significantly in the sports facilities within Selwyn. Think about how much bigger the gap between the arts and sports is now! I have spoken more on this topic in section 7.
Staff Recommendation	It is acknowledged that the Submitter has selected Leeston Park Option 1 and acknowledges the submitters support for performing arts.
Point Number	517.4
Category	Questionnaire > BD3 - Malvern Rec and Sports Facility
Comments:	**Question:** We want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account

	development contributions. Development contributions do not apply to option 1. Do not build a community recreation and sports facility at Darfield. **Project cost:** None **Estimated impact on rates (per year):** None **Funding:** None **Comment:** I have voted against investing in indoor sport facilities in Darfield due to sports vs arts disparity. Sport van be played outside, whereas performing arts and music require spaces inside year around to practice. I am not against indoor sports facilities but I feel that an arts facility should take priority next given how many new sporting facilities have opened in Selwyn.
Staff Recommendation	It is acknowledged that the submitter has selected Option 1, do not build the community recreation and sports facility at Darfield.
Point Number	517.5

Staff Recommendation	Submission is acknowledged by Council.
Point Number	517.7
Category	Activity > Planning Further Community Facilities
Comments:	It has been brought to my attention that “Sport” is mentioned 26 times in the long term plan, and "Arts” is mentioned twice. As

	someone who grew up in Selwyn and partook in both sports and arts, I know how important they are to everyone in the community. The disparity between the two is incredibly surprising to me and I cannot understand why the council does not value the arts more. There are already several establishments putting on shows in Selwyn such as the Kirwee players, Centre Stage Rolleston, and more. These shows attract hundreds of attendees and draw people into the Selwyn region from Christchurch City. "Rolleston alone has twelve football fields, six cricket pitches, a hockey turf, two 25-metre pools, a synthetic athletics surface, eight netball courts, and a $21.5 million dollar indoor sports facility. There are zero dedicated arts facilities in all of Selwyn." How are our youth supposed to become engaged in music and the arts when all of our funding goes towards sports. Think of the young talent that could be going unnoticed due to never receiving the chance to try it. A dedicated arts space provides existing groups the opportunity to connect with our community in a way that isn't currently possible. It brings together the young, the elderly, and people with disabilities. I propose that the council adds a dedicated arts facility to its long-term plan.
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. New facilities, such as Te Ara Atea and Whata Rau, are designed with the flexibility to accommodate arts experiences.
Point Number	517.8
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	i am more interested in positive environmental change regarding public transportation than in economic benefits.
Staff Recommendation	It is acknowledged the submitter has selected not to progress with the Economic Development Strategy. As discussed at the Council briefing on March 27 followed by the session on 24 April 2024, Council is involved in and has access to important levers in economic development. The Council has a role in facilitating others and enabling economic development to occur as prosperously as possible to benefit the whole community.

Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park using a more standard design that can be easily repeated for other buildings. This building would have the same sized floor space as option 2 and include a cultural narrative in the design. **Project cost:** Year 1: 15.21m **Estimated impact on rates (per year):** $42.01 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27

	2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 **Comment:**

Staff Recommendation	Submission is acknowledged by Council.
Point Number	520.8
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities
Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a shared Hub/Clubrooms built at the proposed new Netball & Tennis facilities based in West Melton. West Melton Netball & Tennis share the vision to provide an inclusive,

	nurturing & welcoming community focussed environment to develop players of all ages, creating longevity for the clubs and the community. What we are asking for is a Hub to bring our community together to create a sustainable future of Netball & Tennis but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Netball Balls, Gear Bags, Hoops, Training Equipment, Tennis Nets, Tennis Poles, Tennis Balls and Trolleys. The space would require a kitchenette suitable for making Tea & Coffee and Afternoon Tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities.
Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

Comments:	Rates increases should be held to no more than 1% more than Inflation.
Staff Recommendation	That the submission is acknowledged by Council. The Council understands the financial pressures that ratepayers face and endeavours to keep rates increases to a minimum.
Point Number	522.8
Category	Activity > Other Categories identified by Staff > Financial management

Comments:	A couple of years ago the Council did a restructure and employed a lot of middle managers, which has increased the wage costs to the ratepayers. As per the Government, trying to live within its means, SO SHOULD THE SELWYN COUNCIL. Drop wage costs by 6%. If not, you risk making rates unaffordable to many. The CEO obviously does not understand budgeting, like the ratepayers of this district. We all have to live within our means. The mayor is saying that the rating system is broken, is rubbish, he just thinks that money grows on trees! And paying $20,000.00 to Iwi for the name of the Rolleston Library, was a stupid waste of money, which we didn't have. We were told it was gift, clearly not. And as for consulting the community, he does not!
Staff Recommendation	That the submission is acknowledged by Council.
Point Number	522.9
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	Can't afford it.
Staff Recommendation	It is acknowledged the submitter has selected to not progress with the Economic Development Strategy and holds a view that the council cannot afford this action. Councils' contribution to economic development is alongside others who are expected to contribute significantly more overall. Council is involved in and has access to important levers in economic development. The Council has a role in facilitating others and enabling economic development to occur as prosperously as possible to benefit the whole community. Every cent of spend will be scrutinised and planned for to ensure outcomes and returns are maximised from the spend. Action plans will outline this in detail. The $9m is over a ten-year period, and not all the proposed spend is the same across the years with the first years having a lower allocated amount.
Point Number	522.10

Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Build three new Park and Ride facilities at Lincoln and Rolleston, and upgrade public transport infrastructure, but only if Council receives co-funding from NZTA Waka Kotahi. **Project cost:** Years 1–3: $4.2 million Years 4–10: $11.6 million **Estimated impact on rates:** Years 1–3: $7.06 Years 4–10: $19.52 **Funding:** Rates: 49% NZTA Waka Kotahi: 51% Our budgeted option **Comment:**		
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 1 - Our Budgeted Option using NZTA Waka Kotahi co-funding		
Point Number	524.2		

Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.* **Project cost:** Year 1: $3.05m **Estimated impact on rates (per year):** $10.46 **Funding:** Rates: 100% **Comment:**
Staff Recommendation	Submission is acknowledged by Council. [

Point Number	524.7
Category	Activity > Planning Further Community Facilities
Comments:	I am sick to death of driving to anywhere but Selwyn for anything to do with the Arts. There are no council supported Arts, Music or Performing Arts facilities any where and it is a disgrace! We have sport coming out our ears and zero culture. Making a population of Selwyn duller than slugs. You have a diverse population. Not just the next All Black or Silver Fern. People need culture, arts and facilities that support this. Otherwise the result will be a mass of backwards, uncouth, mediocre sporting, ignoramus.
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. New facilities, such as Te Ara Atea and Whata Rau, are designed with the flexibility to accommodate arts experiences.

Staff Recommendation	Submission is acknowledged by Council.		
Point Number	526.4		
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities		
Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a shared Hub/Clubrooms built at the proposed new Netball & Tennis facilities based in West Melton. West Melton Netball & Tennis share the vision to provide an inclusive, nurturing & welcoming community focussed environment to develop players of all ages, creating longevity for the clubs and the community. What we are asking for is a Hub to bring our community together to create a sustainable future of Netball & Tennis but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Netball Balls, Gear Bags, Hoops, Training Equipment, Tennis Nets, Tennis Poles, Tennis Balls and Trolleys. The space would require a kitchenette suitable for making Tea & Coffee and Afternoon Tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities.		

Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

Category	Activity > Other Categories identified by Staff > Financial management
Comments:	Keep expendure below the rate of inflation and defer projects until the ratepayers can afford to pay higher rates. Consentrate expenditure on the essentials particularly roading.
Staff Recommendation	Submission is acknowledged by Council.

Point Number	527.10
Category	Activity > Other Categories identified by Staff > Other Matters
Comments:	I strongly believe that the Malvern District must retain at least two Councillorsand should not have West Melton included in the Malvern District.
Staff Recommendation	Submission is acknowledged by Council It is noted that the Representation Review is subject to a separate process.
Point Number	527.11
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	Let the local community run the pool without unnecessary rules and regulations.
Staff Recommendation	It is acknowledged that the submitter has suggested Council not close the Sheffield Memorial Pool, and instead transfer the facility and operations of the facility over to a community organisation of some kind, currently not identified. The Long Term Plan consultation is essentially on the future ownership of Sheffield Memorial Pool by Selwyn District Council. The Council's proposal is to decommission the Pool on the basis that Council sees poor value in continuing to fund and operate the Pool given its design issues, low usage in comparison to other staffed facilities, costs (current and pending) and close proximity to a recently refurbished Council Pool. Council's interest is therefore to no longer own the Pool and to save the Council from further costs related to the Pool. The final staff response will consider Council's position regarding alternative options than decommissioning that still achieve Council's interest.
Point Number	527.12
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	Business and developers will fund any necessary development without the Council being further involved. Rolleston has such

	momentum business wise that things will continue to be developed without further ratepayer involvement. I do however commend the Council involvement that got this momentum going.
Staff Recommendation	It is acknowledged the submitter has selected not to progress with the Economic Development Strategy. As discussed at the Council briefing on March 27 followed by the session on 24 April 2024, Council is involved in and has access to important levers in economic development. The Council has a role in facilitating others and enabling economic development to occur as prosperously as possible to benefit the whole community.
Point Number	527.13
Category	Questionnaire > Matters For Community Guidance > Digital Solutions
Comments:	Further technology developments are always important but these do not need to involve radical of overly expensive projects.
Staff Recommendation	The cost attributed to Digital is to signal we are serious about implementing efficiency across our organisation using technology. Our objective is to make Council financially sustainable through automation of process whilst providing residents and partners with more efficient services. Council is currently developing a Digital Strategy to provide this direction and budgets for the next LTP.
Point Number	527.14

Comments:	more details need it to know if that tecnology will be a positive impact and it will reduce other cost/time.
Staff Recommendation	The cost attributed to Digital is to signal we are serious about implementing efficiency across our organisation using technology. Our objective is to make Council financially sustainable through automation of process whilst providing residents and partners with more efficient services. Council is currently developing a Digital Strategy to provide this direction and budgets for the next LTP.

Submitter Number:	536	**Submitter:**	Sophie Owens
Point Number	536.3		

Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities
Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a shared Hub/Clubrooms built at the proposed new Netball & Tennis facilities based in West Melton. West Melton Netball & Tennis share the vision to provide an inclusive, nurturing & welcoming community focussed environment to develop players of all ages, creating longevity for the clubs and the community. What we are asking for is a Hub to bring our community together to create a sustainable future of Netball & Tennis but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Netball Balls, Gear Bags, Hoops, Training Equipment, Tennis Nets, Tennis Poles, Tennis Balls and Trolleys. The space would require a kitchenette suitable for making Tea & Coffee and Afternoon Tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities.
Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

Point Number	542.4		
Category	Activity > Other Categories identified by Staff > Parks and Reserves		
Comments:	Hi, When the council funded and managed the installation of a synthetic cricket wicket at Southbridge Domain, damage was done to the existing grass wicket block. Making this unplayabke, except for junior cricket. We request that funding be made available to reinstate the grass wicket block so senior and representative cricket can be played on it. The estimated costs are - Heathcote Cricket Wicket Clay - $5,400+GST. Preparation - sewing, maintence, fertilising etc - $960.00. We have been unable to obtain a quotation for spreading and laser levelling, however the council relationships with local contractors would mean this will be easy for council staff to organise. Please contact myself direct if you have any questions Thank you		
Staff Recommendation	Staff support the submission as budgets have been set aside for cricket wicket renewals/upgrades in the draft LTP and staff were already aware of this work which can be accommodated within the budgets set aside. Staff recommend that the upgrade work to the		

	Southbridge Park cricket wicket are undertaken in 2024/25 utilising the budgets set aside for cricket wicket renewals/upgrades (total $250,000 over 10 years).

Comments:	**Question:** We want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1. Do not build a community recreation and sports facility at Darfield. **Project cost:** None **Estimated impact on rates (per year):** None **Funding:** None **Comment:**		
Staff Recommendation	It is acknowledged that the submitter has selected Option 1, do not build the community recreation and sports facility at Darfield.		
Point Number	543.3		
Category	Activity > Planning Further Community Facilities		

Comments:	Selwyn has a thriving, talented, and growing arts community. Yet, the arts is barely mentioned in the Long-Term Plan. Rolleston alone has twelve football fields, six cricket pitches, a hockey turf, two 25m pools, a synthetic athletics surface, eight netball courts and a $21.5m indoor sports facility. Yet, there is no dedicated arts facility in all of Selwyn. This is a disservice to all the Selwyn residents whose interests and talents lie off the sports field. Selwyn is home to numerous dance studios, drama schools, and community arts groups. Why are these people forgotten? Why must they consistently struggle of find venues to perform, or facilitate their events? Do they not deserve the same support as those who wish to pursue sports? Should groups looking for a venue be forced into a place ill-fitted for their events, because their own region seems to have no interest in providing for them? Selwyn is in *desperate* need of a dedicated arts facility. A place where the community can come together, for numerous events and performances, with facilities that can be utilised by all kinds of groups - a place to perform, hold showcases, host talks and conferences, display art, a venue for touring arts and concerts, and other commercial uses. A place where the arts community can feel welcomed and at home, and provide existing arts organisations and businesses an opportunity to connect to their community in a way that isn't feasible currently. A home to inspire the next generation of artists and performers, and encourage the creation of new groups to further the ever-growing arts community in Selwyn. There is only benefit and inspiration to be gained by having a dedicated arts facility in Selwyn.
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. New facilities, such as Te Ara Atea and Whata Rau, are designed with the flexibility to accommodate arts experiences.

Category	Questionnaire > BD1 - Transport - Park and Ride
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear. **Project cost:** None **Estimated impact on rates:** To be determined **Funding:** To be determined **Comment:**
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP

Point Number	544.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will

	be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.* **Project cost:** Year 1: $3.05m **Estimated impact on rates (per year):** $10.46 **Funding:** Rates: 100% **Comment:** There are already so many sports facilities in selwyn! We dont have any place dedicated to performing arts. There are so many of us in selwyn who love to perform and teach theatre but dint have a venue so have to pay so much to hire out venues to do so. The community love watching theatre as peoven in a multitude if sold out shows with the company centrestage rolleston. Please consider this!
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Point Number	547.7
Category	Activity > New Public Transport
Comments:	Suggest a light rail commuter train option using existing infrastructure to connect Rolleston and Christchurch. Additionally, need more commercial facilities around Westwood area. It seems isolated from the town centre.
Staff Recommendation	The 2023 Greater Christchurch Mass Rapid Transit (MRT) Business Case determined that MRT was viable in the city, but not in the surrounding Districts. It considered a wider passenger rail service using the existing rail network could have merits in the future if combined with a wider regional passenger rail service. But with small projected patronage, large investment needed for rolling stock and infrastructure (on a rail network managed by others), and that there is no CBD connection makes this currently not worthwhile.

Category	Activity > Walking and cycling improvements
Comments:	Please consider further low-cost investment into Castle Hill community infrastructure targeting outdoor skills eg a mountain bike obstacle course (similar to McLeans Island) near the Village Green and Pump Track. This would be a wonderful addition for the community and for visiting families to compliment our world-class forest tracks and trails and build safety and skills for kids, especially when the tracks are closed. Relatively speaking, obstacle courses are not a large cost to build and the community could support with labour and landscaping etc. If there is no budget then perhaps could an area of the Village Green be set aside so the community could initiate the project with some keen builders.
Staff Recommendation	Submission is acknowledged by Council. Transport staff have forwarded the request to open spaces team for further consideration as part of future reserve management plans

Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau		

Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.* **Project cost:** Year 1: $3.05m **Estimated impact on rates (per year):** $10.46 **Funding:** Rates: 100% **Comment:**

Staff Recommendation	Submission is acknowledged by Council.
Point Number	550.7
Category	Activity > Planning Further Community Facilities
Comments:	I would like to push the New community centre for Prebbleton forward not back - complete the consultations asap and install one with room for small groups and arts at kakaha park - with the use of buses . I would like to stay that a public toliet needs to be installed in the shops in Prebbleton - it should have been in the condidtions for the 2 developers to pay for , its crazy to have two large old people homes in prebbleton and now no toliet - if they are shoping . Personally i have witnessed an embarassed person - who didnt make it to fresh choice . I dont think fresh choice should have to provide the only toilet. it looks like in your council reports the toilets have not been assessed for needs since 2018 in Prebbleton ?
Staff Recommendation	The submission is acknowledged. A new community centre for Prebbleton has been in considered in earlier Long-Term Plans and was previously signalled for construction in 2025/26. A needs assessment study was undertaken in 2023 which concluded that there was demand for a facility to service the community, and

	that it should provide a mix of social, community gathering and recreation spaces. The study further concluded that the facility needed to be located so it was easily accessed by the community. As there are uncertainties about the best site for the facility and the activities that it will cater for, further planning and community consultation is needed. To enable time for the necessary planning to happen, the project has been programmed for 2026/27 to 2027/28.
Point Number	550.8
Category	Activity > Other Categories identified by Staff > Road Safety
Comments:	I would like bright red slow down 40 writing on the road - on springs road - as you enter the village - additional speed bumps at the entrance to prebbleton - just past the round about before you get to the crossing - the crossing is still unsafe and people need to slow down. A cross in front of the roundabout for school children would also be a great addition .
Staff Recommendation	Submission is acknowledged by Council. Council is unable to introduce speed reduction infrastructure like speed bumps etc, until it is clear from central government what is to happen with speed limits. Communications from the minister is that there could be some speed limits that need to be raised. Council is aware of the concerns with the Springs Road crossing. Crossing upgrades are prioritised and upgraded accordingly.

Submitter Number:	551	**Submitter:**	Juliet Tibbotts
Point Number	551.3		
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities		
Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a shared Hub/Clubrooms built at the proposed new Netball & Tennis facilities based in West Melton. West		

	Melton Netball & Tennis share the vision to provide an inclusive, nurturing & welcoming community focussed environment to develop players of all ages, creating longevity for the clubs and the community. What we are asking for is a Hub to bring our community together to create a sustainable future of Netball & Tennis but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Netball Balls, Gear Bags, Hoops, Training Equipment, Tennis Nets, Tennis Poles, Tennis Balls and Trolleys. The space would require a kitchenette suitable for making Tea & Coffee and Afternoon Tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities.
Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

Comments:	
	Comment: Please see attached our letter of support for an indoor facility with two courts. **Malvern Indoor Facility** We fully support a two court facility in Darfield. This would open up many opportunities for multiple sports and activities to be able to be run here. Benefiting the Malvern community exponentially Firstly it would ensure the longevity of Malvern netball being able to have indoor options. From the Selwyn Sports Trust point of view, we would use this facility to host activations in the district and would be able to host small tournaments. These would be done during school time and wouldn't clash with other sports. This would enable smaller Malvern schools like Windwhistle to be able to attend without the expensive barrier of travelling to Rolleston or Christchurch which is prohibitive for them. It would also open up the opportunity for other court based sports and recreation to be able to be played in Malvern eg. badminton, pickleball, table tennis. These sports are vastly growing in popularity nationwide and it would be fantastic for the residents of Malvern to be able to take part in these too. Having more diversity in sports and recreation opportunities within Malvern will enable more people to be active and contribute to both a

	prosperous and healthy community. Sports/recreation are also a great way to build a community and inclusion. Having only one court wouldn't be big enough to warrant hosting tournaments/competitions and we fear it wouldn't get used enough to warrant the expense. A two court facility opens up many more options for engagement from the Malvern community and beyond. Mitch Prendergast Operations Manager Selwyn Sports Trust
Staff Recommendation	It is acknowledged that the submitter has selected Option 3, build the community recreation and sports facility at Darfield that includes two indoor courts. Our budgeted option.

Point Number	556.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park using a more standard design that can be easily repeated for other buildings. This building would have the same sized floor space as option 2 and include a cultural narrative in the design. **Project cost:** Year 1: 15.21m **Estimated impact on rates (per year):** $42.01 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28

Category	Activity > Planning Further Community Facilities
Comments:	I am dismayed that so much of the focus on the long-term plan is around provision of sporting facilities. Where is there any mention of the Performing Arts? Yes, of course sport is important for the health of our community but let's get this straight. Performing Arts IS a Team Sport! The participants – actors, directors, dancers, choreographers, singers, orchestras, and conductors all train (rehearse) for many, many hours for their game of two halves (performance). Not to mention the hours put in to by lighting and sound technicians, wardrobe mistresses, props masters, set designers and builders. And - just as a rugby players need a field, cricketers the pitch, netballers a court - so performers need a performance space. And – just as a cricketer cannot be expected to bowl well on a rutted rugby field – so a performer cannot do their best work in a (to quote the Community Centres, Halls and Libraries Network Plan 2021) 'general-purpose space for social gatherings, meetings and public assembly'. These facilities simply do not meet the needs of Performing Arts sector. Why is meeting the needs of the Performing Arts sector so important? There are numerous academic papers identifying the benefits of the Performing Arts, either as an active participant or passive audience member, on the health and wellbeing at both individual and community level. It's value is even recognised by the World Health Organisation so who are we to argue? (Referenced snippets attached) Active participation in the Performing Arts promotes life skills that are transferable to the work environment. These include discipline and structure, teamwork and collegiality, autonomy and accountability, creative thinking and problem solving, resilience and adaptability. In a world where social media is destroying social skills, we need to provide opportunities for these qualities to be developed and that is in the Performing Arts. In local communities, people attend performing art events not just to be entertained, but to support and celebrate the achievements of family and friend participants, thus strengthening community cohesion. It brings people of all ages together. It generates a sense of belonging and pride in our community. I also refer you to the recommendations in the Community Centres, Halls and Libraries Network Plan 2021 (page 5) 3. That Council, based on sound feasibility and evidence of community need, invests strategically in new and upgraded Community Facilities with the following considerations: a. Provide opportunities for community organisations, willing to work with Council in collaborations and partnerships that lead to high level of community activation, within Council facilities. b. add specialised activity spaces into the network c. add complementary activity spaces (within a particular geographical area, cluster) that reflect community demand d. consolidate spaces within a geographical

	area (cluster), or introduce new provision to address an identified gap e. allow for the devolution of ownership of Council owned community facilities to community-led organisations when this is assessed as best value for the community and Council 11. For Council to work to rebalance the Network through fewer new builds of generic community space and more special purpose spaces targeted at particular specialised needs or specific age-groups and involve these groups in the planning of these spaces. If Selwyn District Council does not include a dedicated Performing Arts facility to its Long Term Plan, I fear it is condemning Selwyn to being a cultural waste land.
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. Comments:	There has been a lot of money spent on cycle ways and paths etc mean while our roads are in disrepair.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	558.11
Category	Activity > Other Categories identified by Staff > Rates
Comments:	Currently we pay $25000 in rates to selwyn district council on our own property and a further $45000 in rates on land we lease. We

	receive very little for this large cost. The Council should be limiting rates rises to the rise in inflation which has been around 6% and is currently dropping. There is large amounts of waste going on in Council spending away from core responsibilities of roading, water and waste removal. There is also large amounts of waste by contractors to council you only need to observe a work site for a small amount of time to observe this.
Staff Recommendation	That the submission is acknowledged by Council. The Council is proactively looking for opportunities to minimise waste of resources, this process is constantly improving.
Point Number	558.13

Comments:	I disagree with these racist policies it is time to move forward as one people with out reference to race
Staff Recommendation	Submission is acknowledged by Council.
Point Number	558.14
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	I think the cost to keep open have been grossly over stated. It should be left to the community which I'm sure would be able to find solutions much cheaper
Staff Recommendation	It is acknowledged that the submitter has suggested Council not close the Sheffield Memorial Pool, and instead transfer the facility and operations of the facility over to a community organisation of some kind, currently not identified. The Long Term Plan consultation is essentially on the future ownership of Sheffield Memorial Pool by Selwyn District Council. The Council's proposal is to decommission the Pool on the basis that Council sees poor value in continuing to fund and operate the Pool given its design issues, low usage in comparison to other staffed facilities, costs (current and pending) and close proximity to a recently refurbished Council Pool.

	Council's interest is therefore to no longer own the Pool and to save the Council from further costs related to the Pool. The final staff response will consider Council's position regarding alternative options than decommissioning that still achieve Council's interest.
Point Number	558.15
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	It is not the councils place to subsidize businesses
Staff Recommendation	It is acknowledged the submitter has selected not to progress with the Economic Development Strategy and holds a view that Council does not have a role in economic development. As discussed at the Council briefing on March 27 followed by the session on 24 April 2024, Council is involved in and has access to important levers in economic development. The Council has a role in facilitating others and enabling economic development to occur as prosperously as possible to benefit the whole community.

Staff Recommendation	Submission is acknowledged by Council.
Point Number	559.3
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	As a restaurant owner, is getting harder and harder to compete with the influx of new hospitality businesses coming to Rolleston. It isn't just competing with other restaurants that is a challenge but every business is finding it harder to make enough money to get by due to the fact that there is no reason for anyone to come to Rolleston. The only times we seem to get a an increase in business is when Centerstage Rolleston are putting on a production that brings people in from Christchurch. People need things to do other than just eat. Movie theatres, bowling alleys, AN ARTS CENTE, these are the things that benefit the community by bringing more business from outside of Selwyn. The arts play an absolutely critical part in supplying our dying local businesses with the trade that they desperately need.
Staff Recommendation	It is acknowledged the submitter has not selected an option as to whether the Economic Development Strategy should progress. As discussed at the Council briefing on March 27 followed by the session on 24 April 2024, Council is involved in and has access to important levers in economic development. The Council has a role in facilitating others and enabling economic development to occur as prosperously as possible to benefit the whole community. Council will consider their feedback in strategy action planning.

Comments:	In general I believe that the council like us all need to work to only spend within the budget they have. There should not be any increases beyond the rate of inflation for the period of the long term plan. My wages and my husbands pension are extremely unlikely to even increase yearly to match the rate of inflation . Everyone is currently struggling with the cost of living still being high and any increases above inflation will cause genuine hardship to those already struggling. In the last few years the population of Selwyn has risen, so may new commercial properties and residential homes so purely by numbers there must be increasing amount of revenue being generated anyway without putting significant financial burden on each individual household.
Staff Recommendation	That the submission is acknowledged by Council.

Comments:	Can't afford such a luxury right now. Don't trust council to make good decisions now let alone using technology more.
Staff Recommendation	The cost attributed to Digital is to signal we are serious about implementing efficiency across our organisation using technology. Our objective is to make Council financially sustainable through automation of process whilst providing residents and partners with more efficient services. Council is currently developing a Digital Strategy to provide this direction and budgets for the next LTP.

Submitter Number:	562	**Submitter:**	Sarah Kortegast
Point Number	562.3		
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities		
Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a shared Hub/Clubrooms built at the proposed new Netball & Tennis facilities based in West Melton. West Melton Netball & Tennis share the vision to provide an inclusive, nurturing & welcoming community focussed environment to develop players of all ages, creating longevity for the clubs and the community. What we are asking for is a Hub to bring our community together to create a sustainable future of Netball & Tennis but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Netball Balls, Gear Bags, Hoops, Training Equipment, Tennis Nets, Tennis Poles, Tennis Balls and Trolleys. The space would require a kitchenette suitable for making Tea & Coffee and Afternoon Tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities.		
Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council		

	staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear. **Project cost:** None **Estimated impact on rates:** To be determined **Funding:** To be determined **Comment:**		
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP		
Point Number	563.2		

Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park using a more standard design that can be easily repeated for other buildings. This building would have the same sized floor space as option 2 and include a cultural narrative in the design. **Project cost:** Year 1: 15.21m **Estimated impact on rates (per year):** $42.01 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 **Comment:** please consider a space for the arts and a theatre in selwyn
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions,

	public artworks, live music, and theatre events. New facilities, such as Te Ara Atea and Whata Rau, are designed with the flexibility to accommodate arts experiences.

Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Build three new Park and Ride facilities at Lincoln and Rolleston, and upgrade public transport infrastructure, but only if Council receives co-funding from NZTA Waka Kotahi. **Project cost:** Years 1–3: $4.2 million Years 4–10: $11.6 million **Estimated impact on rates:** Years 1–3: $7.06 Years 4–10: $19.52 **Funding:** Rates: 49% NZTA Waka Kotahi: 51%		

	Our budgeted option **Comment:** Foodstuffs South Island Limited is a key business partner and ratepayer in the Selwyn District. We have stores in four key neighborhood zones in the region. In order to provide fair and equitable access to services across the region, we believe that it is critically important to have strong transport links to, and within the District. Public transport is the key primary driver to enable this to all members of society. Big Decision 1 questions whether to endorse the building of additional infrastructure ASAP with funding from NZTA (Waka Kotahi), or whether Selwyn DC should 'go it alone', or defer the decision until later. As a ratepayer, keeping the inevitable rate increase as low as possible is preferred, so obtaining funding from NZTA is naturally the preferred outcome. However, in any case, we believe that building the infrastructure will encourage increased patronage of bus services, and make it more convenient for the users of these services, who are also our customers. We endorse the decision of the Selwyn District Council to implement the Long Term Plan in its current format, and support Option One of Big Decision One.
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 1 - Our Budgeted Option using NZTA Waka Kotahi co-funding

Comments:	Lack of Performing Arts Space in Selwyn. I am disappointed that no thought has been given to a Performing Arts space in this plan. I am the Principal of a local primary school and struggled to find a suitable space to hold our school production. I have made do with a space that is not fit-for-purpose but we can make work. When I was living and working in Christchurch City we had a number of options for performance spaces/theatres that were extremely well utilised by many different groups and schools. Granted, some of these were high schools (Cashmere High Performing Arts Centre - Burnside Highs Aurora Centre) however it is unlikely that Rolleston College will have a theatre built to a suitable standard with the Ministry of Educations downgrading of school infrastructure spending. The district can't and shouldn't rely in schools to provide Performance venues, just like we don't expect schools to provide all sporting venues and facilities. Neighbouring districts have fantastic performing arts facilities such as Ashburton (Ashburton Events Centre) and Waimakariri (Rangiora		

	Town Hall) and Christchurch city. I feel that the people of Selwyn are missing out and Selwyn will be 'left behind' by not having an Arts facility to encourage creativity, excellence and enjoyment in the Arts. If Selwyn is to be a destination for all, we need to include infrastructure that supports The Arts, not just sport. I am not suggesting sport isn't important especially for young people, but we also have a lot of talented actors, dances musicians, supported by fantastic dance/drama schools and instrumental tutors, as well as fabulous theatre companies, choirs and bands. All these organisations as well as local schools, music groups, choirs and visiting artists etc would benefit from having a designated performance space. If designed well it could also be used as a movie theatre and possible conference venue! Wellbeing and culture is part of the focus of the LTP however there is no provision to develop these things through The Arts. If a performance space was to be built it would have benefits for local restaurants and bars, bring people to the area, enabling Selwyn locals to enjoy Arts/theatre/concerts in their neighbourhood. It would also provide a performance space for the many schools in the area to use as well as dance/drama schools and theatre companies. Millions has been spent on sports facilities, which are fantastic. I think some balance needs to be found and an Arts Facility considered to ensure Selwyn continues to meet the needs of all its residence and ensure a vibrant culturally rich district. Rob Naysmith Arts Advocate and Local Primary School Principal

Comments:	**Comment:** 1 indoor court isnt enough. I currently play netball in the West Melton indoor facility and 1 court is annoying for umpires as they spend time sitting around between games whilst we complete a decent warm up on court to reduce injury. Umpires are valuable volunteers and their time needs to be treated as so. Not to mention the parents that will be travelling 20 plus minutes for their children to use this sporting facility. More than 1 court would allow for siblings to be training and playing at the same time.
Staff Recommendation	It is acknowledged that the submitter has selected Option 3, build the community recreation and sports facility at Darfield that includes two indoor courts. Our budgeted option.

Category	Activity > New Public Transport Services
Comments:	Being a retailer, who hopes to open in Rolleston in the near future. Having a easy to ease public transport makes it a lot easier for not only the surrounding customer, but also our team members. Unfortunately at present, its probably easier to get to our Hornby store by bus than areas in Rolleston?
Staff Recommendation	Environment Canterbury is planning to investigate 'On Demand' Services within larger townships. It is also planning to increase the frequency of the 5 Metro bus service and investigate additional direct and express PT services to the city in conjunction with the planned Park N Rides.

In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1. Build a community recreation and sports facility at Darfield that includes one indoor court. **Project cost:** Year 3: $7.07 million (minus $1.10 million already included in the last Long-Term Plan. Total left to fund is $5.97 million) **Estimated impact on rates (per year):** $11.67 **Funding:** Rates: 57% Development contributions: 43% * Our budgeted option **Comment:**
Staff Recommendation	It is acknowledged that the submitter has selected Option 2, build the community recreation and sports facility at Darfield that includes one indoor court.
Point Number	573.3
Category	Activity > Planning Further Community Facilities
Comments:	Investing in the arts in Selwyn is not just about fostering creativity; it's about building a vibrant, connected community where every individual has the opportunity to thrive. While sports receive considerable attention and funding, it's crucial to recognize the equally important role that the arts play in enriching our district. Firstly, let's consider the impact on our youth. The performing arts provide a platform for self-expression, confidence-building, and personal growth. Through programs like ours, which teach over 200 children each term, young people are given the chance to explore their talents, develop essential skills, and form lifelong passions. By nurturing these budding artists, we not only contribute to their

	individual development but also to the cultural vitality of our community. However, despite the enthusiasm and talent of our youth, the lack of dedicated performance spaces in Selwyn presents a significant obstacle. Currently, we're forced to make do with makeshift venues like Rolleston College, Lincoln Events Centre, and Kirwee Village Hall. While these spaces serve a purpose, they come with limitations that hinder the quality and accessibility of our performances. We have to haul in our own sound and lighting equipment, which not only adds logistical challenges but also strains our resources. Imagine the possibilities with a designated performance space in Selwyn. Such a facility would not only alleviate the burden on local arts organizations like mine but also benefit schools and the wider community. It would provide a professional-grade venue for showcasing talent, hosting events, and fostering collaboration. Schools would have a dedicated space for their students to rehearse and perform, enhancing their educational experience and encouraging participation in the arts. Moreover, a dedicated performance space would attract artists, performers, and audiences from across Selwyn and beyond, boosting tourism and economic activity in the area. It would be a hub for cultural exchange, creativity, and innovation, strengthening the social fabric of our district and fostering a sense of pride and identity among residents. Investing in the arts is not just an investment in creativity; it's an investment in the future of Selwyn. By providing dedicated performance spaces, we can empower our youth, support local artists, and enrich our community in ways that extend far beyond the stage. It's time to recognize the paramount importance of the arts and take action to ensure that Selwyn remains a vibrant, inclusive, and culturally rich place to live and thrive.
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. New facilities, such as Te Ara Atea and Whata Rau, are designed with the flexibility to accommodate arts experiences.

Comments:	This is vital for those learning to swim and is currently a place of congregation in the community. I view it as a community hub over the summmer.
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.

Submitter Number:	575	**Submitter:**	Ellie Moe
Point Number	575.2		
Category	Activity > Planning Further Community Facilities		
Comments:	It would be absolutely wonderful to have a purpose buimt facility for the Arts, somewhere community grouod can come together and produce exhibitions or shows that reflect the talent and passion in Selwyn, and match the extensive sports facilities! Not everyone likes sport! The arts are an area where anyone can contribute regardless of your size or firness level. It allows people to express themselves, and challenges people to think about more than the season stats! I really hope the council will consider a significant way forward in this area.		
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. New facilities, such as Te Ara Atea and Whata Rau, are designed with the flexibility to accommodate arts experiences.		

Submitter Number:	576	**Submitter:**	Joanna Browne
Point Number	576.3		
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities		
Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a shared Hub/Clubrooms built at the proposed new Netball & Tennis facilities based in West Melton. West Melton Netball & Tennis share the vision to provide an inclusive, nurturing & welcoming community focussed environment to develop players of all ages, creating longevity for the clubs and the community. What we are asking for is a Hub to bring our community together to create a sustainable future of Netball & Tennis but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Netball Balls, Gear Bags, Hoops, Training Equipment, Tennis Nets, Tennis Poles, Tennis Balls and Trolleys. The space would require a kitchenette suitable for making Tea & Coffee and Afternoon Tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities.		
Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council		

	staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

Comments:	Hello, As a frequent user of the Sheffield pool. My family would love to share how much we love the pool. Sheffield pool has so many memories. It has been a fantastic asset to our community. My children learnt to swim there. We invite friends from town who are amazed to see we have a local pool and really enjoy coming. It has been so wonderful to have a pool so close where me and my family can just walk down. We do not have much as it is in sheffiled and it would be a real shame to have it taken away closed down forever. It would also be hard for the sheffield school children to do swimming lessons without a pool and they would miss out.		

	Having the school have the pool or having a different option where we can still have it in our community would be amazing Please don't shut it down forever it would be so so sad. If they get rid of the diving board it would make a good community statue type memorial thing to put in the community as it has so many memories attached to it. I have been in this community since I was 8 and to see the pool gone is seeing part of me gone. It means alot to the community. Even though Darfield swimming pool is up the road it is nice to have a pool close and the point is the children of Sheffield need a pool for their swimming lessons. With Sheffield growing in the future I think keeping the pool will be super important.
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.

Comments:	This is not an easy item number to negotiate, as the links you provided to the LTP are unclear. In terms of consultation : I understand you support and pay Mahaanui Karataiao Limited, a Rūnanga-owned entity and Consultancy which has been established specifically for the purpose of engaging with local government. I understand this Consultancy firm operates from Christchurch City with people who do not necessarily reside in Selwyn. Selwyn Council should not be taking advice on Selwyn matters from people who are not Selwyn Ratepayers. If you wish to continue to take advice from this service that is paid for by Selwyn Ratepayers, then you also need to support the establishment of and pay independent Selwyn Ratepayers groups to consult with you, outside of the functions of elected Council. I recommend a **Cultural Selwyn Ratepayers Consultancy** (paid) to consult with you on all social and cultural wellbeing matters; an **Economic Selwyn Ratepayers Consultancy** group (paid) to consult with Council on all economic matters and to provide independent overview of the budget and borrowing; an **Environment Selwyn Ratepayers Consultancy** group (paid) to consult with Council on all Environmental matters that affect ratepayers. These people will be the intermediaries between Council and Ratepayers, on a limited 3-year, full-time paid employment with defined outcomes and roles. They will come from all walks of society and bring different perspectives, ethnicities, characters and skills. They will network with the community and engage with Council on behalf of Ratepayers. Tick-boxes on websites are insufficient for the challenges ahead.

Staff Recommendation	The purpose and role of Mahaanui Kurataiao is to assist and improve the recognition and protection of; Rangatiratanga, mahinga kai and taonga species; within the respective takiwa of each Papatipu Runanga. The geographic scope of Mahaanui Kurataiao which includes Selwyn District extends from the Hurunui River in the north, to the Hakatere/Ashburton River in the south, and inland to Ka Tiritiri o Te Moana (the Southern Alps). Mahaanui Kurataiao facilitates engagement between council, crown and private organisations or individuals. This engagement is coupled with independent analysis of any technical information and documentation. Mahaanui Kurataiao charges the Council for the services that undertakes then where it can Council passes on those costs to the applicants involved the relevant resource consent applications

Comments:	As my child will attend Sheffield School I think the pool is a huge asset to the school and the community. It would be a shame to see it closed.

Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.
Point Number	581.7
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	I support the economic development of selwyn but seems very broad and would like it to be clear at the 9 million was used for. Would it be targeted at rolleston or include smaller communities?
Staff Recommendation	It is acknowledged the submitter has selected not to progress with the Economic Development Strategy. As discussed at the Council briefing on March 27 followed by the session on 24 April 2024, Council is involved in and has access to important levers in Economic Development. The Council has a role in facilitating others and enabling Economic Development to occur as prosperously as possible to benefit the whole community. . Every cent of spend will be scrutinised and planned for to ensure outcomes and returns are maximised from the spend. Action plans will outline this in detail.

Comments:	i don't like how much everything is costing. Considering we have more people living here now, it is so expensive. We have more but does everything have to be built at the top level. We want things that are good quality and built to last but do they need to cost so much?
Staff Recommendation	That the submission is acknowledged by Council.

Submitter Number:	584	**Submitter:**	Bryan and Carol Thomas
Point Number	584.2		
Category	Activity > Planning Further Community Facilities		
Comments:	Thank you for the opportunity to add our voice to the submissions relating to the consultation document for the long-term district plan. In your long-term proposal you state: “One of the main purposes of local government is to improve the social economic and cultural well-being of our residents and communities. Almost everything we do as a council contributes to these well-beings.” Under the heading of Cultural Well-Being you state: Indicators include preservation of historic places including wahi tapu places of tribal significance and promotions of local history and **celebrations of arts and culture**.” The latter is the focus of this submission. We have lived in Selwyn for over fifty years. For the last ten years we have lived in Rolleston and have witnessed phenomenal growth and amazing new facilities spring up, most noticeably in the area of sporting facilities. All very positive, all great assets to the community. In view of the large emphasis that has been placed on providing excellent sporting facilities in the district, we were both surprised and disappointed to find that, going forward, the very obvious lack of facilities for the arts is still not being addressed. We would like to request that the Council has some robust discussion around including a theatre in the long-term plan. The population of Selwyn is projected to be around 110,000 by 2034.		

	That's a lot of people, enough to warrant a dedicated facility for the performing arts, and we certainly have the talent here to warrant one. In addition to providing a venue for local productions it would also have the potential to be a venue for national/international artists to use. Rolleston would be the obvious location, given its burgeoning population and easy access from the city, and I'm sure the numerous eateries in town would welcome the extra trade created by out-of-towners wanting dinner before a show. The council submission document for the long-term plan speaks about its commitment to celebrating arts and culture. So how about we make celebrating the arts a reality, and not just words, by including a commitment to build a facility where we can actually celebrate the arts in Selwyn, in particular the performing arts. Pleasecould you have a good think about this one. This is a ten year plan you're looking at, which presumably means it will be another ten years that the arts have to wait to get a share of the cake, if no provision is made in this plan. Yours very sincerely, Carol and Bryan Thomas
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. New facilities, such as Te Ara Atea and Whata Rau, are designed with the flexibility to accommodate arts experiences.

Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	As a resident, I wish to express my ardent wish and support for the continued operation and maintence of the Sheffield Memorial Pool. It is a key asset to our rural community. It has greatly assisted in connecting members of tge cimmunity, relieved feelings of isolation by have a place that is walking distant when driving has not been a viable option (due to cost if petrol or having young children), and a learning ground for our school children to learn to swim.

	Please enable the school to continue to remain open until a feasible long term plan is firmly established. It is such a critical asset for our rural comminty… travelling to Darfireld is not a viable amd realistic option for many in this community. I have recently learnt that this particluar pool is unique in its features and the only one from christchurch to the west coast that meets the Governments swim safe objectives. I am open to a pool being built somewhere else in the Sheffield township (the school, domain etc) or to be repaired in the current location. in any case, having a pool in this rural setting is crucial for promoting both physical and mental wellbeing, as well as enabling the community of all ages to connect. Thank you
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.

Category	Questionnaire > BD1 - Transport - Park and Ride		
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear. **Project cost:** None **Estimated impact on rates:** To be determined **Funding:** To be determined **Comment:** commuter rail		
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP. The 2023 Greater		

	Christchurch Mass Rapid Transit (MRT) Business Case determined that MRT was viable in the city, but not in the surrounding Districts. It considered a wider passenger rail service using the existing rail network could have merits in the future if combined with a wider regional passenger rail service. But with small projected patronage, large investment needed for rolling stock and infrastructure (on a rail network managed by others), and that there is no CBD connection makes this currently not worthwhile.

Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park using a more standard design that can be easily repeated for other buildings. This building would have the same sized floor space as option 2 and include a cultural narrative in the design. **Project cost:** Year 1: 15.21m **Estimated impact on rates (per year):** $42.01 **Funding:** Rates: 80.5%

	Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 **Comment:**

Lets conserve our funds for now and consider further invedtmrnt down the trsck if still needed. I also think it should be xsllee a community centre not a maori name so that people know exactly what it is.
Staff Recommendation	The submission is acknowledged. Selwyn District Council prioritises inclusivity and cultural respect in our community. Te Tiriti o Waitangi, the Treaty of Waitangi, is a founding document of New Zealand and recognising Te Reo Maori (the Maori language) and incorporating cultural design elements in public facilities is one way Council chooses to uphold the spirit of the Treaty partnership. Council considers recognising Maori language and culture in public spaces is not only appropriate but also necessary. It reflects our commitment to the Treaty and our shared responsibility to create a more equitable and respectful society. Selwyn District Council considers that, when public buildings incorporate Maori names and cultural design elements, they are not merely symbolic gestures. Instead, they represent a tangible effort to honour the Treaty's obligations and foster a sense of belonging for all New Zealanders.

Comments:	
	Question: Do you support the closure of Sheffield Community Pool? No **Comment:**
Staff Recommendation	Submission is acknowledged by Council.
Point Number	595.8
Category	Activity > New Public Transport Services
Comments:	I dont agree with the park and ride concept for busese. I think public transport investment should be looking more long term and we should be looking at light rail options instead.
Staff Recommendation	The 2023 Greater Christchurch Mass Rapid Transit (MRT) Business Case determined that MRT was viable in the city, but not in the surrounding Districts. It considered a wider passenger rail service using the existing rail network could have merits in the future if combined with a wider regional passenger rail service. The location of one of Councils Rolleston Park N Ride facilities is next to the main rail line should in future rail passenger transport be considered viable.
Point Number	595.9
Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	Agree that good engagement is important although i think sometimes too much money is spent in these areas. I would also question the amount of Māori engagement required and the cost of this.
Staff Recommendation	The submission is acknowledged. The Local Government Act 2002 provides guidance to councils regarding their role as stewards of Treaty Partnership on behalf of the Crown. Councils are required to create systems and pathways that contribute to inter-generational well-being through partnership,

	representation, and meaningful consultation with mana whenua (Maori tribes) and wider Maori communities
Point Number	595.11
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	if the infrastructure is slready there then use it. The costs to vlosebit is nesrly a third of the upgrade costs and you will never be able to build another one for less. Having pools in as many communities as possible is important and kids being ablebto access these freely and easily is important.
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.
Point Number	595.12
Category	Activity > Lincoln Town Centre Upgrades
Comments:	I think this plan is lacking quite a lot of value for money for young families such as ours. Our rates continue to climb and i see very few benefits for us. We are a young family in Lincoln and although I understand the council has to do whats best for all of selwyn i dont see much good investment going into Lincoln.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	595.13
Category	Activity > New Public Transport
Comments:	Our roading is poor and with significant new developments going in we need decent infrastructure (highways) to support all the extra vehicles on the road. Would love to see investment into light rail into the city or a plan to do something along these lines.
Staff Recommendation	The Christchurch Southern Motorway has been recently completed to Rolleston. Council has a programme to upgrade key urban routes and intersections in conjunction with that required to be provided by developers. The 2020 Greater Christchurch PT Futures Business Case Study considered the best approach for planning public transport within Greater Christchurch.

Point Number	595.14
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	Would also like to see more strategic land investment to enable prosporous communities and good future planning. I would also like to see the council partnering with communities and businesses more to help community initiatives to be delivered. E.g. 18 hole golf course in Lincoln, and possibilities around the council owning the land but investors investing in the club and courses development. These type of partnerships are more common in other parts of the world but something we are not utilising as effectively as we could.
Staff Recommendation	It is acknowledged the submitter has selected to progress with the Economic Development Strategy, and Council will consider their feedback in strategy action planning.

Point Number	595.15
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	healthcare access is poor, often only able to get 15 minute appointments and present 1 or two issues at a time and thats if you can get in in the first place.
Staff Recommendation	Submission is acknowledged. The council continues to work with the government to advocate for more services, including health and education.

Point Number	595.17
Category	Activity > Other Categories identified by Staff > Crime/district safety

Comments:	Crime seems to have increased yet we have less police stationed here (why?)
Staff Recommendation	Your submission is acknowledged however while the Council is in regular contact with the police about the levels of crime and service, they provide the extent of policing in the district is ultimately determined by NZ Police.

Submitter Number:	597	**Submitter:**	Shannon McAleer for Darfield Cricket Club
Organisation:	Darfield Cricket Club		
Point Number	597.1		
Category	Questionnaire > BD3 - Malvern Rec and Sports Facility		
Comments:	**Question:** We want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1. Build a community recreation and sports facility at Darfield that includes two indoor courts. **Project cost:** Year 3: $11.28 million (minus $1.10 million already included in the last Long-Term Plan. Total left to fund is $10.18 million) **Estimated impact on rates (per year):** $19.91 **Funding:** Rates: 57% Development contributions: 43% * **Comment:** An indoor facility should include at least 2 dedicated cricket lanes and storage facility.		
Staff Recommendation	It is acknowledged that the submitter has selected Option 3, build the community recreation and sports facility at Darfield that includes two indoor courts. Our budgeted option.		

Submitter Number:	598	**Submitter:**	Hamish Mills

Point Number	598.2
Category	Activity > Planning Further Community Facilities
Comments:	The arts are extremely important to me and many people I know. Selwyn puts so much emphasis on sports, whereas expenditure is extremely lacking in the arts space. Please consider giving us a cultural arts space where community members can perform, come together and share performance art.
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. New facilities, such as Te Ara Atea and Whata Rau, are designed with the flexibility to accommodate arts experiences.

Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park using a more standard design that can be easily repeated for other buildings. This building would

	have the same sized floor space as option 2 and include a cultural narrative in the design. **Project cost:** Year 1: 15.21m **Estimated impact on rates (per year):** $42.01 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 **Comment:**

Comments:	would like to see more playgrounds in the district have shade covers put over them like the kirwee playground as they are just too hot in the heat of summer
Staff Recommendation	Staff support the submission because the need to provide additional shade in playgrounds has been identified through independent assessment of Council's playgrounds and as a measure in response to the likelihood of hotter and drier conditions as a result of climate change. Given this situation a budget has been included in the draft LTP for installation of shade structures. Staff recommend that the budget in the draft LTP for shade structure installation (total $175,000 over 7 years from 2027) is retained.

Submitter Number:	600	**Submitter:**	Anna Morgan
Point Number	600.3		
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities		
Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a shared Hub/Clubrooms built at the		

	proposed new Netball & Tennis facilities based in West Melton. West Melton Netball & Tennis share the vision to provide an inclusive, nurturing & welcoming community focussed environment to develop players of all ages, creating longevity for the clubs and the community. What we are asking for is a Hub to bring our community together to create a sustainable future of Netball & Tennis but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Netball Balls, Gear Bags, Hoops, Training Equipment, Tennis Nets, Tennis Poles, Tennis Balls and Trolleys. The space would require a kitchenette suitable for making Tea & Coffee and Afternoon Tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities.
Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

Comments:	Green Bins-I question the need for compulsory green bins for all. Surely if you are on a reasonable sized section you can compost your green waste yourself? Why should I be penalised for this?
Staff Recommendation	Kia ora. Thank you for your submission on the LTP 2024-2034. We do acknowledge that this is an additional unwanted burden for those who already compost their own food scraps and garden waste at home. This regulation is outside of Council's control. The Ministry for the Environment has issued a directive that households in all urban areas with a population of greater than 1,000 residents must have a food scraps/organic collection by 1 January 2027. Every Council in

	New Zealand is obligated under the Waste Minimisation Act to comply with this.

Comments:	Roading need- The traffic build up on Levis/Lowes Road is incredible. Shouldn't there be another way for drivers to get home to Farrington, etc? Could Broadlands Drive be extended or a feeder road from Weedons/Levis intersection that angles towards the more populated area.
Staff Recommendation	Submission is acknowledged by Council. Traffic lights and widening Levi Road (both programmed) should help here.
Point Number	604.12
Category	Activity > Other Categories identified by Staff > Parks and Reserves
Comments:	Are there any plans to purchase Broadfields Garden and develop more of a green area for Selwyn?
Staff Recommendation	Staff acknowledge the quality and significance of Broadfield Gardens and the opportunity it presents as a formal garden to complement the existing open spaces. However, the proposal does have some costs and risks that need to be weighed up alongside other options. This includes the cost of purchase (and how that could be funded), the cost of additional infrastructure to enable public use, the on-going cost of maintenance/operations and potential revenue opportunities to offset costs. There are also some limiting factors such as proximity, accessibility and connectivity. It is noted that Council is considering development of a formal garden at the District Park as part of stage 1 development that would focus on 3 main types or components of formal gardens: botanic plantings (including natives, exotics and floras); sister city garden opportunities; community gardens. Although the acquisition of the garden presents an opportunity for Council to provide a special area of open space that is not replicated anywhere else in the District, staff are of the view that the proposal is difficult to support at this time given the costs and other factors mentioned above. Staff recommend that Council does not purchase Broadfield Garden at this point in time but considers what other mechanisms are

	available or support it could provide to retain the garden for the district's benefit.

Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1. Build a community recreation and sports facility at Darfield that includes two indoor courts. **Project cost:** Year 3: $11.28 million (minus $1.10 million already included in the last Long-Term Plan. Total left to fund is $10.18 million) **Estimated impact on rates (per year):** $19.91 **Funding:** Rates: 57% Development contributions: 43% * **Comment:** There has been a change in how many people paticiate in local sport due to the lack of facilties we have in Malvern. This has resultsd in a lot of familys taking their children elsewhere and making it harder for the loval clubs to keep memebers due to lack of facilities. With being able to offer this i beleive we would be able to grow the sports culture in mlavern and also be able to provide alot more acitivities to the locals who deserve to have this built and not have to trvael far for it
Staff Recommendation	It is acknowledged that the submitter has selected Option 3, build the community recreation and sports facility at Darfield that includes two indoor courts. Our budgeted option.

Category	Activity > New Public Transport Services
Comments:	there should be more buses put on from darfield. One going to rolleston and Hornby every week day would help a lot that travel and work in those areas
Staff Recommendation	Council will be investigating what further PT services could be provided to link the wider district townships together beyond what Environment Canterbury can fund and provide as a Metro service. This would include linking larger townships like Darfield to Rolleston and PT services based there, and connections to the City.
Point Number	605.9

	Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park using a more standard design that can be easily repeated for other buildings. This building would have the same sized floor space as option 2 and include a cultural narrative in the design. **Project cost:** Year 1: 15.21m **Estimated impact on rates (per year):** $42.01 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 **Comment:** Leeston definitely need a central hub for the community. The current building design is wasteful with respect to how furniture can be placed within the building. The design doesn't need to be fancy it needs to be practical so the space can be utilized. It would be great to see separate spaces for Council staff and for the community such as the kitchen. A commercial kitchen and function space. The function space can be multipurpose and used as meeting rooms with divides to make smaller spaces or one open space. It would be nice to have an office space for staff to work from that are local to the area (who are not in the Community & Development Team), especially as space in HQ is limited. The library is a great space and it would be lovely to have this by the park, especially for the younger children so those visiting have the option to go to the park and then the library right beside each other. It would be nice to have somewhere local that offers a new space to use for private events. It would be unfair for Leeston to miss out on this opportunity; as a growing area this space will be welcomed. Look at all the other new buildings other areas have, it is Leeston's turn.
Staff Recommendation	The submission is acknowledged.

Point Number	610.3
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2b - Leeston Park Improvements

Comments:	There needs to be council investment in the arts. There is a developing theatre community with no avaialable council space to put on performances etc. Relying solely on private or school spaces as venues. These are already undersized for the size of the deama, theatre and dance groups in Selwyn. Please invest in the arts not just sport. Our kids need to be provided with a range of options. Not everyone strives to be an all black
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. New facilities, such as Te Ara Atea and Whata Rau, are designed with the flexibility to accommodate arts experiences.

Comments:	
	Comment: Two indoor courts would allow for several games to be played at the same time making weekday evening and weekend sports more accessible for Darfield and the surrounding community. For me personally (and my family) the 30+min drive to Rolleston to play sports is a significant cost and time barrier. However, I would suggest a simple, cost-effective design for these indoor courts.

