Submission Form – Long-Term Plan 2024-34

For Council use: submission number

Note to submitters

You do not have to answer every question. You can make a general submission or submit on matters not included in the consultation document by completing the other comments section at the end of this form. If you need extra space for your submission use additional paper (please include your name on additional sheets).

All submissions will be considered by Council before making a decision.

Anyone can make a submission. All submissions, including the names and contact details of submitters, are publicly available, as required by the Local Government Act 2002.

Submissions will be used only for the purpose of this consultation process.

Submissions close at 5pm on Thursday 2 May 2024. All submissions need to be returned to the Council Rolleston office or one of our four libraries and service centres by this time to be considered. Any submissions received after this time will not be considered.

Are you submitting on behalf of an organisation?*

☐ Yes ☒ No

If yes, please state the name of the organisation*

Do you wish to attend a hearing to present your submission in person?*

☐ Yes ☒ No

Our Big Decisions

What is your view on building three new Park and Ride facilities in Lincoln and Rolleston and upgrading bus stops?

- ☐ Only carry out the work if the Council receives co-funding from NZTA Waka Kotahi.
- ☐ Carry out the work regardless of co-funding.
- ☒ Delay the work until the next Long-Term Plan when funding options might be clearer.

Any other comments?

What is your view on delivering Whata Rau?

- ☒ Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead.
- ☐ Build Whata Rau as agreed in our 2021-31 Long-Term Plan, using the design already completed to meet the needs identified by the community.
- ☐ Build Whata Rau with additional sports courts and/or bigger community meeting spaces.
- ☐ Build Whata Rau, using a more standard, simplified design with the same floor space and cultural narrative, but without the same flexibility to meet the needs already identified.

Any other comments?

What is your view on upgrading Leeston Park?

- ☐ Do nothing. Only carry out routine maintenance to replace old and unsafe items.
- ☒ Extend the playing fields and upgrade the car park playground equipment, footpaths, toilets, lighting and irrigation.
- ☐ Carry out the full Leeston Park Master Plan over 15 years.

Any other comments?

What is your view on delivering a new sports and recreation facility for Malvern?

- ☒ Do not build a community recreation and sports facility at Darfield.
- ☐ Build a community recreation and sports facility at Darfield that includes one indoor court.
- ☐ Build a community recreation and sports facility at Darfield that includes two indoor courts.

Any other comments?

Matters for Community Guidance

Sheffield Pool

The Sheffield Memorial Pool is used by less people than our other community pools and is 10 minutes' drive from the newly upgraded Darfield Pool. The pool will cost \$1 million to keep open or \$290,000 to close. We're proposing to close the pool.

Do you support the closure of Sheffield Pool?

☒ Yes

☐ No

Economic Development

We're proposing to play a more active role in our district's economic development. We have budgeted \$9 million over 10 years to support the Economic Development Strategy we have co-design with Selwyn businesses.

Do you support the continued development of an economic development strategy?

☐ Yes

☒ No

Digital Solutions

We are proposing to explore the most effective technologies that could assist us to do our best work for the community.

We've budgeted \$1.3million a year to do this, with the costs to be reconfirmed through each annual plan as the work progresses.

Do you support the Council investing in better technology solutions to improve our services to the community?

☐ Yes

☒ No

Policies

What is your view on the proposed changes to the Significance and Engagement Policy and financial policies outlined on pages 54-55 of the consultation document?

Other comments?

You can provide comments on any other matters in our draft Long-Term Plan, including the projects in the Keeping Your Community Informed section on pages 44-51 of the consultation document.

Playgrounds need rubbish bins + toilets.

Put half pipe back at Rosemerryn playground

Plan ahead & only fix the roads once, not every year the same road!

Submission Form – Long-Term Plan 2024-34

Do you wish to attend a Council hearing to present your feedback in person?

☐ Yes

☒ I do NOT wish to speak in support of my submission and ask that the following submission be fully considered.

Feedback

1. Public Transport

We're asking for your feedback on how Council should go forward with our public transport upgrades and programmes. In our region, Environment Canterbury provides public transport services (Metro buses) in the Greater Christchurch area. Selwyn District Council (like other local councils) is responsible for providing public transport infrastructure such as bus stops, shelters, and Park and Ride facilities.

You told us you want to see better access to public transport, particularly for our young and elderly residents.

So we want to hear from you - should we:

Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear.

Project cost:

None

Estimated impact on rates:

To be determined

Funding:

To be determined

Please add any comments you may have

Public transport is a good idea. However, the root cause of the problem is the growth of the townships in Selwyn. What about putting efforts into slowing that down?

Matters for Community Guidance

We're looking for your guidance on a series of other decisions around the way we support our economy, invest in new technology and the future of the Sheffield Memorial Pool.

Sheffield Memorial Pool

The Sheffield Memorial Pool is used by less people than our other community pools and is

10 minutes' drive from the newly upgraded Darfield Pool. The pool will require \$1 million in upgrades to keep open, or \$290,000 to close. We're proposing to close the pool.

Do you support the closure of Sheffield Community Pool?

Yes

Any comments?

Economic Development

We are proposing to play a more active role in our district's economic development. We have budgeted \$9 million over 10 years to support the Economic Development Strategy that we have co-designed with Selwyn businesses.

Do you support the continued development of an economic development strategy?

No

Any comments?

This is not the job of my district council.

Digital Solutions

We are proposing to explore the most effective technologies that could assist us to do our best work for the community. We've budgeted \$1.3million a year to do this, with the costs to be reconfirmed through each annual plan as the work progresses.

Do you support the Council investing in better technology solutions to improve our services to the community?

No

Any comments?

2b. Leeston Park improvements

We planned to upgrade Leeston Park as part of the project to build a new community facility. Since agreeing to do that, we have completed a master plan for redeveloping the park over the next 15 years.

We want to hear from you - should we:

**Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1.*

Carry out the landscape improvements to extend the playing fields; replace and upgrade the playground equipment, footpaths, toilet block, lighting and irrigation; and seal the carpark.

Project cost:

Years 1-10: \$3.4m

Estimated impact on rates :

Included in current rates

Funding:

Rates: 71.4%

Development contributions: 28.6% *

2. Waihora Whata Rau - community facility and reserves upgrade Leeston

After consulting with the community, in the last Long-Term Plan we proposed a new community facility for Leeston, called Whata Rau, which would be built alongside the park, providing a 'hub' for Ellesmere where residents can gather, play, and learn.

2a. Whata Rau - new community facility

After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced.

Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we:

**Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1.*

Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.*

Project cost:

Year 1: \$3.05m

Estimated impact on rates (per year):

\$10.46

Funding:

Rates: 100%

Please add any comments you may have

2b. Leeston Park improvements

We planned to upgrade Leeston Park as part of the project to build a new community facility. Since agreeing to do that, we have completed a master plan for redeveloping the park over the next 15 years.

Policy Changes

What is your view on the proposed changes to the Significance and Engagement Policy and financial policies outlined on pages 54-55 of the consultation document?