Staff Recommendation	It is acknowledged that the submitter has selected Option 3, build the community recreation and sports facility at Darfield that includes two indoor courts. Our budgeted option.
Point Number	612.8
Category	Activity > Walking and cycling improvements
Comments:	I am very much in favor of developing a cycle trail connecting Arthurs Pass to the east coast. What a great idea! There are currently very limited options for residents living in the direction of Darfield or beyond for cycling off-road. Creating such a trail would benefit everyone from kids through to elderly to safely enjoy riding their bike and/or go for a nice walk. It would also enable the nearby towns to benefit from increased tourism.
Staff Recommendation	Submission is acknowledged by Council.

Comments:	The council needs to work together with Sheffield school and community to determine a solution that would allow the students and

	community to keep using the pool (could be via a key) or replace it with another one on Sheffield school grounds. The pool is an important community asset for Sheffield, Springfield and surrounding rural areas. The Darfield pool is for many not a '10min drive' but an 'extra 10min drive' away. Furthermore, if we are aiming to reduce our driving for climate change, congestion and road maintenance closing the pool will not help.
Staff Recommendation	It is acknowledged that the submitter has suggested Council not close the Sheffield Memorial Pool, and instead transfer the facility and operations of the facility over to a community organisation of some kind, currently not identified. The Long Term Plan consultation is essentially on the future ownership of Sheffield Memorial Pool by Selwyn District Council. The Council's proposal is to decommission the Pool on the basis that Council sees poor value in continuing to fund and operate the Pool given its design issues, low usage in comparison to other staffed facilities, costs (current and pending) and close proximity to a recently refurbished Council Pool. Council's interest is therefore to no longer own the Pool and to save the Council from further costs related to the Pool. The final staff response will consider Council's position regarding alternative options than decommissioning that still achieve Council's interest.

Comments:	DO NOT SHUT OUR POOL This pool means a lot to me and my family. We havent been here for 100 years like some of Community, but we are passionate about this issue and just want to see the pool back to its former glory. This pool has nutured many of our tamariki to learn how to swim and just be a hub for our community to meet. Many a celebration, birthday has occurred there and so many memories. This pool is an asset not just to our community of Sheffield but the surrounding areas such as Springfield and even Darfield families have there swimming lessons at Sheffield. It is a Memorial pool and now have a sub division opening up with 80 sections just think of the impact that will take away from the community if you remove this amazing asset. Do not close this pool let the community work with you to get it back to the way it was thank you
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.

Comments:	Last Sunday we went to see the pool. Pool was not being maintained by council for last 6 years. Pool was not being painted over last 6 years and condition of the pool at present is poor. This could have been avoidable. This pool has long history and everyone who lived in Sheffield for years benefitted from here. We need to protect our history and our assets. Demolishing this pool can not be an option. Every asset needs to be maintained and we all need to stand up together to protect our assets. Elderly people with health challenges like arthritis and mobility problem can use the pool for their fitness, they do not need to go to other towns to access similar facilities. The pool is highly accessible. We have been living here in Sheffield for last 12 years and when we came here, other members of community welcomed us to join the pool. We went swam, socialize with local ladies and developed a lovely bonding. I personally started knowing others through pool and I value those connections. It was my first social hub in Sheffield in 2012. What we have we have to protect it. We all need to stand up together to protect this pool. When cost of living so high, we as family would like to benefited from our local community rather than giving business to Darfield and Rolleston.

	A new sub division is coming up here in near future., i.e- 70 new houses will be here. Pool will attract more families and will generate money to maintain the running cost s etc. There is always great possibilities of improvement rather than disestablishing the existing one.
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.

Submitter Number:	616	**Submitter:**	Caelan Thomas
Point Number	616.2		
Category	Activity > Planning Further Community Facilities		
Comments:	My name is Caelan Thomas, and I am the current Chair of the Executive Team at CentreStage Rolleston and the co-Musical Director of the Selwyn Community Choir. In 2024, CentreStage Rolleston will embark on our biggest year yet. We will welcome approximately 5,000 audience members to our shows, enabled by 400 local volunteers and approximately 25,000 volunteer hours. The Selwyn Community Choir is an 80-strong choir which rehearses in both Rolleston and Darfield each week, and performs at community events such as the Rolleston and Lincoln ANZAC services and many community Christmas events. However, CentreStage Rolleston and the Selwyn Community Choir are only part of the massive arts community in Rolleston. Rolleston is home to a brass band, three choirs, dozens of businesses working in the arts, and thousands of children and young people who take lessons in music, dance, or performance. We cram into cafés, hire school halls and classrooms in the limited holidays, and travel all over Christchurch and beyond to find appropriate facilities. While the council does have hybrid and multi-use facilities, the fact that these are seldom used for the arts shows that they are unfortunately not currently fit for purpose. Rolleston alone has twelve football fields, six cricket pitches, a hockey turf, two 25-metre pools, a synthetic athletics surface, eight netball courts, and a $21.5 million dollar indoor sports facility. There are zero dedicated arts facilities in all of Selwyn. “Sport” is mentioned 26 times in the council’s draft long term plan. “Arts” is mentioned twice.		

	There are no less than five multi-million dollar sports facilities in Rolleston, and the council is planning for another one. There is no current plan for a dedicated arts facility anywhere in Selwyn. The complete and utter disparity in support is disappointing. Frustrating. Maddening. The arts enchant us, and inspire us, and comfort us, and heal us. The arts teach understanding, promote forgiveness, and breed compassion. The arts connect us on an utterly fundamental level; they are both a home within, and an escape from the world. The arts are where we go to share and experience what it means to be human; to feel; to journey; to find meaning. The most impactful change the Selwyn District Council can make for the arts in Selwyn in the next century would be to build a dedicated, permanent, and fit-for-purpose arts space. A dedicated performance space will provide the existing arts organisations and businesses the opportunity to connect with our community in a way that isn't possible at the moment. It will inspire the next generation of artists. It will open the door to new arts groups which can't yet exist due to the lack of facilities. It will provide opportunities for the young, connection for the elderly, employment for many, and inspiration for all. It is time for the council to add a dedicated arts facility to its long-term plan.
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. New facilities, such as Te Ara Atea and Whata Rau, are designed with the flexibility to accommodate arts experiences.

Staff Recommendation	It is acknowledged that the Submitter has selected Leeston Park Option 1
Point Number	617.5
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities
Comments:	Great that the West Melton netball and tennis are getting new courts, but they require a clubhouse to store gear, changing facilities etc. With this addition i feel for the growing community also requires a squash court that could be added also. We wanted one added when the community centre was build a few years ago, so now would be the perfect time to include this. Thanks.
Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council

	staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

Comments:	I think it would be a great loss the health of my community, Sheffield/Waddington if the Sheffield Memorial Pool were to be closed. I can't understand why it would be thought a good thing to deprive the pupils of Sheffield school and the people of the area of such a necessary facility. As for the pool being a drowning danger this is laughable when you consider that we live with an open water race that flows strong and deep through our area. Please do not take away this community enhancing facility from us. I think it would be best for the pool to be run through a combination of our community and the council .
Staff Recommendation	It is acknowledged that the submitter has suggested Council not close the Sheffield Memorial Pool, and instead transfer the facility and operations of the facility over to a community organisation of some kind, currently not identified. The Long Term Plan consultation is essentially on the future ownership of Sheffield Memorial Pool by Selwyn District Council. Comments:	I have lived in this area on and off for a number of years and the Sheffield Memorial Pool has played a part in my family's enjoyment of life to a great extent during that time. I believe that the children who live in and around Sheffield and Waddington should be able to use their local swimming pool to both learn to swim and to have fun in. The Darfield pool is too far away from here to be within easy reach to offer an impromptu family outing on a summer's day. Also, the Darfield pool has always been too full to offer a family fun outing during most hot days. If there were to be a natural disaster, then surely it would be a great advantage to the community to have the advantage of access to a large body of water such as the swimming pool.
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.

Point Number	624.2		
Category	Activity > New Public Transport Services		
Comments:	wish to see more available bus times. For example, a bus every 15-20 minutes. Or a bus every 20 minutes specifically in the Acland Park area.		
Staff Recommendation	Environment Canterbury is considering developing a business case for additional direct services for Rolleston and Lincoln in 2024-27. Additional buses were added recently to the 85 Rolleston direct to City service. Improving the frequency of other key Metro PT services such 5 (Rolleston) and 80 (Lincoln) is also being planned.		

Submitter Number:	625	**Submitter:**	Carissa Maitland
Point Number	625.1		
Category	Questionnaire > BD1 - Transport - Park and Ride		
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear.		

	Project cost: None **Estimated impact on rates:** To be determined **Funding:** To be determined **Comment:** My concern isn't about the infrastructure, it is about having better, more regular and frequent public transport services.
Staff Recommendation	Environment Canterbury is responsible the 86 direct to city Metro service, which is currently justified for commuters where patronage levels are the highest. West Melton residents can use the planned Rolleston Park N Ride facilities beyond what can be accommodated by the current 86 Metro Darfield to city service that stops at West Melton, and any further additional services Environment Canterbury could consider on this route. Council will be investigating what further PT services could be provided to link the wider district townships together beyond what Environment Canterbury can fund and provide as a Metro service.
Point Number	625.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is*

	earthquake prone and will likely need further significant upgrades to be used from 2035 onwards. **Project cost:** Year 1: $3.05m **Estimated impact on rates (per year):** $10.46 **Funding:** Rates: 100% **Comment:** I would prefer money to be spend upgrading the Rolleston Community Centre so it can be used as a multi use venue. This could service wider Selwyn. As a parent of performing arts kids there is currently no performing arts spaces suitable to meet the needs of the Selwyn community (the Lincoln events centre doesn't seem to be utilised for this purpose, and Rolleston College auditorium is too small and not able to cater to the high end productions.
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. New facilities, such as Te Ara Atea and Whata Rau, are designed with the flexibility to accommodate arts experiences.

Category	Activity > Planning Further Community Facilities
Comments:	In terms of community facilities, I see absolutely nothing about performing arts facilities. The sole focus is on sports. Sports are important but performing arts is just as important. There are a huge amount of talented performing artists and groups in Selwyn, including up and coming young people. My children have to travel to Christchurch or further afield to participate in what they love. With the scaled back Rolleston College 2nd campus the performing arts spaces are woefully lacking. I believe Rolleston Community Centre could be strengthened and turned into a multi use venue that had a dedicated performing arts space, possibly with movie theatre. Look at Rangiora Town Hall as an example of what can be done. This is a fantastic venue and one of only 2-3 venues in greater Christchurch capable of hosting dance competitions and high quality productions
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. New facilities, such as Te Ara Atea and Whata Rau, are designed with the flexibility to accommodate arts experiences.

Comments:	Can you please look to increase sewage capacity for Tai Tapu region.

Staff Recommendation	Council is working with Christchurch City Council on a temporary increase to wastewater discharges to the Bromley Treatment Plant. Staff recommendation is to proceed with the planned upgrades to the network that will allow Tai Tapu to discharge to the Pines treatment plant in 2028/2029.

Submitter Number:	628	**Submitter:**	Dave Fitzjohn for Lincoln Envirotown Trust
Organisation:	Lincoln Envirotown Trust		
Point Number	628.3		
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2b - Leeston Park Improvements		
Comments:	**Question:** We want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1. Carry out the landscape improvements to extend the playing fields; replace and upgrade the playground equipment, footpaths, toilet block, lighting and irrigation; and seal the carpark. **Project cost:** Years 1-10: $3.4m **Estimated impact on rates :** Included in current rates **Funding:** Rates: 71.4% Development contributions: 28.6% *		

	Our budgeted option **Comment:** As mentioned previously Lincoln Envirotown Trust regards park space as of the utmost importance and indeed we are concerned how the low-density housing model is usurping land areas leaving very little accessible space for recreation. Recreational space is being pushed further and further from housing. We would recommend that a study be conducted to check that all residents live within walking distance of recreational space. We also hope that in any development of these areas of free space that Council will always look to include some native forest and "wider" areas. Again, we would go with the Council budgeted option; **Option 2.**
Staff Recommendation	It is acknowledged that the Submitter has selected Leeston Park Option 2 and acknowledge submitters comments. It is noted that Council has a distribution criteria for access to recreation space for residents in towns of within 500 meters or 'easy walking distance' and this is applied to all new developments.
Point Number	628.4
Category	Questionnaire > BD3 - Malvern Rec and Sports Facility
Comments:	**Question:** We want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. Total left to fund is $5.97 million)

	Estimated impact on rates (per year): $11.67 **Funding:** Rates: 57% Development contributions: 43% * Our budgeted option **Comment:** We would again re-iterate the importance of Recreation and Sport to the wellbeing of Selwyn's populace. Also we would re-iterate that these spaces be freely available to all for most of the time and include natural areas which carry no designated activity and are simply places of relaxation.
Staff Recommendation	It is acknowledged that the submitter has selected Option 2, build the community recreation and sports facility at Darfield that includes one indoor court.
Point Number	628.8
Category	Questionnaire > BD1 - Transport - Park and Ride
Comments:	
	Comment: Lincoln Envirotown Trust sees the Long-Term Development of our Public Transport Network as essential for the environment and for our communities. Public transport will only be used and provided if the infrastructure is there to support it. Therefore the provision of these park and ride facilities are of very high priority where distances to bus stops and train stations are not within anything like walking distance of people's homes. The Trust does not feel it should suggest rating models for the public therefore we would opt for the Council Budgeted **Option 1.**
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 1 - Our Budgeted Option using NZTA Waka Kotahi co-funding. With Councils Preferred Option a Park N Ride at Lincoln is planned for 2026/27. This timed to coincide with a planned increase

	of direct bus services to the City by Environment Canterbury.
Point Number	628.9
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Comment:** Lincoln Envirotown Trust make much use of Community facilities and believe wholly in communities coming together to enjoy any variety of events and social gatherings. Libraries are particularly good gathering places with their educational role and encouragement to find information in a relaxed environment. The Trust also believes that outdoor recreational space is important and therefore the location next to Leeston Park is significant. **Option 2** seems to be the only option that includes a library, therefore this choice.
Staff Recommendation	The submission is acknowledged.
Point Number	628.10
Category	Activity > Other Categories identified by Staff > Climate Change & Sustainability
Comments:	Lincoln Envirotown Trust sees the importance of the policy areas of significance and the need to adapt these. Such issues as reviewing Maori input into decision making must be ongoing.
Staff Recommendation	SDC's position is that climate change is occurring, and that it is resulting in significant effects both locally and globally. SDC is a signatory to the New Zealand Local Government Leaders' Climate Change Declaration 2017. This being our commitment to develop and implement plans to reduce emissions.

	The Activity Management Plans within the LTP each specifically identify how they are responding to Climate Change and emissions. Council is developing a Future Selwyn Strategy that looks beyond the 10-year horizon to consider how we can respond to these challenges. The Council is also developing an Emissions Plan and Sustainability Plan to identify actions into the future. Selwyn District Council recognises the importance of supporting Iwi participation. Council is committed to ensuring inclusivity and that ensuring everyone has an opportunity to benefit.
Point Number	628.11
Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	We would expect the Selwyn District Council to make frequent announcements regarding new policies regarding the environment and community inclusivity in the issues and decisions which face us all.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	628.12
Category	Activity > Lincoln Town Centre Upgrades
Comments:	Lincoln Town Centre Upgrades – This issue is, of course, seen as very important to Lincoln Envirotown. We are concerned that the growth of housing that has been permitted around Lincoln has outpaced any ability to keep a character town and services fit for purpose. The proposed upgrades are to be commended but they will need to be implemented rapidly. Our Trust would suggest that in the interests of keeping the character and environment of Lincoln, more far-reaching solutions such as diverting traffic away from the town centre will be needed within 10 years.
Staff Recommendation	A Southern Bypass of Lincoln had been considered before and discounted by Council due to the unwillingness of developers to accommodate it, comparatively low use and high cost. The redesign

	of Gerald St will reduce vehicle speeds through the township which may in turn redirect through traffic onto other routes. Councils roading programme includes a future project to form Collins Rd to Ellesmere Rd to provide another route for Lincoln South development traffic other than Springs Rd. This attempted to be pinned to the Plan Change outcomes but was not agreed to.
Point Number	628.13
Category	Activity > New Public Transport Services
Comments:	New Public Transport initiatives are going to be particularly important to Lincoln and Rolleston which have already become too congested by motor vehicles, and currently transfer this congestion to Christchurch.
Staff Recommendation	Submission is acknowledged by Council
Point Number	628.14
Category	Activity > Compulsary organics collection
Comments:	**The Trust unequivocally supports the compulsory kerbside organics collection services.**
Staff Recommendation	Kia ora. Thank you for your submission on the LTP 2024-2034. We're pleased that you're supportive of the upcoming change.
Point Number	628.15
Category	Activity > Lincoln Town Centre Upgrades
Comments:	Whilst Lincoln Envirotown Trust can fully see the importance of local government developing the best ties with businesses, this should not be at the cost of reducing oversight and regulation. Everything stated in the Long-Term Plan in regard to this issue seems to show only employment and profit as the overriding concerns. Once this mind set is established community well being and environment can be easily ignored, and indeed on a national scale look to be sidelined. Lincoln Envirotown is an Environmental and Community charity and therefore would ask council always to maintain their role in ensuring

	regulation of location of businesses and adherence to environmental and community social benefit as well as private business benefit.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	628.16
Category	Activity > Strengthened Partnerships
Comments:	See full report included with this submission. Lincoln Enviortown Trust is requesting a strategic partnership and funding with Council The Lincoln Envirotown Trust appreciate the privileged position we enjoy as a recipient of “strategic partnership” funding. We are very much aware that it would be impossible to provide what we do without the generous long term support we receive. We believe we deliver many services, events, and other forms of contribution to our Selwyn community and certainly intend to keep doing so. We see a growing importance of our work to protect environment and support community in the present-day difficulties presented by growing population and business activity in our District. We hope for and look forward to a continued productive partnership with Selwyn District Council.
Staff Recommendation	The submission is acknowledged.

Submitter Number:	629	**Submitter:**	Julyan Falloon for Sport Canterbury
Organisation:	Sport Canterbury

Total left to fund is $10.18 million) **Estimated impact on rates (per year):** $19.91 **Funding:** Rates: 57% Development contributions: 43% *

	Comment: Big Decision 3 – Malvern Recreation and Sports Facility Sport Canterbury and Sport New Zealand commend Council's approach to undertaking a needs analysis for the Malvern District. Current facilities are nearing 50 years old and are no longer deemed fit for purpose. We support the alternative option presented by GLG, with a view to providing long term sustainability in the area, of building a community recreation and sports facility at Darfield that includes two indoor courts. Artificial sports turf has the ability to increase capacity and address condition concerns. With non-water based artificial turf on the horizon, this will also reduce water consumption across the city. We highly recommend that environmental sustainability is considered in the design, construction, and selection of turf product. Sport Canterbury and Sport New Zealand commend Council for planning to develop high quality artificial sports turf via the Sports Field Network Plan.
Staff Recommendation	It is acknowledged that the submitter has selected Option 3, build the community recreation and sports facility at Darfield that includes two indoor courts. Our budgeted option.
Point Number	629.11
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities
Comments:	Thank you for maintaining your investment in sport and recreation across many areas during some extremely tough economic times. The benefits are real, human and long lasting for the people of Selwyn and we acknowledge that while Council has had to 'tighten its belt' financially, sport, active recreation and play have fared well compared to some other areas within Council. Sport Canterbury and Sport New Zealand commend Council for the priority given to expanding and resourcing the Sports event and Bookings team in recent years. The prioritisation of this service has had a significant impact on the sport and recreation community within the Selwyn District, as has been evidenced in your own stakeholder engagement survey. Play, Active Recreation and Sport Strategy Sport Canterbury and Sport New Zealand acknowledge the collaborative approach taken by Council to work with us to develop a district wide Play, Active Recreation and Sport (PARS) strategic action plan. Our engagement in the process has provided insight into the additional funding required to implement some of the identified outcomes. Sport Canterbury and Sport New Zealand support Council's commitment to investment in, and prioritisation of, several initiatives that support play, active recreation and sport, in particular: • Investigate opportunities for existing underutilised Council spaces suitable for

	PARS functions including change of use and/or hubbing. • Identify opportunities for economic development within PARS by continuing research with a particular focus on Active Recreation and Play. • Understand PARS barriers and needs for whānau Māori, people living in areas of higher deprivation and people with disabilities. • Review provision and programming (including energy and efficiency audits) against the Council's sustainability management planning to ensure alignment with Council goals. • Create engagement channels that gather information to gather data and insight into current and future issues in the PARS area to inform facility, open space, activity requirements and future resource requirements. ($ • Develop and complete an all-encompassing, long-term PARS strategic plan in preparation for the 2027–2037 LTP. • Update the Council's website to include information on the District's PARS network to enable people to make informed choices according to their needs. • Enable Council with the tools to build PARS advocacy and promotion plans and to advocate for and activate accessible PARS spaces and opportunities. • Activate inclusive and accessible PARS opportunities with a particular focus on women, young people, and rural communities. o Activate a rural outreach programme for PARS. o Activate youth-specific programmes for PARS. o Activate specific PARS programmes for women and girls • Establish necessary resource, including budget, to activate plans to reduce barriers and grow participation in PARS for rural communities, women and girls, and youth. And, to enable PARS events, have-a-go opportunities, and reactive consultancy work. ($45k pa) • Implement a centralised sports field booking and allocation system. ($70k) 8 In addition, play is key to a child's development, supporting development of spatial awareness, considered risk taking, self-confidence and social skills. Placement of safe and attractive play spaces can also promote a sense of vibrancy and community in a neighbourhood. We are grateful to enjoy a tri-partite relationship with Selwyn District Council in the area of Play. Through this relationship and our investment into the Selwyn District Council Play Advocate role (Adele Orangi), we are well placed to continue under a shared recognition that Play is an everywhere activity. Adele is currently working across council teams on the development of a wide variety of facilities, spaces and places- which will enable generations of Selwyn residents to play and be active together. We are enjoying working with Adele and colleagues to ensure that this work and its impact can endure. Accordingly, Sport Canterbury and Sport New Zealand advocate for Councils consideration for investment in the Local Play Advocate Workforce and supports Council's ongoing commitment to investment in both destination and neighbourhood play spaces.
Staff Recommendation	Submission is acknowledged by council. We look forward to nurturing and growing our relationship with Sports Canterbury and Sports New Zealand.

Point Number	629.12
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities
Comments:	see attached document for full submission Sport Canterbury and Sport New Zealand: 1. Thank Selwyn District Council for maintaining investment in sport, active recreation and play across many areas during some extremely tough financial times. 2. Support Council's prioritisation of investment in the completion, redevelopment and development of a number of key sport and recreation facilities in the first four years of this LTP period. 3. Advocate for: • Allocation of funding to support proposed outcomes in the Play, Active Recreation and Sport strategic action plan 4. Support Council's commitment to investment in and prioritisation of a number of initiatives that support active recreation and play, including consideration of investment into the Local Play Advocate Workforce 5. Advocate for Council to consider the changing needs of participants from a formal sports approach to a more informal active recreation and play approach when developing facilities, sports park and play spaces
Staff Recommendation	Submission is acknowledged by council. We look forward to nurturing and growing our relationship with Sports Canterbury and Sports New Zealand.
Point Number	629.14
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool

Comments:	Sheffield Memorial Pool Sport Canterbury and Sport New Zealand acknowledge the economic costs to the Council associated with the delivery of aquatic spaces, places, programmes and 7 activities. The Sheffield Pool requires significant investment to keep running and usage does not necessarily align with the required expenditure. We also acknowledge the proximity to Darfield Pool which has recently had significant investment and redevelopment. As such, Sport Canterbury and Sport New Zealand support the closure of Sheffield Pool
Staff Recommendation	Submission is acknowledged by Council. It is acknowledged that the submitter has selected to close the Sheffield Memorial Pool.

Submitter Number:	630	**Submitter:**	Bodie Hawkins
Point Number	630.2		
Category	Questionnaire > BD3 - Malvern Rec and Sports Facility		
Comments:	**Comment:** As a committee member of Darfield Cricket Club I would like this indoor centre to be able to have two cricket lanes suitable for all weather training. This is becoming more of an issue for us as the closest suitable indoor venue is at Lincoln uni, and this year the lanes have been booked out already for pre season training in September. This severely limits our options for training going forward as we try to find other venues albeit that they are further away if they have availability.		
Staff Recommendation	Submission is acknowledged by Council. If the project continues into further phases indoor cricket lanes can potentially be included as part of scope development		

Submitter Number:	631	**Submitter:**	Details Withheld
Point Number	631.1		
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau		
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.* **Project cost:** Year 1: $3.05m **Estimated impact on rates (per year):** $10.46 **Funding:** Rates: 100% **Comment:**

Staff Recommendation	Submission is acknowledged by Council.
Point Number	631.7
Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	Changes to Development Contributions - New development, i.e. developers, should meet the actual cost of infrastructure upgrades not the existing rate payers as at present.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	631.8
Category	Activity > Chlorination
Comments:	Chlorination - now that a cost has been put on chlorinating water supplies rate payers should be asked what level of risk is acceptable to avoid increased rates. Roading maintenance and renewals - I support increased funding. The Council should be more prudent with its planned expenditure.

Staff Recommendation	Under the Drinking Water Quality Assurance Rules there is a requirement to add a small dose of chlorine to the piped network after treatment. To be able to move to intermittent chlorination (for eligible schemes) an exemption from Taumata Arowai is required. Exemption will only be granted by the regulator if infrastructure and systems can lower risk sufficiently. Having obtained an exemption for Rakaia Huts, Council has sought independent advice on the infrastructure upgrades required to obtain exemptions for 17 potentially eligible schemes. Without continuous chlorination, additional monitoring and testing would also be required on an ongoing basis. The estimated cost to move to intermittent chlorination is $82.6m over the LTP period. Staff recommendation is to reduce risk by continuing to chlorinate our community drinking water supplies.

Submitter Number:	632	**Submitter:**	Kylie Gallagher
Point Number	632.3		
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities		
Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a share Hub/Clubrooms built at the proposed new Tennis & Netball facilities based in West Melton. West Melton Tennis & Netball share the vision to provide an inclusive, nurturing & welcoming community focused environment to develop players of all ages, creating longevity for the clubs & community. What we are asking for is a hub to bring our community together to create a sustainable future of tennis & netball but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Tennis nets, tennis poles, tennis balls/trolleys, netball balls, gear bags, hoops & training equipment. The space would require a kitchenette suitable for making tea & coffee and afternoon tea which is provided to club members and visiting clubs. A toilet		

	and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities.
Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

	buildings and infrastructure as a result. Some people can't afford these rate rises and need our support as a community to help them by not giving them a huge bill. If these projects do go ahead, can there be public consultation to bring down the costs of these projects please? There seems to be a pattern that companies tender for the projects and after attaining them, the costs are reassessed and are always more costly than first anticipated. There needs to be more security in the prices that companies give, so that further increases to our rates don't happen.
Staff Recommendation	The submission is acknowledged.

Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	Firstly, the Climate Change Policy is good to have if it isn't driven by alarmist and extremist ideas. Climate changes and always has done. I like that there is a regular review process but I think that there should be consultation with people who are independent of government or globalist ideas of doom and gloom. There needs to a calm and considered approach to climate change and I don't think it should be a core focus in all decisions. This will allow control over future plans and movement forward maybe stalled and more money wasted as we need more approvals and red tape. Carbon needs to be in our environment so that trees can complete the process of making oxygen for us. There is no need to reduce carbon. It makes up 0.04% of the overall carbon in our atmosphere. Depending on which expert you listen to, there is belief that there is no need for concern and then the complete opposite is expressed. Who do you listen to? I would say that in hearing all sides of the debate, a common sense approach should avail.
Staff Recommendation	SDC's position is that climate change is occurring, and that it is resulting in significant effects both locally and globally. SDC is a signatory to the New Zealand Local Government Leaders' Climate Change Declaration 2017, this being our commitment to develop and implement plans to reduce emissions. The council has a Climate Change Policy, as well as an emissions target to assist with the development of the LTP. The Activity and Asset Management Plans with this LTP each specifically identify how they are responding to climate change and emission reduction.