You can read the specific pages in the consultation document by [clicking here](#).

Please provide your comments in the box below.

Is there policies for the "other relevant groups" who can contribute to all stages council decision making other than Maori? What groups are these? Documents are not clear.

Other comments

You can provide comments on any other matters in our draft Long-Term Plan, including the projects in the Keeping Your Community Informed section on pages 44-51 of the consultation document.

You can read the specific pages in the consultation document by [clicking here](#).

Please provide your comments in the box below.

What specifically is the \$300,000 for mana whenua partnership spent on? Documents are not clear.

Spending \$3.7M on the Rolleston office is a waste of rate payer money - they are relatively new buildings and already quite large - why does the entrance need improvement? I do not support this upgrade especially when other facilities in the district need work. Rolleston is not the only place in Selwyn!

Do you wish to present your submission in person at a public hearing in the council chambers?

2. Waihora Whata Rau - community facility and reserves upgrade Leeston

After consulting with the community, in the last Long-Term Plan we proposed a new community facility for Leeston, called Whata Rau, which would be built alongside the park, providing a 'hub' for Ellesmere where residents can gather, play, and learn.

Rates should not increase more than the rate of inflation. The enormous increase in total rates collected by SDC over the past decade should be sufficient to manage the needs of the district. SDC clearly has poor fiscal management and must cease all non essential activities and wasteful spending. Staff numbers must be dramatically reduced. Vanity projects and cultural activities must cease. Go back to basics during a cost of living crisis.

3. Malvern Recreation and Sports Facility

Malvern has no indoor sports courts and demand for these is increasing rapidly. We're planning to build a new recreation and sports facility to meet that demand. It would be developed alongside existing and future facilities in the area to create a central hub for Malvern.

You can provide comments on any other matters in our draft Long-Term Plan, including the projects in the Keeping Your Community Informed section on pages 44-51 of the consultation document.

You can read the specific pages in the consultation document by [clicking here](#).

Please provide your comments in the box below.

Rates should not increase more than the rate of inflation. The enormous increase in total rates collected by SDC over the past decade should be sufficient to manage the needs of the district. SDC clearly has poor fiscal management and must cease all non essential activities and wasteful spending. Staff numbers must be dramatically reduced. Vanity projects and cultural activities must cease. Go back to basics during a cost of living crisis.

Do you wish to present your submission in person at a public hearing in the council chambers?

2. Waihora Whata Rau - community facility and reserves upgrade Leeston

After consulting with the community, in the last Long-Term Plan we proposed a new community facility for Leeston, called Whata Rau, which would be built alongside the park, providing a 'hub' for Ellesmere where residents can gather, play, and learn.

2a. Whata Rau - new community facility

After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced.

Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we:

**Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1.*

Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.*

Project cost:

Year 1: \$3.05m

Estimated impact on rates (per year):

\$10.46

Funding:

Rates: 100%

Please add any comments you may have

Rates should not increase more than the rate of inflation. The enormous increase in total rates collected by SDC over the past decade should be sufficient to manage the needs of the district. SDC clearly has poor fiscal management and must cease all non essential activities and wasteful spending. Staff numbers must be dramatically reduced. Vanity projects and cultural activities must cease. Go back to basics during a cost of living crisis.

2b. Leeston Park improvements

We planned to upgrade Leeston Park as part of the project to build a new community facility. Since agreeing to do that, we have completed a master plan for redeveloping the park over the next 15 years.

We want to hear from you - should we:

**Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1.*

Do nothing. Use the existing park facilities and remove or replace old and unsafe items in the park.

Project cost:

Year 1: \$143,000

Estimated impact on rates:

Included in our current rates

Funding:

Rates: 100%

Please add any comments you may have

Matters for Community Guidance

We're looking for your guidance on a series of other decisions around the way we support our economy, invest in new technology and the future of the Sheffield Memorial Pool.

Sheffield Memorial Pool

The Sheffield Memorial Pool is used by less people than our other community pools and is 10 minutes' drive from the newly upgraded Darfield Pool. The pool will require \$1 million in upgrades to keep open, or \$290,000 to close. We're proposing to close the pool.

Do you support the closure of Sheffield Community Pool?

Any comments?

Economic Development

We are proposing to play a more active role in our district's economic development. We have budgeted \$9 million over 10 years to support the Economic Development Strategy that we have co-designed with Selwyn businesses.

Do you support the continued development of an economic development strategy?

Any comments?

Digital Solutions

We are proposing to explore the most effective technologies that could assist us to do our best work for the community. We've budgeted \$1.3million a year to do this, with the costs

to be reconfirmed through each annual plan as the work progresses.

Do you support the Council investing in better technology solutions to improve our services to the community?

No

Any comments?

Other comments

You can provide comments on any other matters in our draft Long-Term Plan, including the projects in the Keeping Your Community Informed section on pages 44-51 of the consultation document.

Please provide your comments in the box below.

Kerkside organic waste should not be compulsory as households are composting waste for reuse in the gardens .If ratepayers use the service then they will ask for it.

it is unfair on small section owners or flats to be charged for this

Do you wish to present your submission in person at a public hearing in the council chambers?

2. Waihora Whata Rau - community facility and reserves upgrade Leeston

After consulting with the community, in the last Long-Term Plan we proposed a new community facility for Leeston, called Whata Rau, which would be built alongside the park, providing a 'hub' for Ellesmere where residents can gather, play, and learn.

Concerned over proposed location of the community centre as not enough parking and the Leeston park is a defined area and the sports hub for the district and any ground lost to either parking or a new building footprint stops the capability to cater for growth of recreational use in the park.

A new community building is required in the town but should not be a glorified council library and work place. It should be for the community to use and allow functions to be run

Feedback

1. Public Transport

We're asking for your feedback on how Council should go forward with our public transport upgrades and programmes. In our region, Environment Canterbury provides public transport services (Metro buses) in the Greater Christchurch area. Selwyn District Council (like other local councils) is responsible for providing public transport infrastructure such as bus stops, shelters, and Park and Ride facilities.

You told us you want to see better access to public transport, particularly for our young and elderly residents.

So we want to hear from you - should we:

Delay building new Park and Ride facilities at Lincoln and Rolleston, and upgrading public transport infrastructure until the next Long-Term Plan when funding options might be more clear.

Project cost:

None

Estimated impact on rates:

To be determined

Funding:

To be determined

Please add any comments you may have

Whilst I fully support adequate public transport I think that road safety investment is of higher priority, particularly for Lincoln residents. My rationale is:

1. At present for Lincoln there are adequate parking facilities for the limited number of commuters who use buses. We should note that the town parking areas are planned to be increased substantially with the town centre upgrades (all of which will be within a few minutes walk to the planned park-in-ride facility). The town centre upgrade, including the increased parking areas, traffic lights and safe pedestrian crossings are a higher priority that if completed as scheduled in the LTP would provide adequate capacity for any park and ride demand for at least the next 5 yrs.

2. The main roads from Lincoln are in poor and dangerous condition - Springs, Birches and Ellesmere. These roads all have a very poor surface and dangerous intersections - this has been raised with the council and on the community facebook page a number of times, yet both Springs and Birches Roads do not appear to have any dedicated investment in the LTP for upgrading these key commuter routes.

3. The consultation document makes it clear that there is no immediate and concrete commitment from the Greater Christchurch Partnership on establishment and funding of additional bus services. There is also no commitment from Waka Kotahi to co-fund. It makes sense to delay until the next LTP any investment in Park in ride until those agencies have provided concrete support. As in the above two points, Lincoln in particular has higher immediate priorities for the park in ride funding, and will have adequate parking if the town centre is upgraded to support any increase in demand or provision of bus services.

3. Malvern Recreation and Sports Facility

Malvern has no indoor sports courts and demand for these is increasing rapidly. We're planning to build a new recreation and sports facility to meet that demand. It would be developed alongside existing and future facilities in the area to create a central hub for Malvern.

We want to hear from you - should we:

**Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1.*

Do not build a community recreation and sports facility at Darfield.

Project cost:

None

Estimated impact on rates (per year):

None

Funding:

None

Please add any comments you may have

Whilst I support investment in community recreation facilities, the LTP document doesn't provide enough evidence to prioritize over other urgent needs across the district. The LTP consultation document indicates that Malvern has a number of Community Centres and Halls (page 32) in comparison to other wards, so it is not clear in the information provided that these can't be used or renovated / upgraded to meet the indoor court need. How does this differ from the existing facilities provided by the Darfield Recreation and Community Centre - where is the option to renovate / modify that facility?. Likewise does the high school have a hall that could be used, or co-invested to renovate - this would benefit both the school and the wider community.

Matters for Community Guidance

We're looking for your guidance on a series of other decisions around the way we support our economy, invest in new technology and the future of the Sheffield Memorial Pool.

Sheffield Memorial Pool

The Sheffield Memorial Pool is used by less people than our other community pools and is 10 minutes' drive from the newly upgraded Darfield Pool. The pool will require \$1 million in upgrades to keep open, or \$290,000 to close. We're proposing to close the pool.

Do you support the closure of Sheffield Community Pool?

Yes

Any comments?

AS stated the District has invested substantially in upgrading the nearby Darfield pool - a number of major towns in the District

Economic Development

We are proposing to play a more active role in our district's economic development. We have budgeted \$9 million over 10 years to support the Economic Development Strategy that we have co-designed with Selwyn businesses.

Do you support the continued development of an economic development strategy?

No

Any comments?

This should be driven by the Government and private sector. The existing economic development and business growth is high with sufficient momentum - the SDC have a number of urgent community and core SDC functions (e.g. roading, community facilities) that this funding should focused on.

Digital Solutions

We are proposing to explore the most effective technologies that could assist us to do our best work for the community. We've budgeted \$1.3million a year to do this, with the costs to be reconfirmed through each annual plan as the work progresses.

Do you support the Council investing in better technology solutions to improve our services to the community?

No

Any comments?

The SDC have a number of urgent community and core SDC functions (e.g. roading, community facilities) that this funding should focused on.

Policy Changes

What is your view on the proposed changes to the Significance and Engagement Policy and financial policies outlined on pages 54-55 of the consultation document?

You can read the specific pages in the consultation document by [clicking here](#).

Please provide your comments in the box below.

The information provided in page 54 on the changes to the significance and engagement policy is inadequate for anyone to be able to provide meaningful comment - where is the link to the draft policy? There is no information provided on what the actual proposed changes will be. This should be withdrawn from being included in the LTP until it has actually been provided to the community with a chance to read and provide feedback.

I have the same concerns and comment on the changes to financial policies - how can you ask for our feedback when no information on the specific changes is provided? For example revising the capped rate uplift and revising the SDC rating structure and adding a provision for a annual CPI

uplift appear to be major changes with potentially significant impact on ratepayers - but 1 sentence with no detail on the specific changes is not adequate information. As above, this should be withdrawn from being included in the LTP until it has actually been provided to the community with a chance to read and provide feedback.

Other comments

You can provide comments on any other matters in our draft Long-Term Plan, including the projects in the Keeping Your Community Informed section on pages 44-51 of the consultation document.

You can read the specific pages in the consultation document by [clicking here](#).

Please provide your comments in the box below.

1. I support strengthening partnerships with mana whenua.
2. The options for removing chlorination in water supplies should have been put out to community consultation - this is a major issue for each community so ratepayers do have a right to have a say, particularly when the council is back tracking on previous public commitments / statements that chlorination was only a temporary measure. Each community should have the choice on what level of service they are willing to pay for - e.g. let a community vote on whether they want a township specific targeted rate increase to pay for chlorination removal.
3. I strongly support increased investment in maintenance and renewal of transport infrastructure, but am disappointed that the LTP consultation document provides very little information on such a significant issue for residents. The LTP should be upfront and clear to ratepayers that these are the roads / intersections that will be improved through this LTP, particularly over the next 3 year period. The poor state of a number of high-use roads is one of the major concerns that are constantly raised, so I am somewhat gob-smacked why SDC has not come out in the LTP with a clear and well specified plan of action.
4. I strongly support increased investment in the Lincoln town Centre upgrades. This has been committed to completion in a number of previous LTP's, but keeps getting bumped for prioritization of investment elsewhere (presumably Rolleston upgrades). Further delay and lack on investment in Lincoln is not acceptable.
5. I do feel though that some investment in Lincoln could be better scheduled - particularly the Park'n'ride and Meijer Drive extension should be better thought through and should be delayed until later years (i.e. beyond the next 3 years). This would free up \$7.5M in the next 3 years that could be better used to improve community facilities and safety within the township, e.g. i) the Gerald Street and Birches Road intersection traffic lights could be brought forward to the next 3 years, rather than 2029/30; ii) Traffic lights should be installed in the centre of the village at Gerald / William / Maurice Street intersection. This is already a high use car and pedestrian intersection (more than West-Belt/Gerald) that will only increase substantially if the proposed large carparks are built behind the town centre and the Lincoln events Centre sports fields are extended. Traffic lights at Gerald / William / Maurice Street intersection would also mean a safer pedestrian crossing for the many school children who use the town center to cross Gerald Street (both pedestrian crossings could then also be removed outside the Grouse and the Cottage cafe); iii) Improving the road safety

outside Lincoln Primary on Birches and North Belt is also a much higher priority in the next 3 years than the Park and Ride and Meijer Drive extension; iv) I struggle to see the reason why Meijer Drive needs to be extended all the way through to Boundary Road - I fully support the planned extension of the sports grounds, but this doesn't need to have road straight through it, that without proper speed calming measures will most likely be ideal for boy-racer's as at night-time it will be a large empty area. This would also put more traffic pressure on the Springs / Boundary Rd intersection which is already a crash hotspot.

6. I strongly support the upgrade to Ellesmere Road, but argue that the Ellesmere / Lincoln-Tai Tapu intersection upgrade should be brought forward from 2027/28. This intersection is clearly getting more and more dangerous. It has been in poor condition for a number of years and has ever increasing traffic use.