Point Number	634.10
Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	Policies haven't been finalised, so there isn't anything concrete to give feedback on. All I can say is that in your endeavour to give the rate payers what they are saying they want, you are putting them at risk of not being able to pay their rates. It doesn't make sense to me.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	634.11
Category	Activity > Chlorination
Comments:	In regards to adding Chlorine to the water and potentially Fluoride, if you read articles about the high court case about adding Fluoride to the water in Hastings, Nelson and various other places, the mandates have been held up because the Director General of Health didn't consider the BORA test (Bill of Rights Act) when mandating these councils add it to the water. It has been proven to be a neurotoxin that lowers the IQ levels in children. If you look at the website fluoridefree.org.nz you will see all the information you need.
Staff Recommendation	The submitters comments regarding fluoridation of community drinking water supplies is acknowledged. Staff recommendation is to only budget for fluoridation if directed by the Director General of Health
Point Number	634.12
Category	Activity > Providing safe drinking water
Comments:	People of the district has said that safe water is a high priority to them
Staff Recommendation	Under the Drinking Water Quality Assurance Rules there is a requirement to add a small dose of chlorine to the piped network after treatment. To be able to move to intermittent chlorination (for eligible schemes) an exemption from Taumata Arowai is required. Exemption will only be granted by the regulator if infrastructure and systems can lower risk sufficiently. Having obtained an exemption for Rakaia Huts, Council has sought independent advice on the infrastructure upgrades required to

	obtain exemptions for 17 potentially eligible schemes. Without continuous chlorination, additional monitoring and testing would also be required on an ongoing basis. The estimated cost to move to intermittent chlorination is $82.6m over the LTP period. If implemented there will be an increased risk of community illness if there was a contamination event and chlorine may still need to be used intermittently. Staff recommendation is to reduce risk by continuing to chlorinate our community drinking water supplies.
Point Number	634.13
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	There are members in our community who would benefit from using a quieter pool that isn't frequented by a lot of people. I'm thinking of the people who have sensory issues and need the quieter place to swim. This pool is also a memorial pool. What was it made to remember? Sheffield has character and the pool is a fond part of the community and its identity.
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool and highlighted the Memorial aspects of this facility as a key Council consideration for the future of this site.
Point Number	634.14
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	Its good to co-design this with Selwyn businesses as they are the people who live this each day at the grassroots. Things will change dramatically over the next 10 years and the council needs to keep an open mind and respond accordingly, with a measured and consulting way, not with an extremist and alarmist way. They need measured support and calm guidance using a common sense approach.
Staff Recommendation	It is acknowledged the submitter has selected to progress with the Economic Development Strategy, and Council will consider their feedback in strategy action planning.

Point Number	634.15
Category	Questionnaire > Matters For Community Guidance > Digital Solutions
Comments:	Better, but not more! Please consider that there are parts of our community who won't have the knowledge to keep up with digital change. Always have cash for people to pay with and honour that we have a past that people have chosen to stay with for their well being. The council needs to be inclusive of all people and not judge or force people to change the way they operate. I am concerned with digital identity and relying on technology to make real world choices and decisions. There always needs to be a human and kinesthetic focus when moving forward with digital ideas and solutions.
Staff Recommendation	Face to face interaction will continue to be an important part of how we interact with our communities. Our digital approach is designed to make things more streamlined, connected and efficient.
Point Number	634.16
Category	Activity > Other Categories identified by Staff > Debt Levels
Comments:	Borrowing money at 220% is very extreme in my opinion. There needs to be some consideration given to the state of the world at the moment. We are in a recession, cost of living has never been higher, there is war happening and we just got through a pandemic which saw the collapse of businesses and peoples livelihoods. I can't believe with all of this being considered that the council thinks its okay to borrow at the this rate. If the council goes bankrupt for what ever reason, the person, people or organisation (who are you borrowing this from?) has the right to seek the money through doing what ever they want to our rates. The council is okay to put their rate payers at this risk? My question is if the council can be so foolhardy at doing this, who are you really working for? It doesn't seem like it is for the people who pay the rates. If it was, I would think that money and safeguarding its rate payers would be foremost in the decision making.
Staff Recommendation	That the submission is acknowledged by Council. The debt is being closely monitored by the Council and is kept at a level that allows sustainable operation across all service areas.
Point Number	634.17

Category	Activity > Chlorination
Comments:	and there was a great deal that didn't want Chlorine in the water too. I would like to know where the figure $82.6m came from? I know there will need to be changes to infrastructure, but surely with people valuing Chlorine free water, they would pay to have the infrastructure to make that happen and water to be monitored. If the council could be transparent about the $82.6m price tag and how it is this expensive, surely we can bring the costs down with a bit more thought.
Staff Recommendation	Under the Drinking Water Quality Assurance Rules there is a requirement to add a small dose of chlorine to the piped network after treatment. To be able to move to intermittent chlorination (for eligible schemes) an exemption from Taumata Arowai is required. Exemption will only be granted by the regulator if infrastructure and systems can lower risk sufficiently. Having obtained an exemption for Rakaia Huts, Council has sought independent advice on the infrastructure upgrades required to obtain exemptions for 17 potentially eligible schemes. Without continuous chlorination, additional monitoring and testing would also be required on an ongoing basis. The estimated cost to move to intermittent chlorination is $82.6m over the LTP period. If implemented there will be an increased risk of community illness if there was a contamination event and chlorine may still need to be used intermittently. Staff recommendation is to reduce risk by continuing to chlorinate our community drinking water supplies.

Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1.

	Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.* **Project cost:** Year 1: $3.05m **Estimated impact on rates (per year):** $10.46 **Funding:** Rates: 100% **Comment:**
Staff Recommendation	Submission is acknowledged by Council. [

Point Number	640.10
Category	Activity > Other Categories identified by Staff > Rates
Comments:	The Selwyn Times reported that the Selwyn Mayor had reported to the NZ Government that the rates system is broken. It is not. Only the Selwyn implementation is broken. The local council needs to reduce the level of spending in these difficult economic circumstances, however desirable particular projects may appear. The Long Term Plan is only a wish list subject to funding and not automatic authorisation for all listed items to be implemented. The council should be trying to keep rates increases to a minimum and should request separate permission from the residents for anything which leads to an increase, rather than announce a rise of more than 15%.
Staff Recommendation	That the submission is acknowledged by Council. The Council understands the financial pressures that ratepayers face and endeavours to keep rates increases to a minimum.

Comments:	top. Wasting. Money. On. Sports. Facilities. Invest into arts and other recreational infrastructure. Rugby is a dying sport and everywhere you look in NZ theres money going down the drain where theres no need and sports infrastructure is one of them.
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. New facilities, such as Te Ara Atea and Whata Rau, are designed with the flexibility to accommodate arts experiences.

Submitter Number:	645	**Submitter:**	Peter Trezise
Point Number	645.3		
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities		
Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a share Hub/Clubrooms built at the proposed new Tennis & Netball facilities based in West Melton. West Melton Tennis & Netball share the vision to provide an inclusive, nurturing & welcoming community focused environment to		

	develop players of all ages, creating longevity for the clubs & community. What we are asking for is a hub to bring our community together to create a sustainable future of tennis & netball but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Tennis nets, tennis poles, tennis balls/trolleys, netball balls, gear bags, hoops & training equipment. The space would require a kitchenette suitable for making tea & coffee and afternoon tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities.
Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

	loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1. Do nothing. Use the existing park facilities and remove or replace old and unsafe items in the park. **Project cost:** Year 1: $143,000 **Estimated impact on rates:** Included in our current rates **Funding:** Rates: 100% **Comment:** We need to wait for building costs and materials to reduce or stabilize. Costs are only increasing weekly. We need to prioritize what needs doing. If it's not urgent then we should delay this.
Staff Recommendation	It is acknowledged that the Submitter has selected Leeston Park Option 1
Point Number	648.4
Category	Questionnaire > BD3 - Malvern Rec and Sports Facility
Comments:	**Question:** We want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1. Do not build a community recreation and sports facility at Darfield. **Project cost:** None **Estimated impact on rates (per year):** None **Funding:** None **Comment:** Building costs are too high. Delay until our economy stabilizes and living costs reduce. Please don't spend what we don't have.

Staff Recommendation	It is acknowledged that the submitter has selected Option 1, do not build the community recreation and sports facility at Darfield.
Point Number	648.5
Category	Questionnaire > Matters For Community Guidance
Comments:	**Question:** Do you support the closure of Sheffield Community Pool? Yes **Question:** Do you support the continued development of an economic development strategy? No **Question:** Do you support the Council investing in better technology solutions to improve our services to the community? No **Comment: Comment: Comment:**
Staff Recommendation	Submission is acknowledged by Council.
Point Number	648.8
Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	If you are going to consult with the general public about what should and should not happen in the future..then following through with listening and acting on how the public feel should be acted on. Not ignored.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	648.9
Category	Activity > Other Categories identified by Staff > Rates
Comments:	I don't want rates increased. Our costs of daily living are high & keep rising. Please be wise in your decision making.
Staff Recommendation	That the submission is acknowledged by Council.

	The Council understands the financial pressures that ratepayers face and endeavours to keep rates increases to a minimum.
Point Number	648.10
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	It's a sensible thing to do. Especially when money has already been spent on upgrading local swimming facilities.
Staff Recommendation	It is acknowledged that the submitter has selected to close the Sheffield Memorial Pool.
Point Number	648.11
Category	Questionnaire > Matters For Community Guidance > Digital Solutions
Comments:	We need to hold off spending more money. The economy is not good.
Staff Recommendation	The cost attributed to Digital is to signal we are serious about implementing efficiency across our organisation using technology. Our objective is to make Council financially sustainable through automation of process whilst providing residents and partners with more efficient services. Council is currently developing a Digital Strategy to provide this direction and budgets for the next LTP.

Point Number	649.6
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities
Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a share Hub/Clubrooms built at the proposed new Tennis & Netball facilities based in West Melton. West Melton Tennis & Netball share the vision to provide an inclusive, nurturing & welcoming community focused environment to develop players of all ages, creating longevity for the clubs & community. What we are asking for is a hub to bring our community together to create a sustainable future of tennis & netball but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Tennis nets, tennis poles, tennis balls/trolleys, netball balls, gear bags, hoops & training equipment. The space would require a kitchenette suitable for making tea & coffee and afternoon tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities.
Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other

	options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

Category	Questionnaire > BD1 - Transport - Park and Ride
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear. **Project cost:** None **Estimated impact on rates:** To be determined **Funding:** To be determined **Comment:** What about West Melton???? More buses - times to and from the city are absolutely needed!! You would fill a bus with school kids alone. Earlier return to west melton is needed for students. West Melton is growing rapidly and the infrastructure will not keep up at this rate.
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP. Environment Canterbury is responsible the 86 direct to city Metro service. West Melton residents could use the planned Rolleston Park N Ride facilities beyond what can be accommodated by the current 86 Metro Darfield to city service that stops at West Melton, and any further additional services Environment Canterbury could consider on this route. Council will be investigating what further PT services could be provided to link the wider district townships together beyond what Environment Canterbury can fund and provide as a Metro service.

Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a share Hub/Clubrooms built at the proposed new Tennis & Netball facilities based in West Melton. West Melton Tennis & Netball share the vision to provide an inclusive, nurturing & welcoming community focused environment to develop players of all ages, creating longevity for the clubs & community. What we are asking for is a hub to bring our community together to create a sustainable future of tennis & netball but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Tennis nets, tennis poles, tennis balls/trolleys, netball balls, gear bags, hoops & training equipment. The space would require a kitchenette suitable for making tea & coffee and afternoon tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities.
Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park as agreed in our 2021-31 Long-Term Plan and using the current design and layout planned to meet the needs identified by the community. The facility would include a library, council service centre and community centre. **Project cost:** Year 1: $16.01m **Estimated impact on rates (per year):** $44.22 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 Our budgeted option **Comment:**

Category	Questionnaire > Matters For Community Guidance > Sheffield Pool		
Comments:	the Sheffield memorial baths hold a significant place in the hearts of the wider community area and the thought of its closure has caused unnecessary anxiety. It is a designated war memorial and since its inception has been held in high regards not only by those residents who raised funds to build it but allso by their children, grandchildren and in some cases their great grand children. The value of this community asset should not be underestimated. The ability of local children learning to swim in a safe secure environment has no doubt saved many from drowning in rivers, lakes and water races. The educational value of learning to swim properly strengthens the ties and bonds of the school children that grow up together in our communities. The memorial pool has, over the years been a meeting place for families where they can gather, thus strengthening that community bond.		
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.		
Point Number	656.4		
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool		
Comments:	Selwyn District Council must be held to account for their lack of overall maintenance of this war memorial. It is all too easy for them to claim the pool tub is at the end of its useful life and it begs the question as to whether or not this would be the case had Selwyn district council undertaken regular upgrading of the pool over the number of years sinse they took it from the community under the pretext of '*doing it better.'* it is sad day when an elected body, elected by its communities starts to ignore the wishes of those communities. The Sheffield War		

	memorial should not be considered a disposable asset, itis so much more than that. Councils recent suggestions to enter into some sort of Council/Community management agreement is laughable. The blame for the deteriorating state of this treasure war memorial lies squarely at the feet of SDC. Refurbish the memorial to the high standard it held before council took it over. It is the least you can do.
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.

Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities
Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a share Hub/Clubrooms built at the proposed new Tennis & Netball facilities based in West Melton. West Melton Tennis & Netball share the vision to provide an inclusive, nurturing & welcoming community focused environment to develop players of all ages, creating longevity for the clubs & community. What we are asking for is a hub to bring our community together to create a sustainable future of tennis & netball but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Tennis nets, tennis poles, tennis balls/trolleys, netball balls, gear bags, hoops & training equipment. The space would require a kitchenette suitable for making tea & coffee and afternoon

	tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities.
Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear. **Project cost:** None		

	Estimated impact on rates: To be determined **Funding:** To be determined **Comment:** The purpose of a park and ride facility is unclear given that we have bus routes within walking distance of most parts of Lincoln and Rolleston.
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP. The Greater Christchurch PT Futures Business Case identified Park N Ride facilities were needed to support the proposed additional direct to City PT services planned, and in the future MRT related district bus connection services. This will reduce commuter travel using single occupant private vehicles. It is intended that the proposed Park N Ride facilities are positioned and integrated into townships to support higher density and sustainable living outcomes sought by Council. They are perhaps better referred to as future 'transport hubs'. Council is planning that these improve access to core PT services accessible by the wider district.

Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for

	options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.* **Project cost:** Year 1: $3.05m **Estimated impact on rates (per year):** $10.46 **Funding:** Rates: 100% **Comment:** It beggars belief that a town of some 2000 inhabitants would require a new facility of this description at a potential high end cost in the order of tens of millions. There are excellent near new facilities already available in Rolleston, Lincoln and Tai Tapu. Residents of small rural towns, who contribute minimally to the ratings base, cannot expect gold-plated facilities in this economic environment. Compromise solution. Extend the baseline budget to include earthquake protection and refurbishment of the existing facility. Absolutely no more sports facilities and spaces for "cultural narratives".
Staff Recommendation	The submission is acknowledged. Population growth predictions, and the location of other facilities, have been taken into account in relation to this matter.
Point Number	663.3

Category	Activity > Planning Further Community Facilities
Comments:	Selwyn District has a great future. But some of the decision-making is out of touch with the realities of the economic and environmental challenges we currently face as a society. For example proposing a $20M community facility option for a town of 2000 inhabitants is patently absurd.
Staff Recommendation	The submission is acknowledged. Population growth predictions have been taken into account in relation to this matter.
Point Number	663.10

Category	Activity > Other Categories identified by Staff > District Planning
Comments:	Subdivision development across the district has gone unchecked over the last decade, with costs socialised to the existing community and profits accrued to a small number of developers. With the exception of Te Whariki, where development was moderated by the involvement of Ngai Tahu and Lincoln University, most of the recent subdivisions across the district have been unsympathetic to the environment. Canterbury as a province is almost entirely devoid of native trees, much to our shame. Almost every development results in a loss of habitat including trees of all sorts. This seems incredible given the acknowledged climate crisis and the role plants play in sequestration. Yet little is done in the way of replanting, as the requirements on developers are minimal. The response has been to promote a few native plantings of shrubs in public places such as Reid's Pit, a remote quarry site that few people know about. Reintroduction of native flora into new subdivisions must become a wholesale requirement of any future consents.
Staff Recommendation	Council recognises the importance of tree canopy cover within urban areas for the many benefits trees provide. Council is developing a Future Selwyn Strategy that looks beyond the 10-year horizon to consider how we can respond to these challenges. Funding has been allocated within the 2024-34 LTP through an 'urban greening' fund via the general Township general ledger.
Point Number	663.11
Category	Activity > Lincoln Town Centre Upgrades
Comments:	Finally, I see no specific mention of the Lincoln Town Centre upgrade project in this submission page. Recently I witnessed a young student cyclist knocked over by a car whilst attempting to navigate one of the pedestrian crossings. There have been numerous cyclist injuries and motor vehicle collisions along Gerald Street between the shops and the petrol station. This project has been postponed for years and needs to be a priority before there is a fatality! There is a growing perception that Lincoln does not receive its fair share of attention. Council has no problem fast tracking yet another monolithic subdivision in Lincoln South, yet the township cannot have a main street redevelopment or an additional supermarket. This is not an acceptable situation.
Staff Recommendation	The Council will be starting the upgrade of the Lincoln Town Centre and Gerald Street in stages starting in 2024 at the Liffey end and finishing at Springs Rd in 2030. This is estimated to cost $45M and

	includes cycle lanes, power undergrounding, 4 sets of traffic signals and the replacement of the failed carriageway. The dedicated cycle lanes are intended to encourage and support safe cycling along Gerald Street including the traffic signals to move cyclists through busy intersections.
Point Number	663.12
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	Where is the economic development strategy and who gets to input?
Staff Recommendation	It is acknowledged the submitter has selected to progress with the Economic Development Strategy. As discussed at the Council briefing on March 27 followed by the session on 24 April 2024, Council is involved in and has access to important levers in Economic Development. The Council has a role in facilitating others and enabling Economic Development to occur as prosperously as possible to benefit the whole community. Action plans will outline this in detail and public communications about the strategy will be made.

Comments:	Subject to technology development and consulting work being let only to New Zealand based service providers.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	663.14
Category	Activity > Infrastructure DC
Comments:	Too much to digest here, so I will focus on the financial policy on developer levy. It is very clear that subdivision developers contribute minimally but profit enormously. The Council has adopted a policy of streamlining consenting and approvals for developers at the expense of existing community views and needs. Across the district, this has

	resulted in enormous swathes of ugly housing monoculture, devoid of character and with minimal landscaping and native tree plantings. Developer levies must increase to ensure the long term well being of the communities that are impacted. There is insufficient developer contribution towards ensuring adequate roading, drainage and liveable environments. Why should existing ratepayers be burdened with the additional costs of unfettered and poorly imagined housing developments?
Staff Recommendation	The development contributions for all services have been reviewed and adjusted leading into the preparation of the draft LTP. This has included the introduction of a new development contribution for community infrastructure. Based on the programme of capital works, a thorough and robust process is undertaken to calculate the development contribution amount that can be fairly and reasonably applied to the growth community for a project. The calculation is made in accordance with the Council's Development Contribution Policy and the legislation that underpins the policy as well as guidelines on administering the policy.

Category	Activity > Chlorination
Comments:	Please remove chlorination from Springstons water supply. A better water source that contains lower nitrate levels.

Staff Recommendation	The submitters preference for Council to remove chlorine from community drinking water supplies is acknowledged. To move to intermittent chlorination for eligible schemes and obtain an exemption from Taumata Arowai requires infrastructure upgrades at significant cost. Additional monitoring and testing would also be required on an ongoing basis. The estimated cost to move to intermittent chlorination is $82.6m over the LTP period. If implemented there will be an increased risk of community illness if there was a contamination event and chlorine may still need to be used intermittently. Staff recommendation is to reduce risk by continuing to chlorinate our community drinking water supplies. The submitters preference is for low nitrate water sources. Staff recommendation is to undertake further investigations into centralised sources of low nitrate water as budgeted in the LTP.

Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	this fund should be near $15 Million, covering for inflation.nothing will get cheaper.
Staff Recommendation	It is acknowledged the submitter has selected to progress with the Economic Development Strategy, and Council will consider their feedback in strategy action planning.

Submitter Number:	668	**Submitter:**	Sue Stokes
Point Number	668.1		
Category	Questionnaire > BD1 - Transport - Park and Ride		
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Build three new Park and Ride facilities at Lincoln and Rolleston, and upgrade public transport infrastructure, but only if Council receives co-funding from NZTA Waka Kotahi. **Project cost:** Years 1–3: $4.2 million Years 4–10: $11.6 million **Estimated impact on rates:** Years 1–3: $7.06		

	Years 4–10: $19.52 **Funding:** Rates: 49% NZTA Waka Kotahi: 51% Our budgeted option **Comment:** Once again, the council focus is aimed mainly at Rolleston and towns on this side of the railway are being ignored.
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 1 - Our Budgeted Option using NZTA Waka Kotahi co-funding. It is envisaged residents in the wider district can drive to the Park N Rides to then access PT services such as direct to City. Council will be investigating what further PT services could be provided to link the wider district townships together beyond what Environment Canterbury can fund and provide as a Metro service.
Point Number	668.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for

	options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park using a more standard design that can be easily repeated for other buildings. This building would have the same sized floor space as option 2 and include a cultural narrative in the design. **Project cost:** Year 1: 15.21m **Estimated impact on rates (per year):** $42.01 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 **Comment:** The council's track record of looking after community facilities is very poor and therefore can not be entrusted with expensive new buildings. Until the council can show that it can care for the facilities it already has investment in new facilities doesn't make sense.
Staff Recommendation	The submission is acknowledged.
Point Number	668.3
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2b - Leeston Park Improvements
Comments:	**Question:** We want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1.

	Carry out the landscape improvements to extend the playing fields; replace and upgrade the playground equipment, footpaths, toilet block, lighting and irrigation; and seal the carpark. **Project cost:** Years 1-10: $3.4m **Estimated impact on rates :** Included in current rates **Funding:** Rates: 71.4% Development contributions: 28.6% * Our budgeted option **Comment:** The council has allowed parts of this facility to become unsafe proving again they can not be trusted to do required maintenance.
Staff Recommendation	It is acknowledged that the Submitter has selected Leeston Park Option 2. All options have been designed to address Health and Safety concerns.
Point Number	668.4
Category	Questionnaire > BD3 - Malvern Rec and Sports Facility
Comments:	**Question:** We want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1. Build a community recreation and sports facility at Darfield that includes two indoor courts. **Project cost:** Year 3: $11.28 million (minus $1.10 million already included in the last Long-Term Plan. Total left to fund is $10.18 million)

	Estimated impact on rates (per year): $19.91 **Funding:** Rates: 57% Development contributions: 43% * **Comment:** If this project goes ahead, we would like to see some strong evidence that the council will maintain this facility.
Staff Recommendation	It is acknowledged that the submitter has selected Option 3, build the community recreation and sports facility at Darfield that includes two indoor courts. Our budgeted option.
Point Number	668.8
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	The Sheffield Pool is a war memorial and as such, the council has failed in it's legal obligations to care for this facility. It is imperative that community pools are maintained and access is available to facilitate safe access to water and for children to learn aquatic skills in a safe environment. If this pool closes people will simply swim in the river or lakes as the Darfield facility is already running at capacity.
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.
Point Number	668.9
Category	Activity > Other Categories identified by Staff > Rates
Comments:	I believe it should be made more difficult for the council to increase rates especially as they are not managing their core businesses of roading, water and maintenance of current facilities very well. Until the council can get the basics right, I feel they shouldn't be able to increase rates to build more facilities, cycleways, etc when they are failing at their core business.
Staff Recommendation	That the submission is acknowledged by Council. The Council understands the financial pressures that ratepayers face and endeavours to keep rates increases to a minimum.
Point Number	668.10

Category	Activity > Potential Requirements To Fluoridate
Comments:	I believe the council should not add fluoride to the water as it is a neurotoxin and they have not provided us with studies to show the combination of fluoride and chlorine is safe. On toothpaste packets, it says do not swallow because of the known toxic effects.
Staff Recommendation	The submitters comments regarding fluoridation of community drinking water supplies is acknowledged. Staff recommendation is to only budget for fluoridation if directed by the Director General of Health
Point Number	668.11
Category	Activity > Planning Further Community Facilities
Comments:	I believe the council maintenance of community facilities to be woeful and as many of our local halls are useful during emergencies, they should not be considered for closure. this would be in keeping with the government's new plan for emergency management. It has been shown clearly that concentrating such facilities does not work in emergencies such as earthquakes as access is limited.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	668.12
Category	Activity > Compulsary organics collection
Comments:	It seems ridiculous to force people in certain townships to have a green bin when other townships do not get a choice. Surely it makes more sense to have more local dumps that are cheaper and easier to access than to force people to have bins they may not want nor need.
Staff Recommendation	Kia ora. Thank you for your submission on the LTP 2024-2034. We do acknowledge that this is an additional unwanted burden for those who already compost their own food scraps and garden waste at home. This regulation is outside of Council's control. The Ministry for the Environment has issued a directive that households in all urban areas with a population of greater than 1,000 residents must have a food scraps/organic collection by 1 January 2027. Every Council in New Zealand is obligated under the Waste Minimisation Act to comply with this. Adding new local transfer stations is expensive both in capital cost and the ongoing operational cost. Consenting of

	new waste facilities typically also attracts significant community opposition.

Submitter Number:	669	**Submitter:**	Bevan Mehrtens
Point Number	669.1		
Category	Questionnaire > BD1 - Transport - Park and Ride		
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear. **Project cost:** None **Estimated impact on rates:** To be determined **Funding:** To be determined **Comment:** keep it simple. Provide land for parking and a basic bus stop similar to the existing one in Rolleston and expand as or when demand requires.		
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP. With Councils Preferred Option the first Park N Ride at Lincoln is planned for 2026/27, while the two new Rolleston Park N Rides are planned between 2029 and 2033 to meet Rolleston demands expected at that time. Park N Ride sites need to provide a level of service that aligns with the increased bus services including bus parks, shelters of sufficient size, secure vehicle parking, bike stands, lighting and all-weather pavement surfacing. They have to be safe and follow CPTED requirements for potential 24/7 use. This type of level of		

	service attracts increase patronage and use of bus services, which is the objective.

Comments:	please keep the upper selwyn huts as these houses are part of our community history. They were built there for a reason. Just dont scrap them dont bulldoze our history dont bulldoze history
Staff Recommendation	Staff acknowledge this submission. Council has a separate and ongoing process outside of the Long-Term Plan which will inform a decision to be made by Council on 14 Aug 2024 regarding the future Deed of Licence to be offered to Upper Selwyn Hut owners. The new Deed of License will start on 1 Oct 2024 . Council is investing resources to establish a working group to assist owners with the implementation of the decision once it is made. Staff recommend that all LTP submissions relating to Selwyn Huts are taken into consideration as part of the ongoing work with Selwyn Huts.