7. I can't see any clear plans to upgrade both Springs and Birches Roads between Lincoln and Prebbleton. Both are increasingly dangerous, with very poor areas of road surface, intersection crashes and already high commuter use. I am gob-smacked that it appears SDC continues to ignore the many concerns raised by residents - but this seems a glaring hole in the LTP (I hope I am wrong here, but cannot see any mention in LTP documents)

8. The \$24 million indicated for the Arthurs Pass to the sea cycleway is beyond what ratepayers can afford and is not a priority, considering all of the other urgent issues in core infrastructure functions that we are struggling to pay for, even with the very high rate increases in coming years. The same could be argued for the \$8.5 million indicated for Te Waihora Lakeside trail. There are already a number of walking and cycling options available for residents across Selwyn and Christchurch areas, that are easy to access and have sufficient capacity and diversity of environments for residents to enjoy (I have used them and there are still a number I haven't had time to explore yet).

9. I strongly support increasing development contributions for community infrastructure. It is clear with the very large rate increases that the current costs of new residential and commercial expansion is too high and existing ratepayers are having to pick-up a substantial bill. This needs to be better balanced, existing ratepayers can not keep subsidising the community facility and infrastructure demands of more and more greenfield urban expansion.

10. I do not support spending \$3.7M on upgrading the Rolleston SDC offices - there is no strong justification provided, and many other urgent community and infrastructure issues such as roading that need to be prioritised.

11. I support planning for improved community centres in Prebbleton and Rolleston.

Do you wish to present your submission in person at a public hearing in the council chambers?

2. Waihora Whata Rau - community facility and reserves upgrade Leeston

After consulting with the community, in the last Long-Term Plan we proposed a new community facility for Leeston, called Whata Rau, which would be built alongside the park, providing a 'hub' for Ellesmere where residents can gather, play, and learn.

2a. Whata Rau - new community facility

After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced.

Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we:

**Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1.*

Build Whata Rau next to Leeston Park using a more standard design that can be easily repeated for other buildings. This building would have the same sized floor space as option 2 and include a cultural narrative in the design.

I'm concerned that a National govt will not support public transport options in any way, so we may have to fund it ourselves. I'd prefer half funding with Waka K, but want the option to go ahead if that does not come thru in the next couple of years.

3. Malvern Recreation and Sports Facility

Malvern has no indoor sports courts and demand for these is increasing rapidly. We're planning to build a new recreation and sports facility to meet that demand. It would be developed alongside existing and future facilities in the area to create a central hub for Malvern.

We want to hear from you - should we:

**Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1.*

Build a community recreation and sports facility at Darfield that includes one indoor court.

Project cost:

Year 3: \$7.07 million (minus \$1.10 million already included in the last Long-Term Plan. Total left to fund is \$5.97 million)

Estimated impact on rates (per year):

\$11.67

Funding:

Rates: 57%

Development contributions: 43% *

Please add any comments you may have

Matters for Community Guidance

We're looking for your guidance on a series of other decisions around the way we support our economy, invest in new technology and the future of the Sheffield Memorial Pool.

Sheffield Memorial Pool

The Sheffield Memorial Pool is used by less people than our other community pools and is 10 minutes' drive from the newly upgraded Darfield Pool. The pool will require \$1 million in upgrades to keep open, or \$290,000 to close. We're proposing to close the pool.

Do you support the closure of Sheffield Community Pool?

No

Any comments?

Swimming locally is one of the real joys of summer. And for me that isn't in an enclosed large public pool. I understand that this is expensive, but I grieve every time I see a local pool or swimming hole go.

Economic Development

We are proposing to play a more active role in our district's economic development. We have budgeted \$9 million over 10 years to support the Economic Development Strategy that we have co-designed with Selwyn businesses.

Do you support the continued development of an economic development strategy?

Yes

Any comments?

Digital Solutions

We are proposing to explore the most effective technologies that could assist us to do our best work for the community. We've budgeted \$1.3million a year to do this, with the costs to be reconfirmed through each annual plan as the work progresses.

Do you support the Council investing in better technology solutions to improve our services to the community?

Yes

Any comments?

Policy Changes

What is your view on the proposed changes to the Significance and Engagement Policy and financial policies outlined on pages 54-55 of the consultation document?

You can read the specific pages in the consultation document by [clicking here](#).

Please provide your comments in the box below.

S&E Policy - do what you need to, but don't rebrand groups, docs, or teams just to make things look pretty.

I very strongly support any planning to minimise or mitigate climate change. It should be a core component of planning and decision making.

Please include mana whenua and iwi in decision making. Structured engagement increases the chance that we will make good decisions for all members of the community, and for the future people living in the area.

Other comments

You can provide comments on any other matters in our draft Long-Term Plan, including the projects in the Keeping Your Community Informed section on pages 44-51 of the consultation document.

You can read the specific pages in the consultation document by [clicking here](#).

Please provide your comments in the box below.

I liked the rural and cycling section and I'd use (and already use) local rural bike paths for exercise and to see the country.

I think nitrates in water supplies are such a telling indicator of how we have decimated our local environment. Great to see you thinking about it.

Your document writer's did a fab job on the consultation doc. Page 20/21 is great. All text is clear to read. Important points are brought forward. Thanks for spending the money on good writing and graphic design.

I agree with the goals of lifestyle, planned growth, and up not out.

Many thanks!

Do you wish to present your submission in person at a public hearing in the council chambers?

2. Waihora Whata Rau - community facility and reserves upgrade Leeston

After consulting with the community, in the last Long-Term Plan we proposed a new community facility for Leeston, called Whata Rau, which would be built alongside the park, providing a 'hub' for Ellesmere where residents can gather, play, and learn.

2a. Whata Rau - new community facility

After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced.

Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we:

**Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1.*

Build Whata Rau next to Leeston Park as agreed in our 2021-31 Long-Term Plan and using the current design and layout planned to meet the needs identified by the community. The facility would include a library, council service centre and community centre.

Project cost:

Year 1: \$16.01m

Estimated impact on rates (per year):

\$44.22

Funding:

Rates: 80.5%

Development contributions: 19.5% *

Preferred method of contact Email

Do you wish to attend a Council hearing to present your feedback in person?

☐ Yes

☒ I do NOT wish to speak in support of my submission and ask that the following submission be fully considered.

Feedback

1. Public Transport

We're asking for your feedback on how Council should go forward with our public transport upgrades and programmes. In our region, Environment Canterbury provides public transport services (Metro buses) in the Greater Christchurch area. Selwyn District Council (like other local councils) is responsible for providing public transport infrastructure such as bus stops, shelters, and Park and Ride facilities.

You told us you want to see better access to public transport, particularly for our young and elderly residents.

So we want to hear from you - should we:

Build three new Park and Ride facilities at Lincoln and Rolleston, and upgrade public transport infrastructure, but only if Council receives co-funding from NZTA Waka Kotahi.

Project cost:

Years 1–3: \$4.2 million

Years 4–10: \$11.6 million

Estimated impact on rates:

Years 1–3: \$7.06

Years 4–10: \$19.52

Funding:

Rates: 49%

NZTA Waka Kotahi: 51%

Our
budgeted
option

Please add any comments you may have

3. Malvern Recreation and Sports Facility

Malvern has no indoor sports courts and demand for these is increasing rapidly. We're planning to build a new recreation and sports facility to meet that demand. It would be developed alongside existing and future facilities in the area to create a central hub for Malvern.

We want to hear from you - should we:

**Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1.*

Build a community recreation and sports facility at Darfield that includes two indoor courts.

Project cost:

Year 3: \$11.28 million (minus \$1.10 million already included in the last Long-Term Plan. Total left to fund is \$10.18 million)

Estimated impact on rates (per year):

\$19.91

Funding:

Rates: 57%

Development contributions: 43% *

Please add any comments you may have

Matters for Community Guidance

We're looking for your guidance on a series of other decisions around the way we support our economy, invest in new technology and the future of the Sheffield Memorial Pool.

Sheffield Memorial Pool

The Sheffield Memorial Pool is used by less people than our other community pools and is 10 minutes' drive from the newly upgraded Darfield Pool. The pool will require \$1 million in upgrades to keep open, or \$290,000 to close. We're proposing to close the pool.

Do you support the closure of Sheffield Community Pool?

Yes

Any comments?

Economic Development

We are proposing to play a more active role in our district's economic development. We have budgeted \$9 million over 10 years to support the Economic Development Strategy that we have co-designed with Selwyn businesses.

Do you support the continued development of an economic development strategy?

Yes

Any comments?

Providing jobs, healthcare and education to growing population is critical and support the development goals.

Digital Solutions

We are proposing to explore the most effective technologies that could assist us to do our best work for the community. We've budgeted \$1.3million a year to do this, with the costs to be reconfirmed through each annual plan as the work progresses.

Do you support the Council investing in better technology solutions to improve our services to the community?

Yes

Any comments?

We think it is critical to provide effective technologies to improve the quality of life within our communities. It will information access, enhance education and healthcare and grow business.

Policy Changes

What is your view on the proposed changes to the Significance and Engagement Policy and financial policies outlined on pages 54-55 of the consultation document?

You can read the specific pages in the consultation document by [clicking here](#).

Please provide your comments in the box below.

The changes seem sensible and necessary.

2. Waihora Whata Rau - community facility and reserves upgrade Leeston

This building is a Community Centre and Library not a Library with some meeting rooms. A Community Centre is a place where the Community comes together for a multitude of reasons, including meetings, Weddings, funerals, birthdays, public functions recognizing people of the community, concerts, recitals, craft, active recreation, health and well-being activities, drama, Senior Citizens Day club etc. This facility must take into account this is fifty-year plus building. It needs to be able to house at least 150 people sitting down having a meal or 200 to 300 at a function, and a kitchen large enough to cater for such an event. The kitchen needs to be larger than a range, refrigerator, dishwasher, sink and two meters of bench.

Other comments

You can provide comments on any other matters in our draft Long-Term Plan, including the projects in the Keeping Your Community Informed section on pages 44-51 of the consultation document.

You can read the specific pages in the consultation document by [clicking here](#).

Please provide your comments in the box below.

The West Melton Tennis & Netball Club and its members, currently around 300 members combined, would like to make a submission to the council for there to be a share Hub/Clubrooms built at the proposed new Tennis & Netball facilities based in West Melton. West Melton Tennis & Netball share the vision to provide an inclusive, nurturing & welcoming community focused environment to develop players of all ages, creating longevity for the clubs & community. What we are asking for is a hub to bring our community together to create a sustainable future of tennis & netball but also celebrate the history of our clubs achievement and memberships over the years with trophies and photos proudly displayed.

The Hub/Clubrooms would require a suitable space to store the following. Tennis nets, tennis poles, tennis balls/trolleys, netball balls, gear bags, hoops & training equipment. The space would require a kitchenette suitable for making tea & coffee and afternoon tea which is provided to club members and visiting clubs. A toilet and two changing cubicles. A suitable space to hold club & team meetings. Having a hub for our community to come to connect and build on relationships creating happier, healthier people and stronger communities

Matters for Community Guidance

We're looking for your guidance on a series of other decisions around the way we support our economy, invest in new technology and the future of the Sheffield Memorial Pool.

Sheffield Memorial Pool

The Sheffield Memorial Pool is used by less people than our other community pools and is 10 minutes' drive from the newly upgraded Darfield Pool. The pool will require \$1 million in upgrades to keep open, or \$290,000 to close. We're proposing to close the pool.

Do you support the closure of Sheffield Community Pool?

Yes

Any comments?

Economic Development

We are proposing to play a more active role in our district's economic development. We have budgeted \$9 million over 10 years to support the Economic Development Strategy that we have co-designed with Selwyn businesses.

Do you support the continued development of an economic development strategy?

Yes

Any comments?

Digital Solutions

We are proposing to explore the most effective technologies that could assist us to do our best work for the community. We've budgeted \$1.3million a year to do this, with the costs to be reconfirmed through each annual plan as the work progresses.

Do you support the Council investing in better technology solutions to improve our services to the community?

Yes

Any comments?

2. Waihora Whata Rau - community facility and reserves upgrade Leeston

After consulting with the community, in the last Long-Term Plan we proposed a new community facility for Leeston, called Whata Rau, which would be built alongside the park, providing a 'hub' for Ellesmere where residents can gather, play, and learn.

2a. Whata Rau - new community facility

After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced.

Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we:

**Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1.*

Build Whata Rau next to Leeston Park as agreed in our 2021-31 Long-Term Plan, but with additional sports courts and/or bigger community meeting spaces.

Project cost:

Year 1: 19.24m

Estimated impact on rates (per year):

\$53.14

Funding:

Rates: 80.5%

Development contributions: 19.5% *

2024/25

2025/26

2026/27

2027/28

2028/29

2029/30

2030/31

Please add any comments you may have

2b. Leeston Park improvements

We planned to upgrade Leeston Park as part of the project to build a new community facility. Since agreeing to do that, we have completed a master plan for redeveloping the park over the next 15 years.

We want to hear from you - should we:

**Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1.*

Carry out the landscape improvements to extend the playing fields; replace and upgrade the playground equipment, footpaths, toilet block, lighting and irrigation; and seal the carpark.

Project cost:

Years 1-10: \$3.4m

Estimated impact on rates :

Included in current rates

Funding:

Rates: 71.4%

Development contributions: 28.6% *

Castle Hill Village

1. Progression towards a dark sky area, either with a trial of a lights off initiative or dark sky compliant street lighting
2. Implement the Castle Hill Village Reserves Management Plan, including funding removal of the remaining seed source/wildling Douglas Fir and Larch trees in the Village .
3. A garden waste disposal system for the Village .
4. Upgrade of the signage and fencing at the Village entrance .
5. A disc golf goal on the village reserve

Submission Form – Long-Term Plan 2024-34

For Council use: submission number

Note to submitters

You do not have to answer every question. You can make a general submission or submit on matters not included in the consultation document by completing the other comments section at the end of this form. If you need extra space for your submission use additional paper (please include your name on additional sheets).