Submitter Number:	671	**Submitter:**	Susan Carline-Wright for Kirwee Community Association
Organisation:	Kirwee Community Association		
Point Number	671.3		
Category	Activity > New Public Transport		
Comments:	2. The intersection of SH73/West Coast Road and Courtenay Roads is now very busy with the increased number of cars coming from Darfield and within Kirwee itself (due to population growth), and the addition of cars accessing the carpark of Thirsty Acres restaurant and cafe. We would ask for provision (along with Waka Kotahi) of either a. traffic lights b. a roundabout or c. a right-turning lane in SH73 (heading West) into Courtenay Road as we feel there will be a fatality unless traffic can be controlled in some manner. (map attached).		
Staff Recommendation	Submission is acknowledged by Council.		
Point Number	671.4		
Category	Activity > Other Categories identified by Staff > Road Safety		
Comments:	3. We would like the Council to assist us in asking Waka Kotahi to lower the speed limit on SH73/West Coast Road through Kirwee to 50km/h (from 70km/h). There are several hundred PO Boxes housed in the Kirwee Challenge building and cars pull in and park, and then have to turn around across SH73. There are also many pedestrians (including children and dogs) that use the footpath from the township to the Challenge and as many drivers (especially trucks) do more than 70km/h it is becoming less safe on this stretch of road. (map attached as above).		
Staff Recommendation	Submission is acknowledged by Council. Speed limits on State Highways are managed by NZTA. Council has made submissions supporting the speed reduction through these locations. Council has submitted to NZTA for additional crossing points for our townships based on SH.		

Point Number	671.7
Category	Activity > Other Categories identified by Staff > Other Water
Comments:	On behalf of the Kirwee Community Association we wish to submit the following for consideration in the Long Term Plan: 1. There is provision in the financials for Stormwater remediation in Kirwee, but we request that a proper study by an engineer be made of potential risk areas in Kirwee, and that stormwater remediation be targeted to those areas. For instance, a larger culvert pipe for the water race beside 1485 Courtenay Road - the current water race culvert pipe under the road is inadequate and floods every year, creating flooding in the grounds and garage at 1485 Courtenay Road, and also across the road itself. We also would like the study to include the water race in Hoskyns Road opposite the Courtenay A&P Grounds as we feel this is inadequate especially where it turns and runs under the road opposite 1750 Hoskyns Road.
Staff Recommendation	The submitters request to undertake an assessment of the Kirwee stormwater network is acknowledged. Stormwater generated from within the township is disposed to ground. No stormwater capital upgrade works are currently budgeted in the LTP. In large rainfall events, parts of the township are impacted by surface flows from rural areas entering the township, which are not related to performance of the stormwater network. A district wide flood model is being developed that can be used to assess surface flows. Staff recommendation is to increase stormwater investigation budgets to undertake the requested assessment and budget for the upgrades as part of future Annual Plan processes. If Council wish to support this request an additional $30,000 in year could be added. As part of their Long Term Plan, Environment Canterbury has recently consulted with the Selwyn community about an additional targeted rate for district wide flood and river resilience work.
Point Number	671.8
Category	Activity > Other Categories identified by Staff > Consultation Document Feed
Comments:	5. We also have been asked to comment on the quality of the consultation - many have found it confusing with questions worded in a leading manner (the Representation Review being a prime example). We know from previous consultations that the Council always has a favoured option despite asking for feedback, so could we suggest that in future there be three options, with the Council

	declaring which option is their preferred (rather like the ECAN submission process). It would then be much more clear, honest and open.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	671.9
Category	Activity > Other Categories identified by Staff > Parks and Reserves
Comments:	4. We are currently fundraising to build an ANZAC Memorial in the Kirwee Reserve and have been advised to submit for part of the cost, being $20,000, to be included in the Long Term Plan. Currently we have no gathering place to hold an ANZAC Day service in Kirwee or a central place to display the names of local soldiers lost in both World Wars, so a centralised Memorial has become a focus of our community.
Staff Recommendation	Submission is acknowledged by Council. Staff are of the view that, before committing to any contribution from Council that the full cost of the project is known and the proportion that is to be provided by fund raising. Staff support this project as it is associated with the broader programme of works to improve and develop Kirwee Reserve but were of the understanding this would be funded from local fund-raising. Subject to further information being provided on the cost and funding plan for the project Council may consider an appropriate contribution.

Staff Recommendation	Submission is acknowledged by Council.

Point Number	674.9
Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	No need to spend extra money changing current policies and practices.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	674.11
Category	Activity > Maintenance and Renewals Funding Roading
Comments:	Please prioritise expenditure on adding more street lights to existing streets, tar sealing main roads, and adding a set of traffic lights onto state highway 1 southern Rolleston Drive road (which leads to state highway 1).
Staff Recommendation	Submission is acknowledged by Council. All these will be considered when funding allows.
Point Number	674.12
Category	Activity > Strengthened Partnerships
Comments:	Rate payers and residents vote for councillors to make decisions. Having unelected advisors, irrespective of what vestige groups represented, advising council is undemocratic.
Staff Recommendation	The submission is acknowledged. Selwyn District Council recognises the importance of supporting Iwi participation. Council is committed to ensuring inclusivity and that ensuring everyone has an opportunity to participate. Council considers this can lead to better outcomes for the whole community. For example, Iwi knowledge about local environments can be invaluable in planning and resource management projects. Council is trying to ensure Iwi contribution counts by including Iwi in decision making on its committees. The current arrangement at Council meetings allows Iwi participation in the discussion, but at a Council meeting the Iwi representation does not have voting rights. Selwyn Council has previously discussed and considered Maori representation on Council, including

	provision of a Maori ward. Council has chosen not to pursue Maori ward establishment at this time. Rather, Council has chosen an approach that allows for Committee delegation by Council to Committees that are all of Council Committees. On Committees, provision has been made for Te Taumutu Runanga and Ngai Tuahuriri Runanga representation.

Category	Activity > Planning Further Community Facilities
Comments:	7) Development/Planning of further community facilities: I DO NOT SUPPORT; DELAY
Staff Recommendation	The submission is acknowledged.
Point Number	675.14
Category	Activity > Other Categories identified by Staff > Financial management
Comments:	LIVE WITHIN YOUR MEANS.

	BORROWING LIMIT: From $ 155Mio to $ 364Mio is ridiculous bordering on recklessness. Do not increase rates beyond annual inflation! Key Message: - Cut spending - Cut red tape - Implement wage freeze on all council staff for the next 2 years, and councillors/mayor for 4 years - Make more use of targetted rates (User Pays)
Staff Recommendation	That the submission is acknowledged by Council.
Point Number	675.15
Category	Activity > Other Categories identified by Staff > Rates
Comments:	Recognize contributions by rural landowners who look after Council assets (water race, mowing roadsides, collecting rubbish) via a rates discount.
Staff Recommendation	That the submission is acknowledged by Council.
Point Number	675.16
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	Darfield has a newly refurbished Swimming Pool. If Sheffield wish to retain their pool, then handover the pool to the Sheffield residents for them to maintain and take ownership of it.
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.
Point Number	675.17
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	No details provided as supporting documents.

	Supporting economic development can happen by cutting red tape.
Staff Recommendation	It is acknowledged the submitter has selected not to progress with the Economic Development Strategy without more information provided. As discussed at the Council briefing on March 27 followed by the session on 24 April 2024, Council is involved in and has access to important levers in Economic Development. The Council has a role in facilitating others and enabling Economic Development to occur as prosperously as possible to benefit the whole community. Council will consider their feedback in strategy action planning.
Point Number	675.18
Category	Questionnaire > Matters For Community Guidance > Digital Solutions
Comments:	NO! Not at $ 1.3 Mio. per year Find more cost effective alternatives.
Staff Recommendation	The cost attributed to Digital is to signal we are serious about implementing efficiency across our organisation using technology. Our objective is to make Council financially sustainable through automation of process whilst providing residents and partners with more efficient services. Council is currently developing a Digital Strategy to provide this direction and budgets for the next LTP.

Submitter Number:	676	**Submitter:**	Heather Hamilton
Point Number	676.2		
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool		
Comments:	The Sheffield Memorial Pool is not only an important part of Sheffields history, but also its future, as a place children can learn to swim, so by keeping it as a part of the community, children of the		

	future are being supported. As a part of its history, it is imperitive that everyone strives to protect it as we need to remember its not just a pool, it is a memorial built for the returning servicemen; a fact that everyone who supports the pools abolishment seems to forget. It would be so callous to take away such an important part of history, especially when it was made for the intent of helping those who made such great sacrifices. I feel the need to address the comment about the lack of use of the pool stated above. We are a small community maily composed of working age people with a few retirees and kids here and there, so when a pool opens from 3pm to 6pm, the council might not know this but most people are working or studying during those hours, so the pool does not get as much use as it otherwise would. This was not as much of a problem a few years ago before life guards replaced parents as supervisors for parents, a decision unsupported by most of the community. Second point is that the Darfield pool is at capacity, why propose that people should have to drive 10 minutes down the road to a pool that would likely be full when they can have their own memorial pool within walking distance. There are also whispers of a new block of what, 70 houses to be built, whcih would bring likely 70 families, how is darfield going to cope then? Overall it is disgraceful that a council would let such a valuable asset to the community, especially a war memorial, get to the state that it is currently in. If the pool hadn't been so neglected by the council, whose care it was put under, then maybe it wouldnt be costing so much to renovate. Don't be the people that take this pool away the from the community.
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.

Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1.

	Build a community recreation and sports facility at Darfield that includes two indoor courts. **Project cost:** Year 3: $11.28 million (minus $1.10 million already included in the last Long-Term Plan. Total left to fund is $10.18 million) **Estimated impact on rates (per year):** $19.91 **Funding:** Rates: 57% Development contributions: 43% * **Comment:**
Staff Recommendation	It is acknowledged that the submitter has selected Option 3, build the community recreation and sports facility at Darfield that includes two indoor courts. Our budgeted option.
Point Number	678.8
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	Not at all. Sheffield Memorial Pool is such a huge community asset and Sheffield would lose it's main drawcard in the Summer if the pool closes down. Darfield Pool is not fit for the extra capacity plus members of Sheffield community who do not drive or have limited funds to make their way to Darfield will be severely inconvenienced
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.
Point Number	678.9
Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	I do not understand most of these policies and the wording confuses the matter even more.
Staff Recommendation	Council acknowledges the submission and notes the concern with the level of information provided. Improvements regarding the presentation and provision of information will be considered for future consultations.
Point Number	678.10

Category	Activity > Compulsary organics collection
Comments:	Why do homes in certain areas HAVE to have a green bin but they do not even offer the option of having a green bin in other areas?
Staff Recommendation	Kia ora. Thank you for your submission on the LTP 2024-2034. We do acknowledge that this is an additional unwanted burden for those who already compost their own food scraps and garden waste at home. This regulation is outside of Council's control. The Ministry for the Environment has issued a directive that households in all urban areas with a population of greater than 1,000 residents must have a food scraps/organic collection by 1 January 2027. Every Council in New Zealand is obligated under the Waste Minimisation Act to comply with this.
Point Number	678.11
Category	Activity > Walking and cycling improvements
Comments:	I do not support a cycleway. The roads are already badly maintained, lets not add in other things that will need to be maintained until we have been successful in the more important areas first.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	678.12
Category	Activity > New Public Transport Services
Comments:	Public transport is very limited in smaller communities and by taking away community assets (Sheffield Pool, community halls), you are limited people to what they can do within walking distance of their homes. Why not introduce buses that runs between smaller communities to large ones if assets continue to be taken away?
Staff Recommendation	Council will be investigating what further PT services could be provided to link the wider district townships together beyond what Environment Canterbury can fund and provide as a Metro service. There are not the savings perhaps seen as evident using smaller buses as fixed costs remain the same such as needing a driver, fuel etc.

Comments:	It's not clear whether developers are having to pay their fare share in the upgrade of roads etc.
Staff Recommendation	Developers are required to pay development contributions in addition to providing the new infrastructure to establish their developments and upgrades as identified through consenting and engineering approval processes.
Point Number	681.8
Category	Activity > Other Categories identified by Staff > Other Matters
Comments:	May not be the best place to write this but I'm appalled at the

	Mayor's handling of the Lincoln South decision - not turning up to the decision meeting along with not expecting your own councillors to know the rules - it's almost grounds for a resignation. Councillors get paid a fee to do their role and democratically elected. If you can't do that job correctly, should you be in the job? I am on a Trust as a volunteer and have to make financial decisions so this shouldn't be too hard to get right.
Staff Recommendation	Submission is acknowledged by Council. However, it is noted that this is not a matter that the Long-Term Plan cannot address
Point Number	681.9
Category	Activity > Other Categories identified by Staff > Road Safety
Comments:	Where is the scope for safe crossing across Springs Road, coming off Verdeco Park where we live? I've previously emailed the CEO and told it's not their plan or scope or similar. Appalling response. I've nearly been hit going for a run at 5am in the mornings - one day a kid will get hit. When will the council acknowledge a safe crossing is required (traffic island or similar). Should a person be hit without a crossing being in place, at this stage, the council would be a liable party for that person hit as there's no crossing planned I'm aware of.
Staff Recommendation	Submission is acknowledged by Council. Council is aware of requests regarding the Springs Road crossing. Crossing upgrades are prioritised and upgraded accordingly.
Point Number	681.10

Staff Recommendation	It is acknowledged that the submitter has selected Option 1, do not build the community recreation and sports facility at Darfield.

Point Number	682.8
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	Not at all. Sheffield Memorial Pool is such a huge community asset and Sheffield would lose it's main drawcard in the Summer if the pool closes down. Darfield Pool is not fit for the extra capacity plus members of Sheffield community who do not drive or have limited funds to make their way to Darfield will be severely inconvenienced How does it cost nearly $300,000 to close the pool? This is astronomical and outrageous, yet again an example of Council mismanagement.
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.
Point Number	682.10
Category	Activity > Other Categories identified by Staff > Rates
Comments:	Having said that, I implore the Council to be financially prudent for the first time in their history and limit the rates rises. 50% rates rise over 3 years is not warranted or sustainable. As per my previous submission on the last LTP, the Council should be adopting a zero base budget where everything is off the table and then added in to fit within budget. This means delaying or cancelling shiny 'vanity' projects and focusing on core services - something the Council seems unwilling or unable to do at present. In a time of a cost of living crisis it is irresponsible and reckless of the Council to even be considering the degree of rates increases that are proposed. As elected representatives they should be working FOR the people of Selwyn to minimise cost increases - rates rises should be pegged to CPI but yet every year the Council increases rates in excess of CPI - with the current proposal being almost 4x the current CPI figures. Households are hurting, the Selwyn Council is one of the most lucrative in the country and yet this pervading view that the ratepayers have no say remains. It is lazy that the ratepayers should be asked 'what don't you want' - the Council has many employees, including a highly paid CE, who should have done the work to determine this. I challenge the Council for the first time ever to actually be fiscally responsible, limit rates rises in line with CPI and focus on core business. I have no doubt this submission will be ignored and the

	Council will do as it chooses, thus undermining democracy yet again and serving themselves, not the people of Selwyn.
Staff Recommendation	That the submission is acknowledged by Council.
Point Number	682.11
Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	It is like most government documents - wordy, obtuse and does not outline the issue.
Staff Recommendation	Council acknowledges the submission and notes the concern with the level of information provided. Improvements regarding the presentation and provision of information will be considered for future consultations.
Point Number	682.12
Category	Activity > Other Categories identified by Staff > Rates
Comments:	Firstly I would like to note that I have no faith in the submissions process and do not believe that this submission or any submissions that don't agree with the Council's grandiose and out of touch spending decisions will have any impact on what is made regarding the exorbitant rates hikes that are proposed. This is borne out by the fact that the last consultation on the Long Term plan resulted in 75% of submissions being in favour of a lower rates rise, however the Council's preferred option was adopted as, according to one of the elected councilors 'it was not about the quantity of submissions but the quality'. This flies in the face of the fundamental principle of democracy but sadly seems to be par for the course for Selwyn Council.
Staff Recommendation	That the submission is acknowledged by Council.

Submitter Number:	683	**Submitter:**	Sean Rooney

Point Number	683.1
Category	Questionnaire > BD1 - Transport - Park and Ride
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Build three new Park and Ride facilities at Lincoln and Rolleston, and upgrade public transport infrastructure, without NZTA Waka Kotahi co-funding. **Project cost:** Years 1–3: $4.2 million Years 4–10: $11.6 million **Estimated impact on rates:** Years 1–3: $14.41 Years 4–10: $39.83 **Funding:** Rates: 100% **Comment:** Comfortable and reliable bus services are vital if we are going to be serious about reducing traffic congestion and single occupancy private vehicle trips. You haven't provided any detail on where the new park and ride facilities will be located and what extent of infrastructure development there will be. The current park and rides are woefully inadequate particularly in inclement weather conditions. Environment Canterbury needs to be pressured to provide better, suitable and more reliable metro services. Overcrowding and not running to timetable are continuous issues.
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 2 - Fully funded by Council. With Councils Preferred Option the first Park N Ride at Lincoln is planned for 2026/27, while the two new Rolleston Park N Rides are planned between 2029 and 2033. The proposed Lincoln Park N Ride is opposite the Lincoln Events Centre, at Rolleston one is on Kidman St and another on the corner of Jones and Hoskyns Road next to the main PT route and railway line.
Point Number	683.2

Point Number	683.8

Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	Changes to Development Contributions Policy are needed as infrastructure is not keeping up with growth, particularly Rolleston. You could always slow down the rate of growth, take a breathing space and let infrastructure catch up.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	683.9
Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	Rather than strengthening partnerships with just mana whenua, how about strengthening your relationship with all your rate payers?
Staff Recommendation	The submission is acknowledged. Selwyn District Council recognizes the importance of partnerships; building strong partnerships with iwi is vital for Council to fulfill its obligations to the entire community. Te Tiriti O Waitangi (Treaty of Waitangi) is a founding document of New Zealand and establishes a partnership between the Crown and Maori. This partnership requires us to work together for the collective benefit of all. Partnership with iwi, to have any meaning, requires consideration of iwi position and contribution to discussion/debate.
Point Number	683.10
Category	Activity > Walking and cycling improvements
Comments:	1. Cycleways - how about finishing the current ones before building more e.g. It is very unsafe to cycle directly from Rolleston to Christchurch unless you go via Lincoln (adds an additional 5km to the trip). The Rolleston - Lincoln cycleway could to with some safety improvements at the major intersections and is too narrow for the number of cycles that use it. You talk about wanting to encourage cycling - make it so.
Staff Recommendation	Submission is acknowledged by Council. Major routes follow council's walking and cycling strategy which will be updated with suggestions from LTP submissions taken into account.
Point Number	683.11

Category	Activity > Council's Office Improvements
Comments:	2. $3.7M for Rolleston Council offices improvements is an unnecessary spend in the current economic environment. Tighten your belts like everybody else and make do with what you have.
Staff Recommendation	While staff numbers have increased placing pressure on the available office space and meeting rooms at the Councils offices the Council acknowledges the issues that this submission raises.
Point Number	683.13
Category	Activity > Other Categories identified by Staff > District Planning
Comments:	4. There is no mention on plans for social and/or affordable housing development in Rolleston. Or is it deliberately hidden so we can't find it?
Staff Recommendation	The Council has not identified any funding for developing social or affordable housing itself. Council will continue to help facilitate social and affordable housing providers within the district so that we can meet a key Community Outcome - we have access to housing which suits the changing needs of the diverse demographics within Waikirikiri Selwyn.
Point Number	683.15
Category	Activity > New Public Transport Services
Comments:	6. Has the $17.8M allocated for Road to Zero been removed or reallocated?
Staff Recommendation	Council’s historical programmes that are in Road to Zero are mainly Safety Infrastructure. The new government no longer uses the Road to Zero branding and the activity class is disestablished in the 2024-34 NLTP. Safety infrastructure improvements on local roads are merged into the Local Road Improvements (LRI)activity class. Planned projects in Council’s Road to Zero programme are largely retained in the 24-34 LTP as projects for safety improvements and co-funding are applied under LRI for 24-27 projects accordingly.
Point Number	683.16

Category	Activity > New Public Transport
Comments:	7. The community needs to be provided with more information on the Rolleston Flyover and proposed plans/timelines.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	683.17
Category	Activity > Other Categories identified by Staff > Bio-diversity
Comments:	8. Funding needs to be continued for increasing natural biodiversity on the Canterbury Plains and continued support of organisations that are doing this.
Staff Recommendation	Councill environmental staff are working hard to reverse the decline in our native species and Council funding is available to enable indigenous biodiversity regeneration and restoration projects. Managing our natural environment is an ongoing challenge and it's important that we have suitable funding available, and work in partnerships with our community, iwi, landowners, and agencies to develop and enact suitable responses to ecological challenges as they arise. Council recognizes the significant efforts of community groups such as Te Ara Kakariki to protect and restore our natural environment especially on the Canterbury Plains. Its vital that Council has associated funding available to initiate, lead and contribute to projects (including agency and industry partnerships).
Point Number	683.18
Category	Activity > Other Categories identified by Staff > Parks and Reserves
Comments:	5. Rolleston lacks reserves and green-space. Yes, there is the new park, but it is not where people live and spend their day.
Staff Recommendation	Staff support the submission because there is already a programme provided in the LTP to provide more parks and greenspaces in Rolleston and continue with redevelopment and enhancement of existing spaces. Rolleston has a good level of greenspace already provided that is consistent with targets for neighbourhood park development (1.2 ha/1,000 population) and this is supplemented with larger spaces such as Foster Park and Brookside Park. Council will continue to develop the balance of Rolleston Reserve in the town centre as a high amenity park alongside the planned public square. Open space areas will be provided in new residential subdivisions (around 10 ha over 10 years) and the programme to develop some

	existing reserves is continuing. It is also planned to start the first stage of the District Park (35 ha) which will include many new and distinct facilities, spaces and features. Staff recommend that the reserve development programmes for Rolleston currently included in the draft LTP are supported (Rolleston Town Square and Reserve - $5.3 million; New Neighbourhood Reserves Development - $4.2 million; District Park Development $25.9 million)
Point Number	683.19
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	If you close it where is the community supposed to go? Ridiculous suggesting that they travel to Darfield. You cannot keep reducing facilities in outlying townships.
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.
Point Number	683.20
Category	Questionnaire > Matters For Community Guidance > Digital Solutions
Comments:	$1.3M seems rather a lot. How about spending some time and developing the council website into something more user friendly that relevant information is easier to find.
Staff Recommendation	The cost attributed to Digital is to signal we are serious about implementing efficiency across our organisation using technology. Our objective is to make Council financially sustainable through automation of process whilst providing residents and partners with more efficient services. Council is currently developing a Digital Strategy to provide this direction and budgets for the next LTP.
Point Number	683.21
Category	Activity > Other Categories identified by Staff > Infrastructure Property General
Comments:	3. An increase in charges for Property Information Requests from $10 to $35 is extortionate
Staff Recommendation	Submission is acknowledged by Council.

Staff Recommendation	Submission is acknowledged by Council.
Point Number	684.8
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities
Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a share Hub/Clubrooms built at the proposed new Tennis & Netball facilities based in West Melton. West Melton Tennis & Netball share the vision to provide an inclusive, nurturing & welcoming community focused environment to develop players of all ages, creating longevity for the clubs & community. What we are asking for is a hub to bring our community together to create a sustainable future of tennis & netball but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Tennis nets, tennis poles, tennis balls/trolleys, netball balls, gear bags, hoops & training equipment. The space would require a kitchenette suitable for making tea & coffee and afternoon

	tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities.
Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.*

	Project cost: Year 1: $3.05m **Estimated impact on rates (per year):** $10.46 **Funding:** Rates: 100% **Comment:**

Category	Questionnaire > Matters For Community Guidance > Sheffield Pool

Comments:	The sheffield pool has been a staple in the community for generations and shutting the pool would mean 100 students dont get to learn how to swim and that just including Sheffield school, the pool has been a war memorial so really should not be touched, the new changing rooms which where over 300k would be an utter waste to remove that investment which has been removed from our rates. The pool has been left to deteriorate under your leadership and that is the main reason the pool is in such a state now, it would simply cost too much for the council to keep control so the only option i see fit is that you give the pool back to the community so we can restore the pool back to its former key holding glory, with diving board may I add. With 70 houses potential being built the growth sheffield would see renders a pool for those families to use to swim in over the summer, darfield is at complete capacity and with over 1 million spent on it, it is not going to get bigger any time soon, so if you want to rip sheffield of its rights to bare a swimming pool, don't you think you will see a rise in the river being swum in, which is a far more dangerous enviroment for people to be swimming in. Is the only place is selwyn as well where it is safe to do manus off of the diving board.
Staff Recommendation	It is acknowledged that the submitter has selected to not close the Sheffield Memorial Pool.

Submitter Number:	691	**Submitter:**	Lee Kukard
Point Number	691.3		
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities		
Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a share Hub/Clubrooms built at the proposed new Tennis & Netball facilities based in West Melton. West Melton Tennis & Netball share the vision to provide an inclusive, nurturing & welcoming community focused environment to develop players of all ages, creating longevity for the clubs & community. What we are asking for is a hub to bring our community together to create a sustainable future of tennis & netball but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Tennis nets, tennis poles, tennis balls/trolleys, netball balls, gear bags, hoops & training equipment. The space would require a kitchenette suitable for making tea & coffee and afternoon tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities.		
Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored.		

	The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

Point Number	694.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park as agreed in our 2021-31 Long-Term Plan and using the current design and layout planned to meet the needs identified by the community. The facility would include a library, council service centre and community centre.

	Project cost: Year 1: $16.01m **Estimated impact on rates (per year):** $44.22 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 Our budgeted option **Comment:**

Point Number	694.9
Category	Activity > Other Categories identified by Staff > Parks and Reserves
Comments:	I would like to propose that we open the Cemetery Pit between Leeston and Southbridge. I would like to develop the Cemetery Pit into a dirt jump / mountain bike area. I am a teacher at Southbridge School and when we put in a small and inexpensive track bike track we saw bike skills improve, an increase in physical activity, children challenging themselves on the jumps, and increased interest in mountain biking. I am also the father of a very keen 14 year old son. Him and his friends have been looking for places to build jumps around Southbridge without much luck. They find it hard to entertain themselves around Southbridge and often end up playing video games when they would much rather be outside jumping their bikes. The Cemetery Pit sits half way bewteen Leeston and Southbridge so it would be a great resource for both towns. It is also an easily bikable distance from both towns. It would be a very cheap project. All we would need to get started are piles of dirt and a digger to put in the dirt jumps. There are many people around our community that have these things and would happily help with this project. They would be progressive jumps meaning that there would be smaller

	jumps for beginners moving all the way up to expert jumps. Once these were in I would like to make a mountain bike track through the trees. This facility would be suitable for all ages. This area would then provide something for our younger children to do. It would connect them to nature and provide excellent physical activity. It would help them push themselves out of their comfort zone and in turn would support their mental health. It would give them a sense of community and responsibility as they look after the facility. It would give them something to be proud of. I have talked to Shane Epiha about this project and he fully supports opening the Cemetery Pit and then developing it into a recreational area. Thanks for considering this, Simon Dakers
Staff Recommendation	Staff support the submission as the restoration and redevelopment of Cemetery Pit has been a long-standing project that was started some years ago but not completed due to site contamination issues that have now been resolved. The site has potential for active recreation given its size and site features and budgets have been set aside in the draft LTP to recommence development work. The first action is to obtain the necessary consents for change of use. Staff recommend that Council supports the budget programme in the draft LTP for redevelopment of Cemetery Pit for recreation purposes (total $781,100 over 10 years).

Point Number	695.2		
Category	Activity > Other Categories identified by Staff > Debt Levels		
Comments:	I won't comment on most topics due to potential conflict.		

	However, I have concerns regarding how the Council has been managing debt. Basically the baseline has been moved every year and things just getting worse: LTP 2018 We started with $0 debt It said that by 2021 we would have approx. $70M of debt and from 2023 we would start to reduce the debt LTP 2021: We started 2021 with approx. $100M of debt (43% more than what was said in the last LTP) Planning to have approx. $180M of debt in 2024 and start to reduce the debt by 2027 LTP 2024: We started 2024 with approx. $280M of debt (56% more than what was said in the last LTP) and now are planning to start reducing debt only in 2030
Staff Recommendation	That the submission is acknowledged by Council. The debt is being closely monitored by the Council and is kept at a level that allows sustainable operation across all service areas.