All submissions will be considered by Council before making a decision.

Anyone can make a submission. All submissions, including the names and contact details of submitters, are publicly available, as required by the Local Government Act 2002.

Submissions will be used only for the purpose of this consultation process.

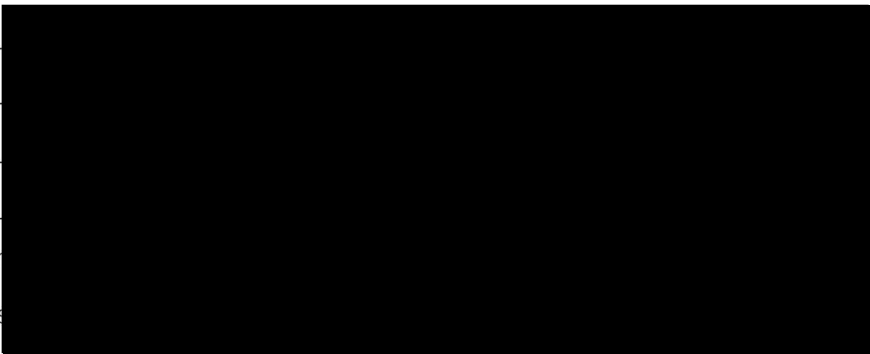

Submissions close at 5pm on Thursday 2 May 2024. All submissions need to be returned to the Council Rolleston office or one of our four libraries and service centres by this time to be considered. Any submissions received after this time will not be considered.

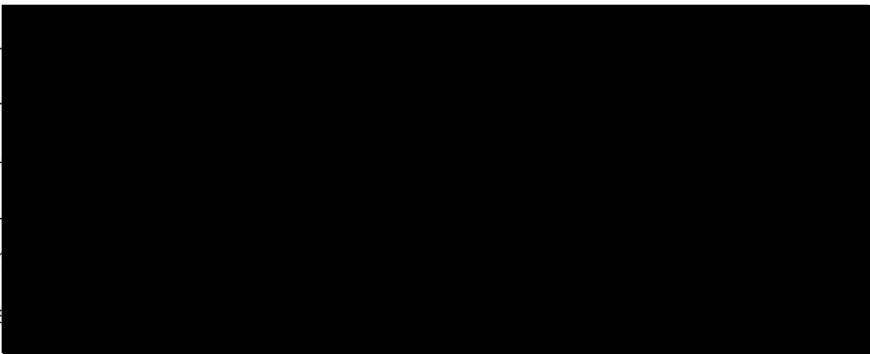

Submitter details

Our Big Decisions

1

What is your view on building three new Park and Ride facilities in Lincoln and Rolleston and upgrading bus stops?

- ☐ Only carry out the work if the Council receives co-funding from NZTA Waka Kotahi.
- ☒ Carry out the work regardless of co-funding.
- ☐ Delay the work until the next Long-Term Plan when funding options might be clearer.

Any other comments?

2a

What is your view on delivering Whata Rau?

- ☐ Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead.
- ☐ Build Whata Rau as agreed in our 2021-31 Long-Term Plan, using the design already completed to meet the needs identified by the community.
- ☐ Build Whata Rau with additional sports courts and/or bigger community meeting spaces.
- ☐ Build Whata Rau, using a more standard, simplified design with the same floor space and cultural narrative, but without the same flexibility to meet the needs already identified.

Any other comments?

Not my area.

2b

What is your view on upgrading Leeston Park?

- ☐ Do nothing. Only carry out routine maintenance to replace old and unsafe items.
- ☐ Extend the playing fields and upgrade the car park playground equipment, footpaths, toilets, lighting and irrigation.
- ☐ Carry out the full Leeston Park Master Plan over 15 years.

Any other comments?

Not in my area.

3

What is your view on delivering a new sports and recreation facility for Malvern?

- ☐ Do not build a community recreation and sports facility at Darfield.
- ☐ Build a community recreation and sports facility at Darfield that includes one indoor court.
- ☒ Build a community recreation and sports facility at Darfield that includes two indoor courts.

Any other comments?

Absolutely. Long overdue on this side of Main St Rd.

Policies

What is your view on the proposed changes to the Significance and Engagement Policy and financial policies outlined on pages 54-55 of the consultation document?

Other comments?

You can provide comments on any other matters in our draft Long-Term Plan, including the projects in the Keeping Your Community Informed section on pages 44-51 of the consultation document.

Very concerned about the move to disband Community Boards as they have been a great voice in which to be heard in this area. We have little in common with Rolleston and need to retain our voice as our requirements are quite different to that area.

Any other comments?

2b

What is your view on upgrading Leeston Park?

- ☒ Do nothing. Only carry out routine maintenance to replace old and unsafe items.
- ☐ Extend the playing fields and upgrade the car park playground equipment, footpaths, toilets, lighting and irrigation.
- ☐ Carry out the full Leeston Park Master Plan over 15 years.

Any other comments?

Leeston like Darfield is a regular rural town with a lot of outdoor areas. No need to create more. If not adequate for new residents should consider shifting to bigger towns.

2a

What is your view on delivering Whata Rau?

- ☐ Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead.
- ☐ Build Whata Rau as agreed in our 2021-31 Long-Term Plan, using the design already completed to meet the needs identified by the community.
- ☐ Build Whata Rau with additional sports courts and/or bigger community meeting spaces.
- ☐ Build Whata Rau, using a more standard, simplified design with the same floor space and cultural narrative, but without the same flexibility to meet the needs already identified.

Any other comments?

What is this. Why can't we have a English title instead of this unknown name. Very hard to comment on something that is not known.

3

What is your view on delivering a new sports and recreation facility for Malvern?

- ☒ Do not build a community recreation and sports facility at Darfield.
- ☐ Build a community recreation and sports facility at Darfield that includes one indoor court.
- ☐ Build a community recreation and sports facility at Darfield that includes two indoor courts.

Any other comments?

Darfield is a rural town. The outdoor sports facility is right for the majority of residents who live here for the outdoor areas. If new residents want indoors shift back to town.

Feedback

1. Public Transport

We're asking for your feedback on how Council should go forward with our public transport upgrades and programmes. In our region, Environment Canterbury provides public transport services (Metro buses) in the Greater Christchurch area. Selwyn District Council (like other local councils) is responsible for providing public transport infrastructure such as bus stops, shelters, and Park and Ride facilities.

You told us you want to see better access to public transport, particularly for our young and elderly residents.

So we want to hear from you - should we:

Build three new Park and Ride facilities at Lincoln and Rolleston, and upgrade public transport infrastructure, but only if Council receives co-funding from NZTA Waka Kotahi.

Project cost:

Years 1–3: \$4.2 million

Years 4–10: \$11.6 million

Estimated impact on rates:

Years 1–3: \$7.06

Years 4–10: \$19.52

Funding:

Rates: 49%

NZTA Waka Kotahi: 51%

Our
budgeted
option

Please add any comments you may have

The youth in Lincoln have little to nothing at all to do, investing in a park will prevent minor crime caused by boredom

3. Malvern Recreation and Sports Facility

Malvern has no indoor sports courts and demand for these is increasing rapidly. We're planning to build a new recreation and sports facility to meet that demand. It would be developed alongside existing and future facilities in the area to create a central hub for Malvern.

Please provide your comments in the box below.

my family and i with our 3 children have recently moved to Lincoln from Rolleston. What became obvious very quickly is lack of infrastructure in Lincoln. The schools are at capacity, the doctors are always hard to book into, the supermarket is always busy along with every other store. At the moment this seems to be manageable, but happens when the new proposed subdivisions go in? Where will families send their children for education? Where will we go for a GP? It seems as though Lincoln has been forgotten by the SDC.

Lincoln desperately needs.

- safe pedestrian crossings on busy roads e.g Springs rd, Ellesmere rd, Birches rd. So that children can safely get to school.

- A town centre, we strongly support the proposed Lincoln new town centre.

- More infrastructure ASAP before it to late

Do you wish to present your submission in person at a public hearing in the council chambers?

2. Waihora Whata Rau - community facility and reserves upgrade Leeston

After consulting with the community, in the last Long-Term Plan we proposed a new community facility for Leeston, called Whata Rau, which would be built alongside the park, providing a 'hub' for Ellesmere where residents can gather, play, and learn.

2a. Whata Rau - new community facility

After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced.

Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we:

**Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1.*

Build Whata Rau next to Leeston Park as agreed in our 2021-31 Long-Term Plan and using the current design and layout planned to meet the needs identified by the community. The facility would include a library, council service centre and community centre.

Project cost:

Year 1: \$16.01m

Estimated impact on rates (per year):

\$44.22

Funding:

Rates: 80.5%

Development contributions: 19.5% *

☒ I do NOT wish to speak in support of my submission and ask that the following submission be fully considered.

Feedback

1. Public Transport

We're asking for your feedback on how Council should go forward with our public transport upgrades and programmes. In our region, Environment Canterbury provides public transport services (Metro buses) in the Greater Christchurch area. Selwyn District Council (like other local councils) is responsible for providing public transport infrastructure such as bus stops, shelters, and Park and Ride facilities.

You told us you want to see better access to public transport, particularly for our young and elderly residents.

So we want to hear from you - should we:

Build three new Park and Ride facilities at Lincoln and Rolleston, and upgrade public transport infrastructure, but only if Council receives co-funding from NZTA Waka Kotahi.

Project cost:

Years 1–3: \$4.2 million

Years 4–10: \$11.6 million

Estimated impact on rates:

Years 1–3: \$7.06

Years 4–10: \$19.52

Funding:

Rates: 49%

NZTA Waka Kotahi: 51%

Our
budgeted
option

Please add any comments you may have

3. Malvern Recreation and Sports Facility

Malvern has no indoor sports courts and demand for these is increasing rapidly. We're planning to build a new recreation and sports facility to meet that demand. It would be developed alongside existing and future facilities in the area to create a central hub for Malvern.

We want to hear from you - should we:

**Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1.*

Do not build a community recreation and sports facility at Darfield.

Project cost:

None

Estimated impact on rates (per year):

None

Matters for Community Guidance

We're looking for your guidance on a series of other decisions around the way we support our economy, invest in new technology and the future of the Sheffield Memorial Pool.

Sheffield Memorial Pool

The Sheffield Memorial Pool is used by less people than our other community pools and is 10 minutes' drive from the newly upgraded Darfield Pool. The pool will require \$1 million in upgrades to keep open, or \$290,000 to close. We're proposing to close the pool.

Do you support the closure of Sheffield Community Pool?

Yes

Any comments?

Economic Development

We are proposing to play a more active role in our district's economic development. We have budgeted \$9 million over 10 years to support the Economic Development Strategy that we have co-designed with Selwyn businesses.

Do you support the continued development of an economic development strategy?

Yes

Any comments?

Digital Solutions

We are proposing to explore the most effective technologies that could assist us to do our

best work for the community. We've budgeted \$1.3million a year to do this, with the costs to be reconfirmed through each annual plan as the work progresses.

Do you support the Council investing in better technology solutions to improve our services to the community?

No

Any comments?

Other comments

You can provide comments on any other matters in our draft Long-Term Plan, including the projects in the Keeping Your Community Informed section on pages 44-51 of the consultation document.

You can read the specific pages in the consultation document by [clicking here](#).

Please provide your comments in the box below.

Levi road is one of the only 2 feed in roads from the motoway. It desperately needs expansion to cope with the huge increase in traffic due to Rolleston population increase.

Do you wish to present your submission in person at a public hearing in the council chambers?

2. Waihora Whata Rau - community facility and reserves upgrade Leeston

After consulting with the community, in the last Long-Term Plan we proposed a new community facility for Leeston, called Whata Rau, which would be built alongside the park, providing a 'hub' for Ellesmere where residents can gather, play, and learn.

Submission Form – Long-Term Plan 2024-34

For Council use: 771 submission number

Note to submitters

You do not have to answer every question. You can make a general submission or submit on matters not included in the consultation document by completing the other comments section at the end of this form. If you need extra space for your submission use additional paper (please include your name on additional sheets).

All submissions will be considered by Council before making a decision.

Anyone can make a submission. All submissions, including the names and contact details of submitters, are publicly available, as required by the Local Government Act 2002.

Submissions will be used only for the purpose of this consultation process.

Submissions close at 5pm on Thursday 2 May 2024. All submissions need to be returned to the Council Rolleston office or one of our four libraries and service centres by this time to be considered. Any submissions recieved after this time will not be considered.

Our Big Decisions

1 What is your view on building three new Park and Ride facilities in Lincoln and Rolleston and upgrading bus stops?

- ☒ Only carry out the work if the Council receives co-funding from NZTA Waka Kotahi.
- ☐ Carry out the work regardless of co-funding.
- ☐ Delay the work until the next Long-Term Plan when funding options might be clearer.

Any other comments?

2a What is your view on delivering Whata Rau?

- ☒ Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead.
- ☐ Build Whata Rau as agreed in our 2021-31 Long-Term Plan, using the design already completed to meet the needs identified by the community.
- ☐ Build Whata Rau with additional sports courts and/or bigger community meeting spaces.
- ☐ Build Whata Rau, using a more standard, simplified design with the same floor space and cultural narrative, but without the same flexibility to meet the needs already identified.

Any other comments?

2b What is your view on upgrading Leeston Park?

- ☒ Do nothing. Only carry out routine maintenance to replace old and unsafe items.
- ☐ Extend the playing fields and upgrade the car park playground equipment, footpaths, toilets, lighting and irrigation.
- ☐ Carry out the full Leeston Park Master Plan over 15 years.