Point Number	698.8
Category	Activity > Other Categories identified by Staff > Rates
Comments:	Refer "Federated Farmers" newspaper March 18, 2024. 23% of arable farmers said they were making a profit, yet they continue to pay rates based on thier CV. This system is flawed and unfair. It's time we moved to a differentiated rating system.
Staff Recommendation	That the submission is acknowledged by Council.
Point Number	698.9
Category	Activity > Strengthened Partnerships
Comments:	The Cultural narrative needs to be revisited. This should describe what is unique about the place and the people. There are many families in the Selwyn district who feel they are not well represented.
Staff Recommendation	The submission is acknowledged. Selwyn District Council considers that, when public buildings incorporate Maori names and cultural design elements, they are not merely symbolic gestures. Instead, they represent a tangible effort to honour the Treaty's obligations and foster a sense of belonging for all New Zealanders.
Point Number	698.10
Category	Activity > Other Categories identified by Staff > Waste Management
Comments:	Resource Recovery & Waste MAnagement: Organic Curbside Collection. We should be able to opt out of this scheme. Eg St Davids Place residents (Leeston- retirement flats) would only need 1 bin between them. Many residents compost and have alternative, acceptable ways of dealing with their green waste. This would be just another unnecessary cost for many.
Staff Recommendation	Kia ora. Thank you for your submission on the LTP 2024-2034. We do acknowledge that this is an additional unwanted burden for those who already compost their own food scraps and garden waste at home. This regulation is outside of Council's control. The Ministry for the Environment has issued a directive that households in all urban areas with a population of greater than 1,000 residents must have a food scraps/organic collection by 1 January 2027. Every Council in

	New Zealand is obligated under the Waste Minimisation Act to comply with this.
Point Number	698.11
Category	Activity > Lincoln Town Centre Upgrades
Comments:	Lincoln Town Centre Upgrades. This plan needs to be revisited. Local contractors need to be fairly considered for works (this has not been the case). These costs need to be dramatically reduced. Amend your plan to fit the budget.
Staff Recommendation	Any works will be competitively tendered to ensure ratepayers get the best value for money in accordance with Councils procurement policy
Point Number	698.12
Category	Activity > Strengthened Partnerships
Comments:	Any "Gifts" ie building names, should be interpreted in dual languages/ signage.
Staff Recommendation	The submission is acknowledged. Selwyn District Council prioritises inclusivity and cultural respect in our community. Te Tiriti o Waitangi, the Treaty of Waitangi, is a founding document of New Zealand. Recognising Te Reo Maori (the Maori language) and incorporating cultural design elements in public facilities is one way Council chooses to uphold the spirit of the Treaty partnership. Council considers recognising Maori language and culture in public spaces is not only appropriate but also necessary. It reflects our commitment to the Treaty and our shared responsibility to create a more equitable and respectful society.

Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities
Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a share Hub/Clubrooms built at the

	proposed new Tennis & Netball facilities based in West Melton. West Melton Tennis & Netball share the vision to provide an inclusive, nurturing & welcoming community focused environment to develop players of all ages, creating longevity for the clubs & community. What we are asking for is a hub to bring our community together to create a sustainable future of tennis & netball but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Tennis nets, tennis poles, tennis balls/trolleys, netball balls, gear bags, hoops & training equipment. The space would require a kitchenette suitable for making tea & coffee and afternoon tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities.
Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

So we want to hear from you - should we: Build three new Park and Ride facilities at Lincoln and Rolleston, and upgrade public transport infrastructure, but only if Council receives co-funding from NZTA Waka Kotahi. **Project cost:** Years 1–3: $4.2 million Years 4–10: $11.6 million **Estimated impact on rates:** Years 1–3: $7.06 Years 4–10: $19.52 **Funding:** Rates: 49% NZTA Waka Kotahi: 51%		

	Our budgeted option **Comment:**
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 1 - Our Budgeted Option using NZTA Waka Kotahi co-funding
Point Number	706.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park using a more standard design that can be easily repeated for other buildings. This building would have the same sized floor space as option 2 and include a cultural narrative in the design. **Project cost:** Year 1: 15.21m **Estimated impact on rates (per year):** $42.01 **Funding:** Rates: 80.5%

	Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 **Comment:**
Staff Recommendation	The submission is acknowledged

Category	Activity > Planning Further Community Facilities
Comments:	Greendale hall is barely being used since the council has taken over management of it. I suggest that it goes back to the previous community run management, to keep it utilised for non profit gatherings.
Staff Recommendation	The submission is acknowledged. The Community Centres, Halls and Libraries Network Plan - Sept 2021 will be reviewed in 2024 - 2027, with the revised plan also including sports buildings and pools.
Point Number	706.8
Category	Activity > Maintenance and Renewals Funding Roading
Comments:	There is need for the Greendale Adams Rd intersection to be fixed to make it a safe usable intersection The school is on a 100km road, it'd enable children and adults alike to get to the school or domain if there was a cycle pathway from dip road to adams road alongside Greendale road
Staff Recommendation	Submission is acknowledged by Council. This intersection has not been identified as being dangerous. There is some overhanging vegetation affecting sight distance - this is being addressed now. Cycleway depends on priority and available funding.,

Submitter Number:	707	**Submitter:**	Yvette Cullen

Point Number	707.3
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities
Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a share Hub/Clubrooms built at the proposed new Tennis & Netball facilities based in West Melton. West Melton Tennis & Netball share the vision to provide an inclusive, nurturing & welcoming community focused environment to develop players of all ages, creating longevity for the clubs & community. What we are asking for is a hub to bring our community together to create a sustainable future of tennis & netball but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Tennis nets, tennis poles, tennis balls/trolleys, netball balls, gear bags, hoops & training equipment. The space would require a kitchenette suitable for making tea & coffee and afternoon tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities. West Melton Tennis Club
Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for

	multi-use hubs clear, moving away from a proliferation of buildings on reserves.

Point Number	708.5
Category	Activity > Other Categories identified by Staff > Financial management
Comments:	For over 10 years I have made submissions on this Council's inability to control it's costs.

	Instead of putting out a document asking whether or not residents want to fund certain projects the Council should be going through its budget with the aim of keeping rate increases no higher than the rate of inflation. To do this the Council should rank it's expenditure from essential to desirable and only fund those desirable projects that can be met without substantial rate increases. In 2021 the Council signed off on a 10 year plan that the Council said would involve a 4% to 5% average rate rise over the 10 years. Yet here we are 3 years later with a new 10 year plan with a rate rise of 16% proposed this year and substantial rises over the next two years supposedly falling away after that. Based on past performance this is completely unbelievable. Councilors seem to have forgotten that the legal ability to compel citizens to pay for services is a power that should be exercised with restraint. No other business or service has the ability to recover it's costs by compelling payment. Councillors will always face pressure from staff and interested residents for more expenditure. The Council should resist this pressure and live with in it's means
Staff Recommendation	That the submission is acknowledged by Council.

Point Number	709.9
Category	Activity > Compulsary organics collection
Comments:	See supporting document regarding the Prebbleton Community Centre and the opt-out provision for organic bin and collection. **Opt-out of organic collection bin** Along with other suburban ratepayers I have done my best to minimise waste. I have a compost bin which transforms my garden waste and kitchen scraps into a valuable soil improver. While it is one thing for SDC to be required, along with other Councils, to provide and collect organic bins, it is quite another to force people who don't need or want them to pay for them anyway. This goes completely against encouraging people to be responsible for their waste. Selwyn District Council should not cancel the opt-out arrangement it currently provides.
Staff Recommendation	Kia ora. Thank you for your submission on the LTP 2024-2034. We do acknowledge that this is an additional unwanted burden for those who already compost their own food scraps and garden waste at home. This regulation is outside of Council's control. The Ministry for the Environment has issued a directive that all urban areas with a population of greater than 1,000 residents must have a food scraps/organic collection by 1 January 2027. Every Council in New Zealand is obligated under the Waste Minimisation Act to comply with this. This regulation will not apply to the community centre, only to individual households.

Comments:	I head up the focus group on behalf of the Springfield Community Association for Township signage

Long Term Plan Submission 2024

Springfield Township signs

Townships signs located on the eastern & western side of Springfield.

Nau mai tauti mai (Welcome to) SPRINGFIELD

Finished artwork attached

The Springfield Community Association is a not for profit group representing the township and it's residents working with the council and other relevant bodies/authorities to promote and sustain a positive and safe environment for all residents who live in the area.

Residents of Springfield feel the town requires identity in the form of a sign either side of the town. A focus group was set up to work on developing a concept and details for such a sign.

There was no suitable areas available of placement of a sign on the road reserves due to lack of space. Suitable placement locations have been secured on the eastern & western sides on private land to ensure excellent visibility and maximum exposure to oncoming traffic.

Advice has been provided by the Selwyn District Council Cultural advisor of the correct and most suitable use of Te reo.

The signs are to be produced and installed on site by Taege Engineering , Sheffield. The signs have been engineered to be suitable for the extreme weather conditions that we endure.

Integral in their design is low maintenance and a design that relates to the Mt Torlesse mountain range which is the prominent view entering the town from the east.

	The association believes these signs will be a very professional and positive addition to Springfield and give the township the prominence and identity it deserves. The community has been kept informed during the process of developing the project and will be informed of the funding at our monthly meetings and recorded in our minutes that are available for all residents to view on our community facebook page. Confirmation of the project being signed off and the signs completed and in place will be published in The Malvern News & Selwyn Times The Association would like to acknowledge the following: The approval and generosity of the land owners for access and the use of their land to erect the signs. Springfield Lime Quarry - provision of lime boulders to place around the base at no cost Curle Contracting - for collecting and locating the lime boulders on site at no cost and for installing the signs at a much reduced cost. Taege Engineering Sheffield are manufacturing most of the sign at a considerably reduced price and outsourced work at cost. The Association are requesting a sum of $6000 from the Selwyn District Council to help fund the total cost of these signs.
Staff Recommendation	The submitter's comments are noted and will be forwarded to the appropriate Council team for information.

Comments:	We wish to submit the following in respect to the Long-Term Plan which is currently open for submissions. We believe that the submission relates directly to the planning of further community facilities on page 51 of the LTP. We are writing to urge the SDC to consider the purchase of Broadfield Garden as a community garden and park for the benefit of the residents of Selwyn. **Selwyn deserves to have a botanical garden and park.** Broadfield Garden (an internationally recognized garden) is the botanical jewel in Selwyn's crown and with David Hobbs, the garden's visionary creator, now retiring, the property is for sale and Selwyn risks losing this once in a lifetime opportunity. *We believe that SDC should purchase this established park and garden and have it available to visit for free.* The garden has been created over the past 30 years and Selwyn does not have any comparable public space. The importance of this garden was also recognized by the Royal New Zealand Institute of Horticulture appointing David Hobbs as an Associate of Honour of the Institute. Selwyn is one of the few local authorities in New Zealand which does not have a botanic garden.

One of the main purposes of Selwyn District Council is to improve the social, economic, environmental and cultural well-being of the residents and communities.

We believe that the purchase of Broadfield Garden as an established botanical garden and park for residents will assist in attaining all of these aspirational aims.

- **Social well-being** will be improved through access to a calm and peaceful well-designed garden to enable residents to connect with nature.
    - **Environmental well-being** will be enhanced through preserving and maintaining an important botanical environment containing a huge collection of New Zealand indigenous plants.
    - **Cultural well-being** will be enhanced through acquiring a garden which has been recognised by the NZ Gardens Trust as being of international significance and which contains a collection of plants, many of which are rare or uncommon in general cultivation.
    - **Economic benefit** for the district will come from the many visitors which the garden will continue to attract including many international visitors and tours. Those visitors will support other businesses in the wider Selwyn District .

To secure this property the Council must act now as the property is on the market. There are many advantages with such a purchase and as there is no home on the property therefore the Council would not be encumbered with a dwelling which it did not require.

Whilst we are unaware of what the purchase price is likely to be we believe that it would be a fraction of the cost of the Council establishing a similar resource for the community from scratch with the advantage of also acquiring 30 years of mature plantings.

Brian and Helen Coker

	Stoneycrop Garden **West Melton**
Staff Recommendation	Staff acknowledge the quality and significance of Broadfield Gardens and the opportunity it presents as a formal garden to complement the existing open spaces. However, the proposal does have some costs and risks that need to be weighed up alongside other options. This includes the cost of purchase (and how that could be funded), the cost of additional infrastructure to enable public use, the on-going cost of maintenance and potential revenue opportunities. There are also some limiting factors such as proximity, accessibility and connectivity. It is noted that Council is considering development of a formal garden at the District Park as part of stage 1 development: that would focus on 3 main types or components of formal gardens: botanic plantings (including natives, exotics and floras); sister city garden opportunities; community gardens. Although the acquisition of the garden presents an opportunity for Council to provide a special area of open space that is not replicated anywhere else in the District, staff are of the view that the proposal is difficult to support at this time given the costs and other factors mentioned above. Staff recommend that Council does not purchase Broadfield Garden at this point in time but considers what other mechanisms are available or support it could provide to retain the garden for the district's benefit.

Comments:	Within the annual plan there is a clear requirement in section 7.2.9 that there needs more space for dogs to exercise off leash in		

	Rolleston, however the dog club that pays near nothing for facilities blocks the public for 12 days a year stopping residents access to the park they pay for. There should not be any allowance for this to occur. The dog training group should not be allow so much direct access to the park restricting residents during the week either. I understand it is now 4 days a week restricting half of the park 6pm-9:30pm. The fence through the middle cost Council $11,115. The club only pay $300 a year to lease the facility and rates of $261. So for $561 a year the club is abusing the ability of the residents to use the park. Keep in mind registration fees from dogs Council gain $485,000. So residents should be a priority over a club. The Rolleston Dog park should at all time have half available for residents. The dog training club should have their lease cancelled and change to limit the area to only half Rolleston dog park space. The club should be required to use the Prebbleton dog area more frequently to reduce the demand on the Rolleston park.
Staff Recommendation	The submission is acknowledged. Staff concur that there is a conflict between Selwyn Dog Training Club use of the site and use by the wider public especially when club events are in progress. A submission has been received from the Selwyn Dog Training Club looking for an alternative exclusive site so they can run their activities and the existing dog park can be free for public use. Staff support exploring options for relocation of the Selwyn Dog Training Club. It is also noted that there are likely to be additional dog-friendly spaces provided as part of the first stage of the District Park development in Levi Road, Rolleston.

Category	Activity > Other Categories identified by Staff > Road Safety		

Comments:	I just wanted to express my concerns to you about Ellesmere Road. I have recently returned home from living outside of Chch for many years and I now live in Rosemerryn, Lincoln. I drive Ellesmere Road every day and I'm concerned of the state of the road, the drivers on the road and the lack of action to improve the safety of this Road. I have attached a small amount of comments from other Lincoln residents on one of the community Facebook pages expressing my same concerns. I see the Long term plan has a road widening in 2038 and combined with the 1700 homes approved development starting in Lincoln shortly, surely there should be an immediate action and change to bring this timeframe forward.
Staff Recommendation	Submission is acknowledged by Council. Ellesmere widening is scheduled for 24/25. Council funds road safety promotion, however, concerns regarding enforcement of poor driver behaviour need to be addressed with the NZ Police.

Comments:	I just want to complain about the fact that the Rolleston Dogpark has been closed ALL WEEKEND AGAIN!		

	I am disabled, and the dog park is the safest and easiest way for me to exercise my beloved dog. The amount of times that it is closed or that you have to keep your dog on a lead, is abysmal. Also, part of my disability means I need easy and fast access to the toilets, which is difficult while they are doing events and I am trying to get my dog back on a lead, get through a gate, and negotiate my wheelchair into the toilet with my dog. As a rate-paying resident of Rolleston, I expect better. Why should people who aren't members of the infernal dog club become second class citizens at one of the community amenities? Especially when daylight saving has ended, and safe times to exercise my dog are shorter. The members of the dog club (some, but not all), can be very exclusionary and often ask people to leave. I always feel unwelcome there now- even when the dog club isn't there. The dog park is also very inadequate for the dog population of Rolleston. When my husband is home, he can drive us to another dog park- such as Halswell Quarry or Prebbleton (which are both superior options to Rolleston these days!) when the dog club is doing stuff, but going to other dog parks are not an option for me if he is not here. At the same time, I want this noted as a submission for the long term plan 2024-2034. I am glad I know about the request for submissions this time, because usually the "consultation periods" are hidden and nobody knows about them- or they are set over the Christmas period (like one of the dog park consultation periods), when people have a lot on their minds. Also, could I please have information about who built the building in Foster Dog Park? I have received two different stories from the SDC, and I want to clear it up.
Staff Recommendation	The submission is acknowledged. Staff concur that there is a conflict between Selwyn Dog Training Club use of the site and use by the wider public especially when club events are in progress. A submission has been received from the Selwyn Dog Training Club looking for an alternative exclusive site so they can run their activities and the existing dog park can be free for public use. Staff support exploring options for relocation of the Selwyn Dog Training Club. It is also noted that there are likely to be additional dog-friendly spaces provided as part of the first stage of the District Park development in Levi Road, Rolleston. Staff understand that the club

	building was purchased by the Selwyn Training Dog Club, relocated to the site and upgraded all at the cost of the club who own the building. Council built the toilets at the park.

Comments:	We urge the Selwyn District Council to purchase this established garden as an asset for Selwyn residents, a pace where all Selwyn residents can visit on a regular basis, or utilise for family and community events. Broadfield Garden (an internationally recognized garden) is the botanical jewel in Selwyn's crown and with David Hobbs, the garden's visionary creator, now retiring, the property is for sale and Selwyn risks losing this once in a lifetime opportunity. We have been living on Birchs Road, Prebbleton, for 7 years now, and establishing a garden on our property over the last 6 years has meant we have looked to the Broadfield Gardens as THE major botanical garden and park in our area for ideas and inspiration. It is not only an internationally recognised garden, but it takes pride of place as a tourist venue for visitors to Christchurch, and is utilised by the Selwyn Community as a venue for fundraisers and major events such as weddings. In 2023, for instance the Spring Gala was attended by a large proportion of our community and raised a huge amount of money for Community Care Lincoln, one of our biggest carers of vulnerable people in our community.		

There is no comparable public place in the whole of the Selwyn district. It is also important to note that Selwyn is one of the few local authorities in New Zealand that does not have a botanic garden.

One of the main purposes of Selwyn District Council is to improve the social, economic, environmental and cultural well-being of the residents and communities.

We believe that the purchase of Broadfield Garden as an established botanical garden and park for residents will assist in attaining all of these aspirational aims:

* Social well-being will be improved through access to a calm and peaceful well-designed garden to enable residents to connect with nature.

*Environmental well-being will be enhanced through preserving and maintaining an important botanical environment containing a huge collection of New Zealand indigenous plants.

* Cultural well-being will be enhanced through acquiring a garden which has been recognised by the NZ Gardens Trust as being of international significance and which contains a collection of plants, many of which are rare or uncommon in general cultivation.

* Economic benefit for the district will come from the many visitors which the garden will continue to attract including many international visitors and tours. Those visitors will support other businesses in the wider Selwyn District .

We believe that the submission relates directly to the planning of further community facilities on page 51 of the LTP.

To secure this property the Council must act now as the property is on the market. There are many advantages with such a purchase and as there is no home on the property the Council would not be encumbered with a dwelling which it did not require.

	Whilst we are unaware of what the purchase price is likely to be we believe that it would be a fraction of the cost of the Council establishing a similar resource for the community from scratch with the advantage of also acquiring 30 years of mature plantings. Sue and John Sheaf
Staff Recommendation	Staff acknowledge the quality and significance of Broadfield Gardens and the opportunity it presents as a formal garden to complement the existing open spaces. However, the proposal does have some costs and risks that need to be weighed up alongside other options. This includes the cost of purchase (and how that could be funded), the cost of additional infrastructure to enable public use, the on-going cost of maintenance and potential revenue opportunities. There are also some limiting factors such as proximity, accessibility and connectivity. It is noted that Council is considering development of a formal garden at the District Park as part of stage 1 development: that would focus on 3 main types or components of formal gardens: botanic plantings (including natives, exotics and floras); sister city garden opportunities; community gardens. Although the acquisition of the garden presents an opportunity for Council to provide a special area of open space that is not replicated anywhere else in the District, staff are of the view that the proposal is difficult to support at this time given the costs and other factors mentioned above. Staff recommend that Council does not purchase Broadfield Garden at this point in time but considers what other mechanisms are available or support it could provide to retain the garden for the district's benefit.

Submitter Number:	718	**Submitter:**	Gail Scrivener for Canterbury Horticultural Society Garden Clubs
Organisation:	Canterbury Horticultural Society Garden Clubs		
Point Number	718.3		

Category	Activity > Other Categories identified by Staff > Parks and Reserves
Comments:	This is a Submission in support of an approach to the Selwyn Distriict Council by David Hobbs as the owner and developer of the **Broadfields Gardens @ 250Selwyn Road** to purchase the property for the benefit of the residents of the Selwyn District as well as the wider community and visitors to the area. This Submission is made by Gail Scrivener-as a resident of TaiTapu-in the Selwyn District – and in her capacity as President of the Canterbury Horticultural Society Garden Clubs Representatives. The Canterbury Horticultural Society Garden Clubs are an affiliation of 31 Clubs with some 3000 members whose prime interest is in garden and general horticultural. The various clubs have monthly meetings and organize trips to numerous gardens -ranging from Council owned Botanical Gardens down to private home gardens. The highlight of many of those clubs has been – and is –a visit to the Broadfield Gardens, it is appreciated by the members for its diversity of plantings and the tranquillity of the large and generous site. The quality and ambience of the Broadfield Gardens has been written about in respected gardening journals New Zealand wide and some overseas publications—and is on a par with many Council-owned Botanical Gardens throughout New Zealand The club's members unanimously would like to see the gardens retained intact and be maintained and further developed under the stewardship of the Selwyn District Council. It is believed that with the burgeoning growth of Rolleston and now the massive potential increase in size of Lincoln and Prebbleton that it is imperative the mature area of Broadfield Gardens be purchased by the Selwyn District Council for the future of the district's residents. By way of enhancement the Council could allow the development of suitable café style eatery on the site to increase the commercial aspect of the property.
Staff Recommendation	Staff acknowledge the quality and significance of Broadfield Gardens and the opportunity it presents as a formal garden to complement the existing open spaces. However, the proposal does have some costs and risks that need to be weighed up alongside other options. This includes the cost of purchase (and how that could be funded), the cost of additional infrastructure to enable public use, the on-going cost of maintenance and potential revenue opportunities. There are also some limiting factors such as proximity, accessibility and connectivity. It is noted that Council is considering development of a formal garden at the District Park as part of stage 1

Although the acquisition of the garden presents an opportunity for Council to provide a special area of open space that is not replicated anywhere else in the District, staff are of the view that the proposal is difficult to support at this time given the costs and other factors mentioned above. Staff recommend that Council does not purchase Broadfield Garden at this point in time but considers what other mechanisms are available or support it could provide to retain the garden for the district's benefit.

Submitter Number:	719	**Submitter:**	Ralph Brown for Greendale Residents' Committee
Organisation:	Greendale Residents' Committee		
Point Number	719.4		
Category	Activity > Planning Further Community Facilities		
Comments:	Submission from Greendale Residents' Committee The Council recognised our residents' committee in September2022. The committee was elected by resident sat a well -attended public meeting.) The Committee plans to provide a full submission to staff conducting are view of community halls. This submiss ion to the Council's Long-Term Plan provides a brief outline of our case. We request an opportunity for a representative to present our case to the Council in more detail. Greendale Residents' Committee asks the Council to return day-to-day management of the Greendale hall to the community.		

	We see returning the management of the hall to the community as win/win for the Council and Greendale residents. The hall has not been well used since the Council took over and raised the hire fees. We believe that returning the management of the hall to the Committee and allowing it to set hire fees would help the Council meet its commitment to social well-being as described in the draft LTP 2024-2034.(We have many ideas for community activities that would not be feasible even with the current community hire fees.) The change to council management caused considerable resentment in Greendale. The community paid for the hall and residents have been paying for the renovation of the aached pavilion through a targeted rate. Our hall committee managed the hall and pavilion successfully for many years.
Staff Recommendation	The submission is acknowledged. Over the next year Council will be reviewing the network of public-facing facilities across the Selwyn District (libraries, community centres, halls, sports centres and pavilions). This work will take a holistic look at all facilities to plan for short, medium and longer-term community needs. It is recognised that a number of Council owned halls and centres have an extensive history in Selwyn and it is also recognised that there are some halls / community centres that are now underutilised by the local community and may be facing large costs in maintenance and / or remediation. The review will help Council better understand issues, opportunities and barriers and to consider alternative options for the future.

contact details for the club: (DETAILS WITHHELD)

We urge the Selwyn District Council to purchase this established garden as an asset for Selwyn residents, a place where all Selwyn residents can visit on a regular basis, or utilise for family and community events.

Broadfield Garden (an internationally recognized garden) is the botanical jewel in Selwyn's crown and with David Hobbs, the garden's visionary creator, now retiring, the property is for sale and Selwyn risks losing this once in a lifetime opportunity.

The Broadfields Garden Club has been established in this area for more than 30 years, and like many Selwyn individuals and groups, considers the Broadfields Gardens to be THE major botanical garden and park for the Selwyn area.

It is not only an internationally recognised garden, but it takes pride of place as a tourist venue for visitors to Christchurch, and is utilised by the Selwyn Community as a venue for fundraisers and major events such as weddings. In 2023, for instance the Spring Gala was attended by a large proportion of our community and raised a huge amount of money for Community Care Lincoln, one of our biggest carers of vulnerable people in our community.

There is no comparable public place in the whole of the Selwyn district. It is also important to note that Selwyn is one of the few local authorities in New Zealand that does not have a botanic garden.

One of the main purposes of Selwyn District Council is to improve the social, economic, environmental and cultural well-being of the residents and communities.

We believe that the purchase of Broadfield Garden as an established botanical garden and park for residents will assist in attaining all of these aspirational aims:

*Social well-being will be improved through access to a calm and peaceful well-designed garden to enable residents to connect with nature.

*Environmental well-being will be enhanced through preserving and maintaining an important botanical environment containing a huge collection of New Zealand indigenous plants.

	*Cultural well-being will be enhanced through acquiring a garden which has been recognised by the NZ Gardens Trust as being of international significance and which contains a collection of plants, many of which are rare or uncommon in general cultivation. *Economic benefit for the district will come from the many visitors which the garden will continue to attract including many international visitors and tours. Those visitors will support other businesses in the wider Selwyn District . **We believe that the submission relates directly to the planning of further community facilities on page 51 of the LTP.** To secure this property the Council must act now as the property is on the market. There are many advantages with such a purchase and as there is no home on the property the Council would not be encumbered with a dwelling which it did not require. Whilst we are unaware of what the purchase price is likely to be we believe that it would be a fraction of the cost of the Council establishing a similar resource for the community from scratch with the advantage of also acquiring 30 years of mature plantings. Sue Sheaf Secretary Broadfields Garden Club
Staff Recommendation	Staff acknowledge the quality and significance of Broadfield Gardens and the opportunity it presents as a formal garden to complement the existing open spaces. However, the proposal does have some costs and risks that need to be weighed up alongside other options. This includes the cost of purchase (and how that could be funded), the cost of additional infrastructure to enable public use, the on-going cost of maintenance and potential revenue opportunities. There are also some limiting factors such as proximity, accessibility and connectivity. It is noted that Council is considering development of a formal garden at the District Park as part of stage 1 development: that would focus on 3 main types or components of formal gardens: botanic plantings (including natives, exotics and floras); sister city garden opportunities; community gardens. Although the acquisition of the garden presents an opportunity for Council to provide a special area of open space that is not replicated anywhere else in the District, staff are of the view that the proposal is difficult to support at this time given the costs and other factors mentioned above.

	Staff recommend that Council does not purchase Broadfield Garden at this point in time but considers what other mechanisms are available or support it could provide to retain the garden for the district's benefit.

Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear. **Project cost:** None **Estimated impact on rates:** To be determined **Funding:** To be determined **Comment:**		
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP		
Point Number	721.3		
Category	Activity > Planning Further Community Facilities		

Comments:	I am saddened that the lack of a dedicated Performing Arts facility has, yet again, been omitted from the Long-Term Plan consultation document. We have such excellent groups here in Selwyn who would greatly benefit having a local performance space. Two of my three children are not sports people, but all three are very much involved in music, dance and theatre - it is their way of community and team involvement yet appropriate space for their events to take place is unfortunately lacking. TIn comparison other outlying Canterbury towns Ashburton and Rangiora have dedicated performance venues (Ashburton Event Centre and Rangiora Town Hall) that are well used and draw many performance groups from outside the region to use their facilities, this is an asset that is absolutely lacking in our town.
Staff Recommendation	The submission is acknowledged. Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. New facilities, such as Te Ara Atea and Whata Rau, are designed with the flexibility to accommodate arts experiences.

	Estimated impact on rates: To be determined **Funding:** To be determined **Comment:** The theme of my submission is about cost-savings during a time when we have a cost-of-living crisis. We simply cannot afford to spend what we do not have.
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP
Point Number	722.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.* **Project cost:** Year 1: $3.05m **Estimated impact on rates (per year):** $10.46

	Funding: Rates: 100% **Comment:** Same comment as per previous page. We need to minimize our spend as much as possible.
Staff Recommendation	The submission is acknowledged.
Point Number	722.3

Comments:	
	Question: Do you support the closure of Sheffield Community Pool? Yes **Question:** Do you support the continued development of an economic development strategy? No **Question:** Do you support the Council investing in better technology solutions to improve our services to the community? Yes **Comment: Comment: Comment:**
Staff Recommendation	Submission is acknowledged by Council.
Point Number	722.8
Category	Questionnaire > Policy Changes > Policy Review - Other

Comments:	We are all New Zealanders, regardless of ethnicity...we should all be equals.
Staff Recommendation	The submission is acknowledged. Selwyn District Council recognizes the importance of partnerships; building strong partnerships with iwi is vital for Council to fulfill its obligations to the entire community. Te Tiriti O Waitangi (Treaty of Waitangi) is a founding document of New Zealand and establishes a partnership between the Crown and Maori. This partnership requires us to work together for the collective benefit of all. Partnership with iwi, to have any meaning, requires consideration of iwi position and contribution to discussion/debate.
Point Number	722.9
Category	Activity > Council's Office Improvements
Comments:	The Council's office in Rolleston, specifically the entranceway, is fine as it is. As I stated at the start of this submission, we should aim to save on costs. Function first, before beauty. Consider any beautification activities when we shall have gone over the cost-of-living crisis.
Staff Recommendation	While staff numbers have increased placing pressure on the available office space and meeting rooms at the Councils offices the Council acknowledges the issues that this submission raises.
Point Number	722.10
Category	Activity > Council's Office Improvements
Comments:	On setting up EV charging stations - i would disagree with this. What's the demand for this facility? Or is this nice-to-have again? I would rather save the $3.7m (i.e., remove this from the plan) to minimize rates increases.
Staff Recommendation	While staff numbers have increased placing pressure on the available office space and meeting rooms at the Councils offices the Council acknowledges the issues that this submission raises.
Point Number	722.11
Category	Activity > Other Categories identified by Staff > Financial management

Comments:	1/ I believe the Selwyn District Council (SDC) needs to review its expenditure to assess if these provided value to the ratepayers. For example, as the ultimate holding entity of CORDE, why is it necessary for CORDE employees to be driving expensive utes? Are these employees tradies such that providing a Toyota Yaris is impractical?
Staff Recommendation	That the submission is acknowledged by Council.
Point Number	722.15
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	None
Staff Recommendation	It is acknowledged that the submitter has selected to close the Sheffield Memorial Pool.
Point Number	722.16
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	There is no clarity what this is about. What are its measurable outcomes? I do not support continuously spending over a 10-year period that does not even have a requirement to review outcomes on the first year and decide if the spending is to be stopped if nothing comes out of development strategy.
Staff Recommendation	It is acknowledged the submitter has selected not to progress with the Economic Development Strategy without more information on outcomes. As discussed at the Council briefing on March 27 followed by the session on 24 April 2024, Council is involved in and has access to important levers in Economic Development. The Council has a role in facilitating others and enabling Economic Development to occur as prosperously as possible to benefit the whole community. Action plans will outline outcomes in detail.
Point Number	722.17

Category	Questionnaire > Matters For Community Guidance > Digital Solutions
Comments:	Unlike the item preceding this (Economic Development), this Digital Solutions requires reconfirmation of funding. We cannot keep on spending money without a deliverable that brings benefits.
Staff Recommendation	The cost attributed to Digital is to signal we are serious about implementing efficiency across our organisation using technology. Our objective is to make Council financially sustainable through automation of process whilst providing residents and partners with more efficient services. Council is currently developing a Digital Strategy to provide this direction and budgets for the next LTP.

Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 1 - Our Budgeted Option using NZTA Waka Kotahi co-funding
Point Number	723.4
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities
Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a share Hub/Clubrooms built at the proposed new Tennis & Netball facilities based in West Melton. West Melton Tennis & Netball share the vision to provide an inclusive, nurturing & welcoming community focused environment to develop players of all ages, creating longevity for the clubs & community. What we are asking for is a hub to bring our community together to create a sustainable future of tennis & netball but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Tennis nets, tennis poles, tennis balls/trolleys, netball balls, gear bags, hoops & training equipment. The space would require a kitchenette suitable for making tea & coffee and afternoon tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities.
Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3

	of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

Point Number	724.1		
Category	Questionnaire > BD1 - Transport - Park and Ride		
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear. **Project cost:** None **Estimated impact on rates:** To be determined **Funding:** To be determined **Comment:** We are in a Recession, and are not in a position to be spending any finances on Capital Projects.		

Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP
Point Number	724.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.* **Project cost:** Year 1: $3.05m **Estimated impact on rates (per year):** $10.46 **Funding:** Rates: 100% **Comment:** As stated before, minimum money should be spent on "Capital Spending" until Inflation is brought back under control and the Selwyn District Council has been able to balance its finances each year.
Staff Recommendation	The submission is acknowledged.

Point Number	724.3
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2b - Leeston Park Improvements
Comments:	**Question:** We want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1. Do nothing. Use the existing park facilities and remove or replace old and unsafe items in the park. **Project cost:** Year 1: $143,000 **Estimated impact on rates:** Included in our current rates **Funding:** Rates: 100% **Comment:** Do nothing. Wait until the Selwyn District Council has it's own financial books balanced.
Staff Recommendation	It is acknowledged that the Submitter has selected Leeston Park Option 1
Point Number	724.4
Category	Questionnaire > BD3 - Malvern Rec and Sports Facility
Comments:	**Question:** We want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1.

	Do not build a community recreation and sports facility at Darfield. **Project cost:** None **Estimated impact on rates (per year):** None **Funding:** None **Comment:** We, as a Council, are living way beyond our Budget. We cannot continue to raise rate Demands "ad lib" to pay for these exhorbitant expenditures!
Staff Recommendation	It is acknowledged that the submitter has selected Option 1, do not build the community recreation and sports facility at Darfield.
Point Number	724.5
Category	Questionnaire > Matters For Community Guidance
Comments:	
	Question: Do you support the continued development of an economic development strategy? No **Question:** Do you support the Council investing in better technology solutions to improve our services to the community? No **Comment: Comment: Comment:**
Staff Recommendation	Submission is acknowledged by Council.
Point Number	724.8
Category	Activity > Other Categories identified by Staff > Rates
Comments:	In years 2024 to 2025; to years 2027 to 2028, all show significant Rate increases well into the mid "double digits"of between around 15.5% (Residential), to around 20.1% (Rural) in years 2024-2025. These rate hikes are very significant, especially for farmers who are trying to produce crops and meat for Residential persons. The Rate "hikes" are also causing problems with Retired people like myself, with only a limited income.

Staff Recommendation	That the submission is acknowledged by Council. The Council understands the financial pressures that ratepayers face and endeavours to keep rates increases to a minimum.
Point Number	724.9
Category	Activity > Other Categories identified by Staff > Bio-diversity
Comments:	1. The planting of native plants along stream/river edges. This costings should be passed onto local Businesses as Carbon Credits. Ratepayer's should not have to fund this.
Staff Recommendation	A number of organizations contribute to the planting of native plants on riparian margins, and often the landowners fund the projects themselves. Given that waterways usually function as biodiversity corridors, and are sites with high biodiversity and cultural values, Council continues to support sustainable waterway management initiatives.
Point Number	724.10
Category	Activity > Other Categories identified by Staff > Financial management
Comments:	2. I have a real concern for the additional staff the Selwyn District Council took on in LTP 2022-2023. (Around 89 staff member's, I believe). As we are actually in a recession, surely the Council should be looking to "trim back" its staff numbers to a minimum number in order to reduce expenditure?
Staff Recommendation	That the submission is acknowledged by Council. With the rapid growth of the district the workload has increased significantly. The Council has endeavoured to keep the headcount to an optimal level.
Point Number	724.11
Category	Activity > Council's Office Improvements
Comments:	3. The current Capital Works plan for the Rolleston District Council Buildings is not necessary, as yet, in my opinion. This would be unnecessary Capital Expenditure.

Staff Recommendation	While staff numbers have increased placing pressure on the available office space and meeting rooms at the Councils offices the Council acknowledges the issues that this submission raises.
Point Number	724.12
Category	Activity > Strengthened Partnerships
Comments:	4. I fully agree with the relational strengthening of mana whenua within the Selwyn District. HOWEVER, I disagree equally strongly with the $300,000 "set aside" for this relationship to continue. It certainly looks like mana whenua will be given a representation at "decision making" tables within the "Council" and separate "Committees". That is un-democratic, and is not the way this Country or this District Council should be run.
Staff Recommendation	The submission is acknowledged. Selwyn District Council recognises the importance of supporting Iwi participation. Council is committed to ensuring inclusivity and that ensuring everyone has an opportunity to benefit. Council considers this can lead to better outcomes for the whole community. For example, Iwi knowledge about local environments can be invaluable in planning and resource management projects. For Council to include Iwi contribution to count, by ensuring Iwi perspective has an opportunity to inform decision making on its committees, reflects our commitment to the Treaty and our shared responsibility to create a more equitable and respectful society.
Point Number	724.13
Category	Activity > Walking and cycling improvements
Comments:	5.Selwyn does NOT need a cycle-way from Arthur's Pass to Rolleston, or the coastli
Staff Recommendation	Submission is acknowledged by Council.
Point Number	724.14
Category	Activity > Planning Further Community Facilities
Comments:	6.Community groups within Selwyn should be allowed to run their own Community Centres. A "free hire", and an improved booking

	system would also be utilized to ensure maximum efficiency of each Community Centre.
Staff Recommendation	The submission is acknowledged. The Community Centres, Halls and Libraries Network Plan - Sept 2021 will be reviewed in 2024 - 2027, with the revised plan also including sports buildings and pools.
Point Number	724.15
Category	Activity > Rolleston Transport Improvements
Comments:	7. I am opposed to the proposal to upgrade the LED lighting in Rolleston, and other towns within Selwyn. We have no need to have "Smart" street lighting operating at night.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	724.16
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	Businesses should pay for developing their own Businesses within Selwyn.
Staff Recommendation	It is acknowledged the submitter has selected not to progress with the Economic Development Strategy and holds a view that Council does not have a role in economic development. As discussed at the Council briefing on March 27 followed by the session on 24 April 2024, Council is involved in and has access to important levers in economic development. The Council has a role in facilitating others and enabling economic development to occur as prosperously as possible to benefit the whole community.
Point Number	724.17
Category	Questionnaire > Matters For Community Guidance > Digital Solutions
Comments:	Once again; if this means more IT staff to operate these machines, then I strongly oppose that. If not, then this IT technology is very expensive. I think cheaper options should be looked for.

Staff Recommendation	The cost attributed to Digital is to signal we are serious about implementing efficiency across our organisation using technology. Our objective is to make Council financially sustainable through automation of process whilst providing residents and partners with more efficient services. Council is currently developing a Digital Strategy to provide this direction and budgets for the next LTP.

Staff Recommendation	Submission is acknowledged by Council.
Point Number	725.7
Category	Activity > Chlorination
Comments:	take the chlorine out of the water its a waste of money and time.
Staff Recommendation	The submitters preference for Council to remove chlorine from community drinking water supplies is acknowledged. To move to intermittent chlorination for eligible schemes and obtain an exemption from Taumata Arowai requires infrastructure upgrades at significant cost. Additional monitoring and testing would also be required on an ongoing basis. The estimated cost to move to intermittent chlorination is $82.6m over the LTP period. If implemented there will be an increased risk of community illness if there was a contamination event and chlorine may still need to be used intermittently. Staff recommendation is to reduce risk by continuing to chlorinate our community drinking water supplies.

Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park as agreed in our 2021-31 Long-Term Plan and using the current design and layout planned to meet the needs identified by the community. The facility would include a library, council service centre and community centre. **Project cost:** Year 1: $16.01m **Estimated impact on rates (per year):** $44.22 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34

Category	Activity > Planning Further Community Facilities
Comments:	Rolleston community needs more arts. There is already plenty of sports facilities, but nothing for the arts community. We also need an adult education program, similar to risinghlom, where people can gather to meet like minded community members. The library does offer some things like this, but they book out early clearly indicating the need is there!!
Staff Recommendation	The submission is acknowledged. In relation to the Arts, Selwyn District Council will develop an Arts Strategy in 2024. Council supports arts experiences throughout the district by way of, and not limited to, performing arts, events and programmes, permanent and temporary exhibitions, public artworks, live music, and theatre events. New facilities, such as Te Ara Atea and Whata Rau, are designed with the flexibility to accommodate arts experiences.

Comments:	I also see there is an ambition to develop a cycle trail that connects Arthurs Pass to the east coast (p49). This sounds like a fabulous opportunity for the region that would showcase the stunning natural landscape and also provide a significant economic boost. It should tie in to the existing trail network around Castle Hill Village. This should be more than an 'ambition', it should be a necessity!
Staff Recommendation	Submission is acknowledged by Council.
Point Number	732.10
Category	Activity > Other Categories identified by Staff > Waste Management
Comments:	Please consider the following for Castle Hill village: A garden waste disposal system for the Village. There is zero available at present. Most Village residents do not have the ability to drive their garden waste to the nearest disposal area.
Staff Recommendation	Kia ora. Thank you for your submission on the LTP 2024-2034. There are no immediate plans to establish a permanent green waste drop-off site at Castle Hill as costs to residents of Castle Hill to provide this (in particular transport costs) is prohibitively expensive. Furthermore, an open top skip in an unstaffed facility would invite tipping of construction waste and other bulky waste - contaminating the green waste. Staff have suggested previously that Council would consider assisting the community association with a community hire of a garden chipper once or twice per annum.
Point Number	732.13

Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities
Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a share Hub/Clubrooms built at the proposed new Tennis & Netball facilities based in West Melton. West Melton Tennis & Netball share the vision to provide an inclusive, nurturing & welcoming community focused environment to develop players of all ages, creating longevity for the clubs & community. What we are asking for is a hub to bring our community together to create a sustainable future of tennis & netball but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Tennis nets, tennis poles, tennis balls/trolleys, netball balls, gear bags, hoops & training equipment. The space would require a kitchenette suitable for making tea & coffee and afternoon tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities.
Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3

	of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	Hah - well, it depends on who is deciding what 'significant' is, doesn't it. Plan 69 was pretty significant and you didn't really give us a choice on discussing the long term costs vs benefits for that, so will

	this new policy stop the Council being able to significantly boost the Carter group when people protest the plan?
Staff Recommendation	Council acknowledges the submission. “Significance” and “significant” are defined under the Local Government Act 2002. Staff developed assessment criteria to assess the level of significance taking account of these definitions.
Point Number	734.11
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	I don't believe this is where Council should be spending its money sorry. Let business take care of business without financial input from tax payers via the Council and let the Council take care of us with council services that keep the place ticking over pretty please.
Staff Recommendation	It is acknowledged the submitter has selected not to progress with the Economic Development Strategy and holds a view that Council does not have a role in economic development. As discussed at the Council briefing on March 27 followed by the session on 24 April 2024, Council is involved in and has access to important levers in economic development. The Council has a role in facilitating others and enabling economic development to occur as prosperously as possible to benefit the whole community.
Point Number	734.12
Category	Questionnaire > Matters For Community Guidance > Digital Solutions
Comments:	Nope - face to face is what humans really need. I believe we have enough tech in the libraries etc. already. Please budget for paying humans who are interacting with the public the living wage and keep the level of tech we have already.
Staff Recommendation	Face to face interaction will continue to be an important part of how we interact with our communities. Our digital approach is designed to make things more streamlined, connected and efficient.
Point Number	734.13

Comments:	Nope, I'm pretty impressed with how much you do keep us informed and generally am pretty impressed with the Council (apart from that wee Plan 69 bit)! Keep up the great work y'all.
Staff Recommendation	Council acknowledges the submission. Staff work really hard to make sure our communities know what is happening and welcome any feedback the public may have in the future.

Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear. **Project cost:** None **Estimated impact on rates:** To be determined **Funding:** To be determined **Comment:**		
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP		

Point Number	735.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park as agreed in our 2021-31 Long-Term Plan and using the current design and layout planned to meet the needs identified by the community. The facility would include a library, council service centre and community centre. **Project cost:** Year 1: $16.01m **Estimated impact on rates (per year):** $44.22 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34

Comments:	i am surprised there is no funding for gymnastics facilities within Selwyn district in consideration of the amount of members and how popular the sport is within our community. I hope to see this revisted to support the ongoing need of expanding facilities
Staff Recommendation	The submission is acknowledged. Council recognises that well over 150 submissions have been received across 11 or more different community facility types, often requesting significant capital input. This excludes existing or proposed Council facilities as part of the Long Term Plan. Staff recommend that this facility be included as part of a wider community facility funding and planning project with gymnastics as a potential individual case study along with other facilities such as a performing arts and a military museum or similar to provide a variety of examples.

Comment:

would be nice to see other parts of the selwyn district benefit from these park n rides with a better public transport system to towns like DUNSANDEL LEESTON SOUTHBRIDGE as these towns always get over looked and they are growing very quickly and they are RATE PAYERS as well so it's time for you pen pushers and get your head out of the sand and start remembering the small towns like said mentioned.

Back in the 80s there was a bus service from cathedral square to southbridge run by the Christchurch transport board. And a workers bus monday - friday glentunnel to Christchurch was operated by leopard coach lines.

I live in dunsandel and its past time for public transport out this way there could be a loop run

Chch-dunsandel-southbridge-leeston-dunsandel-chch

X4 from chch

X4 dunsandel daily monday to friday

X2 chch

X2 dunsandel Saturday

X1 christchurch

X1 dunsandel sunday

	I used to drive buses long distance and serviced timetable runs in christchurch and wellington. I can hear and see it now every excuse under the sun that this wouldn't work oh yea hang on its not rolleston.
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 1 - Our Budgeted Option using NZTA Waka Kotahi co-funding. Council will be investigating what further PT services could be provided to link the wider district townships together beyond what Environment Canterbury can fund and provide as a Metro service. It is envisaged residents in the wider district can drive to the Park N Rides to then access PT services such as direct to City e.g. Dunsandel residents can use the Rolleston Park N Ride.

Submitter Number:	742	**Submitter:**	Chris Brown
Point Number	742.1		
Category	Questionnaire > BD1 - Transport - Park and Ride		
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear. **Project cost:** None		

	Estimated impact on rates: To be determined **Funding:** To be determined **Comment:** Look into working with Chch council and installing a cable car ststem. Please talk with Doppelmayr as they build these and can present solutions that are growing in popularity globally. This will be worth the long term funding and will see more people use this form of public transport. With a small fee and more people using it we will see it paid for much sooner than other public transport solutions.
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP. The 2020 Greater Christchurch PT Futures Business Case Study considered the best approach for planning public transport within Greater Christchurch relating to the agreed growth allocations across the area, including Selwyn townships.
Point Number	742.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park using a more standard design that can be easily repeated for other buildings. This building would

	have the same sized floor space as option 2 and include a cultural narrative in the design. **Project cost:** Year 1: 15.21m **Estimated impact on rates (per year):** $42.01 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 **Comment:**

Comments:	Selwyn has made plantings of natives in reserves a low priority, yet climate has been said to be the heart of any decisions
Staff Recommendation	Council staff are involved in a number of native restoration planting projects across the district on both private and public land. It is anticipated that the number of native plants installed with Council funding and support will increase in future years, including on Council reserves.
Point Number	742.11
Category	Activity > Maintenance and Renewals Funding Roading
Comments:	Secondly the James street paper road in Coalgate needs to be a formed gravel road, the 6 properties that front on to it will happily do this at their own cost if they are gifted 5meters of extra land at the front of their property as the paper road area is twice as wide as a normal road as it stands. This will mean a solution is found for this road at no extra cost to council. This solution makes sense and is fair.
Staff Recommendation	Submission is acknowledged by Council. Staff note the request and will check feasibility.

Point Number	742.12
Category	Questionnaire > Matters For Community Guidance > Digital Solutions
Comments:	make sure money spent is accounted for and used wisely. Too much money is wasted on ideas that were never going to work.
Staff Recommendation	The cost attributed to Digital is to signal we are serious about implementing efficiency across our organisation using technology. Our objective is to make Council financially sustainable through automation of process whilst providing residents and partners with more efficient services. Council is currently developing a Digital Strategy to provide this direction and budgets for the next LTP.
Point Number	742.13
Category	Activity > Other Categories identified by Staff > Parks and Reserves
Comments:	Coalgate reserve has a barren paddock and the current walking track that requires planting
Staff Recommendation	Staff support the submission as planting and landscape development at Coalgate Reserve was identified in planning work and budgets have been allowed for in the draft LTP for this work. Staff recommend that the budget (total of $55,000 over 5 years) for planting and landscape development at Coalgate and Glentunnel Reserves is supported.
Point Number	742.14
Category	Activity > Other Categories identified by Staff > Parks and Reserves
Comments:	Lets get this and a public toilet at the reserve finally done
Staff Recommendation	Staff support the submission because there is a demonstrated need for a public toilet in this location and this project was already approved during the 2021-31 LTP and is planned for installation in 2026/27 of the draft LTP. Staff recommend that the budget to install a public toilet at Coalgate Reserve in 2026/27 is supported.

Comments:	Plan ahead and only fix the roads once, not every year the same road !
Staff Recommendation	Submission is acknowledged by Council. We are now having effective asset management and improved operational delivery to address this.
Point Number	743.9

Category	Activity > Other Categories identified by Staff > Parks and Reserves
Comments:	Playgrounds need rubbish bins and toilets. Put half pipe back at Rosemerryn playground.
Staff Recommendation	Submission is acknowledged by Council. The current level of service provides for rubbish bins to be installed in Council playgrounds and there is a budget to provide bins on a priority basis where they are not currently available. It would be cost prohibitive to provide toilet facilities at all playgrounds and the current level of service is to provide toilets in the larger reserves and parks and the high-use playgrounds where there are no other alternative facilities available. Toilets have been installed in some existing playgrounds such as Parekura Reserve (Rolleston), Prebbleton Community Park and others are planned for parks in Lincoln and Rolleston. Council will not be reinstating the half-pipe at Rosemerryn Reserve in the near future which was removed by the developer following noise complaints.

Comments:	I have heard that a substantial sum is paid for Māori blessings. I object to this, as I believe if a Christian leader was involved there wouldn't be a need for payment. We also don't know who she is praying to !
Staff Recommendation	Council staff are not entirely clear what is meant by “Maori blessings”. In many instances Council staff themselves use Karakia/ a series of words, commonly in Maori, to encourage a favorable outcome to important events or meetings. Sometimes the staff member may be Maori but commonly not. As far as responding, staff are aware there is never any exchange of money for such things. In some instances, such as the opening of Te Ara ?tea, Te Taumutu Runanga representatives have been invited to attend, given their leadership, practical support and involvement in the proceedings prior. This does not generally involve direct payment and may involve Runanga representatives speaking as part of the formalities. On occasion, cultural goods and / or services are provided by local Runanga representatives as part of the proceedings for large scale / important Council events, and in some instances a token gift of money has been gifted by Council, in recognition of the amount of time involved at the direct request of Council.

Comments:	
	Question: Do you support the closure of Sheffield Community Pool? Yes **Question:** Do you support the continued development of an economic development strategy? No **Question:** Do you support the Council investing in better technology solutions to improve our services to the community? No **Comment: Comment: Comment:**
Staff Recommendation	Submission is acknowledged by Council.
Point Number	747.8
Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	Is there policies for the "other relevant groups" who can contribute to all stages council decision making other than Maori? What groups are these? Documents are not clear.
Staff Recommendation	Council acknowledges the submission and notes the concern around the level of clarity regarding how specific groups will be engaged with. The proposed policy sets out Council's general approach to determining how and when it will engage with the communities it serves. Council's engagement approach will be determined based

	on the level of significance assessed using the assessment criteria outlined.
Point Number	747.9
Category	Activity > Strengthened Partnerships
Comments:	What specifically is the $300,000 for mana whenua partnership spent on? Documents are not clear.
Staff Recommendation	The submission is acknowledged, Selwyn District Council recognises the importance of responsible use of funds: The Council is committed to responsible use of ratepayer funds. Investing in relationships, and actively working with Iwi, is not just the right thing to do under Te Tiriti o Waitangi, it's also an efficient way to achieve positive outcomes for all Selwyn residents. Council recognises the importance of supporting Iwi participation. Council is committed to ensuring inclusivity and that ensuring everyone has an opportunity to benefit. Council considers this can lead to better outcomes for the whole community. For example, Iwi knowledge about local environments can be invaluable in planning and resource management projects. For Council to include Iwi contribution to count, by ensuring Iwi perspective has an opportunity to inform decision making on its committees, reflects our commitment to the Treaty and our shared responsibility to create a more equitable and respectful society.
Point Number	747.10
Category	Activity > Council's Office Improvements
Comments:	Spending $3.7M on the Rolleston office is a waste of rate payer money - they are relatively new buildings and already quite large - why does the entrance need improvement? I do not support this upgrade especially when other facilities in the district need work. Rolleston is not the only place in Selwyn!
Staff Recommendation	While staff numbers have increased placing pressure on the available office space and meeting rooms at the Councils offices the Council acknowledges the issues that this submission raises.
Point Number	747.12
Category	Questionnaire > Matters For Community Guidance > Economic Development

Comments:	if funding from ratepayers is the only reason for a business to set up here there needs to be a question about how viable they are without funding. LTP document is very vague on this topic.
Staff Recommendation	It is acknowledged the submitter has selected not to progress with the Economic Development Strategy without more information. As discussed at the Council briefing on March 27 followed by the session on 24 April 2024, Council is involved in and has access to important levers in Economic Development. The Council has a role in facilitating others and enabling Economic Development to occur as prosperously as possible to benefit the whole community.

Concerned over proposed location of the community centre as not enough parking and the Leeston park is a defined area and the sports hub for the district and any ground lost to either parking or a new building footprint stops the capability to cater for growth of recreational use in the park.

	A new community building is required in the town but should not be a glorified council library and work place. It should be for the community to use and allow functions to be run
Staff Recommendation	The submission is acknowledged. Parking has been taken into account in relation to this matter.

Category	Activity > Compulsary organics collection
Comments:	Kerkside organic waste should not be compulsory as households are composting waste for reuse in the gardens .If ratepayers use the service then they will ask for it. it is unfair on small section owners or flats to be charged for this
Staff Recommendation	Kia ora. Thank you for your submission on the LTP 2024-2034. We do acknowledge that this is an additional unwanted burden for those who already compost their own food scraps and garden waste at home. This regulation is outside of Council's control. The Ministry for the Environment has issued a directive that households in all urban areas with a population of greater than 1,000 residents must have a food scraps/organic collection by 1 January 2027. Every Council in New Zealand is obligated under the Waste Minimisation Act to comply with this.

Category Questionnaire > BD1 - Transport - Park and Ride

Comments:

Question: You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we:

Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear.