Any other comments?

3 What is your view on delivering a new sports and recreation facility for Malvern?

- ☒ Do not build a community recreation and sports facility at Darfield.
- ☐ Build a community recreation and sports facility at Darfield that includes one indoor court.
- ☐ Build a community recreation and sports facility at Darfield that includes two indoor courts.

Any other comments?

Economic Development

We are proposing to play a more active role in our district's economic development. We have budgeted \$9 million over 10 years to support the Economic Development Strategy that we have co-designed with Selwyn businesses.

Do you support the continued development of an economic development strategy?

Yes

Any comments?

support smaller local producers to get on the map

Digital Solutions

We are proposing to explore the most effective technologies that could assist us to do our best work for the community. We've budgeted \$1.3million a year to do this, with the costs to be reconfirmed through each annual plan as the work progresses.

Do you support the Council investing in better technology solutions to improve our services to the community?

Yes

Any comments?

Policy Changes

What is your view on the proposed changes to the Significance and Engagement Policy and financial policies outlined on pages 54-55 of the consultation document?

You can read the specific pages in the consultation document by [clicking here](#).

Please provide your comments in the box below.

Where is the Lincoln township upgrade??

We need another supermarket to keep Up

with food demand, going to newworld to see

empty shelves is definitely a sign they can not keep up with demand for the growing population

Other comments

You can provide comments on any other matters in our draft Long-Term Plan, including the projects in the Keeping Your Community Informed section on pages 44-51 of the consultation document.

You can read the specific pages in the consultation document by [clicking here](#).

Please provide your comments in the box below.

if SDC want to double the population of Lincoln by approving the subdivision that will do this then SDC need to invest in our township, we pay high rates and only have an event centre and library. Where is our pool facility second supermarket etc

Do you wish to present your submission in person at a public hearing in the council chambers?

2. Waihora Whata Rau - community facility and reserves upgrade Leeston

After consulting with the community, in the last Long-Term Plan we proposed a new community facility for Leeston, called Whata Rau, which would be built alongside the park, providing a 'hub' for Ellesmere where residents can gather, play, and learn.

2a. Whata Rau - new community facility

After consulting with Ellesmere residents during the last Long-Term Plan, we agreed to build a new library and community centre called Whata Rau, next to Leeston Park. This project would provide more community spaces that are needed in the area, and provide a solution for the existing Leeston library and service centre: the current facility is earthquake prone and needs significant repairs or to be replaced.

Increased construction costs and land remediation issues mean the costs to build Whata Rau have increased. Given this new information we want to hear from you - should we:

**Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2, 3 and 4 take into account development contributions. Development contributions do not apply to option 1.*

Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead. *The existing building is earthquake prone and will likely need further significant upgrades to be used from 2035 onwards.*

Project cost:

Year 1: \$3.05m

Estimated impact on rates (per year):

\$10.46

Funding:

Rates: 100%

Please add any comments you may have

2b. Leeston Park improvements

We planned to upgrade Leeston Park as part of the project to build a new community facility. Since agreeing to do that, we have completed a master plan for redeveloping the park over the next 15 years.

We want to hear from you - should we:

**Development contributions are collected as developments get underway. This means funds are not always available when a project starts. In the beginning, a project will be loan funded and when development contributions are paid to Council, they are used to help pay back the loan. Impact on rates for options 2 and 3 take into account development contributions. Development contributions do not apply to option 1.*

Carry out the landscape improvements to extend the playing fields; replace and upgrade the playground equipment, footpaths, toilet block, lighting and irrigation; and seal the carpark.

Project cost:

Years 1-10: \$3.4m

Estimated impact on rates :

Included in current rates

Funding:

Rates: 71.4%

Development contributions: 28.6% *

Submission Form – Long-Term Plan 2024-34

Revised 29/4/24

For Council use: 773 submission number

Note to submitters

You do not have to answer every question. You can make a general submission or submit on matters not included in the consultation document by completing the other comments section at the end of this form. If you need extra space for your submission use additional paper (please include your name on additional sheets).

All submissions will be considered by Council before making a decision.

Anyone can make a submission. All submissions, including the names and contact details of submitters, are publicly available, as required by the Local Government Act 2002.

Submissions will be used only for the purpose of this consultation process.

Submissions close at 5pm on Thursday 2 May 2024. All submissions need to be returned to the Council Rolleston office or one of our four libraries and service centres by this time to be considered. Any submissions received after this time will not be considered.

Submitter details

Please note: all fields marked with an asterisk (*) are compulsory

First name* Kevin

Last name* Mills

Address* 

Town* 

Postcode* 

Contact number* 

Email address* 

Are you submitting on behalf of an organisation?*

☐ Yes ☒ No

If yes, please state the name of the organisation*

Do you wish to attend a hearing to present your submission in person?*

Our Big Decisions

1 What is your view on building three new Park and Ride facilities in Lincoln and Rolleston and upgrading bus stops?

- ☒ Only carry out the work if the Council receives co-funding from NZTA Waka Kotahi.
- ☐ Carry out the work regardless of co-funding.
- ☐ Delay the work until the next Long-Term Plan when funding options might be clearer.

Any other comments?

2a What is your view on delivering Whata Rau?

- ☒ Do not build Whata Rau. Carry out necessary repairs to the existing Leeston Library & Service Centre building so that it can continue to be used for a limited time instead.
- ☐ Build Whata Rau as agreed in our 2021-31 Long-Term Plan, using the design already completed to meet the needs identified by the community.
- ☐ Build Whata Rau with additional sports courts and/or bigger community meeting spaces.
- ☐ Build Whata Rau, using a more standard, simplified design with the same floor space and cultural narrative, but without the same flexibility to meet the needs already identified.

Any other comments?

2b What is your view on upgrading Leeston Park?

- ☒ Do nothing. Only carry out routine maintenance to replace old and unsafe items.
- ☐ Extend the playing fields and upgrade the car park playground equipment, footpaths, toilets, lighting and irrigation.
- ☐ Carry out the full Leeston Park Master Plan over 15 years.

Any other comments?

3 What is your view on delivering a new sports and recreation facility for Malvern?

- ☒ Do not build a community recreation and sports facility at Darfield.
- ☐ Build a community recreation and sports facility at Darfield that includes one indoor court.
- ☐ Build a community recreation and sports facility at Darfield that includes two indoor courts.

Any other comments?

Matters for Community Guidance

Sheffield Pool

The Sheffield Memorial Pool is used by less people than our other community pools and is 10 minutes' drive from the newly upgraded Darfield Pool. The pool will cost \$1 million to keep open or \$290,000 to close. We're proposing to close the pool.

Do you support the closure of Sheffield Pool?

☐

Yes

☒

No

Return to Sheffield community to remain open

Economic Development

We're proposing to play a more active role in our district's economic development. We have budgeted \$9 million over 10 years to support the Economic Development Strategy we have co-design with Selwyn businesses.

Do you support the continued development of an economic development strategy?

☐

Yes

☐