Project cost:
None
Estimated impact on rates:
To be determined

Funding:
To be determined
Comment:

Whilst I fully support adequate public transport I think that road safety investment is of higher priority, particularly for Lincoln residents. My rationale is:

1. At present for Lincoln there are adequate parking facilities for the limited number of commuters who use buses. We should note that the town parking areas are planned to be increased substantially with the town centre upgrades (all of which will be within a few minutes walk to the planned park-in-ride facility). The town centre upgrade, including the increased parking areas, traffic lights and safe pedestrian crossings are a higher priority that if completed as scheduled in the LTP would provide adequate capacity for any park and ride demand for at least the next 5 yrs.

2. The main roads from Lincoln are in poor and dangerous condition - Springs, Birches and Ellesmere. These roads all have a very poor surface and dangerous intersections - this has been raised with the council and on the community facebook page a number of times, yet both Springs and Birches Roads do not appear to have any dedicated investment in the LTP for upgrading these key commuter routes.

	3. The consultation document makes it clear that there is no immediate and concrete commitment from the Greater Christchurch Partnership on establishment and funding of additional bus services. There is also no commitment from Waka Kotahi to co-fund. It makes sense to to delay until the next LTP any investment in Park in ride until those agencies have provided concrete support. As in the above two points, Lincoln in particular has higher immediate priorities for the park in ride funding, and will have adequate parking if the town centre is upgraded to support any increase in demand or provision of bus services.
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 3 - Delay and reconsider at next LTP. With Councils Preferred Option a Park N Ride at Lincoln opposite the Lincoln Events Centre is planned for 2026/27 which also relies on the Meijer Drive Extension. This timed to coincide with a planned increase of direct bus services to the City by Environment Canterbury. Business and shop owners are concerned about the all-day parking around Gerald St by those using current bus services to the City. The proposed Park N Ride will assist in the upgrade of Gerald St by providing for this type of parking at a better location. The Councils and other organisations related to the Greater Christchurch Partnership have submitted aligned PT programs with the 2020 GCP PT Futures Business Case and 2024-34 Canterbury Regional Land Transport Plan to obtain co-funding from the National Land Transport Fund. This includes Environment Canterbury that provides PT services. The outcome of this will not be known for some months yet from the NZTA, as is usually the case at this time. Councils' current priority is the widening and safety upgrade of the Ellesmere Road arterial route from Lincoln and the Springs/Hamptons Road Roundabout to complete these arterial intersections safety upgrades.

Comments:	**Question:** We want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1. Do not build a community recreation and sports facility at Darfield. **Project cost:** None **Estimated impact on rates (per year):** None **Funding:** None **Comment:** Whilst I support investment in community

	recreation facilities, the LTP document doesn't provide enough evidence to prioritize over other urgent needs across the district. The LTP consultation document indicates that Malvern has a number of Community Centres and Halls (page 32) in comparison to other wards, so it is not clear in the information provided that these can't be be used or renovated / upgraded to meet the indoor court need. How does this differ from the existing facilities provided by the Darfield Recreation and Community Centre - where is the option to renovate / modify that facility?. Likewise does the high school have a hall that could be used, or co-invested to renovate - this would benefit both the school and the wider community.
Staff Recommendation	It is acknowledged that the submitter has selected Option 1, do not build the community recreation and sports facility at Darfield.

Staff Recommendation	Submission is acknowledged by Council.
Point Number	750.8
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	AS stated the District has invested substantially in upgrading the nearby Darfield pool - a number of major towns in the District
Staff Recommendation	Submission is acknowledged by Council.

Point Number	750.9
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	This should be driven by the Government and private sector. The existing economic development and business growth is high with sufficient momentum - the SDC have a number of urgent community and core SDC functions (e.g. roading, community facilities) that this funding should focused on.
Staff Recommendation	It is acknowledged the submitter has selected not to progress with the Economic Development Strategy and has noted Council does not have a role in economic development. As discussed at the Council briefing on March 27 followed by the session on 24 April 2024, Council is involved in and has access to important levers in economic development. The Council has a role in facilitating others and enabling economic development to occur as prosperously as possible to benefit the whole community.
Point Number	750.10
Category	Questionnaire > Matters For Community Guidance > Digital Solutions
Comments:	The SDC have a number of urgent community and core SDC functions (e.g. roading, community facilities) that this funding should focused on.
Staff Recommendation	The cost attributed to Digital is to signal we are serious about implementing efficiency across our organisation using technology. Our objective is to make Council financially sustainable through automation of process whilst providing residents and partners with more efficient services. Council is currently developing a Digital Strategy to provide this direction and budgets for the next LTP.
Point Number	750.11
Category	Questionnaire > Policy Changes > Policy Review - Other
Comments:	The information provided in page 54 on the changes to the significance and engagement policy is inadequate for anyone to be able to provide meaningful comment - where is the link to the draft policy? There is no information provided on what the actual proposed changes will be. This should be withdrawn from being

	included in the LTP until it has actually been provided to the community with a chance to read and provide feedback. I have the same concerns and comment on the changes to financial policies - how can you ask for our feedback when no information on the specific changes is provided? For example revising the capped rate uplift and revising the SDC rating structure and adding a provision for a annual CPI uplift appear to be major changes with potentially significant impact on ratepayers - but 1 sentence with no detail on the specific changes is not adequate information. As above, this should be withdrawn from being included in the LTP until it has actually been provided to the community with a chance to read and provide feedback.
Staff Recommendation	Council acknowledges the submission and notes the concern with the level of information provided. Improvements regarding the presentation and provision of information will be considered for future consultations.
Point Number	750.12
Category	Activity > Strengthened Partnerships
Comments:	1. I support strengthening partnerships with mana whenua.
Staff Recommendation	The submission is acknowledged.
Point Number	750.13
Category	Activity > Chlorination
Comments:	2. The options for removing chlorination in water supplies should have been put out to community consultation - this is a major issue for each community so ratepayers do have a right to have a say, particularly when the council is back tracking on previous public commitments / statements that chlorination was only a temporary measure. Each community should have the choice on what level of service they are willing to pay for - e.g. let a community vote on whether they want a township specific targeted rate increase to pay for chlorination removal.
Staff Recommendation	The submitters preference for community consultation on the removal of chlorine from community drinking water supplies is acknowledged. To move to intermittent chlorination for eligible

	schemes and obtain an exemption from Taumata Arowai requires infrastructure upgrades at significant cost. Additional monitoring and testing would also be required on an ongoing basis. The estimated cost to move to intermittent chlorination is $82.6m over the LTP period. If implemented there will be an increased risk of community illness if there was a contamination event and chlorine may still need to be used intermittently. This matter was included in the consultation document and Council will consider all submissions received. Staff recommendation is to reduce risk by continuing to chlorinate our community drinking water supplies.
Point Number	750.14
Category	Activity > Maintenance and Renewals Funding Roading
Comments:	3. I strongly support increased investment in maintenance and renewal of transport infrastructure, but am disappointed that the LTP consultation document provides very little information on such a significant issue for residents. The LTP should be upfront and clear to ratepayers that these are the roads / intersections that will be improved through this LTP, particularly over the next 3 year period. The poor state of a number of high-use roads is one of the major concerns that are constantly raised, so I am somewhat gob-smacked why SDC has not come out in the LTP with a clear and well specified plan of action.
Staff Recommendation	Submission is acknowledged by Council. A detailed plan of improvements has been provided on council's LTP consultation website.
Point Number	750.15
Category	Activity > Lincoln Town Centre Upgrades
Comments:	4. I strongly support increased investment in the Lincoln town Centre upgrades. This has been committed to completion in a number of previous LTP's, but keeps getting bumped for prioritization of investment elsewhere (presumably Rolleston upgrades). Further delay and lack on investment in Lincoln is not acceptable.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	750.16

Category	Questionnaire > BD1 - Transport - Park and Ride
Comments:	
	Comment: 5. I do feel though that some investment in Lincoln could be better scheduled - particularly the Park'n'ride and Meijer Drive extension should be better thought through and should be delayed until later years (i.e. beyond the next 3 years). This would free up $7.5M in the next 3 years that could be better used to improve community facilities and safety within the township, e.g. i) the Gerald Street and Birches Road intersection traffic lights could be brought forward to the next 3 years, rather than 2029/30; ii) Traffic lights should be installed in the centre of the village at Gerald / William / Maurice Street intersection. This is already a high use car and pedestrian intersection (more than West-Belt/Gerald) that will only increase substantially if the proposed large carparks are built behind the town centre and the Lincoln events Centre sports fields are extended. Traffic lights at Gerald / William / Maurice Street intersection would also mean a safer pedestrian crossing for the many school children who use the town center to cross Gerald Street (both pedestrian crossings could then also be removed outside the Grouse and the Cottage cafe); iii) Improving the road safety outside Lincoln Primary on Birches and North Belt is also a much higher priority in the next 3 years than the Park and Ride and Meijer Drive extension; iv) I struggle to see the reason why Meijer Drive needs to be extended all the way through to Boundary Road - I fully support the planned extension of the sports grounds, but this doesn't need to have road straight through it, that without proper speed calming measures will most likely be ideal for boy-racer's as at night-time it will be a large empty area. This would also put more traffic pressure on the Springs / Boundary Rd intersection which is already a crash hotspot.
Staff Recommendation	Submission is acknowledged by Council. Submission is acknowledged by Council. The outcomes promoted by the 2016 Lincoln Town Centre Plan are still relevant however the design upgrade plans for Gerald St will reflect current best practice. A higher amenity area will be created between the Liffey and West belt will create more of town centre function. The Council will starting the upgrade of the Lincoln Town Centre and Gerald Street in stages starting in 2024 at the Liffey end and finishing at Springs Rd in 2030. This is estimated to cost $45M and includes cycle lanes, power undergrounding, 4 sets of traffic signals and the replacement of the failed carriageway . The extension of Meijer Dr to Boundary Road, along with the creation of adjoining reserves, is planned in 2025/26 budgeted at $3.5M. In conjunction with this in 2026/27 a $4M Park N Ride Facility to cater for improved public transport services planned by Environmenrt Canterbury will be constructed opposite the Lincoln Events Centre

Point Number	750.17
Category	Activity > Maintenance and Renewals Funding Roading
Comments:	6. I strongly support the upgrade to Ellesmere Road, but argue that the Ellesmere / Lincoln-Tai Tapu intersection upgrade should be brought forward from 2027/28. This intersection is clearly getting more and more dangerous. It has been in poor condition for a number of years and has ever increasing traffic use. 7. I can't see any clear plans to upgrade both Springs and Birches Roads between Lincoln and Prebbleton. Both are increasingly dangerous, with very poor areas of road surface, intersection crashes and already high commuter use. I am gob-smacked that it appears SDC continues to ignore the many concerns raised by residents - but this seems a glaring hole in the LTP (I hope I am wrong here, but cannot see any mention in LTP documents)
Staff Recommendation	Submission is acknowledged by Council. Upgrades to intersections are planned and will be completed when available funding is programmed. Safety considerations are always considered and prioritised according to the perceived risk.
Point Number	750.18
Category	Activity > Walking and cycling improvements
Comments:	8. The $24 million indicated for the Arthurs Pass to the sea cycleway is beyond what ratepayers can afford and is not a priority, considering all of the other urgent issues in core infrastructure functions that we are struggling to pay for, even with the very high rate increases in coming years. The same could be argued for the $8.5 million indicated for Te Waihora Lakeside trail. There are already a number of walking and cycling options available for residents across Selwyn and Christchurch areas, that are easy to access and have sufficient capacity and diversity of environments for residents to enjoy (I have used them and there are still a number I haven't had time to explore yet).
Staff Recommendation	Submission is acknowledged by Council.
Point Number	750.19

Category	Activity > Infrastructure DC
Comments:	9. I strongly support increasing development contributions for community infrastructure. It is clear with the very large rate increases that the current costs of new residential and commercial expansion is too high and existing ratepayers are having to pick-up a substantial bill. This needs to be better balanced, existing ratepayers can not keep subsidising the community facility and infrastructure demands of more and more greenfield urban expansion.
Staff Recommendation	Submission is acknowledged by Council. The submission is acknowledged, and staff note the support for the introduction of the proposed development contribution for community infrastructure. A thorough and robust process is undertaken to calculate the development contribution amount that can be fairly and reasonably applied to the growth community for a project. The calculation is made in accordance with the Council's Development Contribution Policy and the legislation that underpins the policy as well as guidelines on administering the policy.
Point Number	750.20
Category	Activity > Council's Office Improvements
Comments:	10. I do not support spending $3.7M on upgrading the Rolleston SDC offices - there is no strong justification provided, and many other urgent community and infrastructure issues such as roading that need to prioritised.
Staff Recommendation	While staff numbers have increased placing pressure on the available office space and meeting rooms at the Councils offices the Council acknowledges the issues that this submission raises.
Point Number	750.21
Category	Activity > Planning Further Community Facilities
Comments:	11. I support planning for improved community centres in Prebbleton and Rolleston.
Staff Recommendation	The submission is acknowledged.

Point Number	751.1		
Category	Questionnaire > BD1 - Transport - Park and Ride		
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Build three new Park and Ride facilities at Lincoln and Rolleston, and upgrade public transport infrastructure, but only if Council receives co-funding from NZTA Waka Kotahi. **Project cost:** Years 1–3: $4.2 million Years 4–10: $11.6 million **Estimated impact on rates:** Years 1–3: $7.06 Years 4–10: $19.52 **Funding:** Rates: 49% NZTA Waka Kotahi: 51% Our budgeted option **Comment:**		
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 1 - Our Budgeted Option using NZTA Waka Kotahi co-funding		
Point Number	751.2		

Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park as agreed in our 2021-31 Long-Term Plan and using the current design and layout planned to meet the needs identified by the community. The facility would include a library, council service centre and community centre. **Project cost:** Year 1: $16.01m **Estimated impact on rates (per year):** $44.22 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 Our budgeted option **Comment:**

Point Number	754.7
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities
Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a share Hub/Clubrooms built at the proposed new Tennis & Netball facilities based in West Melton. West Melton Tennis & Netball share the vision to provide an inclusive, nurturing & welcoming community focused environment to develop players of all ages, creating longevity for the clubs & community. What we are asking for is a hub to bring our community together to create a sustainable future of tennis & netball but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Tennis nets, tennis poles, tennis balls/trolleys, netball balls, gear bags, hoops & training equipment. The space would require a kitchenette suitable for making tea & coffee and afternoon tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities.

Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

Submitter Number:	755	**Submitter:**	Jonathon Bray
Point Number	755.1		
Category	Questionnaire > BD1 - Transport - Park and Ride		
Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Build three new Park and Ride facilities at Lincoln and Rolleston, and upgrade public transport infrastructure, but only if Council receives co-funding from NZTA Waka Kotahi. **Project cost:** Years 1–3: $4.2 million		

	Years 4–10: $11.6 million **Estimated impact on rates:** Years 1–3: $7.06 Years 4–10: $19.52 **Funding:** Rates: 49% NZTA Waka Kotahi: 51% Our budgeted option **Comment:** as someone who lives ohtside of this area i thunk it would be more beneficial to get shuttles or something similiar from places like Leeston to these areas to encourage more public transport use (1 a day is not useful)
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 1 - Our Budgeted Option using NZTA Waka Kotahi co-funding. Council will be investigating what further PT services could be provided to link the wider district townships together beyond what Environment Canterbury can fund and provide as a Metro service.

Submitter Number:	756	**Submitter:**	Details Withheld
Point Number	756.3		
Category	Activity > Other Categories identified by Staff > Club and Recreation Facilities		
Comments:	The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a share Hub/Clubrooms built at the		

	proposed new Tennis & Netball facilities based in West Melton. West Melton Tennis & Netball share the vision to provide an inclusive, nurturing & welcoming community focused environment to develop players of all ages, creating longevity for the clubs & community. What we are asking for is a hub to bring our community together to create a sustainable future of tennis & netball but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed. The Hub/Clubrooms would require a suitable space to store the following. Tennis nets, tennis poles, tennis balls/trolleys, netball balls, gear bags, hoops & training equipment. The space would require a kitchenette suitable for making tea & coffee and afternoon tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities
Staff Recommendation	Staff recommend that the application for a Council funded clubrooms for tennis and netball at West Melton Domain is declined and other options utilising spaces and facilities within the existing West Melton Community Centre are explored. The relocation of the Tennis and Netball courts next to the West Melton Recreation and Community Centre as part of the West Melton Domain Master Plan allows further investigation into the utilisation of this existing facility for club use. Meeting rooms 2 and 3 of this facility allow for access to the east from the extended carpark and link closely with the location of the courts. These rooms are able to be accessed without entering the rest of the facility if required. This allows for the outcomes identified in the submission while being financially responsible and maximising existing facility use. Council staff would be keen to further engage with both clubs to further understand requirements for club use and storage. The generally applied policy has been not to build club social facilities on reserves and council has made it's future preference for multi-use hubs clear, moving away from a proliferation of buildings on reserves.

Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next

	to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Build Whata Rau next to Leeston Park as agreed in our 2021-31 Long-Term Plan, but with additional sports courts and/or bigger community meeting spaces. **Project cost:** Year 1: 19.24m **Estimated impact on rates (per year):** $53.14 **Funding:** Rates: 80.5% Development contributions: 19.5% * 2024/25 2025/26 2026/27 2027/28 2028/29 2029/30 2030/31 2031/32 2032/33 2033/34 **Comment:**

Category	Activity > Other Categories identified by Staff > Waste Management
Comments:	Castle Hill Village 3. A garden waste disposal system for the Village .
Staff Recommendation	Kia ora. Thank you for your submission on the LTP 2024-2034. There are no immediate plans to establish a permanent green waste drop-off site at Castle Hill as costs to residents of Castle Hill to provide this (in particular transport costs) is prohibitively expensive. Furthermore, an open top skip in an unstaffed facility would invite tipping of construction waste and other bulky waste - contaminating

	the green waste. Staff have suggested previously that Council would consider assisting the community association with a community hire of a garden chipper once or twice per annum.
Point Number	757.11
Category	Questionnaire > Matters For Community Guidance > Economic Development
Comments:	I would like to see progression towards a Dark Sky area in the Castle Hill basin, either with a trial of a lights off initiative or dark sky compliant street lighting within Castle Hill Village.
Staff Recommendation	It is acknowledged that the submitter would like to see Selwyn progress towards Dark sky accreditation in the Castle Hill basin. Dark sky considerations will be part of the development of Action Plans associated with the Economic Development Strategy.
Point Number	757.12
Category	Activity > Other Categories identified by Staff > Parks and Reserves
Comments:	Castle Hill Village 2. Implement the Castle Hill Village Reserves Management Plan, including funding removal of the remaining seed source/wildling Douglas Fir and Larch trees in the Village .
Staff Recommendation	Submission is acknowledged by Council. The Castle Hill Reserve Management Plan is progressing to completion with a hearing to be held on 9 May 2024. Once completed an implementation programme will be developed. In anticipation of the plan being completed budgets have been provided in the draft LTP to undertake tree pest removal at Castle Hill.
Point Number	757.14
Category	Activity > Other Categories identified by Staff > Parks and Reserves
Comments:	Castle Hill Village refers to disc golf on the reserve 5. A disc golf goal on the village reserve

Staff Recommendation	Submission is acknowledged by Council. The Castle Hill Reserve Management Plan is yet to be approved and once completed development actions can be considered for inclusion in budget programmes. This is likely to be an item for consideration in the next Annual Plan.

Comments:	Please do not construct a whole lot of new infrastructure and take for granted that rate payers can absorb rises that are so much above genera inflation.
Staff Recommendation	Submission is acknowledged by Council.
Point Number	760.9
Category	Activity > Other Categories identified by Staff > Rates
Comments:	Inflation is rampant. Has been as high as 7%. Yet proposed rate rises run at double that year on year. That is unsustainable for many household budgets. Please do what central Government is doing. Find ways to prune out costs to keep rate rises financially sustainable. I have had wage rises for years that are less than where inflation has been and when our big ticket expenditure like insurance and rates exceed this it annoys me greatly.
Staff Recommendation	That the submission is acknowledged by Council. The Council understands the financial pressures that ratepayers face and endeavours to keep rates increases to a minimum.

Comments:	**Question:** You told us you want to see better access to public transport, particularly for our young and elderly residents. So we want to hear from you - should we: Build three new Park and Ride facilities at Lincoln and Rolleston, and upgrade public transport infrastructure, but only if Council receives co-funding from NZTA Waka Kotahi. **Project cost:** Years 1–3: $4.2 million Years 4–10: $11.6 million **Estimated impact on rates:** Years 1–3: $7.06 Years 4–10: $19.52 **Funding:** Rates: 49% NZTA Waka Kotahi: 51% Our budgeted option **Comment:**
Staff Recommendation	It is acknowledged that the Submitter has selected Public Transport Option 1 - Our Budgeted Option using NZTA Waka Kotahi co-funding
Point Number	761.2
Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau

Comments:

Question: 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1.

Build Whata Rau next to Leeston Park as agreed in our 2021-31 Long-Term Plan and using the current design and layout planned to meet the needs identified by the community. The facility would include a library, council service centre and community centre.

Project cost:
Year 1: $16.01m

Estimated impact on rates (per year):
$44.22
Funding:
Rates: 80.5%
Development contributions: 19.5% *

option

	Comment: Have no idea what Whatu Rau. Should have English spelling as well.
Staff Recommendation	The submission is acknowledged. Selwyn District Council considers that, when public buildings incorporate Maori names and cultural design elements, they are not merely symbolic gestures. Instead, they represent a tangible effort to honour the Treaty's obligations and foster a sense of belonging for all New Zealanders.

Staff Recommendation	Submission is acknowledged by Council.

Point Number	761.7
Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	Sheffield School and community should be given the $290,000 and then be responsible for the ongoing upkeep of the Sheffield Pool. Sort out the pot holes on the shingle part of the Wards Road. I am tired of sending photos and nothing done. Given job number but never see or hear from anyone
Staff Recommendation	It is acknowledged that the submitter has suggested Council not close the Sheffield Memorial Pool, and instead transfer the facility and operations of the facility over to a community organisation of some kind, currently not identified. The Long Term Plan consultation is essentially on the future ownership of Sheffield Memorial Pool by Selwyn District Council. The Council's proposal is to decommission the Pool on the basis that Council sees poor value in continuing to fund and operate the Pool given its design issues, low usage in comparison to other staffed facilities, costs (current and pending) and close proximity to a recently refurbished Council Pool. Council's interest is therefore to no longer own the Pool and to save the Council from further costs related to the Pool. The final staff response will consider Council's position regarding alternative options than decommissioning that still achieve Council's interest.

Category	Activity > Lincoln Town Centre Upgrades
Comments:	my family and i with our 3 children have recently moved to Lincoln from Rolleston. What became obvious very quickly is lack of infrastructure in Lincoln. The schools are at capacity, the doctors are always hard to book into, the supermarket is always busy along with every other store. At the moment this seems to be manageable, but happens when the new proposed subdivisions go in? Where will families send their children for education? Where will we go for a GP? It seems as though Lincoln has been forgotten by the SDC.
Staff Recommendation	Submission is acknowledged by Council.

Category	Questionnaire > BD2 - Waihora Whata Rau > BD 2a - Whata Rau		
Comments:	**Question:** 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.* **Project cost:** Year 1: $3.05m **Estimated impact on rates (per year):** $10.46 **Funding:** Rates: 100% **Comment:**		
Staff Recommendation	Submission is acknowledged by Council. [

Category	Questionnaire > Matters For Community Guidance > Sheffield Pool
Comments:	Return to Sheffield Community to remain open
Staff Recommendation	It is acknowledged that the submitter has suggested Council not close the Sheffield Memorial Pool, and instead transfer the facility and operations of the facility over to a community organisation of some kind, currently not identified. The Long Term Plan consultation is essentially on the future ownership of Sheffield Memorial Pool by Selwyn District Council. The Council's proposal is to decommission the Pool on the basis that Council sees poor value in continuing to fund and operate the Pool given its design issues, low usage in comparison to other staffed facilities, costs (current and pending) and close proximity to a recently refurbished Council Pool. Council's interest is therefore to no longer own the Pool and to save the Council from further costs related to the Pool. The final staff response will consider Council's position regarding alternative options than decommissioning that still achieve Council's interest.

Category	Activity > Planning Further Community Facilities
Comments:	Prebbleton is entitled to a centre which reflects the needs of this growing community. The village has an unique feel and we need to replace the hall but keep egos out of it. Produce the best functioning space while being very aware of the expense that would be passed onto the community.
Staff Recommendation	The submission is acknowledged. A new community centre for Prebbleton has been in considered in earlier Long-Term Plans and was previously signalled for construction in 2025/26. A needs assessment study was undertaken in 2023 which concluded that there was demand for a facility to service the community, and that it should provide a mix of social, community gathering and recreation spaces. The study further concluded that the facility needed to be located so it was easily accessed by the community. As there are uncertainties about the best site for the facility and the activities that it will cater for, further planning and community consultation is needed. To enable time for the necessary planning to happen, the project has been programmed for 2026/27 to 2027/28.

	Question: 2a. Whata Rau - new community facility After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced. Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we

	want to hear from you - should we: *Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1. Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.* **Project cost:** Year 1: $3.05m **Estimated impact on rates (per year):** $10.46 **Funding:** Rates: 100% **Comment:**
Staff Recommendation	Submission is acknowledged by Council. [

Comments:	please can the planting of large broad specimen trees be planted on every available space along streets, in parks and reserves, along roadsides and help the climate and beautify the Selwyn area.
Staff Recommendation	Staff support the submission to undertake more planting in urban areas. Work is already underway on reviewing the Tree and Vegetation Policy with a view to retaining and increasing tree cover. In addition to this work the Blue-Green Network Plan which forms part of the Future Selwyn work programme will be promoting tree cover targets in the urban setting. In anticipation of this work and also as a measure to reduce the impacts of climate change (more planting reduces heat in urban areas) an urban greening programme has been included in the draft LTP. Staff recommend that work continues on the development of policies and plans that are focused on retaining and increasing vegetation cover in urban environments and that support is given to the Urban Greening Programme included in the draft LTP (total $775,400 over 10 years from 2024/25).

Comments:	Hugely surprised that a section hasn't been given to the Future Facility in Prebbleton. It is experiencing greater growth and it's hall is to be demolished by 2035. Not expecting $ to be spent in the next 3 years - BUT - what is the plan after that? Be nice to see discussion on a No Frills/MultiPurpose building in the 5 yr plan so locals can start supporting it's planning/funding.
Staff Recommendation	The submission is acknowledged. A new community centre for Prebbleton has been in considered in earlier Long-Term Plans and was previously signalled for construction in 2025/26. A needs assessment study was undertaken in 2023 which concluded that there was demand for a facility to service the community, and that it should provide a mix of social, community gathering and recreation spaces. The study further concluded that the facility needed to be located so it was easily accessed by the community. As there are uncertainties about the best site for the facility and the activities that it will cater for, further planning and community consultation is needed. To enable time for the necessary planning to happen, the project has been programmed for 2026/27 to 2027/28

Category	Activity > Planning Further Community Facilities
Comments:	The provision of a community centre has been in the Long Term Plan since 2015 but is delayed in every subsequent plan. It would appear that Prebbleton is the forgotten jewel in Selwyn's crown. Apart from the Community Cottage on Blakes Road, there is no council facility which can accommodate a decent crowd.

	I object to the P4 photo representing Selwyn.
Staff Recommendation	The submission is acknowledged. A new community centre for Prebbleton has been in considered in earlier Long-Term Plans and was previously signaled for construction in 2025/26. A needs assessment study was undertaken in 2023 which concluded that there was demand for a facility to service the community, and that it should provide a mix of social, community gathering and recreation spaces. 	NZTA Waka Kotahi: 51% Our budgeted option **Comment:** The next few years could be difficult economically for many New Zealanders and given the burdens placed on Local Bodies by Government there will be plenty of upward pressure on rates. If the Government is not prepared to support transport options, then in the current climate holding off on spending would be prudent. You will have plenty of other initiatives placing demands on ratepayer dollars. I prefer to keep rates down or if they must increase significantly that there is relief for those who are really under pressure financially.
